N.B.—Maps *are not* sold at the Office of the Surveyor-General of India, Calcutta, but applications for maps on payment should be made to Agents. This Department only issues maps, *free of charge*, on the Public Service. It is particularly requested that the nearest local Agent as above be first applied to for any map required on the Public Service before indenting on this Department. The cost of postage of parcels must be borne by applicants themselves, as also such incidental charges as may be incurred at their request for mounting and binding maps. The best maps are invariably supplied in lieu of those asked for, which may not be available, and lists of all newly-published maps are periodically notified in the *Gazettes of India* and of local Governments.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the schools and colleges in India, and though at present a scholar-like knowlege of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars, and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

THE FAIR AND DURBAR AT RUMA, IN THE CHITTAGONG HILL TRACTS.

No. 221T, dated Darjeeling, the 2nd May 1875.

From—R. L. MANGLES, ESQ., Offg. Secy. to the Govt. of Bengal, Political Dept.,

To—The Commissioner of Chittagong.

I AM directed to acknowledge the receipt of your letter No. 13H, dated the 6th instant, submitting a report regarding the Fair and Durbar held at Ruma, the head-quarters of the Sungoo sub-division, in the Chittagong Hill Tracts, on the 23rd of January last and the three following days.

2 In reply, I am to say that the Lieutenant-Governor has perused Lieutenant Gordon's graphic account of the meeting of the different Hill tribes living in the tracts within and beyond our frontier with much interest, and will be glad if the hope it holds out of establishing future friendship and peace between the tribes is fulfilled.

3. He observes that during the tour of Lieutenant Gordon, the sub-divisional officer, to the frontier, prior to the meeting, that officer came in contact with several of the independent Kookee tribes, and invited the chiefs to the fair, and that thus the attendance at Ruma was much larger than was at first anticipated. As a consequence of this larger gathering, the costs incurred have amounted to Rs. 1,037-7-9, or Rs. 537-7-9 in excess of the outlay originally sanctioned for the purpose.

4. The meeting, as far as relates to the sociable intercourse which took place between the chiefs of the independent tribes beyond the frontier and the chiefs of the tribes living within our boundary, on whom the independent tribes made frequent raids in former days, appears to have been a great success, and oaths of future good will and alliance were entered into and exchanged in accordance with the Kookee custom between the several tribes which were thus brought into friendly contact.

5. The Lieutenant-Governor attaches much importance to meetings such as these, and to the moral effects which at such times can be brought about by the presence and influence of British officers. The Deputy Commissioner, Mr. Power, and Lieutenant Gordon, appear to have taken full advantage of the opportunity afforded them of adjusting disputes, of reconciling grievances, and of impressing all parties with a sense of our determination to maintain peace, and of our power to enforce obedience if necessary. His Honor accepts the assurance given by yourself and the Deputy Commissioner that the meeting has done much also to secure the other beneficial objects for which it was sanctioned, and which are fully detailed in the extracts given from Lieutenant Gordon's report.

6. The Lieutenant-Governor has been pleased to accord his sanction to the expenditure (Rs. 1,037-7-9) which has been incurred, and desires me to request that you will convey to Mr. Power and to Lieutenant Gordon an expression of his thanks for the tact and success with which they conducted the proceedings at the Fair and Durbar.

No. 13H, dated Chittagong, the 6th April 1875.

From—E. E. Lowis, Esq., Commissioner of the Chittagong Division;
To—The Secretary to the Government of Bengal, Political Department.

With reference to the orders of Government, conveyed in Mr. Under-Secretary Crawfurd's letter No. 4621, dated the 17th December last, I have the honor to submit copy of a report, No. 221, dated the 25th ultimo, from the Deputy Commissioner of the Hill Tracts, on the subject of the Durbar and Fair held at Ruma, the head-quarters of the Sungoo sub-division, on the 23rd of January last and three following days.

2. The sum sanctioned for expenditure on the occasion was Rs. 500, but the actual disbursement has amounted to Rs. 1,037-7-9 in consequence of the meeting having been very largely attended, not only by the the Hill Tract tribes subject to our jurisdiction, but also by the Shendoos and others from the Arracan side. As the results of the Durbar have been so satisfactory, I am sure Government will concur with me in thinking that the money has been well spent. I beg, therefore, to recommend that the extra charge incurred be sanctioned, and the bill herewith submitted be passed. Lieutenant Gordon deserves credit for the successful manner in which he has conducted the meeting and carried out the wishes of Government.

3. Mr. Rattray will be requested to submit as early as possible copies of the photographs taken by him.

No. 221, dated Rangamatee, the 25th March 1875.

From—A. W. B. Power, Esq., Offg. Deputy Commissioner, Chittagong Hill Tracts,
To—The Commissioner of the Chittagong Division.

I have the honor to submit the report called for in your memorandum No. 102H, dated 23rd ultimo, on the Ruma Durbar and Mela held on the 23rd and following days of January last.

2. The delay which has occurred in submitting this report is chiefly owing to the Assistant Commissioner's and my absence on tour. Mr. Gordon gives the following explanation:—"I have to regret the delay in the submission of the report, and to excuse it by stating that the greatest difficulty has been experienced in setting the accounts into perfect order, in getting the necessary vouchers, and generally in reducing the bill to a presentable form. I may also mention that I left Ruma for my tour to the Matamoree valley directly after the Mela, and have only just returned from there." His report is dated 6th March; it reached this office on the 15th idem, was forwarded to me in camp, but did not reach me till the evening of the 21st, on my way back to head-quarters.

3. Mr. Gordon divides the subject into four heads—

1*st*.—The reasons and objects of the Mela.

2*nd*.—The event itself.

3rd.—The results, actual and prospective.

4th.—The bill.

In the Office No. 1048, dated 25th November last, the first head is dealt with. I quote from that report:—

"The objects which Lieutenant Gordon has in view in getting up this Mela are two-fold: (1) to increase the influence he has obtained over the 'Bonjogi' tribe of Kookees, and to obtain some influence over the Khumis, hoping, among other things, that by seizing the right moment he may be able to induce them to spread their villages across the ill-protected frontier country east of his sub-division, and thereby obviate the necessity for a line of police-posts, or rather to supply some means of protection where at present there are none, and where, for financial reasons, none can be provided by Government for some time to come; and (2) to lay the foundation of a bazar at Ruma, and so in time diminish the heavy expenditure entailed on Government for provisioning that place"

4. Mr. Gordon thus gives an account of the event itself: he says—"As you are aware, the day originally fixed by me was the 21st of December, but by the desire of the Commissioner, who expressed a wish to be present, it was postponed for a month. I very much feared that such a postponement, ordered as it was within a few days of the event, would have a discouraging effect upon the chiefs, many of whom had made their arrangements for the trip, and that this, and the near approach of the jhoom-cutting season, would have rendered the attendance small; but the very opposite proved to be the case. In fact the main feature, and, if I may say so, the main success of the meeting was indirectly the result of the postponement.

"I was enabled, that is to say, to make my annual tour on the frontier, and to pay a visit to Dalakmay in the interim, and had the good fortune and pleasure there to meet the new Superintendent of the North Arracan Hills, Mr. Buckle, who, as you know, has succeeded Captain Hughes. This officer reached Dalakmay on the same day as myself, the 24th of December, and I was very glad to learn from him and Mr. Hannay, the frontier officer, that a friendly meeting with the Bokee tribe of Shindoos had been arranged for Christmas week,—a repetition of a similar meeting in Christmas time of 1873-74 with the Yaleng clan, at which I was also present, and of which the special report is in your Office, my No. 29,* dated 2nd March 1874.

* Copy forwarded to the Commissioner with this Office No. 31, dated 20th March 1874.

"Amicable engagements were entered into by these people with ourselves as representatives of the Government, and solemnized by the customary ceremonies; and I was thus for the second time enabled to be a party to mutual engagements with the Shendoos. I considered this of much importance, for the term 'British Government' has not for these people its full width of meaning; that is, they identify the term only with the white men who are actually present, and consequently with the villagers and people only under their immediate control. If, therefore, I had not been present to take a part in the ceremony, they would not have considered the engagements as binding with regard to the villages and villagers on the Bengal side, and could therefore have planned a raid in the Sungoo or Matamoree valleys with a free conscience.

"I availed myself of the presence of Mr. Buckle to obtain his promise that the Commissioner of Arracan should be asked to allow Mr. Hannay to attend the Mela at Ruma. I wrote officially, and Mr. Buckle was so good as to forward my letter with a favourable recommendation, and the sanction was obtained only just in time to enable Mr. Hannay to cross over by the southern route and reach Ruma on the 21st January.

"As you are aware, that officer brought with him not only a powerful Shindoo chieftain, Likebo, head of the Bokee tribe, with seven or eight followers, but also a little army of feathered chiefs from the border Khumi (Guaymi, as they are called on the Koladyne,) villages, tributary and non-tributary, of the Koladyne frontier. It is not easy to exaggerate the satisfaction with which our hillmen must have contemplated the Shindoos, their mortal foes of more than a hundred years; and I cannot help thinking that with this feeling there must have been mixed one of vengeance and hatred, which might well cause the Shindoos some anxiety. In fact, it is impossible to believe that the representatives of a race of men, perhaps the actual individuals themselves, known to have brought death and desolation to the home and hearth of many a hillman then present, could be regarded with other than the bitterest feelings; and when I looked forward to the general hilarity and inebriation inseparable from a Kookee feast, I confess to having been not entirely free from some slight anxiety myself." He goes on to mention one of the only drawbacks to the success of the Mela, viz. that the Bonjogis were late, and did not arrive in time to take part in the oath of friendship ratified between our party and the Shendoos. The Europeans present were Mr. Hannay; Mr. Rattray, District Superintendent of Police, Chittagong; Mr. Showers, District Superintendent of Police, Chittagong Hill Tracts; Mr. Gordon, and myself. Rutton Poea was invited, and came part of the way; but he did not start in time, and finding himself too late returned from Rangamatee.

5. On the 26th the great event of the Mela, viz. the feast to all the visitors, came off. After describing how the cows, buffaloes, and goats were slaughtered, the latter being decapitated (in some instances two at a time) with one stroke by a Goorkha sepoy using his national kookree, Mr. Gordon proceeds thus graphically to depict the scene: "More than 500 bamboo tables ranged in rows groaned under the weight of some 50 maunds of rice, 4 buffaloes, 5 cows, 19 goats, 7 pigs, and 200 fowls; the guests, some 1,500 in number, seated themselves. The quiet

and orderly way in which this was done testifies in no small degree, I think, to the easy temperament and rough good-natured politeness of the hillman. There was a total absence of all wrangling for seats or disorder of any kind; they sat down like school-boys, and quietly waited to be told to begin. At this juncture I observed a slight pause, an evident irresolution, and on asking I found that according to hill custom they wished to commence with a drink. I knew the custom, but had forgotten it for the moment The wine was at once, however, sent round, and then a demolishing of eatables began, the like of which for extent and rapidity I never again expect to see. This was, I think, the most striking spectacle of the Mela; and it is to be much regretted that it was too late in the evening for Mr. Rattray, who has so successfully brought to book the swearing ceremony, the Durbar, and other scenes, to get a picture of it."

6. The ceremony of taking the oath of friendship, the Durbar, and the amusements provided, are then described as follows:—

"With regard to the ceremony of solemnizing the friendly engagements entered into by the Shendoos on the one hand and the British Government and its tributaries on the other, I think the best description of it will be found in the photograph taken by Mr. Rattray.* It need, therefore, merely be explained that the warm blood of a slaughtered cow streaked upon the forehead and feet of the several parties to the oath is considered by these people to be the most binding obligation under which a man can be placed. The cow is tied by the head to a stake; the oldest and most influential chief is then selected to make the oration, which he does with great earnestness and tragic effect, accompanying himself on the inevitable *koung* pot, a phial filled from which he holds in his left hand; from this he takes a sip at the conclusion of each clause of the harangue, and spits it out again over the cow to emphasize the commencement of the next clause: his right is raised deprecatingly, and with it he gesticulates to mark the strong points of his declamation. When the orational crisis is attained, and the crowning oath 'by the blood of this cow' is pronounced, a second chieftain, mighty in war and wisdom, who has been hardily standing to his spear the while, strikes the poor brute through the heart. During all this the parties to the oath have been standing in two rows on opposite sides of the cow, and holding the rope attached to its head; the rope being the emblem of the strong tie of friendship by which all engaged are for the future to consider themselves bound. The cow having fallen dead, all stoop and dip a finger in the open wound, and with the warm blood streak the forehead and feet of each member of the opposition. This, with one more visit to the inevitable liquor jar, the *alpha* and *omega* of every institution, completes the ceremony.

* Mr. Rattray might be asked to send copies as soon as received.

"The grand Durbar was held in the open under a large shamianah tent, kindly lent by the Bohmong, who, as the senior hill chief present, was seated in the chair of honour with his brothers and ourselves grouped on the right and left. Mats were put down for the Shindoo and other clan chiefs. All being arranged, the Shindoos were first presented by Mr. Hannay to the Deputy Commissioner, Mr. Power, who, with a few appropriate words to each, presented the Durbar gifts, which consisted of a variety of railway rugs, blankets, looking-glasses, pipes, beads, &c., &c., all neatly laid out on a table for the purpose. After the Shindoos came the Koladyne Khumi and other chiefs, who had come with Mr. Hannay, and whom he also brought forward to receive their presents; and lastly came the chiefs of our own hill tribes. All seemed much pleased with the presents. When the presentations were ended, Mr. Hannay, by the request of the Deputy Commissioner, addressed to the Shindoos a speech in Burmese, embodying sentiments of advice and warning, which, being translated to them by an interpreter, was received with nods and grunts of comprehension and assent. The Bohmong rose and came forward with the dignity becoming his high position, and added the weight of his advice to the hitherto bitter enemies of his country and his people. The scene was thus made to partake of that impressiveness and importance so telling in dealings with savages. The Durbar then broke up, not, however, without the indispensable *omega* above alluded to, and the event of the Mela was thus satisfactorily brought to a close.

"It was, of course, of great object to find employment, or rather amusement, for the large concourse of people that had assembled at Ruma. Mr. Rattray with his camera entirely usurped the general interest at first, and indeed the more intelligent might be seen thronging the yellow-windowed box at all hours of the day to the end. Mr. Rattray was simply indefatigable. Immediately after *chota hazree* he would seize upon some bewildered and nearly naked savage, who, still hazy from the previous night's carousal, might have wandered within the magic precincts of the camera, or might be watching in open-mouthed wonder one of his companions undergoing the operation of being taken. There he stands unconscious of the danger of his position until spied by the artist, whose lightning glance, hungry for another victim, falls upon our hazy friend. He sees his danger, consternation instantly replaces the curiosity which marked his expression; he turns to bolt, but is too late: an iron grasp is on his arm, and he is led a trembling victim to the bench and head-rest. He is sighted by the lens—one moment of indescribable agony, and he rises, like the released from the dentist's chair, 'a wiser and a better man.'

"I had also a marching order parade of the detachment of the Chittagong Hill Tract Frontier Police Battalion, about 150 strong, and after the usual commonplaces of saluting, marching past, &c., put the men through some few light infantry manœuvres, bringing the Ruma 9-pounder brass field gun into action as a healthy warning to the Shindoos. They

were, I am glad to be able to tell you, observed to jump and tremble at each discharge of our ordnance. The men were given ten rounds of blank cartridges, and the whole effect, therefore, was very good, and could not have failed, I think, to leave a beneficial impression on the minds of our guests. The hillmen afterwards told me, with evident satisfaction, that this, viz. the big gun, was the great hit of the Mela. There was also a nautch in the Durbar tent; the spectacle was a curious one,—Europeans, Shindoos, Mughs, Tipperahs, Khumis, Mros, Assamees, Goorkhas, Munipoorees, Chukmas, Hindustanees, Punjabees, and Bengalees, packed close together. The Shindoos were particularly delighted with the performance, having never seen anything of the kind before. The sepoys also gave a comic entertainment, in which the *sahib* was taken off amid the usual roars of merriment." The Shendoos also were not to be left behind. Being encouraged by their *chaperon*, Mr. Hannay, they gave their national dance, which was much and deservedly applauded. A rifle match, some pigeon-shooting, wrestling, foot and hurdle races, the musical box, and the magic lantern, completed the entertainments.

7. Mr. Gordon thus concludes this part of the subject:—"I am glad to say that throughout the whole meeting, which lasted four days, there was no sign of quarrelling or disagreement among the tribes; and Shindoos, Khumis, Mros, and Mughs enjoyed themselves together, as if there had never been any cause for enmity or bad feeling between them. This alone is, I venture to think, a result so satisfactory as to be cheaply bought at the cost.

8. On the results of the Mela, I quote Mr. Gordon's report *in extenso*:—"The results of the Mela, both actual and prospective, may best be weighed by a consideration of the objects with which it was given, and an estimate of how far those objects may be said to have been attained."

The objects, as set forward in the letter to which I have referred you in a previous paragraph, may be briefly summarised as follows:—

1st, of general policy.

1. To improve the relations between the Government and the hill tribes, as also between the tribes themselves.
2. To increase the influence of the Government officer.
3. To give a spur to trade in the hills.
4. To attract the trans-frontier and hostile tribes, and induce them to pay annual visits to Ruma, and thus to found a trade and ensure peace.

2nd, of special importance.

1. The extension of the Bonjogi and Khumi tribes north and south along the frontier hills.
2. To cement the friendship with our new tributaries, the Bonjogis.
3. To communicate the general policy and special orders of Government to the hill chief and roajahs, and to hear complaints.
4. To found a bazar at Ruma.

"With regard to the objects of general policy, I can, I think, honestly say that the relation between the Government and the tribes as between the tribes themselves must have been greatly improved by the Mela, and also that the Government influence has been strengthened.

"Of the impetus to trade, if any such impetus has been the result of the Mela, I cannot of course speak with confidence as yet. Time only can show how far my hopes in this direction have been realized. The hill people are fatally conservative, and it is my opinion that it will be years yet before they step out of the stereotyped circle of their own simple life. The enormous exertions of the district officers, and the liberal inducements offered by Government in the introduction of plough cultivation into the hills, and the lamentably unsatisfactory results which have attended this experiment, fully show that the barrier of bigoted conservatism set up by the hillman's nature is one which cannot be easily surmounted. Time and intercourse with the Bengalees, who are gradually, but surely, worming their way into every corner of cultivable land in the hills, can alone work the change.

"As a bait to attract the trans-frontier tribes, the Mela may, I think, be said to have hooked a big fish at the first throw; and the visit of the Shindoo chief on the first occasion exceeded the wildest flight of my most sanguine expectations.

"The special objects, I am glad to say, have all been more or less attained. The chief object, viz. the extension of the Bonjogi and Khumi villages into a long line along the frontier, with the Poleetye guard as a centre, bids fair to be carried out. The Deputy Commissioner, Mr. Power, personally signified to the headmen of these tribes the wishes of Government on this point, and I have promised myself to go out during the ensuing winter and point out the line to the chiefs, and also to help them in the selection of good sites for their new villages. They appeared pleased with this notion, and at once assented to the plan.

"The Khumi chiefs made a petition on the part of their tribe to become khas ryots of Government, stating the oppressions of the Bohmong and the exactions of his family upon them to be their reasons. They pressed the matter very hard, and I mentioned it to the Deputy Commissioner, who promised to consider it, as also the petitions of some of the Bohmong's own people to become khas ryots under Government for similar reasons. I may

be permitted, regarding this important question, to say that I am strongly in favour of forming a khas mehal in this sub-division; and I venture to think that if the chiefs, by their misgovernment and oppression, alienate the feudal respect and fidelity of their people, they do not deserve to retain such people: and, moreover, it is my firm opinion that applications to Government for protection against their chiefs, and an expressed willingness to pay the jhoom-tax direct to the Government officer, instead of through unpopular middlemen, should not be lightly treated. The starting of a khas mehal under the Government officer direct would, I believe, be the surest means of checking the malpractices of the Bohmong and his family, for they would then have no alternative between a just and unoppressive mode of government, and the gradual but certain secession of all their people. The Bohmong had raised the jhoom-tax from Rs. 6 to Rs. 8 in his own (the Reygreytha) clan, and from Rs. 4 to Rs. 6 in the other tribes, without the permission of Government, and, moreover, without even informing me of his intention. I reported this to the Deputy Commissioner, as also that the people had made a general complaint on the subject. The Deputy Commissioner ordered me to inform the Bohmong that no such enhancement of rents could be allowed, and that he must adhere to his former rates. The order was at once complied with regarding the current year, but the people had paid the increased tax in 1873-74 without a representation; receipts were then refused by the Bohmong for the old rate of tax, but the Deputy Commissioner insisted that receipts should be given for all payments of jhoom-tax, whether in full or in part. This order was likewise at once complied with, and it was evident to me that no little surprise was felt by the people at the magical effect of a few lines scribbled on a piece of paper by the Deputy Commissioner. Profuse were the *hrikos* (salutations) and thanks which testified the gratitude for the intervention, and nothing more opportune could have occurred to show them that the Government is in reality the paramount power.

"The bazar was a great success. Two rows of temporary sheds had been erected facing each other, with a broad street or way between them; but I had little hopes of their filling. Not only, however, did the sheds fill from end to end, but extensions had to be made to provide for the enterprising Bengali and Mugh shopmen, who crowded to the festival to try their luck. I have good hopes of persuading some of the merchants to remain for good."

9. It will be better to deal with the subjects alluded to in paragraph 25 of Mr. Gordon's letter in a separate report. That called for in your No. 865Ct., dated 1st December 1874, gives an appropriate opportunity of discussing the question. It is sufficient here to state that the Bohmong's relations with his feudatories, though not in a satisfactory condition, have been placed on a much better footing by the action recently taken; and the knowledge acquired by the people of the orders of Government concerning the rate of tax they are bound to pay, as well as the resolution of Government officers to enforce obedience to these orders, is in my opinion not the least important result of the gathering.

10. As to the bazar, nothing permanent can be hoped for till the floating traffic system described in my No. 1059, dated 28th November last, is stopped, and the *beparees* obliged to sell from a shop on the bank at a fixed spot, instead of moving up and down the river and selling from their boats anywhere they find a purchaser. The subject is fully discussed in the report alluded to above, to which I await a reply. Simultaneously with abolishing the Bhashanya Bepar, a new scheme for provisioning Ruma might be put in force, viz. substituting for the present system of supply through a Government *moodee* a contract with a shopkeeper to keep up a certain supply of food in return for some small compensation for wastage and incidental cost of storage.

11. Of the last subject, Mr. Gordon says:—"The bill, which unfortunately demands its share of attention, must speak for itself. I have, as you had desired me, included *everything*. You will perceive that there are several items embraced under the general heading *Luxuries* which cannot be said to have been essential to the accomplishment of the designs which gave rise to, and were the objects of, the Mela, but which at the same time may be said to have constituted the frame of the picture." The chief reasons for the extra expenditure are (1) many more people came than were expected; (2) owing to the Bonjogis not coming in proper time, the Mela lasted longer than was intended, the guests having to be fed meanwhile; (3) a sum of Rs. 85 was given at Mr. Hannay's request to the Shendoo party, they having come 10 or 12 days' journey from home, and lost the value of their labour at a time when they ought to be cutting their jhooms; and lastly Mr. Gordon, determining that the meeting should be a success, took care that there should be no appearance of stint, and holds himself responsible for the extra amount. In view, however, of the success which has attended his efforts, as also to the satisfactory results obtained, I would respectfully appeal on his behalf to the generosity of Government, and request sanction for all expenditure included in the bill. The amount has been drawn by abstract bill; but even then there is a saving in the Kookee Durbar Present Fund for 1874-75, so that no fresh grant is required.

ROAD CESS.

CALCUTTA, THE 6TH MAY 1875.

RESOLUTION.

READ—

A letter, No. 212A, dated 9th April 1875, from the Officiating Secretary to the Board of Revenue, submitting two statements of the demands, collections, and arrears of road cess for the year 1873-74.

THE statements submitted by the Board of Revenue give the totals of the demands, collections, and arrears of road cess on (1) lands and mines, and (2) on houses, for the cess year commencing 1st October 1873. This was the first year in which actual collections were made under Act X (B.C.) of 1871. The total demand according to statement (1) amounted to Rs. 6,87,812, of which Rs. 5,58,287 have been collected. The cess on houses under Part IV of the Act produced Rs. 34,173, out of a demand of Rs. 53,800.

The statements would have been more complete if they had shown the valuations effected for each district, and the rates at which the cess was levied. These should be given in the reports for future years.

2. It was to be expected that the scarcity which prevailed during the cess year 1873-74 throughout many of the districts of Bengal, would effect the financial results of this measure in a marked manner. The Act had been introduced into nineteen districts, but in all of them the collections were not fully made. In Monghyr, Bhagulpore, and Purneah, the collections were suspended in estates which were held to be distressed; in Burdwan, the collection was postponed till 1st October 1875; in Hooghly, one instalment of the cess was ordered to be collected and the remainder remitted: the house cess was entirely remitted. The report from this district has not yet been received, as fresh calculations were necessary for certain estates. Thus the collections for this district do not appear in the statements submitted by the Board.

3. In the districts included in the returns, the total percentage of collections on demand of the cess on lands is 81·16. It is highest in the Orissa and Dacca Divisions, and, on the whole, worst in the Presidency Division, in which stringent measures were not adopted to enforce payment. The Lieutenant-Governor trusts that the Commissioner and the Board will take due steps to ensure a proper percentage of collections in this division in ordinary years, and that the subject of the house cess, referred to in the last paragraph of the Board's letter, will be thoroughly investigated.

4. His Honor is glad to observe that the Commissioners express themselves generally well satisfied with the means afforded by the law for the recovery of the arrears and system of collections and of accounts. It remains to be seen how efficient the provisions of the law will be in practice to recover the large arrears of Rs. 1,29,737. He also notices, with much pleasure, the absence of any mention of dissatisfaction on the part of the ryots, and considers that this is a proof that they have accepted the measure; he trusts they will eventually appreciate its advantages.

5. Sir Richard Temple is fully aware that the circumstances of the year under report were exceptional, and were calculated to add difficulties to the first collection of the road cess. He is therefore the more gratified to see the extent of the success which has been attained in the districts mentioned in the statements submitted, and concurs with the Member in charge in deeming the results on the whole satisfactory. He desires to thank Mr. Schalch for his able and careful superintendence of this new and important branch of the Revenue.

6. These proceedings will be reported to the Government of India.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Offg. Junior Secy. to the Govt. of Bengal.

No. 212A, dated Fort William, the 9th April 1875.

From—J. GROGHEGAN, Esq., Offg. Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honor to submit herewith two statements of demands, collections, and arrears of road cess for the year 1873-74—No. I, on lands and mines, and No. II, on houses.

2. *Statement No. I, on Lands and Mines.*—The scarcity which prevailed during the year under review throughout the greater portion of Bengal has, of course, had a marked effect on the collections. Out of the nineteen districts in which the road cess had been introduced, the demand for the road cess was entirely suspended in the district of Burdwan by order of His Honor the Lieutenant-Governor of Bengal, conveyed in letter No. 1739, dated 14th August 1874; while in the districts of Monghyr, Bhagulpore, and Purneah, the collections were, under orders of Government, No. 776, dated 31st March 1874, suspended within certain tracts. In the district of Hooghly it appears that after the preparation of all the registers and records required for collection purposes, and after collection had commenced, the orders of Government, No. 298, dated 5th February 1874, remitting a portion of the cess in certain parts of the district, were received. This necessitated separate and fresh calculations of cess for each of the estates accordingly as they were situated wholly or partially in the distressed tracts of the district. These calculations occupied much time, and were not completed until the middle of October as regards estates situated entirely within the district, and were till lately yet incomplete in regard to certain estates partly situated in Burdwan. The report from the Hooghly district has consequently not yet reached the Board, and nothing can be said here in regard to the collections in that district. A supplementary statement in regard to it will follow shortly. In the other districts shown in the statement, the remissions are inconsiderable, and are due to local causes: such as exemption from the operation of the Act subsequent to the valuation of the land, on the ground of the estates being found to be situated within municipal limits; alteration in the valuations on appeal; remissions in consequence of petty revenue-free estates and lakhiraj holdings entered in the road cess registers, and landowners' schedules not having been traced, and the like reasons.

3. Excluding the remissions mentioned in the preceding paragraph, the total demand for the year amounts to Rs. 6,87,812, while Rs. 5,58,287 have been collected, showing a total percentage of collections on demand of 81·16. The percentage of collection has varied considerably in the different districts. In Orissa, which, so far from suffering from the famine, was thereby benefited by the opening out of a favourable market for its export produce, the percentage was as high as 100 in Pooree, and was 95·78 in Cuttack, but only 85·04 in Balasore. In the Dacca division the percentage ranged from 97·11 in Fureedpore to 91·82 in Dacca. In the Rajshahye division, although it was determined after considerable hesitation not to enforce the collection on account of the pressure of scarcity in the food-supply, difficulty was from that cause to some extent experienced in the collection, and the percentage fell as low as 87·32 in Moorshedabad, and even 73·55 in Rajshahye. "It must "be borne in mind," the Commissioner observes, "that zemindars have in very "many instances not collected their rents from their ryots, and could hardly "be expected with any degree of readiness to pay their road cess."

In Hazareebagh the percentage (80·81) is low, but since the preparation of the return out of a net balance of Rs. 4,274, Rs. 4,166 have been recovered, leaving only the small sum of Rs. 108 outstanding The Presidency division shows on the whole worst in the matter of collection; the percentage being 84·64, 84·63, and 90·03 for the three districts of the 24-Pergunnahs, Nudden, and Jessore, respectively. The Collector of Nudden writes that "it was owing to the very unfavourable season that no special efforts were made to enforce payment." The Collector of the 24-Pergunnahs observes:—"As this was the first year that the cess has been collected, and as numerous calls have been made upon the landholders' class in consequence of scarcity and failure of crops, stringent measures were not adopted, as they otherwise would have been,

at the end of each quarter for the recovery of the balances. I was anxious to deal leniently with the proprietors of estates, and therefore deferred the issue of compulsory processes till the expiration of the last quarter of the year." It is anticipated that in an ordinary year the collection in this division will reach the proper percentage.

4. One of the chief obstacles experienced in the collection of the demands arose from the difficulty met in regard to estates the proprietors of which do not reside within the districts in which the estates are situated. As the cess is not recoverable by the sale of estates or tenures, as in the case of demands of Government revenue, much time is necessarily lost in the recovery of the cess by the attachment and sale of the personal property of the defaulters through the agency of the Collector of the district where the defaulters reside.

5. The Commissioners express themselves generally well satisfied with the means afforded by the law for the recovery of the arrears and system of collection and of accounts. The Commissioner of Bhagulpore observes that "though the system of collection has not had a fair trial owing to the "occurrence of the famine during the very first year of its operation, yet the "results arrived at are marvellously good. The collections were made more "easily and rapidly than could be expected, and the system may be said to "have worked very satisfactorily, especially as regards the revenue-paying "estates, and I have nothing to suggest with a view to its improvement. In "ordinary years the cess, it is expected, will be paid with the utmost "regularity."

6. The Member in charge trusts that, taking into consideration the peculiar circumstances of the year under report, the Government will deem the result of the collections during the first year that the Road Cess Act has been in force in the districts mentioned in the statement, on the whole satisfactory. It is hoped that when a thorough revision of the registers has been made in regard to the petty revenue-free estates and tenures found not to be in existence, and to the demands which have been modified on appeal and in connection with the lands found to have been wrongly assessed in consequence of being within the limits of municipalities, the collection will, in the coming year, be found to reach a much higher percentage.

7. *Statement No. II, Cess on Houses.*—As might be anticipated, the pressure of the scarcity has very seriously affected the collection of the cess on houses. In the Orissa division, which has been altogether free from any suffering from that cause, the collections are good. They show worst in the district of Rajshahye, while in the districts of Purneah, Bhagulpore, and Monghyr the demand was, under orders of Government, altogether remitted. In the 24-Pergunnahs the collection was most unsatisfactory. The Commissioner has now the subject under consideration in view to the better organization of the agency for collection. The Member in charge will thoroughly look into the whole subject. He is aware that great difficulty must invariably be experienced in collecting a cess of the nature of that on houses, but he trusts that a much better result may be obtained next year.

* The arrears in this column include Rs 26 of previous year

The difference between the figures in columns 2 and 3 is Rs. 189-3-2. Column 3 contains the net amount realisable after deduction, while column 2 contains the total amount of the four instalments shown in the quarterly statements.

The difference of Rs. 213 between column 6 and the total of columns 7 and 8, arises from the unrecovered balance of the first two quarters having been transferred from Bhagulpore to this district.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 10th May 1875.

	No.	District and date of return	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.				
		Western Districts.		
Burdwan Div.	1	Burdwan, 10th* May 1875	·50	Rainfall at Bood-bood 1·79, at Cutwa 3·97, at Culna 1·46, at Jehanabad 1·05, at Raneegunge ·65. Cotton and *teel* oil-seed doing well. Ploughing begun Cholera decreasing
	2	Bankoora 8th „ „	1·16	Weather cool and cloudy; a very good shower of rain fell on the 2nd instant. The state and prospects of the standing crops continue favorable.
	3	Beerbhoom, 8th „ „	·88	Weather cool. The ryots are beginning to prepare their land for seed.
	4	Midnapore, 8th „ „	4·16	Heavy rains Storms occurred on five out of the seven days of the week The prospects of cultivation have greatly improved. The fear now is that such excellent rain falling prematurely will be followed by a prolonged break later in the year.
	5	Hooghly, 8th „ „	4·43	Weather showery. Rain at Huripal and Kristonogore, where it was most wanted. Prospects good,—so far that the rainfall is seasonable, and opportune for preparing ground and sowing. Cholera and smallpox have nearly disappeared since the rain, but in places cholera is still unabated.
		Howrah, 8th „ „	1·34	Weather warm and cloudy; strong wind from the south There was rain for two days during the week throughout the district. Reaping of the *boro* or spring rice continues. Young sugarcane much benefited by the late rains.
		Central Districts		
Presidency Div.	6	24-Pergunnahs, 10th† May 1875	1·92	Weather hot, with occasional rains. Pretty heavy showers have fallen. Cultivation and sowings progressing rapidly. Sickness decreasing.
	7	Nuddea, 8th May 1875	1·89	Weather not very warm, but cloudy. There has been sufficient rain everywhere, and the prospects of rice and indigo are favorable.
	8	Jessore, 8th „ „	3·29	There were some heavy showers at the beginning of the week The spring rice has been reaped, and has yielded a good outturn. The rain has been very beneficial.
Rajshahye Div.	9	Moorshedabad, 8th May 1875.	1·51	Storm of wind and rain on night of 2nd instant; weather much cooler subsequently; rainfall at Lalbagh 2·27, Rampore Haut 1·67, Jungypore ·26 inches. Rain has fallen most opportunely, being of great benefit to most of the growing crops, and accelerating ploughing and sowing. Damage to *teel* oil-seed and *boro* rice crops from violence of storms reported from some parts. Indigo and mulberry progressing favorably. In the north of the district late sowings delayed from want of sufficient rain. Health good.
	10	Dinagepore, 7th May 1875.	1·58	There has been rain, the Collector believes, all over the district. Great progress in ploughing since last week, and parts of the country are already green with *kowon* millet, *bhadoi*, or early rice, and jute. Cholera on the increase both in regard to cases and deaths.
	11	Maldah, 8th May 1875	·39	Rain on the 2nd and 3rd instant; the rest of the week fair. The spring rice is ripe, and rather below; an average crop expected. Mulberry and indigo prospects are fair The mango crop has almost entirely failed
	12	Rajshahye, 8th „ „	1·30	There have been moderate showers of rain all over the district, which have done good. The state of the crops is unchanged, and the prospects are good. The reaping of *boro* rice has commenced in the west of the district, and will soon be going on generally. Cholera has abated considerably during the week.
	13	Rungpore, 7th „ „	3	Weather cooled by rainfall. Crops much benefited by rain.
	14	Bogra, 8th „ „	·94	Fair weather. Lands are being ploughed now for the cultivation of *aous*, or early rice; jute, mulberry, and other crops, promise well.
	15	Pubna, 8th „ „	1·55	Rainy and cloudy weather On the 1st instant a most violent hailstorm passed over thanas Pubna and Dulyo; the hailstones were of great size. The mangoes suffered considerably; the *boro* and *jally* rice very slightly. Rainfall sufficient More fell in the district than at the Sudder station. Sowing of *aous* and *aman* proceeding rapidly. Cholera abating.

* Telegram of the 10th May, received on the same day, shows rainfall during the seven days immediately preceding.

		***Central Districts.*—(*Contd.*)**		
Cooch Behar Divn.	16	Darjeeling, 7th May 1875.	2·20	A good deal of rain and mist for this time of the year. Occasionally the sun shines out very warm. Sowing has commenced in the plains, and is progressing favorably. In the hills the young crops are doing well. Tea gardens are giving a large yield: a bumper crop anticipated.
	17	Julpigoree, 8th May 1875	3·81	There was a very heavy fall of rain, 3·40 inches, on the morning of the 8th instant This is more than was required, and may do some damage to the young jute plants which so far had promised well. The rain is also bad for *bhadoi*, or early paddy, which is now in young plants, as it will promote the growth of grass and weed. Cholera is general over the district; it is worst in the Buxa sub-division, where in one part it has assumed severe epidemic type.
		Cooch Behar, 6th May 1875	4·03	The weather was generally cloudy; some heavy showers of rain during the week. This is the season for sowing *bilti dhan*, or early rice and jute. The rain will do much good to both these crops. Cholera has been raging in some parts of the State.
		Eastern Districts.		
Dacca Divn.	18	Dacca, 10th[a] May 1875	·60	Rain general Crops very favorable. All fear from want of rain now gone. Health improving. Rivers rising.
	19	Fureedpore, 8th „ „	·40	Weather unsettled, but seasonable Prospects of crops continue favorable. General health good.
	20	Backergunge, 6th May 1875.	2·85	Rain has fallen, and all is well. Cattle affected with disease in a few villages.
	21	Mymensingh, 7th May 1875.	3·33	There has been less rainfall in the greater part of the district. State and prospects of crops favorable.
Chittagong Divn.	22	Chittagong, 6th May 1875	1·16	Strong winds in the early part of the week; afterwards clear and settled. The late heavy rains have done some slight damage to chillies, but this will be more than compensated for by the benefit to the early rice and tea.
	23	Noakholly	..	Return not received.
	24	Tipperah, 7th May 1875	2·30	A good deal of rain has fallen, and the weather has been cooler. The showers have been very beneficial to the crops in the ground, and have also enabled the cultivators to nearly complete their ploughing.
	25	Chittagong Hill Tracts, 4th May 1875.	3·29	Heavy showers of rain, with squalls on the 28th, 29th, and 30th April, and 1st and 2nd May. Weather in consequence, has been cool and pleasant. The hill-men are busily engaged in sowing paddy, cotton, &c., &c., in their *jooms* Cholera has appeared in several parts of the district.
		Hill Tipperah, 6th May 1875.	5·07	Weather unsettled; occasional heavy showers of rain, with alternate periods of sunshine. Ploughing and preparing the soil for the sowing of the early rice crop is going on.
BEHAR				
Patna Divn	26	Patna, 10th[a] May 1875	·33	Weather cool since rain. No crops on the ground Cholera decreasing.
	27	Gya, 8th May 1875	·21	Easterly wind. A slight storm, with rain and wind from north west, on the 3rd instant; apparently general over the district. Highest reading of dry maximum thermometer during the week was 108 degrees. What few crops are in ground, as previously reported, are good. Cholera is spreading on the south and south-west of the district; not actually in epidemic form
	28	Shahabad, 8th „ „	1·28	Weather clear and closely hot, with easterly wind. Rain has fallen in the district. The rain has done much good where it has fallen. *Cheena* millet, sugar-cane, and cotton, all will profit. Mangoes are very poor this year. Sporadic cholera reported in some villages of the Sasseram and Buxar sub-divisions
	29	Durbhunga, 8th „ „	·11	Weather very cool for the season of the year, and pleasant, east winds prevailing Rain in the interior has been much heavier than at the sudder station, and has been most beneficial to agricultural operations. The prospects are quite satisfactory. Cholera still exists in some villages
	30	Mozufferpore, 8th „ „	1·45	Weather hot. Rain has fallen. The rain has been beneficial to *cheena* and *kowee* millets already sown. Cholera in an epidemic form prevails in many parts of the district.

[a] Telegrams of the 10th May, received on the same day, shows rainfall during the seven days immediately preceding

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—(*Contd.*)			
Patna Divn.—(*Contd.*) 31	Saran, 8th May 1875 .	·48	Weather bright, clear, and seasonable; east wind prevailing. There was a slight fall of rain on the night of the 2nd instant, preceded by strong wind and dust-storms. The prospects of *cheena* millet, sugarcane, and indigo continue favorable. The *bhadoi*, or early rice, *moong* pulse, and *kawon* millet are being fast sown. The early sowings are doing well. The late rain has benefited the crops. General health good.
32	Chumparun, 7th May 1875.	·5	The east winds and cool weather have continued throughout the week, and heavy rain has fallen in the west of the district. Though there have been threatenings of rain every day, but little has fallen to the east. The prospects of the crops are excellent. Caterpillars have appeared among the indigo, but the plant is generally far too well forward to have suffered seriously from them. There is a good deal of fever about.
Bhagulpore Divn. 33	Monghyr, 8th May 1875	2·71	Unusually cool. Heavy rain during the week favorable for *bhadoi*, or early crops.
34	Bhagulpore, 10th* May 1875	·85	Rain at Muddehpoora 1·20; Banka nil. Rain has done much good for the preparation of the land for the *bhadoi* crop. General health good. Soopool return not received.
35	Purneah, 8th May 1875	1·79	Since the rain, which commenced on Sunday, the weather has been very cool. The recent showers of rain have been of great service, and were much wanted.
36	Sonthal Pergunnahs, 8th May 1875.	·69	Weather still extraordinary; cool and clear; not close. Not much rain anywhere, but showers are flying about, with frequent thunder and lightning. In the fortnight there have been only two days hot winds. Nothing on the ground Ploughing beginning. General health improving.
ORISSA.			
Orissa Division. 37	Cuttack, 1st May 1875	1·53	Weather sultry, with occasional violent storms of wind and rain. Ploughing for rice crop going on in most places. Cholera seems to have entirely subsided, and public health is good.
38	Pooree, 6th „ „	·01	There has been good rain in the interior generally; the sky is still cloudy, and more rain expected. Tillage is proceeding. The *dalua*, or spring rice crop, is being reaped, with a good outturn. White *moong* pulse has been completely gathered, with an indifferent yield. Castor-seed is being harvested, with a fair outturn. The new sugarcane is being earthed up. Cotton is in flower. The mangoes are ripening, but the crop is very poor.
39	Balasore, 7th „ „	1·20	Weather stormy, with several heavy showers. In the north of the district rain somewhat excessive, and in the Bhuddruck sub-division insufficient. Ploughing become general; prospects of next rice crop satisfactory. Cholera still diminishing.
CHOTA NAGPORE			
	South-West Frontier Agency.		
40	Hazareebagh, 7th May 1875.	·03	Slight thunder-storm, with very light rain, inappreciable in quantity, have cooled the temperature considerably. No alteration. Rain is wanted to allow the ground to be broken for future crops.
41	Lohardugga, 8th May 1875.	·64	Weather cloudy, with easterly and southerly winds; sharp storms on the 6th from the north-east. The weather has been favorable for agricultural operations, but the *mahwa* flower has been greatly damaged by the east winds. Small-pox still prevalent, and a few sporadic cases of cholera reported from Palamow.
42	Singbhoom, 7th May 1875.	1·38	Seasonable weather. Heavy storm, with much rain, on the 3rd instant. No crops District healthy.
43	Manbhoom, 8th May 1875	1·08	Rain has fallen, and the weather has been cool and pleasant. The sub-divisional officer reports want of more rain. Throughout the district generally the crops on the ground—of no great importance—are doing well. Owing to the late rain, there are signs of the land being prepared for cultivation.

* Telegram of the 10th May, received on the same day, shows rainfall during the seven days immediately preceding.

Published for general information.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet, are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Dippe's tables, as given in Guyot's "Meteorological and Physical Tables." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Serenity.—This column gives the average proportion of unclouded sky; a cloudless sky being indicated by 10, and one completely overcast by 0.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

NOTIFICATION.

ACCOUNTS.

No. 519.

Simla, the 13th May 1875.

HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR-GENERAL IN COUNCIL has resolved to borrow two crores and fifty lakhs of rupees for the public service in the manner following :—

2. Promissory Notes will be issued for the said amount, bearing interest at the rate of four per centum per annum. The form and conditions of these Notes will be those of the Notes of the Transfer Loan of 1st May 1865, of which loan they will form a part. No Note will be issued for less than five hundred rupees, or for any amount not being a multiple of one hundred rupees. The Notes will be payable to order, and interest thereon will be paid half-yearly, on the 1st May and 1st November in each year.

3. Notice is hereby given that tenders will be received by the Comptroller-General at Calcutta from this date to noon of Wednesday, the 16th June next, for the whole or part of the above-named sum of two crores and fifty lakhs of rupees.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller-General, Treasury Buildings, Calcutta, and enclosed in a sealed cover superscribed "Tender for Loan."

5. Tenders will be opened at the Office of the Comptroller-General in Calcutta at noon on Wednesday, the 16th June next.

6. The amounts of accepted tenders must be paid in five equal instalments, on the following dates—

One-fifth on the 1st July 1875.
One-fifth on the 2nd August 1875.
One-fifth on the 1st September 1875.
One-fifth on the 1st October 1875.
One-fifth on the 1st November 1875.

Payment of any instalment except the first will be accepted before the due date, but not before the 1st July next. Interest upon the amount of each instalment paid before the 1st November next will be paid in advance, from the date when such instalment is received to the 31st October next.

7. Payment may be made to the account of the Government in one of the Presidency Banks of Bengal, Madras, or Bombay, or into any Government treasury or treasuries in India that may be named in the tenders.

8. Each tender must be accompanied by a receipt from one of the Presidency Banks of Bengal, Madras, or Bombay, or from an officer in charge of some Government treasury, or by a cheque on a banker in Calcutta, Madras, or Bombay, or by Government Promissory Notes duly endorsed to the Comptroller-General, for a sum of not less than one per centum on the amount for which tender is made. This deposit of one per centum will be considered as in part payment of the last instalment; it will be forfeited if the allotment is not fully taken up. A cash deposit may, after allotment, be exchanged for a Government Promissory Note.

9. Scrip receipts for instalments paid will be given by the Presidency Banks of Bengal, Madras, and Bombay, or by the officers in charge of the Government treasuries at which payment is made. These receipts will be exchanged for Promissory Notes as soon as possible.

10. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller-General, and declared before any tender is opened. The rate stated in a tender must not contain a fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

11. Tenders at the declared minimum rate, and at rates above the declared minimum, will be accepted in the order of the rates tendered, beginning with the highest rates. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate, in proportion, as nearly as may be found convenient, to the amounts of their tenders.

12. The names of the persons whose tenders are accepted in whole or in part will be posted for general information at the Presidency Banks of Bengal, Madras, and Bombay.

By order of the Governor-General in Council,

R. B. CHAPMAN,
Secretary to the Govt. of India.

FORM OF TENDER.

I hereby tender for rupees of the Loan advertised in the Notification published in the *Gazette of India* Extraordinary dated the 13th May 1875, and agree to pay for the same, subject to the conditions notified, at the rate of rupees annas* for every hundred rupees allotted to me.

* Fraction of an anna not allowed.

I enclose a *deposit receipt*† for rupees , and engage, if my offer be accepted, to pay to the account of the Government at the Presidency Bank of‡ [or into the Government treasury at‡ as the case may be,] the first instalment on the 1st July next, and the several later instalments on or before the dates fixed by the Notification, as follows:—

† Or cheque or Government Promissory Note.

‡ Here enter the name of Bank or treasury.

One-fifth on the 1st July 1875.
One-fifth on the 2nd August 1875.
One-fifth on the 1st September 1875.
One-fifth on the 1st October 1875.
One-fifth on the 1st November 1875.

Note.—A separate tender must be made at each rate tendered, and a separate deposit must accompany each tender. In order to avoid mistakes, it is desirable that the tender, or, at least, the name of the tenderer, and the amount and rate tendered, should be written in English.

The following order, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, is republished for general information:—

NOTIFICATION.

The 1st May 1875.—Under the provisions of Section 2 of Act V (B.C.) of 1873, the following plan for extending gas-lighting to certain portions of the town of Howrah is published for general information :—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the grand trunk road which lies between Ramkristopore Ghaut Road and Bishop's College Road, Seebpore Ghaut Road, and Ghoosery Road. The total length of these roads is 2¾ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,61,363, and a rate of 3 per cent. would yield an income of Rs. 4 840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept this sum in payment for supplying gas.

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from their general fund during the current official year.

BOARD OF REVENUE, L. P., FORT WILLIAM, the 26th April 1875.

NOTICE.

No. 501B.

WITH reference to paragraph 18 of the general notification published on the 16th November 1874, it is hereby notified that the Agents of the French Government applied for the reservation of 300 chests of opium from the quantity advertised for sale on the 5th April, but did not pay for them within the prescribed period, and that the Government will cause the opium so reserved to be sold at a sale held expressly for the purpose, of the date of which due notice will be given hereafter.

By order of the Member in charge,

BOARD OF REVENUE, L.P., FORT WILLIAM, the 3rd May 1875. W. H. GRIMLEY, *Offg. Secy.*

NOTIFICATION.

BY ORDER OF GOVERNMENT.

WITH the object of facilitating the entry of steamers and other vessels at the Custom House, Calcutta, it is hereby notified to all whom it may concern that from and after the publication of this notice—

1. On announcement of the arrival of the vessel at Saugor, the documents necessary for entering a ship may be presented at the Custom House, so as to avoid delay after the ship is moored; and for the purpose of announcement of arrival at Saugor, the official Government Telegraph Gazette will be considered the requisite proof.

2. Agents of ships who present documents for the entry of ships under the permission given by the preceding section, will be considered as undertaking the responsibility of masters under Sections 47 and 49, Act VI of 1863, with regard to the manifest; all alterations made subsequent to the entry of the vessel being subject to the usual penalty.

3. The correctness of a manifest being of extreme importance, those whom it may concern are hereby informed that the penalties in case of want of accuracy or care in the preparation of a manifest will be strictly enforced.

Agents making an application under this notification, will be considered to have consented on behalf of the ship to the conditions above mentioned.

CUSTOM HOUSE, CALCUTTA, the 1st May 1875. J. D. MACLEAN, *Offg. Collr. of Customs.*

NOTICE is hereby given that under the sanction of the Judge of Shahabad, the rights and interests in the 4 annas share of the lunatic ward Baboo Kisho Pershad Singh, of Goondn, pergunnah Arrah, zillah Shahabad, in the undermentioned villages, will, subject to the conditions specified at foot, be sold by a public auction in the Shahabad Collectorate, on Monday, the 7th June 1875, corresponding with the 18th Jaith 1282 Fush, in satisfaction of debts due to Kapilmoon Singh and others.

2. The purchasers will be subject to the following conditions:—

(1) The purchasers of these villages will be considered as the proprietors thereof, and the entire proprietory right of the aforenamed lunatic ward in such villages will be transferred to them, subject only to payment of Government revenue. The villages will be sold (subject to Government revenue due from them to the date of sale) to the highest bidders above the upset price.

(2) If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

(3) If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited), and the villages to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the schools and colleges in India, and though at present a scholar-like knowlege of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars, and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 17th May 1875.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Div. 1	Burdwan, 17th* May 1875	·14	Rain at Bood-Bood ·76, Cutwa 2·40, Jehanabad ·88. Sowing of paddy begun in low lands. Fever decreasing.
Burdwan Div. 2	Bankoora, 15th „ „	1·35	There has been rain all over the district. *Boro*, or spring rice-crop, arriving maturity. The paddy-fields are being ploughed.
Burdwan Div. 3	Beerbhoom, 15th „ „	·24	Weather cool; rain fell on Tuesday. The fields are being ploughed for the early rice.
Burdwan Div. 4	Midnapore, 15th „ „	·44	Wind-storms occur very frequently, sometimes accompanied by rain, sometimes not; the weather is more seasonable than during the two preceding weeks Thus far the season would be considered good. Quite sufficient rain has fallen for the present; enough to damage some of the *boro* rice, which was ripening. A week's sunshine would now be looked upon as a boon. Prices, which have been rising since the middle of March, shew a slight tendency to decline.
Burdwan Div. 5	Hooghly, 15th „ „	·68	Weather hot, with occasional showers. *Aous*, or early rice, looking well. Weather very favorable for preparing lands, sowing, and for young crops. Sickness decreased.
Burdwan Div.	Howrah, 15th „ „	·82	There was rain throughout the district during the week. Weather was warm and sky cloudy; strong wind, generally from the south. Reaping of the *boro* rice nearly completed. The recent rain has done good.
	Central Districts.		
Presidency Div. 6	24-Pergunnahs, 17th† May 1875	1·42	Warm and close, with occasional clouds. Moderate showers of rain have fallen during the week. Sowings of early rice and jute progressing fairly. Cholera decreasing, but cases of fever reported from Barripore and Busserhat.
Presidency Div. 7	Nuddea, 15th May 1875	3·27	Weather damp and not very hot. The prospects of rice and indigo are very good Food is still dear.
Presidency Div. 8	Jessore, 15th „ „	·41	Somewhat variable weather; a little rain; wind mostly from the south. The spring rice has been gathered. The early rice, where sown, is doing well. Sowing of paddy, indigo, and other crops continues. Prospects generally good
Presidency Div. 9	Moorshedabad, 15th May 1875.	1·83	Hot, with occasional storms and heavy rain, cooling the atmosphere for a short time. Rainfall has greatly expedited preparation of ground for future operations; also beneficial to rearing of silk-worms and to sugarcane, which is in excellent condition. Indigo and mulberry good; *boro* rice harvest not completed; average outturn expected. Cholera present in one village in Goas. Small-pox present in Soojagunge
Rajshahye Div. 10	Dinagepore, 14th May 1875.	2·44	Plenty of rain, and some thunderstorms, wind generally east or south-east Progress most satisfactory; *bhadoi*, or early rice, and jute looking very good. The district officer has received no report about *boro* paddy, but thinks that much must have been reaped before this. An unusual extent of land is under *boro* rice this year.
Rajshahye Div. 11	Maldah, 15th May 1875	Nil.	Weather fair in the morning, and cloudy in the afternoon The late rainfall has done good, and the prospects of rice, indigo, and mulberry crops are, in general, favorable
Rajshahye Div. 12	Rajshahye, 15th „ „	1·76	There has been very beneficial rain all over the district during the week. The state of the crops is generally favorable, except that the mango crop has failed altogether. Cholera has almost disappeared, and the public health is good.
Rajshahye Div. 13	Rungpore, 14th „ „	1·93	Stormy weather. Rice sprouting well.
Rajshahye Div. 14	Bogra, 15th „ „	·89	Weather fair, with occasional clouds and rains State and prospects of crops good. *Aous*, or early crop rice, being sown.
Rajshahye Div. 15	Pubna, 15th „ „	1·78	Weather cloudy and rainy; south-easterly wind prevailing. State and prospects of crops good.

* Telegram of the 17th May, received on the same day, shows rainfall during the seven days immediately preceding.

BENGAL.—(*Contd.*)				
		Central Districts.—(*Contd.*)		
Cooch Behar Divn.	16	Darjeeling, 14th May 1875.	2·36	Rain fell during every day of the week. On Wednesday it came down heavily, and was accompanied with very high wind. Sowing is progressing favorably, both in the plains and in the hills. The young Indian-corn, *marwa*, and *kawoni* millets in the hills are looking very healthy.
	17	Julpigoree, 15th May 1875.	3·05	Cloudy and cool weather at the sudder station, but reported very hot in the interior. *Bhadoi* rice promising well; *kawoni* millet good. Jute promises well, but late rain has promoted growth of weeds. Cholera is still prevalent.
		Cooch Behar, 13th May 1875.	4·56	The weather for some days of the week was cloudy and hot; there were also some heavy showers of rain. The rain has done much good to the crops. Cholera continues to rage in all parts of the Raj.
		Eastern Districts.		
Dacca Divn.	18	Dacca, 17th* May 1875	2·09	Rain almost every day. State and prospects of crops favorable.
	19	Fureedpore, 15th May 1875.	2·67	Weather extremely unsettled, but quite seasonable. The prospects of the crops are favorable everywhere. At Madaripore a violent storm occurred on Wednesday night, which did much injury to huts and thatched public buildings. General health good.
	20	Backergunge, 13th May 1875.	·49	Seasonable weather. In general all is well. Sporadic cases of cholera, and also cattle disease, still continue.
	21	Mymensingh, 14th May 1875.	2·62	Frequent showers, except in the west of the district, where the air continues dry. The *aous* rice is likely to suffer from weeds if the rainfall continues.
Chittagong Divn.	22	Chittagong, 13th May 1875	1·56	Weather cloudy. Heavy rain fell on the morning of the 13th instant. The crops continue to do well, and there is no change to report from last week.
	23	Noakholly, 13th May 1875.	2·58	Weather generally clear during the week. There was some heat and closeness, followed by a good fall of rain on the night of the 12th instant. Wind generally south and south-east, and occasionally blowing hard. In the lowland the early rice crop is progressing favorably, and in the highland sowing is going on. More rain now may injure the lowland crops. The khals are beginning to fill. *Khwada* boats are now going from Noakholly to Commillah.
	24	Tipperah, 14th May 1875	·56	Weather cloudy and oppressive; a few heavy showers of rain. The spring rice has been nearly all harvested in most parts; it has been a fair average crop. The autumn and winter rice have been sown under favorable circumstances.
	25	Chittagong Hill Tracts, 11th May 1875.	1·62	Weather generally cloudy; some rain fall during the first part of the week. Sowing still going on in the *jooms*.
		Hill Tipperah, 12th May 1875.	86	Weather unsettled, with occasional squalls. No crop in the ground. Sowing of early rice progressing
BEHAR.				
Patna Divn.	26	Patna, 17th* May 1875	·74	Wind, hail, and rain-storm between 2 and 3 P.M. of the 16th instant. Much injury to mango crop. Cholera still prevalent throughout the district.
	27	Gya, 15th May 1875 ...	Nil.	West winds prevalent during part of the week. East winds and very hot. Dry maximum thermometer rose to 109·5. Only crops in the ground are *cheena* millet and sugarcane. Cholera has increased in the Aurungabad sub-division and south of Gya sub-division. Measures taken.
	28	Shahabad, 15th May 1875	Nil.	Strong east wind, and moderately hot. The prospects of crops are good. No change since last report. Cholera still prevalent in parts of the sub-divisions, to the same extent as previously noticed.
	29	Durbhunga	.....	Return not received.
	30	Mozufferpore, 15th „ „	Nil.	Hot weather. The prospects of *cheena* and *kawoni* millets are excellent, and those of mango crop are very poor. Cholera continues in many parts of the district.
	31	Sarun, 15th May 1875 ...	Nil.	Weather hot and clear; east wind prevailing. The prospects of *cheena* millet, sugarcane, and indigo, continue favorable. Early *cheena* is being harvested. The *bhadoi* rice and *kawoni* millet are being sown. The early sowings are doing well. General health good.
	32	Chumparun, 14th May 1875	·20	There has been little change in the weather since last report. East winds and slight showers still continue at Motiharee, but in many parts of the district the rainfall has been much heavier than at the sudder station. The crops promise exceedingly well, and the weather is well suited for the preparation of the rice field for the coming crop.

* Telegrams of the 17th May, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—(*Contd.*)			
Bhagulpore Div. 33	Monghyr, 15th May 1875	Nil.	Weather unusually cool; east winds prevailing. The rain which fell last week has done much good. Prospects generally favorable.
Bhagulpore Div. 34	Bhagulpore, 17th* May 1875.	·89	Rain fell throughout the district, which has benefited the land required for rice cultivation. *Marwa* millet and early rice sowing begun in Soopool. General health good.
Bhagulpore Div. 35	Purneah, 15th May 1875	1·08	Weather cool and cloudy, with east wind and showers. The early *boro* rice is fit to cut. The *bhadoi*, or early rice, is looking excellent. The *Patsa* (hemp) in the north looks very healthy.
Bhagulpore Div. 36	Sonthal Pergunnahs, 15th May 1875.	·55	In Dumka, weather much hotter than last week; clouds, with rain, wind, and thunder, come up in the afternoon. In Godda, rain is wanted for ploughing; everywhere else ploughing is going on actively. Sugarcane-planting going on in Deoghur and Jamtara. Nothing else to report on.
ORISSA.			
Orissa Division 37	Cuttack, 8th May 1875	1·44	Thunder-storms, accompanied with heavy rain, but of short duration, occur nearly every evening. Ploughing is going on well in consequence, but it may be checked if, as there is reason to fear, too much rain falls at this season, which closely resembles that of 1871. Public health goood. Cholera has disappeared.
Orissa Division 38	Pooree, 13th May 1875	1·59	There has been good rain in the interior generally. The sky is still cloudy, and more rain is expected. The air is hot. Tillage is proceeding rapidly. The *dalua*, or spring rice crop, is being reaped with a good outturn. Castor-seeds are being harvested with a fair outturn. The new sugarcane is being earthed up. Cotton is in flower and pod. The mangoes are ripening, but the crop is very poor.
Orissa Division 39	Balasore, 14th " "	1·27	Storms have been pretty frequent. The rain has been very useful. Ploughing is general, and sowing has commenced. The cholera in the north is still on the decline, but it has broken out sporadically elsewhere.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, 14th May 1875.	·18	Seasonable weather; slight rain has fallen. No alteration to report. A good fall of rain would be very beneficial.
41	Lohardugga, 15th May 1875.	·02	Wind still variable, and weather unsettled. No crops now on the ground. Small-pox still prevalent, and cases of cholera continue to be reported from Palamow.
42	Singbhoom, 14th May 1875.	1·58	Heavy storms, with rain, on Monday, Tuesday, and Wednesday, from which many trees have been uprooted, and much damage caused to mangoes and other fruits. No crops. District healthy.
43	Manbhoom, 15th May 1875.	2·05	Several severe storms of short duration in the early part. The weather is at present close, but seasonable. The small crops, such as sugarcane, cotton *kochora*, are reported good. The land is being in places prepared for rice, but not to the extent the district officer should have supposed from the recent showers. From Gobindpore the report is that heavy enough rain has not yet fallen.

* Telegram of the 17th May, received on the same day, shows rainfall during the seven days immediately preceding.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

NOTIFICATION.

The 1st May 1875.—Under the provisions of Section 2 of Act V (B.C.) of 1873, the following plan for extending gas-lighting to certain portions of the town of Howrah is published for general information:—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the grand trunk road which lies between Ramkristopore Ghaut Road and Bishop's College Road, Seebpore Ghaut Road and Ghoosery Road. The total length of these roads is 2¾ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs 1,61,363, and a rate of 3 per cent. would yield an income of Rs. 4,840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept the sum in payment for supplying gas.

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from their general fund during the current official year.

CHITTAGONG MAGISTRACY, the 16th November 1874.

No. 235L.F., dated Noakholly, the 30th October 1874.

From—L. B. B. KING, Esq., Offg. Magistrate of Noakholly,

To—The Commissioner of the Chittagong Division.

UNDER paragraph 3 of Government Circular No. 50, dated the 23rd July last, I have the honor to submit a report on works of local improvement in this district, for the year ending the 30th September last.

2. The following were the works carried out in the first half of that year:—

Construction of a masonry bridge at Mendigona near the town, and of seven temporary bridges on the Luksham road, between Begumgunge and Buttra; removal of the remains of an old bridge at Banchanugger, and construction of a temporary one in its place; repairing the Dhoom Chur Bridge, and raising the approaches to that, and to the Chaprassy Khal Bridge; raising the approaches to eight bridges on the Luckipore road; placing bamboo spurs to prevent injury to the Chaprassy Khal Bridge by encroachment of the river.

Reconstruction of part of the Luckipore road washed away at Pearapore; repairs on the Chittagong road between the boundary of the municipality and the Chaprassy Khal Bridge on the Begumgunge road; from Mendigona to Begumgunge on the Dewangunge road; from Sundarpore to Dewangunge; and on the Ramgunge road from Dullal Bazar to Ramgunge.

3. The following works were under execution or completed in the second half of the year:—

Construction of the Shahibghatta wooden bridge, expected to be shortly finished. Reconstruction of a wooden bridge at Sonagazi Chaprassy haut on the Chittagong road, not yet completed.

Partial repair to the metalled roads in the station. This work will, it is hoped, be properly completed this cold weather.

Repair of the road from near the station to Raipore. Of this the last eight miles has been imperfectly done, and the last mile washed away; the Executive Engineer's attention has been requested to the proper execution of the work. Earth-works on the Luksham road between Buttra and Nowtola are in progress, and the greater part completed.

Construction of bamboo spurs to prevent encroachment of the river at Mendigona has been commenced, but the work has been hitherto impeded by the depth of the water from heavy rain and high tides.

Repairs have been done to the old Luckipore road between Begumgunge and Luckipore. Where the land is low, the early rains prevented the road being raised as required, but the surface repairs have been completed.

The road from the Chaprassy Khal to Companygunge has been put in repair. The Luksham road from Begumgunge to Buttra has been repaired and turfed, and the jungle cleared away. A section of the Luckipore road near Bhowanigunge has been raised.

It was originally intended to complete the widening and straightening of the Dewangunge road, but nothing of this has been done. Greater part of the allotment was afterwards assigned to repairs and improvements on the road, which have been commenced and partly carried out.

A beginning has been made in planting trees on the side of the district main roads.

4. The following are the works proposed to be carried out during the cess year 1874-75 :—

Construction of six timber top bridges of one span with masonry abutments and wings between Begumgunge and Busra.

Widening and straightening the Dewangunge road from Moonshee hant to Ramdy, and from Joogodia to Gopeegunge, and the Bend in Pasgasia, eight miles

Completing the railings and plastering of the seven timber top bridges of the Begumgunge road, and two bridges on Dewangunge road.

Raising earth-work in the approaches of the above bridges.

Deepening a canal at Attiatollee.

Planting trees on the edges of the main roads.

Fixing spurs in the bends of the khal to prevent encroachment on roads.

Thorough repairs to the four important and main roads of the district:—1st, Chittagong road, 2nd, Dewangunge road, 3rd, Luckipore road, 4th, Begumgunge and Luksham road up to Buttra, 100 miles.

Thorough repairs to three petty and traffic roads of the district near sudder station—Taktakhally, Churriakhally, and Goollakhally, 17 miles.

Thorough repairs to the Ramgunge road, 12 miles.

Thorough repairs to the first portion of old Luckipore road from Madam's Ghât *viâ* Chengatolli, Chundergunge to Begumgunge, 24 miles, and second portion from Begumgunge *viâ* Kolandy to Fazil Ghât, 16 miles.

Thorough repairs and reconstruction of the old pucka and timber top bridges on the district roads, 85 bridges.

Repairing fences of the trees planted on the main roads of the district.

Thorough repairs to the kutcha and metalled roads and bridges of the sudder station, 16 miles.

Reconstruction of the temporary bridges on the Luksham road.

Reconstruction of the temporary bridges on the police station and district dâk roads, Ramgunge, Old Luckipore, and Bamni and Goollakhally roads.

Excavation of a canal, and construction of an embankment, to prevent encroachment on the road, and to shorten and straighten the passage of the Noakholly khal at Shahebghatta.

No. 2481T, dated Calcutta, the 8th June 1874.

Office Memo.—From the Deputy Accountant-General,
To—The Collector of Bhullooah.

IN reply to your endorsement No 125, dated 22nd May 1874, please refer to this office memorandum No. 2447T, dated June 1874, in which you have been informed that Rs 3995-14-2, shown by you as balance of the Road Fund of your district on 31st December 1873, have been agreed with the figures of this office.

The following is the correct balance of the Road Fund of your district on the last day of February 1874:—

		Rs. A. P.	Rs. A. P.
Balance on 31st December 1873	...	.....	3,995 14 2
Add Receipts in January 1874	...	738 6 11

			5,844 12 8
			9,840 10 10
Deduct payments in January 1874	...	20 0 0	
„ in February „	...	20 2 0	
			40 2 0
Correct balance on the last day of February 1874		.....	9,800 8 10
Balance as per District Road Account ...		.....	9,896 14 11
Difference ...		.....	96 . 6 1

The difference arises from the sum of Rs. 96-6-1, incurred on account of the travelling expenses of Mr. L. B. B. King, and of ministerial officers in June 1872, not having been charged to the Fund by the Magistrate of your district.

No. 1262, dated Comillah, the 21st November 1874.

From—THOMAS SMITH, Esq., Executive Engineer, Noakhally and Tipperah Districts,

No. 1R., dated Rangamattee, the 2nd November 1874.

From—A. W. B. POWER, Esq., Officiating Deputy Commissioner,
To—The Commissioner of the Chittagong Division.

I HAVE the honor to forward, agreeably to instructions contained in Bengal Government Circular, Public Works Department, No. 51 of the 15th August last, the annual accounts of the District Road Fund for the year 1873-74, commencing from 1st October 1873 and ending with 30th September 1874. The income and expenditure for that period stand as follows :—

Ditto in hands of the Deputy Commissioner ...	929	14	9
Advances outstanding	14,447	0	9
Total ...	33,301	9	3

2. The following works have been executed during the year under review :—

A.—About 4½ miles of road, at a cost of Rs. 1,050-11-2, from the mouth of the Myoni, where the Tipperah settlement commences, towards Sirthay Tlang, the proposed head-quarters of the Frontier Police Force, have been constructed, large trees cut down, and stumps and roots of trees removed; cuttings on the earth from 1 to 2 feet made, in order to prevent, as far as practicable, the undergrowth of trees.

B.—The sides of steep hills on the road in and near Rangamattee, extending over a mile, have been cut, and the road levelled and improved at a cost of Rs. 320-10, so as to make it in future fit for wheeled carts.

C.—A part of a hill called the Manickcherry Moin, on the way towards Chittagong and within 5 miles of Rangamattee, has been cut through, at a cost of Rs. 2,841-10-9, in order to make it practicable for wheeled carts. The cutting through that hill includes the removal of upwards of 584,000 cubic feet of sandstones, and more than 200 large trees have been uprooted.

D.—The channel at Uttaunchuttra rapids has been enlarged and deepened, and a part of the rocks removed; the road from Sirthay Tlang to Demagiree, above 7 miles in length, has also been widened, undergrowth of trees cleared, and a gentle slope cut in places which were formerly precipitous. The expenditure on this account has amounted to Rs. 1,123-14. The path from Demagiree to Sirthay Tlang involves an ascent of 1,500 or 1,800 feet.

E.—The jungle on the road from Ruma to Banderbun, about 26 miles in length, has been cut and removed at a cost of Rs. 1,033, rendering it practicable for persons to go overland from one place to the other.

F.—The road from Feskicherra to Burkul, measuring about 2½ miles, has been improved by cutting the rocky hill sides, widening the road, and making 24 temporary bridges, at a cost of Rs. 992-6.

G.—A masonry well, about 50 feet deep and 36 feet in circumference, has been sunk, at a cost of Rs. 758-8-3, in the bazar on the side of the head-quarters' road at Rangamattee. Several outbreaks of cholera, attributed to the want of pure water, occurred during the year under review.

This office letters Nos. 163A and 219A. of 25th September and 18th November 1872, respectively.

H.—A sum of Rs. 144-2 has been spent in levelling the top of a hill for erecting a circuit bungalow for the Commissioner of Chittagong, *vide* correspondence noted on the margin.

I.—A village road six miles long, from Rangamattee to Moischerry, leading to the largest plot of land taken by hillmen for plough cultivation, is in course of construction, *vide* Bengal Government Circular, Public Works Department, No. 32 of 27th September 1873. A sum of Rs. 200 has been advanced on this account; but as the work has not yet been finally executed, it does not appear in the annual returns, but the amount is entered under the head of advances outstanding.

J.—The undergrowth of trees on the road from Rangamattee towards Chittagong, measuring about twenty-one miles, has been cleared, and 67 temporary bridges made for the rainy season, the cost of which has amounted to Rs. 620-7-8. The expenditure of Rs. 60-10, for repairing the head-quarter road, needs no comment.

K.—The sums of Rs. 990 paid for establishment, Rs. 270-14-3 spent for tools, and Rs. 75-7-9 paid for landing charges of tools, steamer freight, and other petty expenses, require no explanation.

3. Before reporting on the subject of the works to be executed during the year 1874-75, I beg to state for your information that road-making entails a heavy expenditure in this district. All the roads have to be cut through thick jungle, and in many places through high and steep sides of hills, where the growth of trees and under-shrubs is so rank and luxuriant that cutting and clearing even three or four times annually fails to keep the jungle down. For instance, there are few or no traces of the roads marginally named made in previous years. If there are any, they are scarcely recognizable, and none of the roads are now passable. The two principal roads, 1st from Rangamattee towards Chittagong, 2nd from Chunderghonah towards Banderbun, which are looked after, and the undergrowth of trees cut and removed as soon as the necessity arises, become very often impassable. A reference to the annual report for 1870-71 will show that in order to prevent the growth of under-shrubs on the road from Rangamattee towards Chittagong, cuttings, extending in some places to 15 feet in depth, were made and *dooplee* grass planted; yet these means have proved ineffectual to prevent the growth of jungle. As Major Graham, formerly Deputy Commissioner of this district, put it—"One can almost *hear* the jungle growing." Heavy expenditure is consequently necessary to construct and keep open the roads of this district, and in my opinion much of the backwardness of the district is a direct result of imperfect communications.

1. The road from Rangamattee to Barkul, constructed in 1871-72.
2. The road from Kassalong up the Myoni Valley towards Gungaram, ditto in 1867-68 and 1868-69.
3. The road from mouth of Subolong to Kainda Tong, ditto in 1868-69.
4. The road from Rangamattee to Kainda Tong, in 1868-69 and 1871-72.
5. The road from Banderbun to Furwah, ditto in 1870-71 and 1871-72.
6. The road from Furwah to Kainda Tong, ditto in 1869-70.

These roads were all made either in connection with the expeditions or to open communications with frontier posts established to check Lushai raids.

4. The following works are proposed to be executed during the year 1874-75:—

A.—Constructing the road from Rangamattee towards Chittagong; cutting 240,000 cubic feet of earth from the hill near Rangamattee so as to make the road practicable for wheeled carts. Cost, Rs. 720.

B.—Raising three miles of road, by cutting 540,000 cubic feet of earth, and putting the same on the road (for Rs. 1,620) from Rangamattee towards Chittagong, where the land is low and marshy and nearly impassable during the rains.

C.—Cutting 500,000 cubic feet of earth from Manickcherry Moin so as to make the road passable for wheeled carts. Cost, Rs. 1,500.

D.—Constructing four bridges of first class wood for Rs. 3,200.

E.—Improving and widening the head-quarter road at a cost of Rs. 600.

F.—Constructing the road from Rangamattee towards Sirthay Tlang, the proposed head-quarter of the Frontier Force; total length 60 miles, out of which 20 miles of the above road will be made by cutting steep sides of hills, clearing jungle, uprooting stumps and roots of trees, and digging out weeds and sunn grass. Cost Rs. 10,000, at Rs. 500 a mile. This is the strategical road connecting Rangamattee with the frontier through Myoni.

G.—Constructing the road from Ruma, the head-quarter of Sungoo sub-division, towards Rangamattee; total length 66 miles, out of which 12 miles of road will be constructed (for Rs. 6,000, at Rs. 500 a mile) in the manner stated in para. supra. Owing to changes about to be introduced in the dâk arrangements between Rangamattee and Ruma, it will be advisable to devote some of the money estimated for this road to the construction of roads from Ruma to the Matamoree Circle and from Banderbun to the Kaptai Circle.

H.—It is proposed to enlarge the channel at Ootaun Chuttra, at a cost of Rs. 2,000, by cutting, blasting, and removing the rocks from the bed of the river, so as to make it passable for large boats, and thereby save Government a large amount of money in boat hire.

I.—Constructing a road from Wagga Cherra tea plantation to Chandergonah for Rs. 4,000, one-half of which amount will be paid by the owner of the plantation. The distance is only four miles as the crow flies, but the country is broken and precipitous.

J.—The construction of four village roads has been proposed in the budget estimate for 1874-75 (submitted with this office letter No. 151 R of the 1st September 1874), extending over 38 miles, total length, at a cost of Rs. 1,140, which will give free access to the head-quarters of Rangamattee and Sungoo sub-divisions from large villages and from places where plough cultivation is carried on to a great extent, and where at present there no roads exist.

K.—An estimate has been made to whitewash the revetment erected in 1872-73 on the side of Rangamattee head-quarter road, cost to be Rs. 250, and to deepen the well from 50 to 60 feet, mentioned in paragraph 2G. supra, and to whitewash the same for Rs. 500.

L.—Repairing three miles of road from Chandergonah towards Rangamattee for Rs. 100; twenty miles of road from Rangamattee towards Chittagong for Rs. 400; removing the débris and boulders from the hill sides on the above road for Rs. 400; and repairing 24 miles of road from Ruma, the head-quarter of Sungoo sub-division, towards Rangamattee for Rs. 480. These require no special explanation. They represent the periodical jungle-cutting required to keep the roads open.

M.—For establishment Rs. 2,100; for new tools Rs. 2,000, *vide* Commissioner's letter No. 812 of 11th October 1873; and for repairs of tools and unforeseen contingencies Rs. 490 have been proposed in the estimate, and call for no remark.

A. W. B. POWER, *Dy. Commr.*,
Vice-Chairman.

No. 422G.M., dated Chittagong, the 30th December 1874.

From—R. L. MANGLES, Esq., Offg. Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Department.

WITH reference to Government Circular No. 50 of the 23rd July 1873, and No. 51 of the 8th August last, I have the honor to submit the following report on the works of local improvement carried out in the Chittagong Division during the cess year 1873-74, and to forward herewith copies of the reports and the accounts of the District Road Fund for that year, which have been received from the districts (noted in the margin) of this division.

Chittagong, Noakholly, Tipperah, and Hill Tracts of Chittagong.

2. The Magistrate of the Chittagong district has furnished no report, but has simply forwarded the report submitted to him by the Executive Engineer. The reports submitted also by the Magistrates of the remaining districts are not so complete as they should be, and no information has been furnished by any of them as regards the working of the district Committees and other matters of importance. As my report is already overdue, I shall not delay its submission any longer, but will submit, when received, the further information and explanations called for from district officers on the points noticed hereafter.

3. The receipts of the year from tolls and cesses, &c., throughout the division amounted to Rs. 20,187-12-5, which, with the balance of Rs. 18,794-7-0, outstanding on the 1st October 1873, the miscellaneous receipts, amounting to Rs. 15,917-12-5, and the grant-in-aid from provincial funds of Rs. 74,850, made up a total sum of Rs. 1,29,749-15-10, available for works of local improvement in this division for the cess year under review.

4. The total expenditure of the year amounted to Rs. 70,309-0-1. Of this sum, Rs. 8,704-1-10 were spent in collection of the revenue and on miscellaneous accounts; Rs. 41,470-15 were laid out in original works; Rs. 15,938-15-4 in repairs; and a sum of Rs. 4,194 15-11 was refunded. The balance at the close of the year thus amounted to Rs. 59,440-15-9.

5. There is a discrepancy observable between the balance brought forward in the present accounts of the Noakholly district and that shown in those for the cess year 1872-73. The difference, viz., Rs. 2,646-13-4, represents the receipts from one per cent. road cess, and was afterwards added to the balance in October 1873, under instructions conveyed in the Accountant-General's Circular No. 288, dated 20th August 1873. Again, as regards these accounts, it is necessary to notice that Rs. 96-6-1 have been debited to the District Road Fund during the year on account of the travelling allowance of certain officers, as per accompanying copy of the Accountant-General's memorandum No. 2481T., dated 8th June 1874.

6. The balance, Rs. 630-14, at credit of deposits, which has been brought forward in the present accounts of Tipperah, was the amount held as deposits from the several ferry farmers as security for regular payment of their kists. This amount was spent in 1872-73, because, as has been explained, the sum at credit for that year was very small and insufficient to meet the expenditure of that year. The above sum has now been adjusted, and has consequently been deducted from the receipts of the cess year 1873-74.

7. I now proceed to notice certain details in regard to the works executed, expenditure incurred, &c., &c., in each district.

8. *Chittagong.*—The amount available for expenditure in the Chittagong district was Rs. 48,340-9-9. Of this amount, Rs. 27,236-14-11 were expended as follows:—

	Rs.	A.	P.
Establishment	450	2	0
Original works	20,791	5	2
Repairs	5,769	11	1
Miscellaneous	225	12	8

The balance remaining in hand thus amounted to Rs. 21,103-10-10.

9. All the works carried out in this district were executed under the superintendence of the officers of the Public Works Department, with the exception of the repairs to a few roads, which were carried out under the superintendence of tea planters; as, for instance, the repairs to the Fennoon road and the road from Ramoo to Cox's Bazar, which were executed under the supervision of Mr. Macalpine of Fennoon, and Mr. Windram of Ramoo, respectively.

10. The original estimate under the head of establishment amounted to Rs. 3,842. The details of proposed expenditure have been already furnished in the estimates submitted with this office letter No. 729, dated 19th December 1873, and need not here be referred to. But the amount expended under this head during the past year was on account of part salary of a local fund clerk and on account of a few small contingent charges only. Why the requirements originally deemed necessary under this head and provided for in the estimate have not been carried out, has not been explained. A reference has now been made to the Magistrate on the subject.

11. Of the sum of Rs. 26,465 estimated for on account of original works, Rs. 20,791-5-2 only were spent. Whether this diminution of expenditure has been owing to the works having been carried out at cheaper rates than originally estimated for, or whether it was owing to some of the works having been only partially carried out, has not been stated. A detailed explanation on the subject has been called for, and the Magistrate has been requested at the same time to state how each item of work has been carried out—whether in an efficient and satisfactory manner, or otherwise.

12. Of the total amount of Rs. 8,470 estimated for repairs, only Rs. 5,769-11-1 were spent. Of works originally estimated for, the following were not apparently carried out, viz. :—

Meetaserra feeder.	Towing paths.	Rangoonia road.

Why these works were omitted, and why, even excluding these, the charges have been below the estimates, has not been explained in any way. A full report, as above indicated, in regard to original works, has now been called for from the Magistrate.

13. The dry details as regards the extent of original works and repairs executed have been given by the Executive Engineer in his report herewith sent, and need not be here detailed again. The further report called for from the Magistrate, as above indicated, will be forwarded when received.

14. The large balance at the close of the year of Rs. 31,040-3-11 is partly owing to the fact that receipts exceeded the estimates by Rs. 9,086-12-9, and partly owing to the actual expenditure falling short of the estimated expenditure by about Rs. 15,865 11-5.

15. Pending further information and explanation from the Magistrate, I cannot think that the results are satisfactory. Roads and means of communications generally of all kinds throughout the district are few and of a very inferior discription; and it appears to me that no time should have been lost by the Magistrate in remedying matters, as far as possible, by expending all available funds in carrying out the improvements which are so greatly needed.

16. It appears from the Executive Engineer's report that he proposes to carry out the following works during the current year:—

(1.)—The widening of the Arracan road from the 33rd to 40th mile, and the putting up of two bridges with masonry abutments and two culverts at the 30th and 31st miles, respectively.

(2.)—Surface repairs to the Arracan road from the 1st to 33rd mile.

(3.)—Widening and straightening the Ramgurh road from 12th to 15th mile.

(4.)—Necessary repairs of the above road and the bridges from the 1st to 26th mile.

(5.)—The extension of the Hill Tract road for one mile, and repairs to the portion of the road already constructed.

(6.)—The extension of the Halishahar road for ¾ mile up to the village of Halishahar, and the protection of a part of the road from the encroachments of the river Kornofoolee.

(7.)—Strengthening the Boal Khalee sluice gate by means of angle irons.

(8.)—Clearance of a portion of the Boal Khalee canal.

(9.)—Deepening of the middle part of Bash Khallee canal, where silt accumulates by the meeting of opposite currents.

17. As information has now been received, *vide* Government order No. 7018, dated 12th instant, of the probable grants-in-aid which will be made for the current year, the Magistrate has been requested to submit the necessary detailed proposals and estimates for future works without further delay. I shall then, in consideration of the statements and reasons furnished, pass my remarks on the several future works proposed.

18. The amount available for expenditure in the Tipperah district was Rs. 14,658-6-2. Of this amount Rs. 10,214-9-3 were expended as follows, leaving a balance of Rs. 4,443-12-11:

	Rs.	A.	P.
Establishment and contingent charges	6,398	8	10
Original works	1,627	4	0
Repairs...	1,735	11	5
Miscellaneous	253	1	0

19. It will be seen that by far the largest of the sums above given was expended in the payment of the cost of establishment and of contingent charges connected therewith. This expenditure was of an extraordinary character, and was necessary for the preparation of road cess registers and the valuation papers under the Road Cess Act, and exceeded the estimates by Rs. 216 only.

20. The estimates for original works and repairs were drawn up on the understanding that an additional grant of Rs. 20,652, applied for by this office letter No. 255, dated 18th September 1873, would be sanctioned; but as this application was not granted, little could be done with the small balance available after payment of establishment and cost of constructing and furnishing a bungalow for the Road Cess Committee.

21. The money available appears, however, to have been judiciously spent in repairing some of the existing roads, though, looking to the comparatively large balance at the close of the year, more might have been done in this particular. The details have been fully given by the Executive Engineer, under whose superintendence all the works were carried out. The Magistrate, however, has failed to report on the manner in which the works were executed, and will be now requested to do so.

22. The preliminary proceedings and road cess valuations having been now completed in this district; the tax will be at once levied from the commencement of the current cess year. The amount available for future expenditure will be Rs. 1,01,423-6-11 per annum. Estimates and proposals for the smaller works to be carried out during the current year,

amounting to Rs. 52,849-2, have been already approved by me; and proposals and estimates for extending the Brahmunberiah and Luksham roads—the two most important and urgent requirements of the district—at a cost of Rs. 25,991-4 and Rs. 19,201, respectively, have been submitted by me for the approval of Government through the Superintending Engineer.

23. As has been frequently represented by the Magistrate, the existing staff at the disposal of the Public Works Department is altogether inadequate for superintending the extensive operations now about to be commenced in this district. The question as regards the agency to be employed in future under the Road Cess Committee is still pending before the Government. Meanwhile the Superintending Engineer has been requested by me to move the Government to appoint some additional overseers to assist the Executive Engineer, so that none of the present valuable time for undertaking the works may be lost.

24. In the district of Noakholly the amount available for expenditure was Rs. 21,083-7-10. Of this amount, Rs 18,628-7-10 were expended, leaving a balance of Rs. 2,455. The expenditure under the several heads was as follows :—

	Rs.	A.	P.
Establishment	267	7	0
Original works	10,567	7	8
Repairs	7,752	7	2
Miscellaneous	41	2	0

25. As in the Chittagong district, the amount spent in establishment, viz, Rs. 267-7, represents merely the part salary of the local fund clerk. Under the head of original works, the chief expenditure was on account of compensation for land taken for the Dewangunge and Chapprassee hât roads, leaving a balance of Rs. 930-9-4 only for other petty works.

26. From the details given by the Magistrate and the Executive Engineer it would seem that extensive repairs had been carried out on all the existing roads. As regards the repair of the road from the Noakholly station to Roipore, the Magistrate notices that the repairs were in parts imperfectly carried out; but as he has failed to furnish any information in regard to the manner in which other repairs and works were carried out, he has now been requested to do so

27. The works proposed to be carried out during the current year have been mentioned by the Magistrate and need not be again noted by me. As the probable grant for the year is now known, the Magistrate will be requested to submit at once a more detailed report on the subject, together with the necessary estimates. The most urgent and important work in the district appears to me to be the completion of the Laksham and Comillah road, and as much as possible of the available funds should be, I think, allotted for the prosecution of this work.

28. The amount available for expenditure in the Chittagong Hill Tracts was Rs. 25,503-15-1. Of this amount, Rs 14,132-10 were expended as follows, leaving a balance of Rs. 11,371-5-1 :—

	Rs.	A.	P.
Establishment	990	0	0
Contingent charges	22	6	0
Original works	8,284	14	0
Repairs	681	1	8
Miscellaneous, including refunds ...	4,154	4	2

29. The amount originally estimated for establishment aggregated Rs. 1,350, of which, however, Rs. 990 only have been actually expended in the payment of the special allowance made to Mr. Rozairo, Inspector, under whose superintendence all the works in the Hill Tracts are carried out, and of the salaries of the two local fund clerks.

30. The amount estimated for original works was Rs. 17,938-10-2, of which only Rs. 8,284-14-2 have been actually expended during the year. It is not clear from the report submitted by the Deputy Commissioner why the cost of the work already carried out falls short of that entered in the original estimates which were submitted to Government by this office No. 729, dated 19th December 1873, and which contain the details of the works which were proposed to be executed in the Hill Tracts. An explanation on this subject has now been called for.

31. The chief expenditure under the heading of original works was that incurred in constructing a road fit for the passage of carts over a hill situated on the road from Chittagong to the head-quarters of the district, and in the removal of the rocks at the rapids which have to be crossed in passing from the head-quarters to Demagiree, an important station on the frontier.

32. The amount estimated for repairs was Rs. 2,800, whilst only Rs. 681-8 have been expended. An explanation regarding this also has been called for, as well as regarding the manner in which the several works in detail have been carried out under the superintendence of Mr. Rozairo.

33. A pernicious system of making large advances for works has obtained in this district, and it appears that, of the advances made during the year, no less than Rs. 14,447-0-9 were not worked out, and remained outstanding at the close of the year. The Deputy

Commissioner has already been directed not to make any fresh advances without my special sanction, and to realize or work off all outstanding balances of every description. As he has failed to offer any explanations in regard to the sum above noticed, he will now be required to submit a detailed report on the subject.

34. Details and estimates of the works to be carried out during the current year have been already submitted. The most important of these works, and which should be pushed on as rapidly as possible, are as follows:—

1. Construction of the road from Chittagong to Rangamattee, the present head-quarters of the district.
2. Construction of the road from the head-quarters of the Hill Tracts towards Sirthay.
3. Construction of the road from the head-quarters of the Sungoo sub-division towards the head-quarters of the sudder sub-division of the Hill Tracts.
4. Enlarging the channel at Ootan Chuttra, between Rangamattee and Demagiree.

No, 127G.M., dated Chittagong, the 1st March 1875.

From—R. L. MANGLES, Esq., Offg. Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Department.

IN continuation of my letter No. 422G.M., dated the 30th December 1874, on the subject of the administration of the district road funds in the Chittagong Division during the cess year 1873-74, I have the honor to submit the following supplementary report as promised therein.

2. *Chittagong.*—In the district of Chittagong five meetings of the Road Committee were held to carry on general business.

3. The late Magistrate and Chairman reports that the members took scarcely any interest or active part in the proceedings; that they were of little or no assistance; that no original action was taken by them; and that they merely approved of what was suggested to them by the Chairman. Mr. Kirkwood, however, the present Magistrate, differs from the opinion expressed by Mr. Veasey on the subject, and states that, so far as his experience goes, he has had occasion to form a much more favorable opinion of the committee.

4. As regards the unexpended balance mentioned in paragraph 10 of my report above referred to, the Magistrate explains that the savings shown under the head of establishment are attributable to the fact that "no charge was made to the district works on account of provincial establishment of the Public Works Department, as was anticipated when the budget estimate for district works was submitted, except the pay of a local fund clerk and a few small contingent charges," and that this procedure was enjoined by the orders of Government, received subsequent to the preparation of the budget estimate.

5. Regarding the unexpended balance referred to in paragraph 11 of my previous report, the Magistrate of Chittagong states that the total amount estimated for original works was not fully expended, owing to the very early setting in of the rains during the year 1874, which prevented the completion of many works sanctioned for the year.

6. The present Magistrate of Chittagong, having only recently taken charge of the district, expresses his inability to give his opinion as to the manner in which each work was carried out during the year under report; nor is his predecessor, it is stated, in possession of any information on the subject.

7. Adverting to paragraph 12 of my report, the Magistrate states that no repairs were effected to the Meetasura road, owing to the early setting in of the rains, as above mentioned; that the repairs of Boalkhally towing paths could not be taken into hand, as the estimate for deepening the Boalkhally canal was not sanctioned during the year, the spare earth of which was to have been used in repairing these towing paths; and that no repairs could be made to the Rangoma road, as there was no Government land adjacent to it from which the requisite earth could be taken. But it is stated that the owners of the adjoining lands have now consented to earth being taken up for repairs of this road without any compensation.

8. *Tipperah.*—During the cess year 1873-74 eight meetings of the District Road Committee were held in the Tipperah district, and the number of members who attended was, it is reported, good, being generally about half the total number.

9. With reference to paragraph 21 of my report, the Magistrate reports that the works performed in the district consisted of petty repairs, which were done, as has already been reported, under the immediate supervision of the Executive Engineer. On the Laksham road the work consisted of the repairs of sundry masonry bridges and the filling up of places where the road had been worn away during the previous rains. The repairs done to the other two roads, viz., Companygunge and Brahmunberiah roads, are also stated to have been of a similar nature. The Magistrate reports, after personal inspection, that the repairs to the above mentioned roads have been properly executed.

10. The only original work undertaken during the year in the Tipperah district was the erection of the Road Cess Committee Bungalow, which, it is reported by the Magistrate, has also been completed in a satisfactory manner.

11. *Noakholly.*—During the cess year 1873-74 only two meetings of the District Road Committee were held in the Noakholly district, and the number of members who attended, it is reported, was hardly sufficient to form a quorum. As the members took little or no

interest in matters of local improvement, the Chairman states that he intends to effect a thorough reformation in the constitution of the committee.

12. The Chairman was unable to state in detail how each item of work was carried out in the district. He states, however, that he has inspected most of the roads upon which repairs have been carried out; that they have been properly done; that the expenditure appears to have been worked up to, and that the same remarks apply to the original works completed.

13. *Hill Tracts.*—The Deputy Commissioner of the Hill Tracts reports that the works entered in the original estimates could not be carried out to the full extent, owing to the advances having been made from the Road Fund under special circumstances to the following distressed hill people:—

1*st.*—Van Whooya, Syloo chief.

2*nd.*—Myoni Tipras.

3*rd.*—Chuckmas and other hill men.

The Deputy Commissioner further explains that the works mentioned in paragraphs 31 and 32 of my previous report could not be executed to the full extent of the original estimate for the following reasons. Van Whooya, the Syloo chief, was allowed time to repay the loan under the orders of Government; the Myoni Tipras could not work off their advances, owing to an outbreak of cholera; and the Chuckmas and others received their advances so late as June and July last.

14. The following statement, submitted by the Deputy Commissioner, shows the amount actually recovered in cash and the estimated amount worked off by labour from 1st October 1874 to 31st January 1875.—

Number.	Particulars.	Amount. Rs.	A.	P.	Total.		
1.	From Van Whooya—By cash from sale of rubber	350	0	0			
2.	From Myoni Tipras—Cash	1,334	2	8			
3.	From Chuckmas and others—Cash ...	2,971	0	0			
					4,665	2	8
4.	From Myoni Tipras—Estimated recovery in labour	3,300	0	0			
5.	From Chuckmas and others ..	1,500	0	0			
					4,800	0	0
	Total				9,465	2	8

15. I have lately visited the Hill Tracts. As far as I have seen, it appears to me that the roads of this district have not been well or advisedly laid out; and I have requested the Deputy Commissioner not to undertake the construction of any new roads, or to commence any extension or costly repairs to any of the existing roads, until the line of the proposed or existing road has been properly surveyed and reported on by a scientific officer.

Annual Report of District Works in the Chittagong District for the last road cess year ending 30th September 1874.

1. *Arracan Road.*—This road has been widened to 16 feet on the top from the south bank of Hungur Nullah, *i.e.*, 30th mile to Sirdar's Diggy, and from the Nullah Goleeah Khal to the east of the Boulia Nullah, and turfed from 30th to 33rd mile.

The masonry work of bridge No. 41, one hundred feet span on the 30th mile, has been completed, and wood-works are being conveyed to site of work. It is expected the bridge will be completed in a month or two. It is proposed that the road will be widened in 1874-75 from the 33rd to 40th mile, and two bridges will be constructed with masonry abutments and wood-work, and two culverts on the 30th and 31st miles, respectively. It has also received surface repairs from mile-post No. 1 to mile-post No. 27, and is now in good order; seven wooden bridges have been repaired. The construction and repairs of 223 bamboo bridges in the Arracan, Gurjoneeah Hill Tract, Juldee, Bashkhalee, and Parkee roads, have been completed. Surface repair to the road from 1st to 33rd mile will be made, and old wooden bridges will be repaired and coal-tarred during the current cess year.

2. *Ramghur Road.*—The widening and straightening of this road have been carried out from 10½ to 12 miles, being in length a mile and half, having a width of 16 feet at top; and turfing has been done to the same. Two new wooden bridges, with masonry abutments and wing walls, have been completed on the 10th mile. Surface repairs have been done to the road between 3½ to 26th mile, being 22¾ miles; and 14 wooden bridges have been repaired. It is proposed to widen and straighten the road from 12th to 15th mile during the current year. Necessary repairs to the road and bridges will also be made from 1st to 26th mile.

3. *Hill Tract Road.*—This road has received surface repair from the junction of the Ramghur road to Futticka, being 2¾ miles. The road will be extended in this year from Futticka to Goheera, a distance of one mile.

The wooden bridges will be coal-tarred, and the old road will be repaired in the current year.

4. *Moishkhallee Strand Road.*—The road has been constructed from the junction of the Madarbaree road to Gohaildenga, being ¾ mile in length, and 16 feet at the top, and two wooden bridges, with masonry abutments and wing walls, have been built to the same: the road and bridges are now in good condition. The road will be extended during this year up to Abdool Maloom's road at Halleeshohur, being ¼ mile. It is proposed to put stones on the side of the old road near Gohaildenga, in order to prevent the road being washed away by the river Kurnafoolee, where it is too close to the river.

Surface repairs of the following minor roads have been completed, and two bamboo bridges have been put in on the Mahajun's haut road:—

5. *Bakoleeah, Khaloorghât, Naseerabad, Halleeshohur, Moishkhallee towing path, Tipperah Pass, Robertgunge, Mahajun haut, Sakeerapole, Dhulghât, Khurroona, Chandpore, Poroykerah, and Annoarah roads.*

6. *Boulkhallee Sluice-gate.*—Angle irons have lately been received from Calcutta for strengthening the gate, which will be fixed after the rains, when the flooring also shall have to be raised a little.

7. *Boulkhallee Canal.*—This canal will be cleared out about a mile and half in next January.

8. *Banskhallee Canal.*—This canal has been deepened, and silt excavated for about two miles; a portion in the middle, about 400 running feet, which could not be completed in consequence of rains setting in last year, will be deepened during the next working season.

The minor roads, and the bridges thereon, will receive necessary repairs in this year, and two wooden bridges on the towing path on the banks of the Boulkhallee Nulla repaired.

No. 213.—*Declarations.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz., for a distributary channel called the Bhujpur distributary, to leave Buxar Branch Canal at mile 6, passing through or near (in Pergunnah Danwar) Mouzas Sarkanda, Snara, Raghunathpur, Ghataruá, Chitauná, Bhatauli Kunjhi, Udaipur, Chaita, Ingha Chaita, Baraganw, Buzidpur, Bain Sagar, Raman Dihra, Mani, Ghesuá, Kunda Dih, Gopalpur, Rairya, Dhangain, Nauhar, Balihar, Barun, Narayanpur, Khalisá Narayanpur, Kalyánpur, Dawat, Babhnaul, Simri (in pergunnah Bhujpur), Mouzas Rup Sagar, Amirpur, Nawá Nagar, Atmi, Bhadar, Dubauli, Athar, Pandepur, Kachanyaon, Dakhinyánw, Mathilá Mugánw, Kopwa, Karaunj, Nikhurá, Dumránw, Mahraurá, Khanauli, Bhajpur, all in the district of Shahabad, it is hereby declared that for the above purpose a strip of land, measuring 23 miles in length and varying from 50 feet to 350 feet in width, and containing 410 acres of land, more or less, are required within the aforesaid villages in the district of Shahabad.

The plans of the said distributary may be seen in the Office of the Executive Engineer, Buxar Division, at Buxar during office hours on any day, authorized holidays excepted.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No 214.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a distributary (called Balthari distributary) in connection with the main western canal in its 17th mile, and passing through or near Mouzas Kotarrá, Aruhin Bálápur, Panjár, Gokhulpur, Girdharpur, Mehmade, Babhni, Tenduá, Sakrowli, Panapur, Pipra, Rampur, Pipri, Jagdatpur, Nado, Kuthuá, Chand Dihrá, Ratti Chak, Gopalpur, Khurhuriá, Besári Misrauli, Khairádeo, Sat Sá, Balthari, and Bedaulia, all in pergunnah Sasseram, zillah Shahabad, it is hereby declared that for the above purpose a piece of land, about 77,320 feet in length and from about 80 to 180 feet in width, and measuring about 230 acres 1 rood 1 79 poles, more or less, is required as demarcated by the Public Works Department, Irrigation Branch officers, in or near the aforesaid villages in the district of Shahabad.

The plans of the said distributary may be seen in the Office of the Executive Engineer, Dehri Division, at Dehri on Sone, on any day (holidays excepted) during office hours.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 215.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a distributary called (Khoramábád) in connection with the main western canal in its 21st mile, and passing through or near Mouzas Lodhi, Doriyánw, Syedálad, Kuhlánw, Rampur Jain, Chitwár, Kithiri, Samanthá, Barailá, Mowni Sandihrá, Bahuárá, Jigná, Tekári, Panreri, Ibrahimpur, and Khoramábád, all in pergunnah Sasseram, zillah Shahabad, it is hereby declared that for the above purpose a piece of land, about 56,800 feet in length and from about 60 to 260 feet in width, and measuring about 175 acres and 3·42 poles, more or less, is required as demarcated by the Public Works Department, Irrigation Branch officers, in or near the aforesaid villages in the district of Shahabad.

The plans of the said distributary may be seen in the Office of the Executive Engineer, Dehri Division, at Dehri on Sone, on any day (holidays excepted) during office hours.

BOARD OF REVENUE, L. P.,
FORT WILLIAM,
The 7th May 1875.

HIGH COURT NOTICES.

Circular Order and Memo. by the High Court of Judicature at Fort William in Bengal.

Circular Order No. 3.

Dated Calcutta, the 8th May 1875.

HIGH COURT.
ENGLISH DEPARTMENT.
Cosl.

MORE than a year having now elapsed since the promulgation of the rules made under the Court Fees' Act, and the Court being desirous of judging how the rules have worked, and in what respects they need improvement or expansion, all District Judges and Judicial Commissioners under the Court's authority are requested to submit, within the first week in July next, a careful report on the subject.

2. The Court desire to be informed as to the operation of the rules—

1*st*.—With reference to the interests of suitors.

2*nd*.—As to official convenience.

3*rd*.—From the financial point of view.

3. Under the first of these heads, it should be shown whether any injurious effect has been produced, or complaint occasioned, by alterations in the amount of fees as compared with the practice superseded by the rules; whether a resort to process of any particular kind has been promoted or discouraged by the fees imposed, with especial reference to the charges, some of them new, imposed on processes requisite in execution of decree.

4. Under the second head, it should be stated how far the rules have worked smoothly, regarded merely as a code of office regulations; whether they have presented any real difficulties to fairly intelligent officers; whether they have been found to admit of easy check and control by superior authority; whether the fees are considered as bearing a due proportion to the importance or difficulty of the services to which they severally apply; and whether they have in any instance a tendency to throw excessive labour on officers who are not paid out of the fee fund, or with reference to it.

5. As bearing upon this inquiry, the Court refer to the very general complaint that improper advantage is taken of the uniform fee of Rs. 2 or Re. 1 on every summons, without reference to the number of persons named therein, and that witnesses in unreasonable numbers are cited either recklessly or with a view to some grievance being founded on the failure of such witnesses to appear at the trial.

6. Upon the third head of inquiry, the Court desire to be informed, as fully as possible, of the income derived from the fees and the expenditure to be set against them. While on the one hand the Court have not considered that these fees ought to be, in any important sense, a source of revenue, on the other, it is clear that the Government ought to be protected against loss, not only on the whole, but also in any given direction.

7. It is material to know whether the salaries and remunerations fixed for the peons and the superior officers employed in the service or execution of process, have been found adequate in both the higher and the lower grades for the purpose of attracting and retaining in the service men duly qualified for the duties which they are called on to perform, and whether the circumstances of particular districts demand an increase, or permit a reduction in the salaries appointed, which, as they stand, are applicable to all districts.

8. The Court desire particularly to be informed how far it has been practicable to appoint no process server who cannot read and write, how many old officers of this kind, *i.e.* unable to read and write, have been retained, and for what reason. And opinions are invited as to a suggestion which has been made that, on the establishment of every superior Court, there should be a limited number of peons of a superior class, and bearing a different name for the performance of the more responsible duties devolving on these men, such as the attachment of property and arrest of judgment-debtors in large suits, and the like.

9. The Court expect that District Judges will treat the subject with the care which its importance demands, and will render valuable assistance in preparing revised rules for acceptance by the Government.

10. It will be convenient if, in making their reports, the District Judges follow strictly the order here indicated.

Circular Memo. No. 8.

Dated Calcutta, the 28th April 1875.

HIGH COURT.
ENGLISH DEPARTMENT.

All District Judges and Judicial Commissioners are requested to report, for the information of the Court, how the rules laid down in Circular Order No. 21, dated 18th August 1873, have worked, both as regards the obtaining of better sales, and in the way of preventing abuses, in respect more particularly of the smaller holdings sold in execution; and whether, in such cases, complaint has been made.

By order of the High Court,

W. M. SOUTTAR, *Registrar.*

Sheriff's Office, the 12th May 1875.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1875, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the seventh day of June next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Session be then and there to prosecute.

EDUCATIONAL NOTICES.

1. THE Calcutta Medical College Session of 1875-76 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificates of lectures and hospital attendance of the college are recognized by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

The Hymns of the Rig-Veda, in the Samhita and Pada Text, by Professor F. Max Müller, M.A., in two Volumes. *Price Rs.* 24; *packing and postage, Re.* 1-12.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the schools and colleges in India, and though at present a scholar-like knowlege of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars, and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

ABKAREE REVENUE.

THE HON'BLE MR. DAMPIER said, it might be in the recollection of those members then in Council, that in 1873 Mr. Beaufort introduced two Bills for

the amendment of the Excise Law. Both Bills were referred to a Select Committee, and on both the Select Committee had reported; the one was passed by the Council, and the consideration of the other was postponed in accordance with the following recommendation of the Select Committee:—

"The other Bill proposes to amend the Excise Law of Calcutta and of the mofussil in various particulars. It appears to us that such amendments, with certain modifications which we have made in the Bill, might be introduced with advantage; but these are not matters of pressing importance, and our attention has been drawn to various other matters relating to the law and the system of excise now in force, the consideration of which would involve much time and research. We think, therefore, that the further consideration of this Bill should be postponed until sufficient materials for a complete revision of the law have been collected, and we recommend that it be not passed until the whole law has been reviewed."

Hon'ble members were aware that a review of the system of administration of Abkaree in Bengal had taken place accordingly. Mr. Money's exhaustive Minute, and the correspondence which had passed on it between the Governments of India and Bengal, left no room for doubt as to what was the declared policy of the Government in its Abkaree administration. The papers had been recently published in the Gazette. The outcome of that discussion had been that certain amendments were considered necessary in the law,—generally in the direction of strengthening the hands of the executive in preventive and restrictive measures.

Mr. Money prepared a draft Bill which was printed amongst the documents in the Gazette, and which, it would be seen, contained most of the amendments which the Select Committee of this Council had before them and dealt with. But certain other amendments had also been suggested, which Mr. Dampier proposed to lay before the Select Committee for their consideration. Two only of these were so important as to deserve a few words in this place. It would have been noticed in the correspondence that there was an impression that chemists and druggists, under color of their business, sold liquors, not for medicinal purposes, but for ordinary consumption. He had prepared certain clauses, which he would lay before the Select Committee, for the purpose of placing such sales under restriction. The plan was to compel chemists and druggists to register such sales, making the registers open to inspection. The idea was taken, as Mr. Money said in his Minute, from a draft laid before the legislature of Massachusets.

The second novelty which had been suggested was that contained in a letter from Mr. McEwen, a Judge of the Small Cause Court at Calcutta, addressed to the Government. This had already attracted some public attention. The principle of the measure which he suggested was that no debt for liquor supplied should be recoverable in court, unless the quantity supplied on the occasion amounted at least to the specified minimum value, exception being made in favour of residents in hotels. The result of this measure would be that no sale by the glass on credit would be made except to approved and trusted customers. Mr. McEwen told the Government, in his letter, that cases for the recovery of such small debts were very frequent in the Small Cause Court, and chiefly against Europeans. The provisions he suggested were taken from the English Statute which was known as the "Tippling Act." Mr. Dampier had considered the question a good deal, and he must say that, however good the provision might be for the circumstances of England, doubts seemed to gather more and more thickly round the question whether any such provision would be suited to the circumstances of this country. He should ask the President to allow Mr. McEwen's letter to be published in the Gazette, and the matter would come before the Select Committee for their consideration.

The Select Committee which reported on this Bill consisted of Mr. Beaufort, Mr. Schalch, Mr. Wyman, Rajah Jotendro Mohun Tagore, and Moulvy Abdool Luteef, out of whom (Mr. Schalch) only remained in the Council. It was necessary, therefore, to reconstitute the Select Committee. He found that the Select Committee had reported; therefore his motion would be that the Bill be recommitted for consideration, and that the Select Committee consist of the following

members—the Hon'ble Mr. Schalch, the Hon'ble Mr. Hogg, the Hon'ble Baboo Doorga Churn Law, the Hon'ble Baboo Kristo Das Pal, and the mover, Mr. Dampier, who was now in charge of the Bill.

The motion was agreed to.

CALCUTTA MUNICIPALITY.

The Hon'ble Mr. Hogg moved that the time prescribed for the presentation of the report of the Select Committee on the Bill to consolidate and amend the law relating to the municipal affairs of Calcutta be extended for two months, which would extend the time from the 3rd May to the 3rd of July.

The motion was agreed to.

SETTLEMENT OF DISPUTES REGARDING RENT.

The Hon'ble Mr. Dampier moved that the time prescribed for the presentation of the report of the Select Committee on the Bill to provide for enquiry into disputes regarding the rent payable by ryots in certain estates, and to prevent agrarian disturbances, be extended for two months. One month was allowed to the Committee, and the first thing the Committee did was to invite, by letter, the opinion of such officers as were likely from their experience to be able to give valuable advice. The Bill had also been published, and hon'ble members were aware that it was a subject which was exciting very much attention. It would not be of any use for the Select Committee to begin to consider the Bill until the opinion of the public bodies who might be expected to address the Council, and the reports of the chief officers of the Government, were received. One or two reports had just come in, which were drawn up in a way which showed that officers were taking very great interest in the matter. It would take at least two months before the Committee could present their report to the Council.

The motion was agreed to.

MOFUSSIL MUNICIPALITIES.

The Hon'ble Mr. Dampier moved that the time prescribed for the presentation of the report of the Select Committee on the Bill to amend and consolidate the law relating to municipalities be extended for three months. No special time had been named in this case, and therefore, according to practice, one month was assumed to be the time. The month was well over, and there was no prospect of the Select Committee being able to touch the Bill, at any rate for two or three weeks.

Perhaps the Council would allow him to take the opportunity of mentioning what was going on in the working of the Select Committees. The Committee on the Survey Bill had reported, and the members would have seen the report published in the Gazette. The publication of the report might elicit some further remarks for the consideration of the Council. The Irrigation and Canal Navigation Bill, the Select Committee would have been in a position to report upon in a day or two, but they thought it right to postpone their report, as Colonel Haig, the Secretary in the Irrigation Department, was returning to his post in a few days, and it would be better to have the advantage of any suggestions he might wish to make to the Select Committee than to receive them after the report of the Select Committee had been presented to the Council. As soon as Colonel Haig came back, the Committee would report, and the President would be asked to allow the report and the Bill, as amended by the Select Committee, to be published in the Gazette. Thus these two Bills (the Survey Bill and the Irrigation Bill) would have been about a month before the public by the first week of July, when he hoped the Council would take them up and deal with them. Mr. Dampier knew that Mr. Hogg's Committee had also made good progress with the Calcutta Municipal Bill. Of the Agrarian Disputes' Bill he had said that the Committee must wait until they got a certain number of reports which they expected before they could properly deal with it. That was the next Bill he should like to take up in Select Committee. Meanwhile, he should ask the Committee to take up this Abkaree Bill, on which he

had spoken that day. After that was the Mofussil Municipal Bill; that, he hoped, they should be able to take up in about a month.

He had made those remarks, not only for the information of the Council but he hoped that the public bodies and the officers of Government who were going to favour the Committees with any suggestions would note the programme and endeavour to send in communications in the order he had mentioned, so as to facilitate matters for the Select Committee. He thought the Bills he had mentioned would find occupation for hon'ble members of Select Committees, at the rate of three or four meetings a week, for the next two or three months. Then there would be the Bill for the Partition of Estates, the Registration Bill, and several other Bills which formed part of the year's programme; and as there seemed to be a growing opinion that the holidays were too long, perhaps some hon'ble members would like to employ their leisure time in the holidays in pushing on these Bills. However, there was time enough to arrange what should be the plan of operation after the Municipal Bill should have been dealt with.

The motion was agreed to.

The Council was adjourned to a day of which notice would be given.

AMALGAMATION OF THE SUBORDINATE EXECUTIVE SERVICES IN THE REGULATION AND NON-REGULATION PROVINCES.

RESOLUTION.

GENERAL DEPARTMENT.—SECTION B.

Calcutta the 31st May 1875.

READ—

General Department B. Proceedings for December 1874, Nos. 1-2, and for April 1875 No. 1, regarding a proposal for amalgamating the subordinate executive services in the regulation and non-regulation provinces under this Government.

Read also—

Letter to the Government of India in the Home Department, No. 470V.S., dated the 11th March 1875, requesting sanction to a modified proposal for amalgamating the subordinate executive services.

Also—

Letter from the Government of India in the Home Department, No. 423, dated 30th April 1875, giving cover to a resolution, dated the 20th idem, from the Government of India in the Financial Department, sanctioning the above proposal.

HITHERTO there have been two distinct branches of the subordinate executive service under this Government. In the regulation districts the officers have been called deputy magistrates and collectors, and in the non-regulation districts extra assistant commissioners; and appointments to, and promotions in, these two branches have been hitherto separately made.

2. As the constitution of Assam into a separate administration, and the transfer of the civil extra assistant commissioners to the class of moonsifs, to which they formerly belonged, has greatly reduced the number of extra assistant commissioners employed in the non-regulation provinces under this Government, and as practically the duties required of this service are identical with what the regular subordinate executive service has to discharge in the regulation districts, it was deemed expedient to amalgamate the existing extra assistant commissioners with the deputy magistrates and deputy collectors of the regulation provinces of Bengal. The Government of India was accordingly asked to accord their sanction to the measure, and it was at the same time pointed out that, if the principle was approved, the scheme might be carried out with some improvement and advantage to the subordinate executive service generally, by abolishing some of the lower paid appointments, and by creating some new appointments of higher salary; and this, too, without causing additional expense to Government.

3. The Government of India have now sanctioned the amalgamation of the two branches of the subordinate executive service in Bengal, as well as the creation of three new appointments in the first grade of deputy magistrates and deputy collectors on Rs. 800 per mensem.

4. Instead of 182 deputy magistrates and deputy collectors and 24 extra assistant commissioners, or 206 officers in all, as at present, there will in future be 201 deputy magistrates and deputy collectors.

5. As vacancies occur, one appointment of Rs. 700 in the present 2nd grade and six appointments of Rs. 250 in the 7th grade of extra assistant commissioners, as well as one appointment of Rs. 200 in the present 6th grade of deputy magistrates and deputy collectors, will be absorbed; and from the savings thus effected the three new appointments of deputy magistrates and deputy collectors of the 1st grade will be created.

6. The amalgamated list when these changes are effected will stand as shewn below :—

	Deputy Magistrates and Deputy Collectors.		Extra Assistant Commissioners.		Total.
1st grade on Rs. 800	3	+	1	=	4
2nd „ „ 700	10	+	0	=	10
3rd „ „ 600	17	+	1	=	18
4th „ „ 500	27	+	3	=	30
5th „ „ 400	40	+	5	=	45
6th „ „ 300	45	+	7	=	52
7th „ „ 200	42	+	0	=	42
	184	+	17	=	201

7. The amalgamation of the two services will be carried out at once, with effect from the 1st of June 1875, and in the following manner:—

(*a*).—Mr. C. W. Wilmot, Extra Assistant Commissioner of the 1st grade, on Rs. 800 per month, will, for the present, be the only officer in the new 1st grade of deputy magistrates and deputy collectors. Three further appointments will be made to this grade from time to time as funds become available from the abolition of the eight appointments already referred to.

(*b*).—There being no officer at present in the 2nd grade of extra assistant commissioners on a salary of Rs. 700 a month, this appointment will be now abolished, and the 2nd grade of deputy magistrates and deputy collectors will comprise the deputy magistrates and deputy collectors of the present 1st grade, arranged in their present order.

(*c*).—The new 3rd, 4th, 5th, and 6th grades of deputy magistrates and deputy collectors will consist of the extra assistant commissioners of the abovenamed grades and of the deputy magistrates and deputy collectors who are at present in the 2nd, 3rd, 4th, and 5th grades. Each officer from among the present extra assistant commissioners will be placed with reference to his present salary in the corresponding grade of deputy magistrates and deputy collectors, and his position in the grade will be fixed with reference to the date of his appointment to the grade of salary.

(*d*).—The 7th grade of deputy magistrates and collectors will consist of the extra assistant commissioners of the 7th grade, who now draw Rs. 250 per mensem, and the deputy magistrates and deputy collectors of the present 6th grade, who draw Rs. 200 per mensem only, and the relative positions of these officers in this grade will be fixed in accordance with the dates of their appointment and of passing the departmental examinations. This grade will, for the present, consist of 43 deputy magistrates and six extra assistant commissioners, or 49 officers in all, *i.e.* seven officers in excess of the number now sanctioned. As vacancies occur, the six appointments of extra assistant commissioners and one of deputy magistrates and deputy collectors will be absorbed, as explained in paragraph 5 of this resolution. The six extra assistant commissioners will draw, until promoted to a higher grade, Rs. 200 as pay and Rs. 50 as personal allowance.

8. In the same manner the acting extra assistant commissioners, now five in number, will be classed with the acting deputy magistrates and collectors. But from the 1st of June next the acting extra assistant commissioners will be entitled to draw Rs. 200 only per mensem, instead of Rs. 250 as at present.

ORDER.—Ordered that a copy of this resolution be forwarded to all commissioners for information and communication to the officers concerned, and to the Accountant-General for information and guidance.

Ordered, also, that a copy of this be forwarded to the Board of Revenue for information.

Further, ordered that a copy of this resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

R. L. MANGLES,
Offg. Secy. to the Government of Bengal.

ABKAREE SYSTEM IN BENGAL.

GOVERNMENT OF BENGAL.—LEGISLATIVE DEPARTMENT.

THE following further papers relating to the question of Abkaree administration are, by order of the President, published for general information:—

From—R. S. T. MACEWEN, ESQ., Judge, Calcutta Court of Small Causes, to the Secretary to the Government of Bengal, Revenue Department,—dated Calcutta, the 15th May 1875.

IN 1873 I addressed a letter to the Secretary to the Legislative Council, a copy of which, for easy reference, I have the honor to annex, suggesting the introduction of a section into the Abkaree Bill, then before the Council, prohibiting the recovery in Court of small debts for liquor sold and consumed on the premises. The Bill was not then proceeded with, but as it is likely shortly to come again before the Council, in a more comprehensive form, I take the liberty of renewing the suggestion previously made, for the consideration of His Honor the Lieutenant-Governor.

2. The object of the English law is very clear. The first provision effectually prevents credit being given for small quantities of liquor consumed on the premises: for no man can drink, at one time, up to the value of £1, unless he drinks the most expensive wines. The second provision is obviously meant as a check to prevent any abuse of the first, as, otherwise, a man might send as often as he liked to the tavern for small quantities, and consume the same in his own house.

3. The "Tippling" Act, as its name implies, was intended to prevent tippling by certain legitimate means. It is for the benefit of that large class of persons who can only afford to buy small quantities of liquor at one time; and the law says that if the shop-keeper can't get cash, he runs the risk of not being paid at all. The intention is to discourage dram-drinking and drunkenness. It may not be generally known, but the fact is that a very large and demoralizing business is done in Calcutta by the sale on credit of small quantities of liquor consumed on the premises. The "scores" so run up are sued for, and although the limitation is now only one year, decrees for considerable sums are obtained. I will give one instance of the working of the present system. On *one* day within the last month, I had before me seven suits by the same plaintiff, the keeper of one tavern only They were for the following sums:—

		Rs.	A.	P.
Suit No. 1	...	111	4	0
Ditto 2	...	28	6	0
Ditto 3	...	21	4	0
Ditto 4	...	14	0	0
Ditto 5	...	12	13	0
Ditto 6	...	7	10	0
Ditto 7	...	10	0	0
Total	...	205	5	0

The defendants were all Europeans, and the bills were chiefly, if not entirely, for liquor sold in small quantities over the counter, ranging from four annas to two rupees' worth at one time. I don't think there were any sales over Rs. 2. In England these bills could not be sued upon, or the men touched. Here they may be sent to jail and lose their employment.

4. I believe that this matter is also closely connected with the vagrancy difficulty, and that the facilities for obtaining drink on the one hand, and for enabling tavern-keepers to recover their money on the other, make vagrants of many men who might otherwise be able to retain their employment and earn their livelihood.

5. Upon the same principle, and for similar reasons, it may be a question whether the sellers of opium and other intoxicating drugs ought to be allowed to recover in Court any debt at all for such drugs, unless supplied for purely medicinal purposes. At present Chinese opium-sellers and others are able to recover in Court their outstandings for opium sold and consumed in their shops. This affords encouragement to the most pernicious trade in the world. The provision in the English law, to which I have referred, has been found to work most beneficially in England and Scotland. The Government of India desire to discourage intemperance by every legitimate means, and I would submit, for the consideration of His Honor the Lieutenant-Governor, whether, for the reasons set forth, a similar provision should not be introduced into the law in this country.

From—R. S. T. MACEWEN, ESQ, Judge, Calcutta Court of Small Causes, to L. A. GOODEVE, ESQ., Offg. Asst. Secy. to the Bengal Legislative Council.

WITH reference to the Bill now before the Bengal Legislative Council to amend the law relating to the Abkaree Revenue, I would respectfully suggest, for the consideration of the Honorable the Members of the Council, whether the introduction of a section, like section 12 of the 24 Geo. II, Cap. 40, known as the Tippling Act, would not be a beneficial provision.

2. That enactment, modified by the 25 and 26 Vict., Cap. 38, provides that no suit or action shall be maintained in any court of law or equity for the price of any spirituous liquors of less value than twenty shilings sold at one time, or if delivered at the residence of the purchaser for a quantity not less at any one time than a reputed quart.

3. There is no such provision in any of the excise laws applicable to Calcutta. A considerable amount of credit is given for liquor consumed on the premises where it is sold in small quantities. Parties are sued in this Court on these liquor bills, and decrees are passed against them. It would be better for the parties themselves, and for society, if no credit was allowed, as in England, for liquor consumed in taverns. If a tavern-keeper cannot sue for the money, he will not readily give credit, and many a man, who would otherwise run into debt for liquor, will be prevented from doing so. There is reason to believe that signatures are sometimes obtained to bills and vouchers, which are afterwards sued upon, when the writers are not perfectly sober. In the event of a section like that referred to being inserted, an exception would probably be made in favor of hotels when the parties *resided on the premises*.

F. CLARKE,

Offg. Asst. Secy. to the Govt. of Bengal,
Legislative Department.

CURRICULUM OF PRIMARY SCHOOLS.

Minute by the Lieutenant-Governor of Bengal, dated 27th April 1875.

In continuation of my Minute of the 12th January last, regarding primary education, certain proposals have been made by the Director of Public Instruction for defining and slightly raising the standard of the examination whereat the scholars of these primary schools compete for scholarships, and I desire to record the following observations.

It is urged by some authorities that a general raising of the curriculum for these schools would not be expedient at present; that the effect would be to make the schools more expensive than at present, and to place them beyond the reach of the humblest classes. The present curriculum—reading (without any, even the simplest, book), rude writing, and rudimentary arithmetic,—is the lowest possible.* But it is argued that even this is a gain to numerous classes; that tens of thousands of rural children are growing up without even this much of schooling; and that whatever steps may be taken to improve the primary education, still there should be kept up a most rudimentary class of schools, in which even the lowest possible curriculum (as above described) is allowed. Even though all the scholars now learning by this lowest standard were to be advanced to somewhat higher standards (as I hope indeed they may be), still the lowest standard should continue to be allowed for the sake of scholars poorer and humbler still. I acknowledge the justice of this view. The analogy of a constantly widening circle seems to be applicable. That which is now the outer circumference, represented by the lowest standard, will soon be occupied by a better standard, and then the lowest standard will be pushed out to an additional circumference, embracing more thousands of humble scholars. That circumference, again, will hereafter yield to a better standard, and once more the lowest standard will be moved outwards to a new circumference, and to more thousands of scholars; and so on, till we get nearer and nearer to our ultimate object, namely, the education of nearly all the poorest classes. The aim of primary education is to win the humblest and poorest classes to some sort of learning; I therefore quite agree that, under any circumstances, the present lowest standard should be maintained for a large number of schools.

Notwithstanding all this, however, I believe that the time has come when we should endeavour to enforce an improved curriculum in some at least of the primary schools. With this view obviously the first step is to raise the standard for the scholarship, for which the examination is now held upon the lowest standard, as above described. Instead of this the Director of Public Instruction proposes:—

1. Writing the vernacular of the district, and reading it in printed books as well as in manuscript.
2. Arithmetic up to the first four rules, simple and compound according to the European method, and the rules of Subhanker (mankasa, masmahina, and jumabundee).
3. Bazar and zemindaree accounts, and simple mensuration.

This is a very moderate proposal. The scholarships are to be competed for by the best among the many thousands of primary scholars, and these at least may be expected to advance beyond the lowest standard. The assistance, too, which is given by way of scholarships, is over and above the regular grant (£40,000 per annum) for primary education. However much this grant may be devoted to the lowest standard, we certainly may reserve the special

* The standard laid down in Sir George Campbell's time was as follows:—
1. Reading and writing the vernacular of the district.
2. Arithmetic, written and mental
3. Bazar and zemindaree accounts, and simple mensuration.

aid of scholarships for that which may be called the better element among this large mass of scholars. I believe that the most effective means of drawing the upper section of these schools upwards to a point somewhat higher, is to gradually elevate the scholarship standard. Every boy among these many thousands who feels himself a little better than the mass, hopes to win a scholarship, whereby he may be able to afford to learn in the middle class vernacular schools. Every village schoolmaster will have the ambition that some of his scholars may be able to enter the competition. I have said above that the Director's proposal is very moderate. It may suffice for the next year. After that I hope to find it possible to raise the standard a little higher, and so higher and higher by degrees from time to time.

Besides this, however, I would begin to make an effort to elevate somewhat a portion of the Primary Schools by prescribing for them the Director's scholarship standard, as above explained. Though at present the majority of the schools may not be able to reach beyond the lowest standard, still some of them must be able to do so; especially now that the village teachers are gradually being brought under a course of normal instruction. After consulting the Director, I propose to prescribe that in each district one-third of the grant for primary education (that is the district share of the £40,000 above mentioned) must be set apart for those schools which teach up to the scholarship standard; and I would issue instructions accordingly. The time may soon arive when we shall be able to prescribe this standard for the lowest class: in that case we can raise the scholarship standard proportionally.

SCHOOLS FOR SURVEYING AND LOWER TECHNICAL SCHOOLS.

Minute by the Lieutenant-Governor of Bengal, dated 6th May 1875.

I HAVE seen an official letter by the Director of Public Instruction recommending the establishment of special surveying schools at Dacca, Patna, and Cuttack, at which the instruction is to be afforded in the vernacular.

2. I have also perused an interesting memorandum by a Native gentleman, Pratapa Chundra Ghosh, regarding technical education in the indigenous industries and manufactures of Bengal, wherein the instruction will, of course, be by the vernacular.

3. In a separate Minute (dated the 3rd May 1875) I have stated my views and wishes regarding vernacular scholarships, the standard of which really dominates the vernacular education in its general features. Into the standards for these scholarships, I have infused as much of the scientific element as would be compatible with that degree of general culture which is essential as the ground-work even of special and technical education. To the standards as now fixed for the vernacular and minor scholarships, the lower vernacular scholarship, and the primary scholarship, respectively, we must adhere.

4. But I would offer every facility to the holders of such scholarships for entering any special or technical institution which may be established. For instance, the winners of the vernacular and minor scholarships might hold them in a survey school, or any superior technical school of that description. The winners, also, of lower vernacular scholarships, or primary scholarships, might hold them in any lower technical institution or industrial school—such as those proposed by Pratapa Chundra Ghosh and others—which we may succeed in establishing.

5. As regards schools for surveying, I have always been in favor of them. It will be in the Director's recollection that their establishment was prominently considered in a conference which I held in March last with the educational officers, and I shall be very glad to have the Director's detailed proposals for the formation of such schools. It is to be remembered that we already have survey *classes* ordered at several places; but in these the students make surveying only a part of their studies. The schools of surveying, as now proposed, would be for the purpose of teaching surveying, there being a great demand for surveyors; and there would be work out of doors and in the field. The students would be persons who desire to follow surveying as a profession. I hope that such schools, if established, will be as well attended as they deserve to be.

6. If the local authorities in any part of Bengal can establish lower technical or industrial schools, such as those recorded by Pratapa Chundra Ghosh and others, I shall be happy to help.

EDUCATION OF POOR EUROPEANS AND EAST INDIANS IN THE INTERIOR OF THE PROVINCES UNDER THE GOVERNMENT OF BENGAL.

Minute by the Lieutenant-Governor of Bengal, dated 18th May 1875.

In continuation of my Minute of the 25th February, on the educational means available for the poorest classes of Europeans and East Indians in Calcutta, I am now in a position to state my views on the same subject, with reference to the provinces under the Government of Bengal, replies having been received to the circular which was issued in November last to all Divisional Commissioners, asking them to report on the whole question. I have further obtained an interesting and instructive memorandum from the Venerable Archdeacon Baly of Calcutta, the tenor of which has my general concurrence, and which will be found appended to this Minute.

2. The returns furnished are not quite uniform, and in some instances are incomplete; but on the whole they are sufficient for the present purpose, and have enabled me to form an opinion of the best means to supply the existing want. For instance, it is not apparent whether the district officers have in every case drawn the line at the same level in the social scale, but the fact remains that, out of a total number of 3,458 children of these classes, whose existence is reported, 1,397 are said to be receiving education of some sort, while a proportion of the remainder are below school-going age. I cannot accept these numbers as exhaustive, but they may be taken to indicate approximately the proportion of children at school and uneducated respectively.

3. The majority of the Commissioners and district officers agree in considering that the existing means of education for these classes are not so deficient as might at first sight appear, that is, there are generally schools of some sort to be found, they say, in the country, if the parents would or could only avail themselves of the instruction offered. I regret to find it so frequently stated in these papers that a want of carefulness on the part of parents is a cause of the absence of the children from school. This short-sightedness has been the subject of previous remark; and we can only hope that, as the classes concerned know their own interests better, the fault may diminish.

4. There may be in some parts of the country special difficulties to be encountered by parents which are not met with in Calcutta. But the number of outlying factories or isolated sub-divisions which are not fairly near some suitable school cannot be large. It would not be possible to set one up in places where the number of possible pupils is very small. While desirous of affording all reasonable conveniences and opportunities to parents, I think that no parent is to be excused if he declines to have his child educated on the mere ground that it will entail absence from home.

5. As for the poverty of these classes, their state of indebtedness, and so forth, it is the special object of Government, in taking up the question, to help those who cannot help themselves, and to tide them over these misfortunes. It should, therefore, be the first consideration of the officer, or private person in charge of a school, to fix the fee for attendance so low that it may be afforded by the very poorest, if possible, of these classes. Some fee, however, it is absolutely necessary to charge, or we shall find the schools empty, for the reason that these people object to receive a gratuitous education. Such fees might be arranged on a sliding scale according to the means of the parents.

6. I am prepared, then, to assist schools which are in existence, or which may be established, for the education of poor Europeans and East Indians, by allowing to them grants-in-aid under the last rules of July 1873, that is to say, pecuniary grants, which may amount to the full sums expended from private sources (therein including expenditure from school fees and from municipal contributions). For details, the published rules may be consulted.

7. Or, if the parties or authorities interested should prefer it, I would confer the Government assistance in the shape of payment by results, that is, by a certain allowance for each pupil who passed a prescribed standard before a Government Inspector, or by allowances to the masters in the shape of a grant

for every pupil who passes, and a capitation fee for each pupil in excess of a fixed number. I recognise the expediency of giving to the masters a pecuniary interest in the progress of their pupils.

8. I would also allow a limited number of scholarships to be competed for in the schools for the poor scholars, and to be tenable in the higher schools.

9. Further, the Director of Public Instruction will be instructed to consider the establishment of a Normal School, for the training of European and East Indian masters for the elementary schools for the classes to which this Minute refers. Passed masters from this institution would be duly certificated.

10. All schools thus aided would, of course, be open to inspection by Government officers, who would be required to see and report that the money thus allotted is duly spent on the object for which it is intended. I would not wish any minute interference to be exercised with the school master or his staff, nor any interference at all with the religious instruction provided.

11. It would not be advisable to enforce any stereotyped form of school on the country, or to tie the hands of district officers. I believe that local wants and feelings will be best satisfied by considering each case, each application for a grant-in-aid, on its own merits. In one district it may be well to place funds at the disposal of the Educational Committee for the support, at the larger stations, of the children unable to pay for their tuition; in another district there may be facilities for industrial training; at some large stations there may be a school in existence where the Government grant-in-aid can be best spent in procuring the services of certificated and experienced teachers; in another it may be possible to engraft on the zillah school a special course of instruction with European and East Indian masters.* For very young children it will probably be preferable to have dames' schools preparatory to larger institutions. These would be equally deserving of State support. It might also be advantageous to have two schools in a place: one elementary, for the younger, the other more advanced, for the elder children. I wish merely to indicate the different possible ways in which district officers, private persons, or public bodies, may find it convenient to take advantage of the Government assistance hereby offered.

I am not as yet prepared to say that Government servants should be compelled to send their children to school. On the other hand, I would urge Government officials by all legitimate means to encourage their subordinates to do so.

12. It has been suggested that boarding-houses should be established for the accommodation of children coming from a distance, and that pecuniary aid should be given to parents sending their children to an institution as boarders. To this I can see no theoretical objection: either the school master, or somebody appointed to the duty, must be responsible for the good order of the boarding-house,

13. Suggestions are also forthcoming for the creation of scholarships and endowments. I have already, in preceding paragraph 8, expressed my willingness to give my best consideration in each case to any proposals on these points when incorporated in schemes for schools; but, as at present advised, I am unable to say more than that I am willing to afford all the assistance allowed by the grant-in-aid rules.

14. With regard to schools in the hills, there is no doubt that they must be more expensive than similar schools in the plains. Darjeeling, alone of the hill stations, is under Bengal, and will soon be more accessible on the completion of the railway. I think it specially desirable that there should be at Darjeeling one or two more schools, whose aim should be to attract poorer classes than those now sent to St. Paul's School. I believe that, with care and economy, these might be established, and would merit Government aid.

15. The East Indian Railway Company now contribute a monthly grant to the schools at Howrah, Rampore Haut, Raneegunge, Assensole, Sahibgunge, Jumalpore, Dinapore, and Buxar: all of which are stations within the Bengal

* If any schools for girls should be established under the principles set forth in this Minute, it would be very desirable that at least one Indian vernacular language should be taught, in case any of the female pupils should desire to become mistresses in native vernacular schools, for which kind of employment demand is likely to arise.

Provinces. They have closed the schools at Burdwan and Nowadi. I shall be glad to hear of that at Burdwan at least being re-opened. There are also a number of children at Goalundo on the Eastern Bengal Railway, for whose welfare the Company are interested. I shall be glad to accord Government grants under the rules to these railway schools to the same extent as to other institutions.

16. In such stations as Dum-Dum and Barrackpore, where there are military schools, I would hope that the military authorities would grant permission to their being thrown open to children of poor Europeans and East Indians, on payment of a fee, with the sanction of the Commanding Officer. If the local authorities can devise a proper scheme, I shall have much satisfaction in recommending it to the Military Department.

17. But above all, my great desire is, that we do not aim too high: that we do not seek to inaugurate a system of schools beyond the reach of the classes we desire to attract, either by teaching too elaborate a course, or by levying too heavy a fee.

18. Among the various schools indicated above, not the least important is the description of school which may be called industrial. We are now endeavouring to establish schools of this description for natives; we should be glad, if opportunity should offer, or if demand should arise, to do the same for Europeans and East Indians. Already an excellent beginning has been made, with limited numbers, at Dehree, the head of the Sone Canal Works; a similar institution could certainly be established at Cuttack (head of Mahanuddy Canal Works), and perhaps also at the Kidderpore Dockyard, near Calcutta. If there should be hope of obtaining enough pupils, a separate institution of the kind could be set up within the City of Calcutta, in connexion with the Public Works Department. The fitness of mechanical pursuits for Europeans and East Indians is too obvious to need description.

19. The measures which may be undertaken in pursuance of the assistance herein promised may be regarded as to some extent experimental. Still I have great hopes that if worked with care they may not be infructuous. A beginning may be made with the more important centres, such as Jumalpore, Patna, Cuttack, Berhampore, Burdwan, and others. I would commend this matter earnestly to the immediate and careful consideration of the Commissioners and district officers in whose jurisdictions these places are situated, and I would ask them to submit detailed plans for new schools for poor Europeans and East Indians, or for the improvement of existing institutions, to which I should be able to afford pecuniary aid, and I shall be happy to entertain favourably, if possible, any schemes emanating from private individuals or from public bodies.

20. I would ask the Director of Public Instruction to place himself in communication with the Divisional Commissioners and with the Agents of the two Railway Companies (to whom a copy of this Minute should be sent), and I trust soon to receive a number of feasible schemes worthy of the support of Government.

RICHARD TEMPLE.

SUGGESTIONS FOR SUPPLYING THE EDUCATIONAL REQUIREMENTS OF EAST INDIANS AND EUROPEANS OF THE WORKING CLASS IN INDIA.

MEMORANDUM SUPPLIED TO THE LIEUTENANT-GOVERNOR OF BENGAL BY THE VENERABLE ARCHDEACON BALY, OF CALCUTTA.

I.—*The establishment, wherever necessary, of good elementary schools at a low charge, on the plan of the English national schools, for the lower class of the East Indian population in large towns.*

In many of the larger towns of the Presidency these already exist. * * *

* * * * * *

The obstacles in the way of a more general education of this class would be removed by the formation, wherever necessary, whether in the various quarters of Calcutta or at the larger Mofussil stations, of good parochial schools on the principle of English national schools; *i.e.*—

(1) Maintained by voluntary contributions, school fees, and grant-in-aid.

(2) Under the superintendence of a local school committee.

(3) Annually inspected by the Government Inspector of Schools:—

II.—*For the higher classes of the East Indian community "high schools," with accommodation for boarders at the principal towns and stations of the Presidency.*

* * * * * *

Mode of establishment.—Voluntary contributions, and Government aid for school buildings.

Permanent maintenance.—School fees and grant-in-aid. The latter to be so proportioned as to enable the school to receive day-scholars at a monthly fee of Rs. 5 or 6, and boarders at Rs. 20 per mensem extra.

III.—*For children of pure or nearly pure European parentage under the age of nine or ten years, good elementary schools (in which reading and writing the elements of arithmetic and geography are taught) are needed principally in stations inhabited by railway employés.*

Such are already in existence at the larger railway stations, supported by school fees and a grant-in-aid from the Railway Company, to which the station belongs. It is not therefore so much the establishment of new, as the improvement of existing schools of this class that is required; for in those visited and examined by me, neither the discipline nor instruction was satisfactory, and the teachers had not been trained.

If the income of these schools were increased by a grant-in-aid from Government, the benefit resulting would be two-fold: (1) a better class of teachers would be engaged; (2) and the education would be kept at a higher mark when subject to Government inspection. This class of schools should be regarded as strictly preparatory for children too young to leave home; and the pupils at the age of nine or ten years, having received a sound elementary education fairly on a level with their years, should pass from them to a hill boarding school. For when it is considered that the greater part of them are of pure or of nearly pure English descent, and will pass their life, and form the European working class, in India, it is of the highest importance that during the time of adolescence they should be placed in climatic conditions most favorable to their healthy and vigorous development both in mind and body, rather than, by exposure during the years of growth to the heat of the plains, they should deteriorate both in bodily vigour and mental energy, and thus become not only less able to maintain themselves on the level of an independent and useful class, but the parents also of a generation still more enfeebled. Their transfer therefore at as early an age as possible from these elementary schools in the plains to schools of a higher class in the hills should be encouraged by every possible inducement, especially that of cheapness.

IV.—*For this reason hill boarding schools are an essential part of any complete system of education for Europeans in India, affording, at a cost corresponding with their means, an education suited to the condition of life present and prospective of their children.*

My estimate of the cost *to the parent* of sending a child to such a boarding school—in order to bring it within the means of the greater portion of English operatives, and of the lower middle class of Eurasians—is, that it should not exceed Rs. 15 per mensem, or £18 per annum.

But the *total* cost of board and education for one pupil would not be less than £30 per annum; and even this would presuppose that all the school buildings were completed and free of debt. If, therefore, these schools are to be placed within the reach of all, an annual excess of £12 of the total cost of education over the parent's payment must be met.

If this were undertaken by Government, it would necessitate a grant-in-aid from Government of Rs. 10 per mensem for each pupil, if the school has no income either from endowment or annual subscriptions and donations.

It is probable, however, that to a limited extent a fund may be formed in connection with schools of this kind, from which "foundation scholarships" may be paid, lessening the cost of education to a limited number of pupils; and it may be hoped that the Railway Companies will contribute to the formation of such a fund, as these schools are especially designed for, and will be largely used by, the children of their employés. Whatever increment may arise from this source will lessen the amount of the grant-in-aid required. Still, to make these schools generally available, a larger grant-in-aid will be necessary than is now received.

The diocesan school at Nainee Tal is the only school exactly of this class in the Presidency. The cost to the parent of board and education in this school, together with travelling expenses, is little (if any) less than £30 per annum, and this is found too expensive for a large number of parents who would otherwise gladly send their children there. What the actual cost of each pupil's board and education is I am not able to state, but from the last report I infer that it must be above £30, as the school payments, plus the grant-in-aid of about Rs. 2-8 per mensem, or £3 per annum, enabled the school to make both ends meet, leaving a small balance over.

The establishment of one or two more institutions of the kind on the lower scale of charge in other parts of the Presidency is much to be desired, and would meet, for several years to come, the wants of this class of children adequately. If there is only one, it should be in the south rather than in the north of the Presidency; and when the difficulty of access to Darjeeling is removed by the construction of a railroad, a good and inexpensive school, of the same character as that in Nainee Tal, established there, would, I have no doubt, be largely used, not only by the mofussil stations between Calcutta and Benares, but also by very many of the European residents in Calcutta and Howrah, who will prefer to the local schools a good school in a hill climate when brought within a convenient and easily accessible distance to their own homes.

V.—*Besides hill schools of this class, there should also be, for the wealthier section of Europeans, other hill schools imparting an education of a higher standard.*

And such are already in existence at Simla, Mussoori, and Darjeeling; nor do I think that at present their number need be increased. So far as I have been enabled to judge, they supply as yet all the legitimate demand for a higher education; and I should recommend that they should be regarded and dealt with as schools specially designed for the wealthier portion of the Anglo-Indian society, rather than that they should be generally thrown open, by a more liberal measure of Government aid, to children of a poorer class.

At the same time that the more clever and industrious among them may not be wholly excluded by poverty from obtaining the higher education, I should suggest that the principle of awarding on competition "scholarship" or "sustentation allowance," which has been adopted for Native education, should be extended to European.

I consider that it would be a highly beneficial measure if, in addition to the grant-in-aid allowed by Government to schools in classes I and IV, a limited number of "scholarships" were attached to them as prizes, to be awarded after examination to the most promising pupils, by aid of which children in schools of class I could be promoted to the higher education of class II, and in schools of class IV to the higher education of class V.

VI.—There is still one class of children whose case is not exactly met by any of the schools mentioned above.

Destitute orphans of non-military parents. I know of no establishment in the whole Presidency where such can be received without either a preliminary donation of two or three hundred rupees or a fixed monthly payment, both of which, in the majority of cases, are simply impossible, and only a few out of the many orphans in this country can be received by existing orphanages for this reason. I do not see how the case of destitute European non-military orphans can be satisfactorily dealt with otherwise than by the establishment of an orphanage where they can be maintained and educated free of charge, as the orphans of soldiers are in the Lawrence Military Asylums; and this I think should be in every respect a public institution, at the cost and under the entire control of Government.

To ensure the success and efficiency of these various classes of schools, the following principles of administration should, I think, be aimed at:—

(1) That the teachers in schools of classes I and III should be trained and certificated, and for this a normal training school would be required.

(2) That the head-masters in classes II and IV should have been educated in England; and if they have no university degree, nor certificate from an English training school, should produce testimonials of experience in teaching.

(3) That the head-masters of school V should be graduates of an English university.

(4) That all schools should be annually inspected by the Government Inspector of Schools.

(5) That in schools I and III the grant-in-aid should be given, as in English elementary schools, for every child passing given standards.

(6) That in schools II, IV, V, the amount of the grant-in-aid should be graduated according to the class held by the pupil, and approved by the Inspector at the annual inspection.

(7) That in schools I and III, as in English schools of a corresponding class, the teacher's salary should consist of a fixed monthly pay, plus an annual bonus derived from a percentage on the school fees, and the amount of the Government grant, in order that he may have a direct pecuniary interest in the number of scholars and the quality of their education.

(8) That in schools II, IV, V, the principal and first assistant masters should receive, in addition to their fixed salaries, each a capitation allowance for every pupil above a given number.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF 1874-75.

No. 3763, dated Fort William, the 19th May 1875.

From—W. H. GRIMLEY, Esq., Offg. Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Revenue Department.

HON'BLE H. L. DAMPIER.

I AM directed by the Member in charge to submit the following report on the state of the salt market for the fourth quarter of 1874-75, comprising the months of January, February, and March last.

2. The quantity of salt consumed (*i.e.*, the quantity of total clearances of salt of all descriptions) in the quarter under report amounted to maunds 19,60,343, against maunds 20,66,607-25 in the previous quarter and maunds 17,48,068 in the corresponding quarter of the previous year; and the total amount of duty levied was Rs. 63,20,001-4, against Rs. 66,45,702-5-10 and Rs 56,81,221 in the previous and corresponding quarters respectively.

3. The quantity of excise salt sold in Cuttack, Balasore, Pooree, and the 24-Pergunnahs during the present quarter from the stock of the different seasons, and the quantity which remained in store at the close of the quarter, are shown in the following Table I :—

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 29th May 1875.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Div. 1	Burdwan, 31st* May 1875	1·92	Rainfall at Raneegunge 2·88, at Culna 2·24, at Jehanabad 3·72, at Cutwa 1·69, and Bood-Bood 1·30. The heavy rain has facilitated cultivation; the present prospects of the crops are promising; cotton and *teel* oil-seed are doing well.
Burdwan Div. 2	Bankoora 29th „ „	1·72	Weather generally cloudy. Rain fell all over the district. *Boro* or spring rice is being reaped, and the outturn is estimated at 12 annas. *Aous, talks*, and *cheli* rice are being sown. The rain has done some harm to sugarcane and cotton.
Burdwan Div. 3	Beerbhoom, 29th „ „	·66	Seasonable weather. Some rain has fallen. Ploughing is going on in all parts.
Burdwan Div. 4	Midnapore, 29th „ „	1·71	Rainfalls in partial and heavy showers, but all parts of the district seem to get their share. State and prospects of crops fair; the sowings in the low lands are still somewhat obstructed by the water standing on them. Indigo prospects very good thus far.
Burdwan Div. 5	Hooghly, 29th „ „	·63	Weather hot; several storms in evenings, especially on the 24th May. State and prospects of the corps are very good.
Burdwan Div.	Howrah, 29th „ „	2·23	Weather warm and cloudy. There was rain throughout the district during the week. Ploughing for the early and late rice crops continues under favorable circumstances. Sowing of jute nearly completed. Rain has done much good.
	Central Districts		
Presidency Div. 6	24-Pergunnahs, 31st† May 1875	1·68	Weather very hot and close, with occasional slight showers. Early rice and jute sowings well advanced Rainfall during the week has been seasonable. A few cases of cholera continue to be reported. Fever decreasing at Barripore.
Presidency Div. 7	Nuddea, 29th May 1875	·08	Weather hot, with occasional dust-storms, but little rain. Prospects of the early and late rice and indigo crops are very good. Coarse rice is still dear; in some parts of the district it is selling for Rs. 2-8 to 2-12 per maund.
Presidency Div. 8	Jessore, 29th „ „	·51	Weather mostly clear and bright, with some slight showers of rain. Sowing continues and prospects good.
Presidency Div. 9	Moorshedabad, 29th May 1875	·17	Weather hot and oppressive; a little rain has fallen. Soil generally in good condition for ploughing, and prospects favorable; but rain is wanted. Mulberry, sugarcane, and indigo progressing. Prices stationary. Cholera has disappeared from Goas; small-pox still at Soojagunge.
Rajshahye Div. 10	Dinagepore, 28th May 1875.	·82	A good deal of rain. The crops have benefited.
Rajshahye Div. 11	Maldah, 29th May 1875	·09	Weather very hot, with occasional strong winds and some rain. The spring rice has fared differently in different parts, but, on the whole, the crop is a fair average one. Indigo prospects are fair. East wind is unfavorable for silk-worms. The very poor mango crop has been further damaged by the late storm
Rajshahye Div. 12	Rajshahye, 29th „ „	·24	There has again been general rain during the week. The prospects of the crops continue good, and the weather is most favorable for them. No cholera or small-pox cases reported, and the public health is good.
Rajshahye Div. 13	Rungpore, 28th „ „	1·32	Stormy weather. Condition of the crops good.
Rajshahye Div. 14	Bogra, 29th „ „	·19	Weather fair. There has been considerable rainfall during the previous week. Crops promise well.
Rajshahye Div. 15	Pubna, 29th „ „	·67	Weather cloudy and warm, threatening rain, south-easterly wind prevailing; some rain has fallen. State and prospects of crops good.
Cooch Behar Div. 16	Darjeeling, 28th May 1875.	1·12	Alternate rain and sunshine; all very favorable for the crops. In the plains the young paddy is getting on nicely. *Kangnee* millet is in the ear. In the hills Indian corn, wheat, barley, and buckwheat; also the millets *murwa* and *kangnee* are progressing very favorably.
Cooch Behar Div. 17	Julpigoree, 29th May 1875.	2·93	A day or two of unusually hot weather in the early part of the week was followed by sharp storms and heavy showers and much more pleasant weather. For the crops nothing could be better, and they look well all round Cholera continues, but more recoveries are now heard of than formerly.
Cooch Behar Div.	Cooch Behar, 27th May 1875.	1·02	The weather was very hot. There was a shower of rain on Tuesday afternoon. The prospects of early rice and jute continue favorable. Cholera is still prevalent in different parts of the Raj.

* Telegram of the 31st May, received on the same day, shows rainfall during the seven days immediately preceding.

BENGAL.—(*Contd.*)			
	Eastern Districts.		
Dacca Divn. 18	Dacca, 31st* May 1875	·12	Weather very hot. Rains holding off. Crops very good Rivers rather lower.
Dacca Divn. 19	Fureedpore, 29th May 1875.	·84	Weather unsettled, but seasonable; rain has fallen at Fureedpore, Goalundo, and Madareepore. Wind during the last two days generally north-easterly. The prospects of the crops continue favorable everywhere, excepting towards the north-west, where rice and indigo are said to be in want of rain. General health good.
Dacca Divn. 20	Backergunge, 27th May 1875.	1·12	Rain has fallen. All is well.
Dacca Divn. 21	Mymensingh, 28th May 1875.	·11	Weather generally fine, but extremely hot and close. Early rice promises favorably. The prospects of jute improved with the cessation of rains.
Chittagong Divn. 22	Chittagong, 27th May 1875	3·39	Rain has fallen and weather cooler than last week. No change in the prospects of crops since last week; the rain has been general.
Chittagong Divn. 23	Noakholly, 27th May 1875.	1·21	The weather during the week was close and constantly cloudy. Light rain on the 22nd, 24th, 25th, and 26th May. Wind generally south. In the low land the early rice is progressing favorably, and in the high land sowing is still going on.
Chittagong Divn. 24	Tipperah, 28th May 1875.	2·43	Weather warm and close, with occasional heavy showers of rain. Wind variable. The late rain has been good for the rice of all sorts; the ploughing and sowing of the winter rice has been nearly completed.
Chittagong Divn. 25	Chittagong Hill Tracts, 25th May 1875.	·27	One or two slight showers of rain since last week; more rain required for the young rice. Sowing still going on in the *jooms*.
Chittagong Divn.	Hill Tipperah, 26th May 1875.	1·81	Slight showers of rain at the beginning and close of the week. The appearance of the sky is now in favor of more rain falling soon. Sowing of early rice continues, and in some places has germinated. The sowing of the late rice has commenced, but more rain is wanted for the purpose.
BEHAR.			
Patna Divn. 26	Patna, 31st* May 1875	·52	Rain on the 25th May at about half past 4 P M., preceded by dust-storms. Lands are being prepared for paddy sowings; *marwá* and *makai* (millets) already sown in some places. Sugarcane grown up well. Cotton is in pods Cholera still prevalent and bad in one village in the interior of Behar sub-division.
Patna Divn. 27	Gya, 29th „ „	·55	Weather hot, with easterly winds; slight rain general over the district, with high wind. Highest reading of dry maximum thermometer was 105·6. *Cheena* millet and sugarcane promising; *marwá* millet being transplanted. Cholera bad in Aurungabad sub-division; medical aid sent and measures taken.
Patna Divn. 28	Shahabad, 29th „ „	·59	Weather cloudy, with strong easterly wind, and very unsettled for the time of year. The rain which fell during the week has done good for the preparation of fields for sowing early rice. *Cheena* millet being harvested in many places. The mangoes have been greatly injured by frequent gales.
Patna Divn. 29	Durbhunga, 29th „ „	1·74	Frequent storms of wind and rain. Temperature extremely variable. The sowing of paddy has commenced. Prospects of indigo crop good.
Patna Divn. 30	Mozufferpore, 29th „ „	·24	Weather generally stormy; east wind prevailing. The prospects of the *cheena* millet and indigo continue favorable. Ground is ploughed and prepared. Cholera still continues.
Patna Divn. 31	Sarun, 29th „ „	·77	Weather hot and clear during the day, but cloudy and stormy in the evenings, cooling the atmosphere for a time; east wind prevailing. There was a general fall of rain, with hailstorms, on the 25th May, preceded by strong wind and dust-storms. The prospect of indigo is excellent. *Cheena* millet, sugarcane, and early rice doing well; *shama* grass seed, *kawane*, *kodu*, &c., millets are being sown. The late rain has done much good to the crops, and has enabled the fields to be prepared for the *bhadoi* sowings. Mangoes have been much injured by the hailstorms. General health good.
Patna Divn. 32	Chumparun, 28th May 1875.	1·5	The weather has continued to be similar to that mentioned in former report. The prospects of the crops are at present most excellent.
Bhagulpore Divn. 33	Monghyr, 29th May 1875	Nil.	East winds prevailing. The prospects of crops are very good.
Bhagulpore Divn. 34	Bhagulpore, 1st† June 1875.	·59	Considerable rainfall throughout the district. Prospects of crops everywhere good. *Bhadoi* crops above ground in the north of the district. General health good.
Bhagulpore Divn. 35	Purneah, 29th May 1875	·61	Storms nearly every day; the rain is too much for the time of year and is hindering the weeding operations. *Moong* pulse, and in the south the *boro* dhan, are being reaped.
Bhagulpore Divn. 36	Sonthal Pergunnahs, 29th May 1875.	2·15	Weather cloudy, rainy, and stormy, with intervals of hot sunshine. Thunder and lightning constant about the district; lightning very mischievous. Ploughing going on everywhere. Rain wanted still in Godda. No crop to report on

* Telegrams of the 31st May, received on the same day, shows rainfall during the seven days immediately preceding.
† Telegram of the 1st June, received on the same day, shows rainfall during the seven days immediately preceding.

NOTIFICATION.

The 1st May 1875.—Under the provisions of Section 2 of Act V (B.C.) of 1873, the following plan for extending gas-lighting to certain portions of the town of Howrah is published for general information :—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the grand trunk road which lies between Ramkristopore Ghaut Road and Bishop's College Road, Seebpore Ghaut Road and Ghoosery Road. The total length of these roads is 2¾ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,61,363, and a rate of 3 per cent. would yield an income of Rs. 4,840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept the sum in payment for supplying gas.

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from their general fund during the current official year.

EDUCATIONAL NOTICE.

1. THE Calcutta Medical College Session of 1875-76 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificates of lectures and hospital attendance of the college are recognized by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

NOTICE is hereby given that the proprietary rights of Government, as specified in the condition of sale below, in the undermentioned estates situated in the district of Purneah, will be put up to sale at the Purneah Collectorate on Saturday, the 24th July 1875, corresponding with 9th Srabon 1282 B. S. and 6th Srabon 1282 F. S.

The purchasers will be subject to the following conditions of sale:—

1*st*.—The purchasers of these estates will be considered as the proprietors of the estates and the entire proprietary rights of Government in such estates will be transferred to them, the only right reserved by Government being the right of revising the jummah at the conclusion of the term of the present settlement, and on the expiration of all future settlements. If on re-settlement they should refuse to engage, they will be entitled to malikana. The estates will be sold, subject, up to the expiry of the existing settlement with year ending 31st March 1902 A.D., to the Government revenue against them, to the highest bidders above the upset price.

2*nd*.—The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings, and by the laws in force: the purchasers to be bound to respect the right of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the schools and colleges in India, and though at present a scholar-like knowlege of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars, and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

CYCLONE OF 15th AND 16th OCTOBER 1874.

RESOLUTION.

FINANCIAL DEPARTMENT.—INDUSTRY AND SCIENCE.

Calcutta, the 31st May 1875.

READ—

Report of the Midnapore and Burdwan Cyclone of the 15th and 16th October 1874, by W. G. Willson, Esq., Officiating Meteorological Reporter to the Government of Bengal.

THERE is no evidence, it seems, of the existence of the cyclone before the night of the 13th October, and Mr. Willson surmises that it had its origin in 16° to 17° north, between the parallels 89° 30′ and 90° 30′ east. It appears that from noon of the 12th October, strong squally north-easterly winds set in about 17° north, extending by noon of the next day 140 miles north, while wet squally gales from west-south-west were blowing at the same time a degree or two to the south. Were these observations absolutely verified, they would afford some confirmation to the theory that these storms in the Bay of Bengal are generated, like the hurricanes in the Indian Ocean, in the belt lying between

two parallel atmospheric currents flowing in opposite directions, implying the existence of comparatively high atmospheric pressures to the south and north of the belt. It is shewn that these disturbances existed in the present case; the pressure to the southward in the neighbourhood of Port Blair, and to the northward over Bengal, being above the mean immediately before the storm, and to the southward very abnormally so.

Very little information, unfortunately, was to be obtained by Mr. Willson concerning the progress of the cyclone up the Bay, four or five ships only having been in its neighbourhood until it arrived near the Sandheads; and of these few, three were Arab craft, whose logs are principally taken up with the story of their prayers, the phantom ships they saw, and the "devils on their main-masts." Information, more or less valuable, however, was obtained from the logs of the *Ireshope*, the *Patrie*, the *Udston*, the S.S. *Scotia* and *Sirius*.

The data submitted by the Marine authorities from the pilot vessels, the floating-light ships on the various stations, the *Mistley Hall* in the Roads, the American schooner *Susan E. Vorhes* in Diamond Harbour, and the land observations recorded at False Point, Saugor Island, and by Mr. Taylor at Contai, furnished Mr. Willson with abundant material for tracing the course of the cyclone when it reached the coast, to the examination and discussion of which he devotes the third section of the report; and the Master-Attendant will be good enough to direct the careful attention of his establishment to this important record.

The centre of the storm passed the mouth of the Hooghly just before low tide, and it was happily only over a portion of the Contai sub-division that the effects of the cyclone were aggravated by the inundation of the storm-wave from the sea. The *Evening Star* was wrecked in Saugor Roads under distressing circumstances, only 13 lascars being saved out of 44 persons on board, including the pilot Mr. Chitty, the master, and five European passengers. The *Grand Duchess* was wrecked in the Eastern Channel, and all on board were lost, including Mr. Branch Pilot Bond, who was in charge, and Mr. Fox, of the same service. The Lieutenant-Governor regrets very deeply to have to record these casualties, and would express his sympathy with the bereaved relatives of the brave men who thus lost their lives.

Upon the occurrence of the storm, a circular was addressed to the District Officers of the Presidency, Orissa, Burdwan, Rajshahye, and Chota Nagpore Divisions, desiring them to report any particulars of the cyclone, or meteorological observations connected therewith, that might have been recorded in their neighbourhood, or have reached their offices; and they were particularly desired to note, if possible, the force and direction of the wind, the course of the storm's progress, and the barometric readings before, during, and after its passage, with any other phenomena attending it that might have been observed. The valuable records that were at once submitted from almost every district which the cyclone traversed, were made over to Mr. Willson, and that officer's report shews what important uses the information thus communicated has served.

Two of the Government meteorological observatories were in the path of the centre of the storm. From one of these observatories (Berhampore) a valuable account was received; but Dr. French, the Civil Surgeon, was unfortunately absent from the other (Burdwan) on duty when the storm occurred, and was consequently unable to contribute more than a series of aneroid readings from that station. The only parts of Orissa which suffered from the cyclone were the two northernmost stations of the Balasore district, Baliapal and Jellasore, where its ravages were very disastrous. The storm raged from noon to midnight of the 15th. From Baliapal to Bhograi the country presented a scene of desolation, almost every house being destroyed, and hardly a tree standing erect. Half the cattle are estimated to have been destroyed by the storm, and 200 lives lost. Its chief violence, however, was

spent upon Midnapore, where the intensity of the storm is reported to have far exceeded that of the cyclone of 1864. The loss of life in the town itself was very lamentable, which amounted in the whole district to 3,049. The labours of years in the way of arboriculture were destroyed in a single night, and 17,500 cattle are reported to have perished. The Hooghly district escaped with the exception of a small part only, but five deaths are unfortunately recorded..

Twenty-nine deaths are reported from Burdwan, twenty-seven in the Moorshedabad district, nine in Hooghly, seven in Nuddea, and four in Rajshahye. In Midnapore, the hurricane was attended by the extraordinary rainfall of 10·27 inches. At Moorshedabad the almost incredible fall of 16·3 inches was measured on the 16th; at Burdwan, 7·43 inches during the storm; at Berhampore, 5·93; and as far north as Rungpore, 6·97.

The Burdwan district suffered severely, and upwards of 21,000 houses were destroyed. Near the Kanoo station the down passenger-train was brought to a dead stand by the violence of the wind, and finally blown over upon the up-line. In the Moorshedabad district the storm was at its highest between 8 A.M. and 4 P.M. of the 16th. The cyclone seems to have traversed the whole length of the district and, crossing the Ganges, passed into Rajshahye, where it finally spent itself.

A very melancholy loss of life thus attended the cyclone: 3,392 persons are reported to have been killed thereby on land, while all the district officers express their fear that this number falls far short of the actual deaths.

In the concluding section of his report (V), Mr. Willson notices the two theories that prevail concerning the origin of these storms, their prognostics, their form, and probable mode of formation. The form of the cyclone, Mr. Willson says, is a question which is engaging considerable attention amongst meteorologists, and that part of the section which deals with this subject, with some remarks on weather indications and the behaviour of the barometer at the Sandheads and the north of the Bay immediately before their occurrence will, the Lieutenant-Governor thinks, be of special value to mariners. Mr. Willson's views concerning the formation of these terrible storms are supported by great authorities, and will doubtless be read with much interest in the scientific world.

"Given," says Mr. Willson, "the existence beforehand of two nearly opposite colliding wind-currents, and hence by necessity an ascending current in the belt between them, the production of a cyclone can be accounted for on dynamical principles." The Lieutenant-Governor observes that Mr. Blanford, who is one of the highest authorities on Indian meteorology, does not think this theory of the formation of these storms applicable to the cyclones of the Bay, but believes a local atmospheric depression to be their primary cause, and that it is only when the winds have commenced to circulate round this area that the north-easterly current sets to the northward; and Mr. Blanford attributes the depression to a high local temperature possibly produced by hot marine currents from the south. His Honor simply notices the two theories as affecting a question of great public interest. Either of them, according to Mr. Willson, would account for the origin of these storms; but it is said to be an important fact in connection with the evidence in favour of the theory of opposite currents that before a cyclone, and during its approach, north-easterly winds prevail to the north of the storm over many degrees of longitude, and that there seems to be no marked tendency of the winds to a circular path until the cyclone is close at hand.

Mr. Willson directs attention to the uncertainty, at this season of the year, of the weather indications at Calcutta and Saugor Island as to the approach of these storms; and the observations by which he illustrates this uncertainty in the last section of the Report will, the Lieutenant-Governor has no doubt, be carefully noted by the Marine authorities.

There appears to be an important distinction between the storms which visit the Bay at the end of the south-west monsoon and those which sometimes attend its commencement. The former are usually generated, it seems, in the eastern part of the Bay, a little north of the Andamans, while the latter appear to take their rise in the northern part of the Bay, the barometer falling steadily and considerably for days before their occurrence. On the other hand, the barometer gives little indication of the approach of a cyclone in October until it is close at hand. Thus the cyclone of October last was remarkable for the lateness of the warning given by the barometer, although its vortex was of comparatively large diameter, and the barometric depression in the centre of its path as great probably as any on record. Mr. Willson's remarks on the management of the pilot brigs in the storm shew that their commanders seem to have been unable to judge accurately the distance of the storm, being misled by the slowness of the barometer to indicate that they were actually within the radius of the hurricane, when they attempted, too late, to get out of its path.

This report will be circulated to all those officers for their careful study and for record.

The alarm and injury caused by the storm in the Midnapore district were so great, that an appeal was made by the District Famine Relief Committee to the Central Committee in Calcutta for a grant of two lakhs of rupees for relief of the sufferers. A sum of one lakh of rupees was at once sent to them, and a promise of another lakh held out, if further help were required; a telegram having been sent to London, and permission obtained from the Lord Mayor to divert this munificent contribution to the relief of the people, who were already in extremity from the dearth of the previous twelve months. It was found, however, that the further sum was not required.

The Lieutenant-Governor's thanks are due to Mr. Willson for this very interesting report, which is the second memoir of the kind for which the Bengal Government is indebted to him, the cyclone of June 1872 having occurred while Mr. Willson was officiating as Meteorological Reporter to this Government. The thanks of the Lieutenant-Governor are also due to the Commissioner of Burdwan, to Mr. Harrison, the Collector of Midnapore, and the other district officers who responded so promptly, and with so much care, to the call made upon them for such data as they were able to furnish for the preparation of this report, for the early submission of which, considering the complexity of the task, and the great obscurity in which all meteorological researches are still involved, the Lieutenant-Governor desires especially to thank Mr. Willson.

By order of the Lieutenant-Governor of Bengal.

AGRICULTURAL EXHIBITION AT FUREEDPORE.

No. 209, dated Dacca, the 28th May 1875.

Memo. by—F. B. Peacock, Esq., Officiating Commissioner of the Dacca Division.

Submitted in original to the Government of Bengal, Statistical Department. The exhibition, notwithstanding the scarcity and distress of the year before, appears to have been at least as successful as usual, and to continue to merit the support of Government, which I hope may be again given.

Dated Fureedpore, the 20th May 1875.

From—Baboos Bhuban Mohun Raha and Jadub Chandra Goswami, B.A., Joint-Secretaries to the Fureedpore Agricultural Exhibition Committee,

To—The Magistrate of Fureedpore.

We have the honor, by direction of the Agricultural Exhibition and Mêla Committee, Fureedpore, to submit the following report on the agricultural exhibition and mêla held at Fureedpore in the first week of January 1875. We beg to apologize for the delay that has occurred in the submission of the report, which is owing to the accounts not being adjusted earlier.

2. The drought and scarcity of last year materially affected the people. It was, therefore, at first doubtful whether the exhibition and mêla could be held at all, but subsequently it was found that both landlords and their tenants were willing to have it, and the contributions made were in every way encouraging. The exhibition was held in consequence, and, considering the state of the district at the time, it was a success. One thing we are led to conclude is the firm footing which this institution has gained in the district.

3. The 12th annual exhibition and mêla commenced on the 1st January 1875, and continued for 9 days. Owing to the comparatively earlier date on which the mêla was opened this year, shop-keepers from distant parts of the country could not come in such large numbers as in the year before, and the distress, too, told upon the customers; there was therefore less buying and selling than in the last two or three years, but the competition of the exhibitors was as keen as ever, and many of the articles exhibited were of as good a quality as in former years. Perhaps the sickness which prevailed in the beginning of the cold weather likewise made the people unable to attend.

4. There was a visible decrease in the varieties of aous paddy, but on the whole the display of paddy was creditable. Exhibitors came from the extreme south of the district, including the sub-division of Madaripore, but not in such numbers as were desirable. The Committee had proposed last year to grant special prizes to these men, and made provision for it this year. Thanas Gopálgunge, Kotalipara and Madaripore are the best rice-producing parts of the district, and a keen competition with the cultivators of those parts would be every way beneficial to those of the north. The Committee believe that in course of a few years the men from the far south will appreciate the good effects of the mêla and resort to it in great numbers. The mêla was allowed this year to continue two days longer than usual, owing to some of the shop-keepers coming late. This continuance benefited both sellers and purchasers.

5. The sanitary arrangements were very successful.

6. The police was vigilant and prompt in the discharge of its duties. There were one or two cases of petty larceny, and the offenders were immediately brought to justice.

7. The amusements were of the same character as in previous years. A well-known jatra from Calcutta was engaged, and performed for four nights. The Fureedpore Amateur Dramatic Company also successfully entertained their audience, consisting both of the English and Native communities.

8. The following is a brief narrative of the proceedings of the exhibition and mêla :—

9. *1st January.*—The exhibition was opened at noon this day. The President of the Committee, Mr. W. S. Wells, delivered a short and thoughtful speech on the occasion. He alluded to the prevailing scarcity and distress, pointed out the advantages of improvement in agricultural pursuits, and the way to improve. The durbar hall, a spacious mat bungalow erected for the purpose, was crowded to overflowing, and the ladies and the gentlemen present evinced a warm interest for the institution. To the mass the Magistrate is the Government, and the interest manifested by him for the encouragement of agriculture, and consequently of themselves, has had the effect of making them thankful and loyal.

10. The show of this day consisted of flowers and English vegetables. The flowers were of the most ordinary kinds to be found in the gardens, but some of the *dálias* of vegetables were really magnificent. Excellent specimens of cabbages, cauliflowers and peas were exhibited. Some of the best English vegetables were exhibited by native baboos, and it was gratifying to see that great interest was taken by them in the matter.

11. In the afternoon of this day there were sports, such as pole-climbing, ghurrah race, &c. The gathering this day was comparatively smaller, and as the native jatra, which was to have taken place this day, had not arrived, there was nothing for amusement during the night.

12. *2nd January.*—This was the day for the show of native vegetables and fruits. The *dâlies* were superior to those of the previous year.

13. The show of potatoes was good. The cultivation of potatoes is almost unknown in this district. This culinary vegetable was a few years ago very rare even in the sudder station. Of late the town traders have commenced to import them, and the rapid and profitable market which they obtain shows how valuable the cultivation of potatoes would be to the people. Potatoes flourish in a loose and sandy or semi-sandy soil, a soil which is deposited in silted-up river basins. Fureedpore abounds in these, and with a little skill and labour, it is presumed this district will produce potatoes enough for its own consumption, if not for exportation also. The Committee were glad to see that a few of the native gentry in the town had commenced to cultivate them.

14. The competition for prizes in mankochoo and plantain was well contested, and some very excellent specimens of both articles were shown. The round brinjals were of a very superior description, and the lawoo, for which the first prize was awarded, was of a very large size, being about six feet in length, the like of which has not been seen before in this district. The Committee has learnt with satisfaction that these two most useful vegetables were reared by two native gentlemen in the town. The show of turmeric, too, was an improvement upon that of last year.

15. In the evening there were sports, such as high jump, broad jump, foot race, &c. During the night the Calcutta jatra gave their first performance, and the audience appeared to have been very well amused.

16. *3rd January, Sunday.*—This day was set aside to classifying the different sorts of paddy which were being brought in for exhibition. There was no amusement or show, but the whole day was taken up in the work stated above.

17. *4th January, Monday.*—This was the day for the show of paddy, both aous and amun, and although there was a falling off in the number of exhibitors of each sort of dhan, the show, as far as the best specimens are concerned, was as splendid as the shows of previous years. There were altogether 54 and 34 sorts of amun and aous respectively, against 68 and 38 of last year. This difference the Committee attribute to the scarcity and distress which prevailed during the year. The best sorts of amun dhan were modhu malini and sagor khora, and the best aous was binnaful.

18. The Committee thinks that these descriptions of rice are equal to the best table rice imported from the northern districts. The care and trouble, however, of rearing these sorts of rice are so great and the district is so low, that the Committee do not expect that their cultivation will ever be carried on on an extensive scale.

19. The amusements for the evening were wrestling and single sticks.

20. In the night there was the Calcutta jatra, which the people appeared to like very much.

21. *5th January.*—This was the day for the show of rubbee crops, such as barley, wheat, grains, different sorts of kalai, teel, mustard, linseed, tobacco, sugarcane, &c. Mug, maskalai, and teel were exhibited by a large number of competitors, and the show, both as regards quality and quantity, was an improvement upon that of last year. The show of mustard was poor, and so was that of barley. The tobacco leaves carrying the first prize were of a tolerably large size. The cultivation of this article, however, is not thought of much by the people of this district.

22. In the evening there was a race of about 25 country ponies. The start was about a mile, lying over unbroken, hard, half-cultivated land

23. During the night the amateur dramatists performed the farces "Ekaikibala Sobhyata" and "Oobhay Sankut" in good style.

24. *6th January, Wednesday.*—On this day ghee, butter, sugar, arrowroot, collection of millets, cotton, safflower, &c., were exhibited. The show of ghee, though not encouraging as regards the number of competitors, was as good as usual as regards quality. The show of butter was a great improvement upon that of last year. The district is celebrated for the manufacture of goor and sugar, but the show of cane sugar was very poor; that of date goor and date sugar was good. The best patali goor, or goor in cakes, were of almost milk-white color, which is not to be seen in any other district. Arrowroot has not yet been taken up as an article of cultivation in the villages, but the specimens exhibited by the station gardeners were of a superior kind.

25. The two classes of jute, mastha and kostha, shown were not good. This is accounted for by the fact that the article is grown in the south of the district, whence, as stated elsewhere in this report, very few people had come to see the mêla.

26. The games for the evening were sack race and cricket match, the latter being competed for by the English and Vernacular schools. In the night there was the usual jatra.

27. *7th January, Thursday.*—This was the day for the exhibition of live stock and articles of husbandry. The show was poorer than that of previous years as regards cows and bullocks, but as regards that of poultry, was better. The implements of husbandry were of the ordinary description. In the evening the amateurs performed a piece named "Ekaikibala Bangali Saheb." The performance was very creditable.

28. In the afternoon of Friday the ploughing match came on. The competition was keen, and seven prizes were awarded among competitors.

29. On Saturday, the 10th, prizes to the amount of Rs. 677-15-9 were distributed amongst the successful competitors, with which the proceedings of the exhibition ended; but the mêla was continued till Sunday, when, after sunset, the usual fireworks took place. On Saturday night there was another performance of "Ekaikibala Bangali Saheb" by the amateurs.

30. Before concluding their report, the Committee beg to bring to your notice that the beneficial effects of the exhibition and mêla are year by year becoming more manifest. Though there has not been any visible improvement in the character of some of the principal articles of produce, the attention of both cultivators and proprietors have been greatly excited, and they seem to have taken to the cultivation of several articles of produce which they had hitherto been averse to. The annual intercourse of the proprietors and their tenants on the mêla ground serves also to promote amicable feelings between them, and the interest felt by Government, as has already been noticed, is duly appreciated. The moral effects of the mêla are of as great importance as its material effects. The promotion of a friendly feeling between the ryots and their landlords has now become a matter of paramount importance. Their contact with people better clad, better fed, and, withal, better educated, however short the duration may be, have, the Committee hope, gradually been teaching them to improve their own condition. With increased and improved roads and canals, the people would find better opportunities and means of selling their produce with advantage. The mêla shows them the great demand for their produce, both raw and manufactured; here they find a ready market, and they will here learn to value their produce properly; they will learn also to respect themselves. The ultimate consequence will be the spread of intelligence and the increase of trade within the district.

31. In conclusion, we beg leave to request that you will be good enough to recommend to the Government to sanction for the next year its usual donation of Rs. 250 for the exhibition and mêla.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 5th June 1875.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, 7th* June 1875	1·11	Weather very hot. Rainfall at Jahanabad 39, and at Cutwa ·80. Sowing of *aôus* paddy nearly completed; *teel* oil-seed being cut. Sugarcane and paddy crops doing well.
2	Bankoora, 5th „ „	·41	Weather very hot; a little rain has fallen. *Boro dhan*, or spring rice, almost all reaped. Cotton being plucked. Rain wanted for the *aous* and *hymuntee* early and late rice seedlings.
3	Beerbhoom, 5th „ „	·22	Weather hot; slight rain. The ground is being broken up in all directions. Early rice and sugarcane are looking well.
4	Midnapore, 5th „ „	Nil.	Weather very hot and sultry. The weather, though very unpleasant, is precisely what was needed for the sowings; these are now progressing well everywhere, and if a week's more dry weather is followed by the rains, they will be so far excellent.
5	Hooghly, 5th „ „	·76	Extremely hot weather, with occasional storms; average rainfall of district ·91 inch. State and prospects of crops very good.
	Howrah, 5th „ „	·23	Weather hot; sky cloudy; a little rain has fallen. Ploughing for the late rice continues. Sowing of the *aous dhan* has commenced. Sowing of jute completed.
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs, 7th† June 1875	·50	Weather intensely hot and close. *Aous*, or early rice, and jute sowings completed. Rain wanted for their general growth, but crops are good. Cholera and fever decreasing.
7	Nuddea, 5th June 1875	1·67	Weather generally very hot and close. There has been heavy rain on the morning of the 5th instant, which seems very like the beginning of the rains. As a rule, crops of all kinds are getting on very well, but complaints of want of sufficient rain in Meherpore and Chooadangah reaching the District Officers. Prices are generally high; common rice in most places sells at from Rs. 2-4 to Rs. 2 11 per maund
8	Jessore, 5th „ „	1 39	For the most part of the week the weather was bright and clear and very hot. Sowing continues. Rain is wanted in some places, but the prospects generally remain good.
9	Moorshedabad, 5th June 1875	Nil.	Weather very hot and oppressive; a slight shower at head-quarters, and deficient rain at sub divisions. Rice and other crops are suffering in parts from deficiency of rain. Sowing of *bhadoi*, or early rice, nearly completed, and that of *hymunto*, or late rice, progressing; Ground being weeded and harrowed. Cholera still in Goas station circle. Small-pox appears to have died out for the present.
RAJSHAHYE DIVN. 10	Dinagepore, 4th June 1875.	1·51	One or two heavy showers, with intervals of great heat. The crops are doing well; *bhadoi*, or early rice, and jute are much benefited by the rain. The *boro*, or spring rice, has turned out a fair average crop; in Gungarampore rather above the average. The acreage under this has been much less than last year, when it was much greater than usual.
11	Maldah, 5th June 1875	·42	Weather very hot, with little breeze. The rainfall has done good, but more is wanted. A fair spring rice crop has been reaped, and the sowing of autumn rice is progressing. Indigo plants doing well. Some loss in silk-worms. Mangoes scarce.
12	Rajshahye, 5th „ „	·38	There has been no rain during the week, except a little at head-quarters, and the heat has been extreme. The general cessation of storms with rain is bad for the crops. Moisture is much wanted to help the young plants through the present parching heat. Jute and indigo are growing well. No sickness reported.
13	Rungpore, 4th „ „	2·15	Weather hot and steamy. Rain on four days of the week. Prospects of crops favorable.
14	Bogra, 5th „ „	1·34	Weather very hot. Some rain has fallen. State and prospects of crops good. In some places lands are being prepared for the late rice crops.
15	Pubna, 5th „ „	1·16	There was a storm at head-quarters on the 1st instant; weather very hot, but threatening rain. State and prospects of crops good, but more rain is now wanted. A few cases of sporadic cholera are still reported.

* Telegram of the 7th June, received on the same day, shows rainfall during the seven days immediately preceding.

Cooch Behar Dive. 16	Darjeeling	.....	Return not received.
Cooch Behar Dive. 17	Julpigoree, 5th May 1875.	·58	During the last day or two the weather has been very close and hot. Rice crop promising well. Jute is not all round as good as itshould be; early heavy rains having done damage. Cholera is still generally prevalent, but there are more recoveries than there were at first.
Cooch Behar Dive.	Cooch Behar, 3rd June 1875.	1·91	Weather cloudy and hot; there were some showers of rain during the week, heaviest at nights. There has been no change in the prospects of the crops since last week. Cholera decreasing gradually.
	Eastern Districts.		
Dacca Dive. 18	Dacca, 7th* June 1875	5·53	Heavy rain all Saturday and Sunday; rains set in. Crops favourable. Rivers rising.
Dacca Dive. 19	Fureedpore, 5th June 1875.	2·04	Weather continues unsettled; has been very hot for the past three days. Rain has fallen. The crops are generally in a promising condition, though rain is still wanted in the Madareepore sub-division. General health of the district good.
Dacca Dive. 20	Backergunge, 3rd June 1875.	Nil.	There is no cause for serious complaint. The heat is very great, but the weather is such as is usual at this time of the year. The great food staples however are abundant. A kind of disease has attacked the fish in the river, which has become so serious that the people are ceasing to use this article of food at present. Worms are found in the intestines of the fish, and a kind of eruptions, like small-pox, is visible upon their skins. The Collector could not know how far this disorder has spread, but he is making enquiries.
Dacca Dive. 21	Mymensingh, 4th June 1875.	4·09	Weather extremely hot, with occasional showers; the weather is very favorable for the early rice crop.
Chittagong Dive. 22	Chittagong, 3rd June 1875.	·36	Weather very hot; a few showers at night. No change in the prospects of crops.
Chittagong Dive. 23	Noakholly, 3rd June 1875.	·9	Weather tolerably fair; often cloudy and very close. A good shower of rain fell on the night of the 28th May; wind generally south and south-east. The early rice crops are progressing favourably. In high lands sowing is still going on. There has been an unusual deficiency of rain during the latter part of May, which has delayed the opening of the inland water routes.
Chittagong Dive. 24	Tipperah, 4th June 1875	·25	Very hot and oppressive; one or two slight showers of rain. All rice crops are getting on well, except in one thana, viz. Barkampta, where the *aman*, or late rice is said to have been in some places damaged by insects.
Chittagong Dive. 25	Chittagong Hill Tracts, 1st June 1875.	1·52	Weather excessively hot during the last six days; a shower of rain on the morning of the 1st June has lowered the temperature. Sowing still going on in *jooms*. The fall of rain has done much good to the young rice. Cholera is prevalent in different parts of the district.
Chittagong Dive.	Hill Tipperah, 2nd June 1875.	4·24	The weather has been sultry and oppressive; there have been occasional storms, accompanied by high wind, but bringing little rain. Sowings of early rice springing up, and sowings of late rice progressing. More rain wanted.
BEHAR			
Patna Dive. 26	Patna, 7th* June 1875	1·77	Weather hot and close, notwithstanding tremendous storm and heavy rain on the night of the 5th instant. *Marwa* millet and *makay* Indian-corn flourishing Paddy commenced to be sown in some places. Cholera still continues throughout the district; bad in the town of Barh sub-division; measures taken.
Patna Dive. 27	Gya, 5th „ „	Nil.	Excessively hot weather, with west winds Highest reading of dry maximum thermometer during the week was 112 degrees. The few kinds of millet and sugarcane doing well. Cholera still in Aurungabad sub-division, and prevalent in Nowadah sub-division; rest of the district healthy.
Patna Dive. 28	Shahabad, 5th „ „	Nil.	Weather slighly cloudy; excessive heat and east wind prevailing. Land being ploughed for crops. *Cheena* millet gathered. Sugarcane promising. Health improving.
Patna Dive. 29	Durbhunga, 5th „ „	·72	Weather intensely hot, with some rain. Prospects of all crops continue to be favorable. Indigo nearly ready for cutting in some places.
Patna Dive. 30	Mozufferpore, 5th „ „	Nil.	Weather hot. The prospects of *cheena* millet and indigo continue favorable. Cholera still continues.
Patna Dive. 31	Sarun, 5th „ „	Nil.	Weather generally fine, but extremely hot and close; east wind prevailing The prospect of indigo is excellent. *Cheena* millet is being harvested; sugarcane and early rice doing well. *Shama* grass seed, *kawnee*, *kodo*, &c., millets are being sown; fields are being prepared for the *bhadoi* sowings. General health good.
Patna Dive. 32	Chumparun, 4th June 1875	1·13	The weather during the last few days has been very hot and close, and threatenings of rain have a most entirely disappeared. The crops are exceedingly promising.

* Telegrams of the 7th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—(*Contd.*)			
Bhagulpore Div. 33	Monghyr, 5th June 1875.	Nil.	Weather set fair. Prospects of crops fair. Rain is wanted.
Bhagulpore Div. 34	Bhagulpore, 7th* June 1875.	·03	Rainfall at Muddehpoora ·10. The prospects of the crops have been satisfactory up to the present, but rain is now wanted everywhere, especially for the *bhadoi* crop in Muddehpoora. General health good.
Bhagulpore Div. 35	Purneah, 5th June 1875	Nil.	Weather very hot, with east wind. The dry weather this week in the north has been favourable. In the south there has been less rain; more is wanted.
Bhagulpore Div. 36	Sonthal Pergunnahs, 5th June 1875.	·03	Rain has come in Godda; 1·53 reported. The first half of the week was oppressively hot; it has got cooler now. Clouds appear to be gathering. Rains will probably begin early. Ploughing going on everywhere. *Janera* sowing will begin immediately.
ORISSA.			
Orissa Division. 37	Cuttack, 29th May 1875	·58	Weather somewhat less sultry than last week; storms occasionally occur, and the weather is cloudy and unsettled; a little rainfall. Ploughing and sowing are in full progress. A little cholera and cattle-disease in places. Public health on the whole good.
Orissa Division. 38	Pooree, 3rd June 1875	·04	There was slight rainfall in the interior on the 31st May and 1st June. At present the weather is occasionally cloudy and unusually hot. Tillage and sowing have commenced, but require more rain. The harvesting of the *dalwa* or spring rice crop is very nearly completed and the outturn is good. Sugarcane is being manured; cotton is beginning to be gathered. Mangoes are nearly over. Jack fruits are ripening.
Orissa Division. 39	Balasore, 4th „ „	·47	The prevailing extreme heat and closeness are diversified by thunderstorms and heavy though partial rain. Ploughing and sowing are in full progress. Some of the early rice is four inches high. Cholera has nearly ceased.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, 4th June 1875.	·10	Weather seasonable, but very warm. State and prospects of crops satisfactory; the earlier sowings promising well.
41	Lohardugga, 5th June 1875.	2·10	Weather hot; sharp storm on the evening of the 29th May; rain has fallen. Ploughing continues. *Dhan* and *goondli* millet being sown. Cases of cholera and small-pox are still reported.
42	Singbhoom, 4th June 1875.	·02	Weather seasonable, but more rain is wanted. Prospects of crops favourable. District healthy.
43	Manbhoom, 5th June 1875	·29	Weather hot and steamy; slight rain. *Chalti dhan*, cotton, and sugarcane doing well. Paddy being sown.

* Telegram of the 7th June, received on the same day, shows rainfall during the seven days immediately preceding.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

Offg. Secy. to the Govt of Bengal.

The following order, issued by the Government of India in the Military Department, is republished for general information:—

No. 580.—*Simla, the 4th June* 1875.—With the approval of Her Majesty's Government, the Right Hon'ble the Governor-General in Council is pleased to direct the publication of the following rules for the examination of Surgeons of the Indian Medical Service previous to their promotion to the rank of Surgeon-Major under the provisions of clause 2 of the Royal Warrant of the 10th May 1873, published in G. G. O. No. 673, of the 1st July 1873,

This order is applicable to the three Presidencies:—

Rules for the Examination of Surgeons previous to promotion to the rank of Surgeon-Major.

This examination is intended as a test for promotion, and may be taken at any time after the Surgeon has served nine or more years.

When Surgeons have served the requisite time, they will be examined in the following manner:—

A series of printed questions prepared by an Examining Board, consisting of the Principal of the Medical College and any two or more of the Professors he may associate with himself for the purpose, will be sealed and sent by the Surgeon-General to the principal Medical Officers of stations where Surgeons may be eligible for examination. It will be the duty of the principal Medical Officer of the station to deliver these sealed questions to the Surgeons, and to see that they are answered without the assistance of books, notes, or communication with any other person. The answers are to be signed and delivered, sealed, to the principal Medical Officer, who is to send them, unopened, to the Surgeon-General, together with a declaration from the Surgeon himself, or certificate from a superior Medical Officer, if there is one, that he has availed himself of every opportunity of practising surgical operations on the dead body.*

* The Surgeon may see this certificate before it is sent to the Surgeon-General

The Surgeon is also required to transmit, together with his answers to the Surgeon-General, a medico-topographical account of the station where he may happen to be at the time, or of some other station where he may have been resident sufficiently long to enable him to collect the necessary information for such a report. Failing this, he will send a medico-statistical report of his charge for a period of at least twelve months.

If the Examining Board is satisfied with the replies to the questions, and the Surgeon-General is satisfied with the certificates and with the medico-topographical or statistical report, the Surgeon will be held qualified for promotion.

NOTIFICATION.

The 2nd June 1875.—Whereas a plan was submitted under Section 2 of Act V (B.C.) of 1873 for extending gas-lighting to certain portions of the town of Howrah, as published in the Government Notification dated 1st May 1875, and whereas no objections have been raised to, or any alterations suggested in, such plan within one month after a translation of it in the vernacular had been published in the town aforesaid, the Lieutenant-Governor is pleased to accord his sanction to the said plan, which is described below :—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the Grand Trunk road which lies between Ramkistopore Ghaut Road and Bishop's College Road, Seebpore Ghaut Road and Ghoosery Road. The total length of these roads is 2¾ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,61,363, and a rate of 3 per cent. would yield an income of Rs. 4,840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept this sum in payment for supplying gas

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from the general fund during the current official year.

Notice of candidature.

4. Notices of vacancies on the Committee will be issued each year in January. Any two rate-payers may nominate a candidate, and may inform the Magistrate of his candidature on any date not later than the last day of February. The Magistrate shall ascertain if the candidate accepts the nomination and is qualified under the rules; and if so, he shall notify such candidature at the cutcherry and at one or more police-stations in the town, as he may see fit. Such notification shall state the name, residence, and qualification of the candidate.

Objection against candidates.

5. If any rate-payer object to the eligibility of any candidate, he may on some date, not later than the 6th March, notify such objection in writing to the Magistrate, who shall hear and finally decide any question of eligibility. On the 10th March the final list of candidates shall be notified at the cutcherry and in at least one conspicuous place in each quarter.

Election of Sub-Committee of Commissioners.

6. The Municipal Commissioners shall appoint a Sub-Committee of three of their number to assist the Magistrate in carrying out the following rules regarding election.

Time and place of polling.

The Magistrate shall decide on what day, not later than the 25th March, the election shall be held, and he shall notify such decision at the cutcherry and in at least one place in each quarter.

List of electors.

7. As soon as possible after the publication of these rules, the Magistrate shall prepare a list of all the persons who paid any rate on houses or lands in each ward during the year ending on the 31st December next preceding. A copy of the list shall be exposed to view at the Magistrate's and at the Municipal Office; and a copy of so much of the list as relates to each quarter shall be affixed at some police-station or other accessible public place in each quarter of the town. All persons mentioned in the list who have paid the rates due from them up to the 31st December preceding shall be entitled to a vote in the election of Municipal Commissioners for the wards.

Number of votes.

8. No rate-payer shall have a vote for more than one person or in more than one ward.

Recording of votes.

9. Votes shall be recorded by such polling clerks as may be appointed by the Chairman of the Commissioners. There shall be at least one polling clerk for each polling place, who shall stay at the polling place for such hours as the Magistrate may fix on the day of the poll. Each rate-payer who desires to record his vote shall attend at the polling place, and shall state his name and residence. The polling-clerk shall verify from the list of voters of the quarter whether the intending voter is entitled to a vote for that quarter; and if he is so entitled, he shall record his vote against the rate-payer's name in the list of electors for the ward.

Identification of voters.

The Election Sub-Committee of the Commissioners shall, acting under the Magistrate's instructions, make such arrangements as they see fit for identifying voters in cases of doubt; and in any case of doubt as to the validity of a vote, or as to the identity of a voter, the decision of the Sub-Committee and the Magistrate shall be final.

Scrutiny of poll registers.

10. At sunset of the day of the poll, the poll shall be closed and the registers of the polling clerks shall be scrutinised by the Magistrate and the Election Sub-Committee, whose decision upon any doubtful point shall be final. The candidates who may stand highest on the poll of their quarter shall be declared to be duly elected.

Membership to commence.

11. The result of the poll shall be notified throughout the municipality, and shall be reported to Government for publication in the *Gazette*. The candidates declared to be duly elected shall hold office from the 1st April next succeeding the day of their election.

Cost of municipal elections.

12. All costs incurred in carrying out the arrangements for the election shall be paid from Municipal Funds.

HIGH COURT NOTICES.

Circular Order by the High Court of Judicature at Fort William in Bengal.

Circular Order No. 4.

Dated Calcutta, the 20th May 1875.

HIGH COURT.
ENGLISH DEPARTMENT.
(*Civil and Criminal.*)

MUCH inconvenience being caused by the unpunctual and irregular submission of Civil and Criminal Statements by Judicial Officers, the Court are pleased to intimate, for the guidance of Judicial Commissioners, Judges, and Magistrates, that the several Returns and Statements should be invariably despatched on or before the dates noted in respect of each :—

1. Monthly Statements on the 15th of the month following.
2. Quarterly Statements on the 20th of the month following the expiration of the quarter.
3. Annual Statements on the 15th February of the year following that to which they relate.

2. As regards the Administration Reports, the attention of District and Sessions Judges is drawn to the late Sudder Court's Circular Order No. 107, dated 25th November 1850, which has never been superseded, and which fixes the 1st February as the latest date for submission of the Annual Reports; that time the Court are now pleased to extend to the 15th February, by which date the Reports must be invariably despatched.

3. Subordinate Courts of all kinds should be strictly required to submit their Returns in time to enable their superiors to comply with this order.

4. Circular Order No. 26, dated 11th September 1867, paragraph 1, is superseded as regards the date of submission of Quarterly Statements.

Circular Order No. 5.

Dated Calcutta, the 22nd May 1875.

HIGH COURT.
ENGLISH DEPARTMENT.
(*Civil.*)

IT having been brought to the notice of the High Court that, in suits against Government, or against an officer of Government in his official capacity, as well as in suits relating to wards of Court, plaints are frequently drawn up with an inaccurate designation of the defendant, and an entire disregard of the requirements of the law as to the manner in which he should be described, the attention of all Civil Courts subject to the control of the High Court is drawn to the subject.

2. In all suits against the Government, or one of its officers in his official capacity, the requirements of the Code of Civil Procedure (Act VIII of 1859), Section 26, Clause 6, should be carefully observed, and no other officer named, or description inserted, than what is there prescribed. And in the case of suits against a ward of Court, the defendant should be described in the manner set forth in Act IV (B.C.) of 1870, Section 69.

3. When the plaint contains a description of the defendant not in conformity with the law, the duty of the Court in which it is presented will be invariably to return it for amendment.

By order of the High Court,
W. M. SOUTTAR, *Registrar.*

Sheriff's Office, the 16th June 1875.

NOTICE is hereby given that the Sixth Criminal Sessions of the year 1875, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the twelfth day of July next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Session be then and there to prosecute.

(N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.)

NOTICE is hereby given that the proprietary rights of Government, as specified in the condition of sale below, in the undermentioned estates situated in the district of Purneah, will be put up to sale at the Purneah Collectorate on Saturday, the 24th July 1875, corresponding with 9th Srabon 1282 B. S. and 6th Srabon 1282 F. S.

The purchasers will be subject to the following conditions of sale:—

1*st*.—The purchasers of these estates will be considered as the proprietors of the estates and the entire proprietary rights of Government in such estates will be transferred to them, the only right reserved by Government being the right of revising the jummah at the conclusion of the term of the present settlement, and on the expiration of all future settlements. If on re-settlement they should refuse to engage, they will be entitled to malikana. The estates will be sold, subject, up to the expiry of the existing settlement with year ending 31st March 1902 A.D., to the Government revenue against them, to the highest bidders above the upset price.

2*nd*.—The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings, and by the laws in force: the purchasers to be bound to respect the right of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the under-mentioned estate, situate in the district of Monghyr, will be put up to sale at the Monghyr Collectorate, on the 28th September 1875, corresponding with 13th Assin 1283 F.S.

The purchaser of this estate will be subject to the following conditions of sale:—

(1.) The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, the only right reserved by Government being the right of revising the jumma at the conclusion of the term of the present settlement, and on the expiration of all future settlements.

If, on resettlement, he should refuse to engage, he will be entitled to malikana. The estate will be sold, subject, up to the expiry of the existing settlement, in the year ending 31st March 1902 A.D., to the Government revenue against it, to the highest bidder above the upset price.

(2.) The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings, and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators, who have signed the schedule of assessment prepared by the revenue authorities.

(3.) If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

(4.) If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to the Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the advertisement, as in the case of the original sale.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the schools and colleges in India, and though at present a scholar-like knowlege of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars, and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country —*Extract from Preface*

RESOLUTION ON THE SUBJECT OF GRADING THE DEPUTY AND SUB-INSPECTORS OF SCHOOLS IN BENGAL.

RESOLUTION.

GENERAL DEPARTMENT.—EDUCATION—No. 1853.

Calcutta, the 14th June 1875.

READ—

The orders by the Government of Bengal in the General (Education) Department, No. 73, dated the 7th January 1873, forwarding to all Commissioners a distribution list of the Deputy Inspectors and Sub-Inspectors of Schools attached to each district.

A letter from the Director of Public Instruction, No. 2769, dated the 3rd June 1874, proposing a scheme for grading Deputy Inspectors and Sub-Inspectors of Schools in Bengal, and increasing the present number of such officers.

A Minute by the Lieutenant-Governor of Bengal, dated the 4th May 1875, on the appointment of Deputy Inspectors and Sub-Inspectors of Schools.

BY the orders of the 7th January 1873, it was contemplated that the duty of inspecting the Government schools and aided schools in the territories administered by the Lieutenant-Governor of Bengal should be performed by a staff of 38 Deputy Inspectors, 3 additional Deputy Inspectors (who were subsequently to be replaced by Sub-Inspectors), and 65 Sub-Inspectors, or 106 inspecting officers in all. An establishment of this strength was manifestly

insufficient for the due inspection even of the schools then existing; but the funds at the disposal of Government did not at the time allow of a larger outlay for this purpose. Since then, however, the number of schools coming under inspection has been very largely increased by the operation of the orders of September 1872, under which numerous primary schools in every district of the Lower Provinces have been subsidized by Government, and have consequently come under the supervision of the Department of Education. Some additions to the inspecting establishment have been made from time to time to supply the urgent wants of districts in which a large number of schools are supported or aided by Government, and the Director's letter of the 3rd June 1874 shows that on that date the total number of Deputy Inspectors and Sub-Inspectors had been raised to 177. But since there are now about 10,000 schools and patshalas under inspection in the Lower Provinces, it has become necessary to add considerably to this number, as an inspecting officer cannot be expected efficiently to supervise more than about 50 schools.

2. The Lieutenant-Governor has had under his careful consideration the number of inspecting officers whom it may now be possible to appoint, the grades in which they can most conveniently be arranged, and the salaries which ought to be allotted to the several grades. It may be thought that Sub-Inspectors, whose principal duty will be the inspection of primary schools, need not be very highly educated or very-well-paid officers. But the Lieutenant-Governor bears in mind that it is necessary that even the lowest grade of Sub-Inspectors should hold a position which will ensure their advice being treated with respect by the schoolmasters and managing committees with whom their duties will bring them into contact. It is also to be observed that liberal grants of public money are disbursed upon the recommendations of these officers, and that in some cases the officers themselves are charged with the direct payment of Government funds, as in many districts the grants-in-aid to village schoolmasters are paid them by the Sub-Inspector. For these reasons it is essential that the appointments should be filled by men of respectability, education and integrity, and that adequate salaries should be assigned for the performance of these important and responsible duties.

3. At present some Sub-Inspectors draw salaries of only Rs. 25 and Rs. 20 per month. This pay, even when supplemented by travelling allowances, appears to the Lieutenant-Governor to be insufficient to secure the services of duly qualified men. His Honor considers that no Sub-Inspector should draw less than Rs. 30 in addition to travelling allowances, and it may be hoped that it will not be necessary for any one who shows himself qualified for his post to remain long in receipt of a lower salary than Rs. 50. For a young man on his first entrance into the department, a salary of Rs. 30, with travelling allowances which will amount to about as much more, should be sufficient, but it will be arranged that about two-thirds of the Sub-Inspectors shall draw salaries of Rs. 50 and upwards.

4. The maximum salary of a Deputy Inspector of Schools should, the Lieutenant-Governor thinks, be fixed at Rs. 200. It has been represented to Sir Richard Temple that some head masters of schools are in receipt of higher pay than this, and that the salaries of the teaching and the inspecting branches of the service should be placed, as far as possible, on a level. But it would not be His Honor's wish to recognize any absolute line of distinction between these two branches of the Department of Education. An efficient Deputy Inspector of Schools should, in the Lieutenant-Governor's opinion, be qualified to fill the appointment of head master in a normal or zillah school, and such a post might very properly be bestowed on an officer who had done good service, but whose health might not longer be equal to sustaining the fatigue and exposure involved in the duty of inspection.

5. The Lieutenant-Governor is conscious that any orders which may be passed for fixing the strength of the inspecting establishment can be only provisional and temporary. The number of schools under inspection is steadily increasing, and will probably increase for some time to come, and this increase must be met by additions to the staff of officers engaged upon this duty. But

for the present, and with regard to the funds which the Government of Bengal is able to devote to this department of the educational administration, the Lieutenant-Governor has determined that the establishment shall be fixed at the following strength:—

			Rs.
10	Deputy Inspectors of the 1st grade on	... ...	200
15	„ „ „ 2nd „	... ...	150
20	„ „ „ 3rd „	... ...	100
25	Sub-Inspectors „ 1st „	... ...	75
75	„ „ 2nd „	... ...	50
55	„ „ 3rd „	... ...	30

This will give a total force of 45 Deputy Inspectors and 155 Sub-Inspectors, or 200 officers in all; and in the present state of the provincial funds, a larger establishment than this cannot be maintained without an undue reduction of the salaries allotted to the different grades.

6. Deputy Inspectors will further be entitled to draw travelling allowance at 4 annas a mile, and Sub-Inspectors at 3 annas a mile. It is estimated that these allowances will amount to about Rs. 60 in the case of a Deputy Inspector, and to about Rs. 35 in the case of a Sub-Inspector. But the allowances for peons and contingencies, which are at present drawn by Deputy Inspectors, will henceforth be discontinued.

7. The present cost of the inspecting establishment, consisting of 177 officers, is stated in the Director's letter of the 3rd June 1874 to be Rs. 2,30,100. The cost of the establishment now sanctioned will be as follows:—

		Rs.
Salaries of Deputy Inspectors ...	... ...	75,000
Travelling allowances of Deputy Inspectors	... ...	27,000
Salaries of Sub-Inspectors ...	... ...	87,300
Travelling allowances of Sub-Inspectors	... ...	65,100
	Total ...	2,54,400

8. One Deputy Inspector, and no more, will be posted to each of the districts under the Government of Bengal and to the town of Calcutta. Sub-Inspectors will be allotted by the Director of Public Instruction to the several divisions, in consultation with the Commissioners and Inspectors of Schools, and in accordance with the educational requirements of each district. Ordinarily there will be a Sub-Inspector at the head-quarters of each district and in each sub-division, and it is contemplated that the area assigned to a Sub-Inspector shall lie, as far as possible, within the limits of a single sub-division. But many sub-divisions, in which schools are numerous, will require the services of several Sub-Inspectors, and in some cases it may be desirable to assign more than a single sub-division to one Sub-Inspector. Where there are two or more Sub-Inspectors in one sub-division, it may be convenient sometimes to divide the area among them, and sometimes to assign to each of them the duty of inspecting a different class of schools throughout the whole sub-division. These are matters upon which no fixed rule can be laid down, and which must be regulated by the circumstances of each locality, and by the qualifications of the several officers who may be employed. The Commissioners therefore will have a full discretion, in concurrence with the Director of Public Instruction, to determine the duties to be assigned to the Sub-Inspectors, and the areas within which their functions shall be exercised. But it would be the wish of the Lieutenant-Governor that Sub-Inspectors of the 3rd grade should ordinarily be posted to the sudder sub-divisions of districts, where their work will come immediately under the eye of the Deputy Inspector and of the District Magistrate.

9. The appointment and promotion of Deputy Inspectors and Sub-Inspectors will be regulated by the orders embodied in the Minute of the 4th May 1875. Leave of absence to these officers will be granted, as at present, under the rules issued by the Director of Public Instruction on the 10th February 1873, with the sanction of Government.

10. The Lieutenant-Governor trusts that, under the working of the present scheme, it may be possible to carry out a more complete and efficient system of inspection than has hitherto been attained. And he desires to impress upon all officers of Government the duty of co-operating, so far as they may be able to do so, in this useful and important work. It is understood that district and sub-divisional officers, in the course of their periodical tours, take every opportunity of inspecting different classes of schools. But the Assistant or Deputy Collector, who is sent into the interior of the district on settlement duty: the Police Inspector, who has to visit his thanas, or to conduct an enquiry in some distant village: the Excise Darogah, the Sub-Registrar of Assurances: in short, all officers whose duties may give them the opportunity of doing so, should not fail to visit and examine the neighbouring schools, and especially those primary schools the efficiency of which can only be maintained by frequent and vigilant supervision.

ORDER.—Ordered that copies of this Resolution be forwarded to the Director of Public Instruction, to all Commissioners of Divisions, District Officers and Inspectors of Schools, for information and guidance. The Director is requested to report, at his early convenience, the arrangements which he may make, in communication with Commissioners of Divisions, for allotting Sub-Inspectors of Schools to the several districts.

Ordered also that a copy be sent to the Accountant-General and to the Financial Department of this office for information.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,

Offg. Secy. to the Govt. of Bengal.

REVIEW OF REVENUE SURVEY OPERATIONS.

RESOLUTION.

REVENUE DEPARTMENT.—SURVEY.

Darjeeling, the 12th June 1875.

READ—

A letter No. 292A., dated 11th May 1875, from the Board of Revenue, submitting the report on the revenue survey operations in the Lower Provinces during the year ending with the 30th September 1874.

THE previous year's report showed the work done by three professional survey parties, but during the year under review the new administration of Assam was formed, under which two of the parties were engaged. There only remained, therefore, under the Government of Bengal, one full survey party, employed in the district of Midnapore in charge of Major Sconce. Work was not commenced till the 15th December, which appears to be somewhat late in the season. The Lieutenant-Governor presumes that this delay in beginning operations is attributable to the nature of the country, but some explanation should have been offered.

2. Of the tract taken up, containing 1,122 square miles, nearly 942 have been fully completed. Of the remaining 180 square miles, only the village boundaries have been surveyed. The area accomplished is greater than the two previous seasons (749 and 882 square miles), but is still considered to be small. The large number of villages (2,293) in the tract greatly increased the amount and cost of work both in field and office. The cost amounted to Rs. 63,241, which gives an average of Rs. 67-2-3 per square mile and Rs. 27-9-3 per village circuit.

3. It is satisfactory to observe that the thakbust or village boundary maps furnished by the demarcation party were found very accurate to scale, either of sixteen or thirty-two inches to the mile. The Lieutenant-Governor concurs with the opinion expressed that it is impossible to have too many points of reference, and is glad to see that many conspicuous objects have been connected with the theodolite work. No permanent boundary marks were erected, but 74 prism-shaped stones were placed at trijunction points of villages.

4. The area remaining for survey in Midnapore is estimated at 2,885 square miles; and four pergunnahs of the Balasore district, calculated to contain 141 square miles, which were transferred from Midnapore subsequent to the first survey, have also to be surveyed. Including overlaps on the boundary, there are 3,202 square miles, which, it is estimated, will take three years to complete.

5. The Ganges Dearah Survey was sanctioned in the year under review. The party deputed to this work are to survey the villages on the banks of the Ganges from Kooshtea to Dukhin Shahazpore at the mouth of the river. The object is to relay the boundaries on the tracts of country which have been subjected to the action of the river since the last survey, and thereby render possible proceedings under Act IX of 1847 (regarding assessment of lands gained by alluvion or dereliction). The preliminary arrangements are to be effected by the revenue officers, who are erecting boundary marks about three miles on each side of the river. The professional survey party will take this line as their base, and lay down the village boundaries between it and the Ganges in accordance with the former survey. New lands found to have formed will be surveyed, and subsequently assessed and settled by the revenue authorities. In future, boundary marks are to be erected at the cost of zemindars. These subjects have been already noticed at greater length in the last Administration report.

6. The Lieutenant-Governor awaits the report which has been called for regarding the work done by the party on special duty in Darjeeling.

7. Mr. F. Jones, C.S., the Senior Superintendent of Survey, held charge of the non-professional survey party for nearly the whole year. About 486 square miles were demarcated, containing 1,222 villages—apparently a smaller outturn

of work than in the previous year; but one of the deputy collectors was engaged for a considerable time in completing unfinished work, viz. the measurement of 8,536 mehalwar plots, and in local enquiries. The statements appended to the Board's report exhibit a satisfactory quantity of work accomplished.

8. The difficulties experienced by Mr. Price, noticed in the report for 1872-73, in inducing the zemindars and landholders in his district to assist the survey work, are again illustrated by the refusal of the proprietor of one of the jungle mehals to allow the demarcation to proceed. Owing to the lateness of the season, the field parties had to be withdrawn. His Honor will be glad to have it noticed in the next report whether this opposition was overcome. The question of a demarcation by mouzahs, or by pergunnahs, for the jungle mehals has formed the subject of a separate communication.

9. It was remarked in the Government resolution of last year that the work done in connection with the preparation of registers of the Hooghly district was again unsatisfactory, and that the money spent on the work seemed to be wasted. The expenditure in the Hooghly Survey Office has increased from Rs. 10,215 to Rs. 13,404. The confusion in the registers appears to have arisen from the numerous omissions made both in the Hooghly and Burdwan measurements, the boundaries of which districts are much interlaced. Measures have been proposed for the correction of the defects in that survey. Advantage should be taken of this experience to prevent the recurrence of similar confusion in the Midnapore work.

10. The Lieutenant-Governor accepts the explanations given to account for the apparently enormous increase of the cost per square mile of the non-professional survey work in Midnapore. The increase of expense in the Hooghly registry work is not explained, and should be carefully watched.

11. Sir Richard Temple observes with satisfaction that the Officiating Superintendent of Revenue Surveys has reported favorably of his subordinates, and that Mr. Schalch has recorded a similar opinion with regard to the proceedings of the officers of the non-professional survey party.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Offg. Junior Secy. to the Govt. of Bengal.

REMOVAL OF RESTRICTIONS ON THE FREE TRANSIT AND SALE OF SALT IN THE TRIBUTARY MEHALS OF ORISSA.

No. 70, dated Camp Pooree, the 22nd May 1875.

From—T. E. RAVENSHAW, ESQ., Superintendent, Tributary Mehals,
To—The Secretary to the Govt. of Bengal, Revenue Department.

REFERRING to your No. 272 of 3rd February 1875, I have the honor to report that I have succeeded in inducing all the Rajahs of the Cuttack Tributary Mehals to abandon all monopoly of salt, and all restriction on the passage of licit salt through, or for sale in, their territories, and they have agreed to allow all traders free access without reservation.

2. Each Rajah has been separately addressed, and all have agreed to abandon the practices referred to in my letter No. 333 of 2nd January 1875. The results are very satisfactory and creditable to all the Rajahs. I therefore propose, with permission of Government, to issue a notice in the enclosed form.

Notice to Salt Traders and all whom it may concern.

NOTICE is hereby given that the Rajahs of Orissa Tributary Mehals have agreed to abandon all restriction on the free passage and sale of either Ganjam or Orissa licit salt in their territories. Any trader is now at liberty to take licit salt anywhere without restriction through any of the Tributary Estates, and to sell licit salt freely, when and where he pleases, without payment of any dues to the Rajahs, and without restriction as to price.

T. E. RAVENSHAW,
Commissioner.

No. 1361, dated Calcutta, the 3rd June 1875.

From—H. J. REYNOLDS, ESQ., Offg. Secretary to the Govt. of Bengal,
To—The Superintendent of the Tributary Mehals of Cuttack.

I AM directed to acknowledge the receipt of your letter No. 70, dated 22nd May, and in reply to say that the Lieutenant-Governor learns with much pleasure that you have succeeded in inducing the Rajahs of the Cuttack Tributary Mehals to abandon the practice under which they have hitherto exercised monopolies of the sale of salt in their respective territories, and to agree to all traders being allowed henceforward free access without reservation.

2. His Honor approves of your proposal to issue a notice in the form enclosed in your letter, for the information of salt traders and others concerned.

No. 1364, dated Calcutta, the 3rd June 1875.

From—H. J. REYNOLDS, ESQ., Offg. Secretary to the Government of Bengal,
To—The Secretary to the Government of India, Department of Revenue, Agriculture, and Commerce.

IN continuation of my letter No. 1033, dated 26th April, I am directed to report, for the information of His Excellency the Governor-General in Council, that the Superintendent of the Tributary Mehals of Cuttack has succeeded in inducing all the Rajahs of those Mehals to abandon all monopoly of salt, and all restriction on the passage of licit salt through, or for sale in, their territories, and to agree to all traders being allowed free access without interference of any kind.

2. The Lieutenant-Governor considers this result of Mr. Ravenshaw's personal influence and persuasion to be very satisfactory, and creditable both to Mr. Ravenshaw and to all the Rajahs concerned.

RESOLUTION ON THE REPORT OF THE CALCUTTA COURT OF SMALL CAUSES FOR THE YEAR 1874-75.

RESOLUTION.

JUDICIAL.

Calcutta, the 14th June 1875.

READ—

Letter No. 6, dated 7th April 1875, from the Judges of the Calcutta Court of Small Causes, being their Annual Report on the business of the Court for 1874-75.

Read again—

Their Report for the previous year, and the Government Resolution thereon.

THE Lieutenant-Governor remarks with pleasure the punctuality with which, on the present occasion, the Annual Administration Report of the Court of Small Causes in Calcutta has been submitted. Its brevity, would seem to indicate that, in the year under review, few matters of general public importance came under the consideration of the Judges. Sir Richard Temple would, however, have been glad had they reviewed more minutely the figured statements submitted by them, and had they brought into prominent relief those results which would seem to point to anything defective in the working of the Court, or to amendments which might be made with advantage in the existing Small Cause Court Acts. These have now been in force for a lengthened period, and have fairly met, His Honor believes, the objects with which they were passed. Much might, however, be done to adapt them to the modern form which the Statute Book has now assumed, and, without admitting the necessity for all the amendments which have at various times been proposed, the Lieutenant-Governor thinks that the time has now arrived when advantage might be taken of the experience which has been gained of the working of the several provisions of the existing Acts to recast them entirely, with such alterations as may, on mature deliberation, appear to be advisable. In a late communication the Government of India have held out some hope of this task being undertaken by the Legislative Council.

2. By Act I of 1875, the law relating to distresses for rent, as administered in the Presidency Small Cause Courts, has been consolidated and amended. The power of seizing and selling tiled huts, which the Judges in their report for 1873-74 pointed out that they had ceased to exercise, has not been expressly restored to them, and the number of cases in which recourse has been had to the law continue to decline slightly, the total number of distresses issued having been 335 against 386 in the previous year. The total amount of rent involved in these cases was Rs. 22,266 as against Rs. 26,228.

3. There was, on the other hand, looking to the number of suits instituted, a slight increase in the general business of the Court, as compared with the two previous years. The value of the property in dispute has, however, fallen off somewhat, as shewn by the following figures:—

	No. of cases instituted	Value of property in litigation.
		Rs.
1872-73	34,813	16,23,110
1873-74	34,583	16,11,535
1874-75	34,983	15,70,143

From the information afforded by the tabular statements, the Lieutenant-Governor is not able to draw any inferences as to the character of the prevailing litigation. According to the classification adopted in the returns, the ratio borne by the different classes of cases to the whole would seem to be nearly constant. In suits for goods sold and delivered, and in actions on bills of exchange and promissory notes, some increase is observable. While there has been a considerable decrease in cases of ejectment and for money paid, there has been an increase in the number of suits for the recovery of small tenements,—a class of cases which it is not altogether certain that the legislature intended that the Court should have jurisdiction to try.

4. Classed according to the value of the claim made, the number of suits instituted during the past two years was as follows:—

	1873-74.	1874-75.
Under Rs. 50	28,584	29,063
„ „ 100	5,492	5,411
„ „ 1,000	480	473
Above „ 1,000	27	36

These figures would seem to shew that advantage is taken by the public, but to a very limited extent, of the increased jurisdiction accorded to the Court by Act XXVI of 1864. As a mark of confidence in the Judges, however, it is satisfactory to find that there has been an increase in the number of cases exceeding Rs. 1,000 in value, which can be entertained by them only by consent of the parties. How far advantage has been taken of the provisions of the law allowing a reference to the High Court in cases of doubt or difficulty is not stated. In future the number of cases thus referred should be stated in the returns.

5. Of 35,117 cases set down for hearing and disposed of during the year, 12,219 were compromised, 13,582 were non-suited, struck off, or decided *ex parte*, and 9,316 were tried out. Including 7,333 *ex parte* cases, decrees were given in favour of the plaintiff in 12,705 cases in whole, and in 2,622 cases in part. Of cases decided on trial, the decision was in favour of the defendant in 1,322 cases only.

6. As regards process after judgment, it appears that 9,269 writs of execution and 50 attachments were issued by the Court. In 3,025 cases the process was executed against the person of the debtor, and in 2,533 cases against his property. Compared with the previous year, a slight decrease is observable in the resort had to the former process. A decrease is also observable in the number of cases in which copies of judgments and certificates issued for execution out of the jurisdiction of the Court, the number having been 402 against 486 in the previous year.

7. In reviewing the report for 1873-74, the Lieutenant-Governor drew attention to the necessity for caution in the issue of bench warrants for the arrest of defendants before judgment. He observes that there has been an increase of 50 per cent. in the number issued during the year under review, but he trusts that care was taken in each case to ascertain that the issue of such process was fully justifiable. He would again beg the attention of the Judges to this point. In 1,417 cases the issue of second summons was allowed. Considering the amount of business before the Court this number does not appear excessive.

8. The Lieutenant-Governor regrets to observe that the present report, like that for 1873-74, is defective in not shewing, in a complete manner, how the work of the Court was distributed among the several Judges. He requests that this omission may be supplied on future occasions.

9. The number of days on which the Court was closed was 105, against 99 in the previous year. The increase is in part due to the interval necessary for the removal of the Court from the old to the new buildings. Sir Richard Temple has recently sanctioned a redistribution of the authorised holidays of the Court with a view to meet the wishes of the Mahomedan community, whereby, in future, seven days will be deducted from the 30 days allowed for the Doorga Poojah vacation, in return for the eight Mahomedan holidays on which the Court will now be closed.

10. Another question which has engaged the attention of Government during the year was the exclusion of unauthorized law agents from the Court. The necessity of excluding a numerous class of law brokers had long pressed itself on the attention of the Court, and decisive steps were taken, on removing to the new buildings, to effect the end desired. Complaints were, however, made to the Lieutenant-Governor of the inconvenience caused by the absence of some agency, inferior to vakeels, for conducting the business of suitors, and the Judges of the Court, who were addressed on the subject, have accordingly intimated their willingness to admit, as "an approved agent," any mookhtear authorized to act in the High Court or any Court subordinate to it.

11. The financial result of the year has been that, against a net amount credited to Government in the cash account of Rs. 2,04,575, there was a total expenditure of Rs. 1,71,254, leaving a balance of Rs. 33,321 to be credited to the general revenues. In future years there will be a further annual saving of nearly Rs. 15,000, representing the rent paid for the old Court house. In the aggregate amount paid into, and paid out of Court on account of decrees, there has been a slight diminution, the figure having been Rs. 6,74,158, against Rs. 6,78,884 in the previous year.

12. On the whole, the Lieutenant-Governor agrees with the Judges in thinking that the report for the year is satisfactory.

ORDERED that a copy of the above Resolution be forwarded to the Judges of the Calcutta Court of Small Causes for their information.

By order of the Lieutenant-Governor of Bengal,

WORKING OF THE CANTONMENT LOCK HOSPITALS DURING THE YEAR 1874.

RESOLUTION.

MEDICAL DEPARTMENT.

Calcutta, the 14th May 1875.

READ—

The Reports by the Commissioners of the Patna, Presidency, Cooch Behar, and Chota Nagpore Divisions on the working of the Cantonment Lock Hospitals in their respective divisions for the year 1874.

Read again—

Their Reports for the previous year, with the Government Resolution thereon.

Dinapore.—The report from this cantonment for 1873 was not very satisfactory, it being open to doubt whether the rules were enforced with sufficient strictness. During 1874 there appears to have been some improvement in this respect, the average number of persons on the register having been 95·75, against 79·8 in 1873. It is satisfactory to learn that a more suitable class of persons have been brought on the register. Still, however, much remains to be done in this direction, and there can be but little doubt, looking to the large number of cases of disease which occurred among the soldiery, viz. 202, with an average strength of 1,000 men only, that there are many persons who ought to be brought on the register, whom the rules, as at present administered, do not touch. It would seem, moreover, that the limits, which have been brought under the operation of the rules, are too small, and that the soldiers have facilities for wandering beyond these limits. The Magistrate should report, after communication with the military authorities, whether it will be advisable to introduce any special measures with a view of diminishing the existing evils, and if an extension of the limits within which the operation of the rules is at present confined is deemed desirable, proposals to that effect should be submitted. The immediate attention of the Commissioner will be separately directed to this point. The Lieutenant-Governor agrees with the Magistrate in thinking that sufficient reason has not been shewn for the removal of the hospital from its present site. Steps should, however, be taken to carry out the improvements in the examination ward, which the medical officer reports can be effected at little expense.

Barrackpore.—In 1873 the average number of persons on the register in this cantonment was 76·36. In 1874 it declined to 69·5. At the same time the number of cases of disease among the troops increased to 82, with an average strength of 499 men, against 15 cases in the previous year, when the average strength was 396 men. These results are unfavorable. There is no doubt much difficulty presented by the fact that the soldiers are free to ramble

over a large area of unprotected country; still there is reason to fear that the Cantonment Magistrate, who is now absent on leave, can hardly have exercised sufficient strictness in enforcing the rules within the limits prescribed for their operation. The Lieutenant-Governor will refrain from judging absolutely of this, as that officer is not present to offer explanation, but will now be content with saying that the matter is one which calls for the strictest attention on the part of his successor. As regards Serampore and the tracts west of the Hooghly, there is much in what is said of the hardship of forcing registered persons to cross the river at all seasons for the purpose of examination; still it is not satisfactory to find that the rules have been allowed to remain a dead letter in that town. The proposal to appropriate a part of the charitable dispensary at Serampore for the purposes of a lock hospital does not commend itself to the Lieutenant-Governor, as being open to grave objection. But he will be prepared to entertain a proposition for the establishment of a separate hospital in a secluded part of the town, if, after a consideration of the question, the Commissioner of Burdwan recommends that this should be done. The Commissioner, with reference to the unsatisfactory results of the past year, questions the efficiency of the present means under Act XXII of 1864, and suggests the advisability of extending the "far more effective provisions" of Act XIV of 1868 to the whole tract of country covered by the Barrackpore and Dum-Dum sub-divisions, the north suburban town, and the town of Serampore. The tract of country referred to is large, and probably the expense of controlling so great an area would present some difficulties. The question, however, of extending the provisions of Act XIV of 1868 to the cantonments of Barrackpore and Dum-Dum, and their environs, in order to afford better protection to the soldiery than exists at present, has already engaged the attention of the Lieutenant-Governor, and a separate communication has been made to the Commissioner on the subject.

Dum-Dum.—The working of the rules within this cantonment has been satisfactory. With a slightly increased number of persons on the register, the admissions to hospital have diminished in number. This may in part be attributed to the increased regularity with which the periodical examinations have been attended. Increased vigilance on the part of the medical officer has resulted in an apparent increase in the number of one form of disease detected at these examinations. The same class of disease has slightly decreased among the troops, while the diminution in the number of cases of a less serious type has been very marked. Including cases of all kinds, the ratio to strength per thousand of admissions to hospital among the troops was only 101, against 120 in the previous year: that is, with an average strength of 641 men, there were 65 cases of disease; and it is stated that in no less than 42 cases out of the above, the disease was contracted in other places.

Hazareebagh.—The withdrawal of the 22nd Regiment from this station was followed by a rapid decline in the number of persons borne on the register, the number remaining at the close of the year being 29 only, against 50 at its commencement. In the wish to avoid mischief to the troops, the Civil Surgeon would seem to have exceeded what was necessary in the matter of enforcing detention in hospital. Making every allowance for this, however, the amount of disease detected at the periodical examination was lamentably high. Among the troops, the ratio to strength of admissions to hospital was 157 per thousand while the 22nd Regiment remained, and 18 per thousand subsequently. All this disease, it is said, could not have been contracted from registered persons. Complaint is made that it may have originated in places beyond the limits fixed for the operation of the rules, but the Lieutenant-Governor is by no means satisfied that these are properly enforced within the area meant to be protected. The Commissioner must draw the serious attention of the Deputy Commissioner to the matter, and must insist on his carrying out the segregation of the registered persons residing within the bazaar, as already ordered by Government.

Darjeeling.—The question of the administration of the lock hospital in this cantonment has formed the subject of a separate correspondence with the

Government of India. It appears that the rules were not properly enforced, and that but little supervision was exercised by the Deputy Commissioner, whose explanation in the matter is awaited. The average number of persons on the register was 11·4 only. The attendance at the periodical examinations was fair, and in 23 cases only was disease detected. The report submitted is defective, as no particulars have been given regarding the health of the troops. It is, however, understood that a good deal of disease prevailed amongst them owing to the laxity with which the rules were enforced. The hospital has now been made over to the control of the military authorities, and the civil officers have been instructed to render them every assistance in the matter of carrying out and enforcing the rules. The Lieutenant-Governor must beg the local authorities to understand that they will be held responsible for doing all in their power for the mitigation of the evil at this station.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 12th June 1875.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Divn. 1	Burdwan, 14th* June 1875	4·17	Rainfall at Culna ·51, Cutwa 2·20, Boodbood ·31, Raneegunge ·76, Jehanabad 2·04 inches. Sowing of *aman*, or late rice, progressing. Prospects of crops favorable.
2	Bankoora, 12th June 1875.	·97	Weather very hot. Rain fell on the 5th, 11th, and 12th instant, and it was raining at the time of report. The crops have suffered a little for want of rain. It is, however, hoped that the rain that has fallen will improve their condition.
3	Beerbhoom, 12th „ „	3·44	Weather overcast and cool. Monsoon broke on the night of the 11th instant, and it has been raining continuously since 2 A.M. up to the time of forwarding this report. Ploughing is going on in all directions. Early rice and sugarcane doing well.
4	Midnapore, 12th „ „	·05	Sky generally cloudy, but rain only fell on one day. It was, however, raining hard at the time of despatching this report. Rain is now needed, otherwise the crops which were sown rather early will suffer from want of it.
5	Hooghly, 12th „ „	2·61	The rains began about the 5th instant. Average rainfall of the district 2·08. Weather cooler. State of crops good all round. Present prospects are very good. Health good.
	Howrah, 12th „ „	·67	Weather close and rainy. Ploughing for the late rice crop and sowing of the early rice continue. Jute and sugarcane progressing favorably.
	Central Districts.		
Presidency Divn. 6	24-Pergunnahs, 14th† June 1875	1·90	Weather hot and cloudy, with rain at intervals. The rain has done much good to the crops. Prospects of early rice and jute are favorable. Fever decreasing at Barripore, but increasing in sub-division Bussurhat. Three cases of small-pox reported from Satkhira.
7	Nuddea, 12th June 1875	7·37	Weather damp, and not very hot. The crops, both rice and indigo, are promising Till the last few days, rain had been rather scanty, but latterly there has been enough. The price of rice has slightly fallen.
8	Jessore, 12th „ „	3·95	Several showers during the week, terminating in a heavy downpour on the night of the 11th instant. State and prospects of the crops are excellent.
9	Moorshedabad, 12th June 1875.	3·76	Weather in the commencement of the week was hot and oppressive. Heavy rains on Friday and Sunday. General rainfall on the 11th instant, which is sufficient to remove all apprehension on account of the young rice crops. *Aous* crops progressing favorably. Ploughing actively conducted. Mulberry, sugarcane, and indigo in good condition. Mango crop indifferent. Small-pox still in Soojagunge. General health good.
Rajshahye Divn. 10	Dinagepore, 11th June 1875.	1·96	Occasional showers. Heat in the intervals very great. 1·44 inches of rain between sunset and sunrise of the 10th instant, and was raining hard at the time of report. Much weed in crops. Crops thrive. Jute very good. *Bhadoi* or early rice middling, not so good as in richer land.
11	Maldah, 12th June 1875	3·44	The rainy season commenced on the 8th instant, and the weather has been cloudy since then. Prospects of the autumn rice crop are generally good; but for it, and for the sowing of the winter rice, rain is still wanted in some parts.
12	Rajshahye, 12th „ „	3·30	On the 9th and 10th all parts of the district had good rain. The rain has been most beneficial to the crops, which are all doing well. There is every appearance of the setting in of the rainy season, and the Ganges is rising a good deal. There is no sickness.
13	Rungpore, 11th „ „	3·72	Rain has fallen on six days out of seven, and has been general all over the district. Crops getting on well.
14	Bogra, 12th „ „	3·75	Rains set in. The downfall of rain has done the rice good Jute is, however, a little backward. Prospects on the whole promising.
15	Pubna, 12th „ „	·86	Weather cool and cloudy; more rain has fallen in the interior than at head-quarters. 6·22 inches of rain fell at Serajgunge. The young paddy, both early and late, is looking very well. General health good.

* Telegram of the 14th June, received on the same day, shows rainfall during the seven days immediately preceding.

	Central Districts.—(Con d)		
Cooch Behar Divn. 16	Darjeeling, 11th June 1875.	7·48	Several heavy falls of rain Seasonable weather for this time of the year. State and prospects of the crops throughout the district are very good. Tea returns excellent.
Cooch Behar Divn. 17	Julpigoree, 12th June 1875.	6·97	There has been heavy rain, which promises well for the crops in general. Cholera is reported as severe in the Buxa sub-division, especially in the neighbourhood of Fallacotta. No bad accounts from the Sudder sub-division.
Cooch Behar Divn.	Cooch Behar, 10th June 1875.	3·58	The weather was cloudy and hot; there were some showers of rain. The prospects of the crops continue favorable. Cholera disappearing gradually.
	Eastern Districts.		
Dacca Divn. 18	Dacca, 14th* June 1875	10·16	No sunshine, and steady rain. Crops very good. The crops were strong enough to stand the heavy rainfall.
Dacca Divn. 19	Fureedpore, 12th June 1875.	7·01	Weather cloudy and rainy throughout the week, and continuous rain during the past two days. The rain appears to be general all over the district, and the crops appear to be promising. The health of the district is good on the whole.
Dacca Divn. 20	Backergunge, 10th June 1875.	1·61	The rains have to all appearance begun. The *aous*, or early rice, and other crops at present in the ground are flourishing. Food supply sufficient. Health of the people is generally satisfactory. The disease among the cattle abating. The disorder among the fish still continues.
Dacca Divn. 21	Mymensingh, 11th June 1875.	6·14	The rains have been general; and on the 6th instant the fall at Tangail was 6¼ inches. State and prospects of the crops are favorable.
Chittagong Divn. 22	Chittagong, 10th June 1875	3·59	Very wet weather. The rains have regularly set in. The state of the crops and the progress of cultivation are good.
Chittagong Divn. 23	Noakholly, 10th June 1875.	12·74	Weather hot and close from the 3rd to the 5th, and generally cloudy. On the night of the 5th a storm set in, with heavy continuous rain. The rainfall on the 6th was 10 17 inches There has not been so large a rainfall here in one day during the last six years. The early rice crops are progressing well. The sowing in the high lands is reported to be completed.
Chittagong Divn. 24	Tipperah, 11th June 1875	4·11	The rainy season appears to have set in; the rain has been persistent and heavy for the last two or three days. The rice crops are in excellent condition. The last of the *aman* crops is being sown.
Chittagong Divn. 25	Chittagong Hill Tracts, 8th June 1875.	2·38	Occasional falls of rain during the week have lowered the temperature Sowing still going on in the *jooms*. The falls of rain during the week have improved the prospects of the crops.
Chittagong Divn.	Hill Tipperah, 9th June 1875.	3·11	Heavy rain on Sunday, the 6th instant, which ushered in the regular rains. Since then more rain than sunshine. The young early rice seedlings were suffering from the want of rain towards the close of last week, but this timely rain will now save everything. The condition of the *jooms* in the hills is satisfactory.
BEHAR.			
Patna Divn. 26	Patna, 14th* June 1875	·41	Weather hot and close, with occasional rain. Millets and sugarcane doing well. Sowing of paddy in progress. Cholera prevalent throughout the district; bad still in three villages of the Behar sub-division.
Patna Divn. 27	Gya, 12th „ „	1·2	Weather cooler during the week, owing to cloudy and rainy days. The rains may be said to have set in. Highest reading of dry maximum thermometer 109·5 degrees. The crops that are in the ground are good Rice sowing commenced. Cholera spread in Aurungabad, Nowadah, and part of Jehanabad. Bad in parts.
Patna Divn. 28	Shahabad, 12th „ „	·07	Weather cloudy and oppressive. Rains are apparently going to set in at once. Cultivation commenced in several places. In Bhuboa early rice and *marwa* millet sown in some villages. A few cases of cholera and small-pox still remain.
Patna Divn. 29	Durbhunga, 12th „ „	1·42	Heavy rain commenced, falling since the 11th instant. The rainy season appears to have set in. The prospects of all crops, including indigo, are good.
Patna Divn. 30	Mozufferpore, 12th „ „	1·20	Weather hot. The rainy season appears to be settling in. The prospects of *cheena* millet and indigo continue favourable. Cholera still continues.
Patna Divn. 31	Sarun, 12th „ „	·10	Weather extremely hot and close; east wind prevailing: cloudy, cool, and threatening since the 11th instant. There has been no rain during the week, except a little at head-quarters. *Cheena* millet has been harvested and has yielded fairly. The prospects of indigo are excellent; sugarcane doing well. The *bhadoi* sowings are in progress; the early sowings are coming up well, here and there, in low lands. *Aghanee* paddy is being sown; the ground is being broken up in all directions. State and prospects of crops have been very favorable up to the present time. General health good.
Patna Divn. 32	Chumparun, 11th June 1875.	·17	There has been little or no rain during the past week, and the crops show signs of wanting it. The weather has been cloudy during the past few days, and rain threatening, but it still keeps off. Rain is wanted for the crops, but little or no damage has been as yet done by the drought.

* Telegrams of the 14th June, received on the same day, shows rainfall during the seven days immediately preceding.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—(*Contd.*)				
Bhagulpore Diva.	33	Monghyr, 12th June 1875	2·20	The rains have apparently set in. *Bhadoi* prospects good.
	34	Bhagulpore, 14th[a] June 1875.	·88	Some rain has fallen at the head-quarters, and there is prospect of more. Rain much needed throughout the district, especially in Mudehpoora, where the *bhadoi* crop is being burnt up, no rain having fallen this month. Prospects in other parts of the district are still good. Health good.
	35	Purneah, 12th June 1875	·84	The rains appear to have set in; on the evening of the 12th instant there was a good fall of rain. Indigo manufacture has generally commenced. The crops generally are promising exceedingly well.
	36	Sonthal Pergunnahs, 12th June 1875.	3·91	Clouds were seen to be piling up on the 9th and 10th instant. Heavy rain began on the 11th, and has discontinued. The sky is covered with thick clouds. The rivers are filling, and the low lands are under water. The rain was expected in Deoghur, and has fallen heavily in Godda. Sugarcane good in Deoghur. Sowing began in Rajmehal. *Bhadoi* rice all sown.
ORISSA.				
Orissa Division.	37	Cuttack, 5th June 1875	·62	Weather very close and steamy, with cloudy sky and rain from time to time. Ploughing nearly over. Sowing going on briskly. Early rice crop appearing above ground. Cholera still hanging about, chiefly in Kendrapara and around it.
	38	Pooree, 10th June 1875	1·45	There have been good showers of rain of late; weather is cloudy, and more rain is expected and required. Tillage and sowing are going on, but require more rain. The harvesting of the *dalwá*, or spring rice crop, has been completed with a good outturn. Sugarcane is being manured. Cotton is being gathered.
	39	Balásore, 11th „ „	1·36	The temperature is much lower. Rainfall at Bhaddruck 1·82 inches. Moderate, though constant, rains have set in, and the weather is extremely favorable to the newly sown crops. The remaining sowings are being pushed on. Cholera in the north has ceased.
CHOTA NAGPORE.				
		South-West Frontier Agency.		
	40	Hazareebagh, 11th June 1875.	1·76	Seasonable weather. Monsoon commenced on the 9th instant, with heavy rain Ploughing general all over the district. *Murwá* and *goondli* millets, &c., all promising well. The young paddy also coming up freely.
	41	Lohardugga, 12th June 1875.	2·49	Sharp storm on the 9th instant; since cloudy, and the rains appear now to have set in. Ploughing continues. Paddy and *goondli* millet have germinated well in some parts. Cholera and small-pox are still reported.
	42	Singbhoom, 11th June 1875.	2·39	Seasonable weather. Sowing progressing. District healthy.
	43	Manbhoom, 12th June 1875.	1·78	Heavy showers towards close of week. From the appearance of the weather it is evident that the rains had fairly commenced. Cotton and sugarcane promising; little rice sown as yet; but if it rains now, sowing will be general in a few days more.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

SUBORDINATE CIVIL SERVICE EXAMINATION, 1875.

Calcutta, the 22nd June 1875.

RESOLUTION.

READ—

Letter No. 71, dated 1st May 1875, from the Superintendent of Subordinate Civil Service Examinations, reporting the result of the examination held in February and March last at Hooghly, Patna, Cuttack, and Sylhet.

Read again—

His report on the result of the examination held in 1874 and the orders of Government thereon.

Read also—

Resolution of this Government, in the General Department (Section B.), dated 10th March last, intimating to certain Acting Deputy Magistrates and Deputy Collectors that their retention in the public service depends entirely on their passing the examination to which they are respectively liable.

IN passing orders on the report of the result of the Native Civil Service Examination held in 1874, Sir Richard Temple directed that in future the standard of proficiency to be exacted at the next examination should be considerably raised, and it was subsequently arranged, in communication with Mr. Grimley, that candidates for the examination would be required to obtain two-thirds of the marks in each paper and subject to entitle them to be passed by the higher standard, and one-half marks in each paper and subject to be passed by the lower standard. The effect of this arrangement has been to reduce greatly the number of candidates who presented themselves for examination as well as the proportion among them, as compared with previous results, who succeeded in passing at the recent examination.

2. The examination was held in February and March last at Hooghly, Patna, Cuttack, and Sylhet. Of 92 candidates who obtained permission to appear, 78 only went through the examination, and of these two only have fully passed by the higher and five by the lower standard. On the special recommendation, however, of the Superintendent of the examination, the Lieutenant-Governor is pleased to declare that two other gentlemen, who already hold appointments in the Native Civil Service, viz. Moonshee Waziuddin Ahmud and Moonshee Dumreelal have passed by the higher grade, with this condition, however, in the case of the latter officer, that he shall pass in law within a year at the departmental examination to be held for Assistant Collectors and others.

3. Similarly, on the recommendation of the Superintendent of the examination, the Lieutenant-Governor is pleased to allow twelve other candidates, who are named in the list appended to this Resolution, to be passed conditionally on their passing a year hence in the subjects in which they have failed, but in the meantime their certificates will be withheld from them. On the recommendation of the Commissioner of Patna, His Honor is also pleased to allow Baboo Ramlal, junior canoongo of Chupra, who has passed by the lower standard in the vernacular and in practical surveying only, to retain his appointment on condition of his passing in the remaining subjects within one year.

4. Of two candidates who appeared at the special examination for admission to the Opium Department, one only, Mr. Gennoe, has passed. Similarly of those who appeared at the examination for Police appointments, Mr. Shircore only has passed completely. Mr. Graham, however, who already holds an appointment as Acting Assistant Superintendent, has gained passing marks in law, and is, on the recommendation of the Superintendent of the examination, declared to have passed subject to his passing in the vernacular at the departmental examination within a year.

5. Of seven gentlemen holding appointments in the Opium Department who appeared for examination in the special subjects in which they have to pass under the rules of their department, Messrs. Wintle, Ryves, and Mathews have now completely passed. Mr. Blair will still be subject to examination in surveying and Mr. Cumberland in Hindustani.

6. Adding to the balance brought forward from last year the sum of Rs. 2,562 realized in fees, the amount available to meet the expenses of the late examination is Rs. 3,414. Against this the Lieutenant-Governor is pleased to sanction an expenditure of Rs. 3,002, the details of which are shown in the statement appended to this Resolution. There will then remain a small balance to meet any claims which may be made for refunds, &c.

7. The total number of candidates who have passed at the Native Civil Service Examinations since their institution is as follows :—

	For the higher grade.	For the lower grade.	Total.
1872	19	...	19
1873	104	53	157
1874	76	125	201
1875	5	15	20
Total ...	204	193	397

Of these, four are known to be dead and three have been transferred to Assam. Of the rest, 197 hold appointments, either substantive or acting, in the subordinate executive service. Of the remainder, some have refused appointments offered them and others hold situations in the Educational Department or in local offices, the pay of which is superior to that which they would draw in the subordinate executive service. How many exactly are so situated the papers before Government do not show. As a general result, however, it may be stated that about 80 passed candidates are awaiting higher grade and 120 lower grade appointments. Of those who have already been provided for, the appointments of 13 are of a temporary character only and have been sanctioned for some special purpose, on the attainment of which they will cease. In fairness, then, to the large number of candidates who are still unprovided with appointments, it is necessary that the conditions on which unpassed men have been allowed to hold appointments, and on which promotion has in some instances been granted, should be strictly enforced.

8. In the Resolution of 10th March last, a warning has already been conveyed to certain Acting Deputy Magistrates and Collectors that their retention in the public service depends entirely on their passing the examinations to which they are respectively liable, and a similar warning is now conveyed to officers in the inferior grades similarly situated. The Lieutenant-Governor observes that while some of these attended the examination, but failed, a considerable number never appeared at the examination at all. He therefore requests that Commissioners will, at an early date, report specially on the case of each officer serving under them who either attended the late examination and failed to pass, or who omitted to attend, stating at the same time what their recommendations may be with regard to them. The reports on passed candidates who may, according to rule, have been appointed on probation because they had not before served Government should now also be submitted. In some instances an extension of the period of probation has been permitted subject to further report at the end of six months. These reports are now due and should be submitted.

9. In view of the large number of passed candidates who have yet to be provided with appointments, the providing for whom is under the Lieutenant-Governor's special consideration, though he cannot make any promise, he has decided that it will not be necessary to hold another general examination until further notice. A special examination will, however, be held next year for such men as have been passed conditionally on the present occasion, and also for those who now are in Government employment conditionally on passing the examination.

10. The thanks of Government are due to Mr. Grimley and to the other gentlemen who were associated with him in conducting the examination.

Rules for the grant of ordinary leases of arable land in the Western Dooars.

1. THE lands that will be generally available under these rules lie within that tract of country in the Western Dooars which extends in an easterly direction from the east bank of the river Teesta to the west bank of the river Sankos.

What land will ordinarily be available.

2. The following lands will not ordinarily be available under these rules:—

What lands will not ordinarily be available.

(*a*)—Lands which, by a notification in the *Calcutta Gazette*, are held to constitute a reserve for the supply of timber, fuel, grazing, or any other article of general and public consumption.

(*b*)—Lands not included in the above category, but which now bear India-rubber trees or other valuable timber (such as sál, khair, chelownee, sisoo, &c.) in compact blocks or patches.

(*c*)—Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as would, in the opinion of the local Government, render it impolitic or unadvisable to grant such lands to any other person or persons.

(*d*)—Lands lying within a distance of 60 feet on either side from the centre of any public road or thoroughfare. Provided that such road or thoroughfare shall have been constructed or shall be kept in repair, from public funds, and that it be borne on the list of the district roads of the district within which the land above mentioned lies.

(*e*)—Lands which the local Government may at any time, by a notification in the *Calcutta Gazette*, expressly exempt from the operation of these rules.

3. Every person desirous of obtaining a grant of land under these rules shall, in person, present an application on stamped paper of the value of eight annas to the tehsildar of the tehsil in which the land lies.

How and to whom application is to be made.

What the application is to specify.

4. The application shall specify—

(*a*)—The name, father's name, and address of the applicant.

(*b*)—The area, situation, and boundaries of the land applied for, as far as they can be ascertained without a detailed survey.

(*c*)—A statement of the particulars, if any, which may appear to the applicant to bring the land applied for, or any part of it, within the exceptions mentioned in Rule 2. The application shall also state whether the land, or any part of it, is or has ever been cultivated in any manner.

5. Every lot applied for shall be compact and capable of being enclosed in a ring fence, and if any part of the land touches on a public road or navigable river, the length of such road or river frontage shall not exceed one-half the breadth of the lot applied for.

6. No application shall be received in respect of an area greater than 200 acres or less than 10 acres, and not more than this quantity of land shall be granted under these rules to any one lessee. But the Deputy Commissioner may grant larger areas under instructions from the Commissioner.

7. The tehsildar shall require the applicant to pay in a sum of three annas an acre on the area applied for to cover cost of survey and inquiry. No further sum shall be required, and no refund will be made.

8. The tehsildar shall then, in person or by an ameen, inspect the land and ascertain whether it is khas land and available under the above rules; and if it appear to be so, the ameen shall proceed to lay down the boundary and make a survey as follows.

9. The ameen shall fix the boundary, in accordance with the rules 5 and 6, as indicated by the applicant, and shall then clear it from end to end, and afterwards survey it with compass and chain, placing mounds of earth or stone not less than waist-high at every angle and at every point, where more than two lots or patches of waste or other properties meet. One mound shall be not less than six feet high, and shall be marked on the map as the base mark; two bearings of which, or bearing and distance of which from good points of reference, shall be recorded on the map.

10. The ameen shall prepare a map, which shall show—

(*a*)—All natural features of the country lying within or on the boundaries fixed—such as khals, or the edge of forest, and also public pathways.

(*b*)—Such features of the country lying outside the boundary as may serve to identify the land, and connect it with the revenue survey, or with any other map made of other lands in the neighbourhood.

11. The map shall be on the scale of 16 inches to the mile. If possible, the field-book shall be copied on the back of it. If not, a copy of the field-book shall be attached to or accompany the map. In submitting his report, the ameen shall state whether he had a clear line for his compass from end to end of the boundary, and whether the mounds are erected as ordered.

12. The tehsildar shall then report the case to the Deputy Commissioner or Sub-divisional Officer according to the tehsil in which the land lies, stating whether he is satisfied that the ameen's work has been properly done, and giving any further information which may be required.

13. The Deputy Commissioner or Sub-divisional Officer aforesaid, shall consider the report and finally pass orders granting or refusing a lease.

14. The order on the case, and on any objection decided on by the Deputy Commissioner or Sub-divisional Officer, shall be appealable to the Commissioner within one month.

15. On receipt of an order to grant a lease, the tehsildar shall deliver to the applicant a preliminary lease in the form annexed signed by the Deputy Commissioner or Sub divisional Officer as aforesaid, together with a copy of the map, and shall place him in possession by planting a bamboo or in any other way locally acknowledged, and shall report delivery and registration of the tenant in a separate register of preliminary lease-holders.

16. The Deputy Commissioner may, in special cases of leases of 200 acres or less, and in all cases of leases of greater area, alter the terms of the lease so as to allow a lessee to manage his land by an authorized agent. In such case the agent must reside on or near to the land, and be provided with full legal power to act on behalf of the principal in all matters arising out of the land.

Draft form of Preliminary Lease of Arable Land in the Western Dooars.

1. A preliminary lease for five entire years of land in , granted by the of to of .

The lands covered by this lease are situated within the boundaries shown by the red lines in map No. , dated , and attached to this lease, and may be described as being bounded as follows :—

North	*South*
East	*West*

Their area is more or less acres, and they are situated in Pergunnah , Talook , in the tehsil of in the Western Dooars.

2. The rights conveyed by this lease are heritable, but not otherwise transferable. After the expiry of this preliminary lease, no right shall be claimed otherwise than as expressly provided for hereinafter.

The rent to be paid shall be as follows :—

Year of entry (*i.e.* from actual date of entry to 31st March following)	...	Nil.
1st full year (from 1st April following date of entry)	...	Nil.
2nd year	...	3 annas per acre
3rd „	...	6 „ „
4th „	...	9 „ „
5th „	...	12 „ „

The rent shall be paid to the tehsildar of in the following instalments :—

3. The lessee shall reside himself on or near the lands covered by the lease. He shall keep all boundary lines or marks in good order and repair and clear of jungle, and shall within one year from the date of this preliminary lease, make such continuous boundary mark as he shall be required to do by a written order. If he fail to do so, the Deputy Commissioner or Sub-divisional Officer may cause the boundary to be made and recover the cost thereof as an arrear of rent, or he may call on the lessee to make it within a specified time on pain of forfeiture of the lease.

4. Any land covered by the lease which may at any time be required for a public purpose, may be taken up by Government free of cost on a reduction being made in the rent payable under the lease proportionate to the area taken by Government. But the value of any improvements or property thereon shall be paid to the lessee, and shall be assessed under the provision of the law in force for the time being for the acquisition of land for public purposes.

5. All rights to minerals or quarries of all kinds are reserved to Government.

6. No right of fishery, and no right to dam up or otherwise obstruct the passage of any stream, is given by this lease. A public right of way over twenty yards on either bank of every stream, available at any time of the year for local boat traffic, is reserved.

7. All sisoo, sál, and chelownee-trees, of a girth of over three feet at a distance of three feet from the ground, and all such khair-trees as may be fit to cut, are to be paid for by the lessee at the rates at which they may be valued by the Forest Department. All other trees may be disposed of by the lessee. The four kinds of trees above specified shall be counted and paid for previous to possession being given.

8. The Deputy Commissioner may at any time enter on, inspect, or measure the area under cultivation, and the lessee may at any time demand that such measurement be made. Provided that the expenses of any such inspection or measurement demanded by the lessee shall be paid by him as rent due. If after such inspection by any officer deputed for the purpose it shall appear that one-half of the total area held under the lease is occupied by homesteads or is cultivated or left fallow according to good husbandry, or otherwise fairly turned to account for agricultural purposes, the lessee shall be entitled to renewal of this lease for such further period as shall coincide with the termination of the settlement period then current, and thereafter to renewal for the period of each fresh settlement of the talook, subject always to the following conditions:—

(*a*)—The rent to be paid shall be fixed by the Deputy Commissioner on the order of Government on each occasion of renewal.

(*b*)—The title conveyed by the renewed lease shall be heritable and transferable, provided that no transfer shall be made of less than the whole, and that no transfer shall be valid as against the Government, but shall, on the contrary, be equivalent to a surrender of the lease, unless notification of the transfer shall have been given by the transferree to the Deputy Commissioner at the time of transfer, together with a fee of four annas per acre of the area leased.

(*c*)—In all other respects the conditions of the renewed lease shall be the same as those of the preliminary lease.

9. The rights and privileges conveyed by this lease, and by any renewed lease granted in accordance with its provisions, shall be liable to be forfeited on failure of the lessee to comply with any condition thereof.

10. If, before the expiration of this preliminary lease, no application for a renewal of the lease shall have been made in accordance with the above provisions, the lessee may be allowed to hold on as a tenant-at-will, but not otherwise, until other arrangements may have been made by the Deputy Commissioner.

11. The lessee may sublet any part of the land covered by this lease on such terms as he pleases, provided that he gives the same promise of renewal of the tenure to his sub-tenant on condition of bringing his land into cultivation as is given to himself by this lease. The rent to be paid on renewal shall be determined on the application of either party by the Deputy Commissioner, who has the power to fix equitable rates of rent as he has, under Sections 76 to 79 of Act X of 1859, to fix terms of pottah.

12. No sub-tenant under the lessee shall sublet any part of his land on pain of forfeiture of his tenure; but this rule and the last shall not be held to prevent the employment of adhiars, projahs, or other laborers supplied with seed and paid by giving them half the crop. The Government reserve power to make rules to be observed by the lessee and his tenants for the purpose of carrying out the provisions of this and the last preceding clause; and the lessee agrees to abide by such rules when published for general observance and to hold the land subject to such rules.

SEPARATE REVENUE—POST OFFICE.

No. 1462.—*The 11th June* 1875.—Notice is hereby given that on and after the 1st July 1875 parcels posted in India for transmission to the United Kingdom by the Overland Parcel Post will be chargeable at the rate of ·8 annas per ℔ (40 tolas), fractions of a ℔ being charged as a whole ℔ in lieu of the present rate of 3 annas per 10 tolas. Full prepayment will, as heretofore, be compulsory. From the same date revised arrangements for the transmission of parcels from the United Kingdom will come into force, the main feature of the new arrangement being the reduction of the rate of charge between London and the place of destination in India from 1*s.* 4*d.* to 1*s.* per ℔.

Notice is also given that on and after the same date (1st July 1875) parcels prepaid at the same rate (8 annas per ℔) will be received for transmission to any place in Germany, or to any place in the following countries served through Germany, viz. Denmark, Sweden, Norway, Switzerland, France, the Netherlands, and Belgium. In the case of parcels addressed to Germany, the above-mentioned prepayment will carry them to destination without any additional charge; and in the case of those addressed to the other countries mentioned, there will be charged on delivery an additional local rate representing the cost of transit beyond the German frontier. Simultaneously with the commencement of the transmisson of parcels from India, parcels will be received for transmission to India by the Post Offices of Germany and the serveral countries served through Germany as enumerated above.

The following detailed rules respecting the exchange of parcels with the United Kingdom and the foreign countries mentioned will from the 1st July be substituted for the regulations given at pages 57 to 59 of the Postal Guide :—

Overland Parcel Post.

(1).—Parcels are received at any Post Office in India under the conditions and rates of charge mentioned below for transmission to the following countries, viz :—

COUNTRY.	Rate of charge per lb or fraction thereof. Prepayment compulsory.	Remarks respecting special conditions, &c., applicable to particular countries.
	Annas.	
United Kingdom ...	8	The prepayment carries the parcel as far as London, any additional charge which may become due on an account of British custom duty or carriage beyond London being realised from the addressee. The attention of the public is invited to the fact that the British Post Office has no connection with the Overland Parcel Post; all arrangements out of India are made by the Peninsular and Oriental Steam Navigation Company, and inquiries proceeding from the United Kingdom should be addressed to that Company's Office, 122, Leadenhall Street, London, E. C. The British Post Office, however, has consented to exhibit in every Post Office of the United Kingdom a notice containing information on the subject of the Indian Parcel Post.
Germany ...	8	The prepayment carries the parcel to destination. Should any custom duty become due, the amount will be charged on delivery. See also Rule 9, respecting compensation for damage or loss.
Denmark ...	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. See also Rule 9, respecting compensation for damage or loss.
Sweden ... Norway ... Switzerland ...	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. *From Rule 3, it will be seen that there must be also a second or duplicate declaration of contents and value.* See also Rule 9, respecting compensation for damage or loss.
France ... The Netherlands (Holland). Belgium ...	8	The prepayment carries the parcel to the limit of German conveyance, a separate charge being made on delivery for conveyance beyond the German frontier, as well as for custom duty, should any become due. *From Rule 3, it will be seen that there must be also a second or duplicate declaration of contents and value, and that the second or duplicate declaration should, if possible, be written in the French language.* See also Rule 9, respecting compensation for damage or loss.

(2).—Every parcel should be securely packed in a closed cover or case, and should bear the name and address of the person in the United Kingdom or foreign country for whom it is intended.

N.B.—The public are specially warned against the use of flimsy covers for articles transmitted by the parcel post. Heavy articles are sometimes sent with only paper covering insecurely tied with string: friction in transit detaches this cover, and damage and loss ensue. A covering of stout cloth or wax cloth, sewn at the edges, is recommeded; but if the contents are liable to suffer from pressure, boxes of wood or tin should be used.

(3).—Every parcel should be accompanied by a separate paper headed with the address of the parcel and containing a *declaration of its contents and value* under the signature of the sender Below the signature the address of the sender should be given.

For the parcels addressed to—

The United Kingdom	Only one declaration as above described is required.
Germany	
Denmark	
Sweden	A second or duplicate declaration is also required.
Norway	
Switzerland	
France	A second or duplicate declaration is also required, and the sender is requested to write the second or duplicate declaration, if possible, *in the French Language*. Should he be unable to do so, the Bombay Post Office will attach to the second or duplicate English declaration, a French rendering thereof, but the sender is warned of the delay which may result from this.
The Netherlands (Holland)	
Belgium	

It is not deemed necessary to require exact adherence to any particular form of declaration, but the following specimen form may be useful to the senders of parcels :—

(4).—The parcel so addressed and the separate paper or papers above referred to should then be enclosed in a *substantial outer cover.* This outer cover should be superscribed and addressed as follows :—

Overland Parcel Post.

To

The Post Master, Bombay.

(5).—The parcel so made up must be *fully prepaid by means of postage stamps at the rate of* 8 *annas* per lb (40 tolahs) or fraction of a lb, care being taken that the stamps adhere firmly to the cover.

(6).—The parcel so made up must not exceed 50lb (25 seers) in weight, or 2 feet in length by 1 foot in breadth or depth. It will be received at any Post Office at the hours fixed for the receipt of ordinary banghy parcels, the usual receipt being given to the sender without reference to the mode of packing prescribed in the case of inland parcels for which receipts are claimed.

(7).—On arrival at Bombay, the Post Master will take off the outer covering, and forward the inside parcel and the accompanying declaration or declarations to the country of inside address.

(8).—It is forbidden to send in these parcels opium or any liquid or any substance or material of a dangerous, damaging, or offensive kind.

(9).—In the case of parcels for or from Germany, and the foreign countries served through Germany, compensation will be given by the reponsible Post Office to the sender for loss or damage sustained in transit (cases of *sea risk* or of *vis major* or of the *own negligence of the sender* in respect of packing or otherwise excepted). Such compensation will in no case exceed 1½ rupee for each lb weight or fraction thereof in respect of parcels forwarded from India, and 3 marks for each 500 grammes or fraction thereof in respect of parcels from Germany. Should the sender desire it, the compensation will be paid to the addressee instead of to himself.

The 2nd June 1875.—Whereas a plan was submitted under Section 2 of Act V (B C.) of 1873 for extending gas-lighting to certain portions of the town of Howrah, as published in the Government Notification dated 1st May 1875, and whereas no objections have been raised to, or any alterations suggested in, such plan within one month after a translation of it in the vernacular had been published in the town aforesaid, the Lieutenant-Governor is pleased to accord his sanction to the said plan, which is described below:—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the Grand Trunk road which lies between Ramkistopore Ghaut Road and Bishop's College Road, Seebpore Ghaut Road and Ghoosery Road. The total length of these roads is 2¾ miles, and the number of lamps proposed to be erected in them is 75

2. The total valuation of buildings and lands situated in these streets is Rs 1,61,363, and a rate of 3 per cent. would yield an income of Rs. 4,840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept this sum in payment for supplying gas

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from the general fund during the current official year.

Notice of candidature.

4. Notices of vacancies on the Committee will be issued each year in January. Any two rate-payers may nominate a candidate, and may inform the Magistrate of his candidature on any date not later than the last day of February. The Magistrate shall ascertain if the candidate accepts the nomination and is qualified under the rules; and if so, he shall notify such candidature at the cutcherry and at one or more police-stations in the town, as he may see fit. Such notification shall state the name, residence, and qualification of the candidate.

Objection against candidates.

5. If any rate-payer object to the eligibility of any candidate, he may on some date, not later than the 6th March, notify such objection in writing to the Magistrate, who shall hear and finally decide any question of eligibility. On the 10th March the final list of candidates shall be notified at the cutcherry and in at least one conspicuous place in each quarter.

Election of Sub-Committee of Commissioners.

6. The Municipal Commissioners shall appoint a Sub-Committee of three of their number to assist the Magistrate in carrying out the following rules regarding election.

Time and place of polling.

The Magistrate shall decide on what day, not later than the 25th March, the election shall be held, and he shall notify such decision at the cutcherry and in at least one place in each quarter.

List of electors.

7. As soon as possible after the publication of these rules, the Magistrate shall prepare a list of all the persons who paid any rate on houses or lands in each ward during the year ending on the 31st December next preceding. A copy of the list shall be exposed to view at the Magistrate's and at the Municipal Office; and a copy of so much of the list as relates to each quarter shall be affixed at some police-station or other accessible public place in each quarter of the town. All persons mentioned in the list who have paid the rates due from them up to the 31st December preceding shall be entitled to a vote in the election of Municipal Commissioners for the wards.

Number of votes.

8. No rate-payer shall have a vote for more than one person or in more than one ward.

Recording of votes

9. Votes shall be recorded by such polling clerks as may be appointed by the Chairman of the Commissioners. There shall be at least one polling clerk for each polling place, who shall stay at the polling place for such hours as the Magistrate may fix on the day of the poll. Each rate-payer who desires to record his vote shall attend at the polling place, and shall state his name and residence. The polling clerk shall verify from the list of voters of the quarter whether the intending voter is entitled to a vote for that quarter; and if he is so entitled, he shall record his vote against the rate-payer's name in the list of electors for the ward. The Election Sub-Committee of the Commissioners shall, acting under the Magistrate's instructions, make such arrangements as they see fit for identifying voters in cases of doubt; and in any case of doubt as to the validity of a vote, or as to the identity of a voter, the decision of the Sub-Committee and the Magistrate shall be final.

Identification of voters.

Scrutiny of poll registers.

10. At sunset of the day of the poll, the poll shall be closed and the registers of the polling clerks shall be scrutinised by the Magistrate and the Election Sub-Committee, whose decision upon any doubtful point shall be final. The candidates who may stand highest on the poll of their quarter shall be declared to be duly elected.

Membership to commence.

11. The result of the poll shall be notified throughout the municipality, and shall be reported to Government for publication in the *Gazette*. The candidates declared to be duly elected shall hold office from the 1st April next succeeding the day of their election.

Cost of municipal elections.

12. All costs incurred in carrying out the arrangements for the election shall be paid from Municipal Funds.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 263.

The 19th June 1875.

UNDER Section 89 of Act X of 1871, the following annual accounts and reports of the District Road Committees of Burdwan, Bankoora, Beerbhoom, Midnapore, and Hooghly with Howrah, of works done and in progress during the past cess year 1873-74, together with the review thereon by the Commissioner of the Burdwan Division, are published for general information.

G. F. E. S. NEILL, *Captain*, M.S.C.,
Offg. Asst. Secy. to the Govt. of Bengal, P. W. D.

No. 626, dated Burdwan, the 23rd January 1875.

From—A. WEEKES, Esq., Vice-Chairman, District Road Committee, Burdwan,
To—The Commissioner of the Burdwan Division.

IN continuation of this Office No. 601, dated 29th ultimo, and with reference to your Circular No. 183, dated 19th idem, I have the honor to submit the following report on works carried out from the District Road Fund during the past cess year 1873-74, as desired by the Chairman, in camp.

2. The non-official members of the Committee took very little interest in the discharge of their duties. There have been five meetings of the Commissioners during the year under report, at which no more than what was required to form a quorum attended.

3. No cess under Act X of 1871 has been levied in the district, owing to the scarcity. The road cess collections on account of estates borne on the rent roll of this district, but situated within the jurisdictions of other districts, have been shown in detail in No. 6, part II, of the annual accounts already submitted.

4. The actual receipts and expenditure of the year have greatly exceeded the sanctioned budget estimates in consequence of relief works. The details of receipts and disbursements have been given in the annual accounts. The relief operations were undertaken and carried out statisfactorily throughout the district through the energy and supervision of Mr. Nightingale, the Executive Engineer of this district, and the sub-divisional officers of Cutwa, Raneegunge, Bood-bood, and Culna.

5. The relief works were paid for partly in cash and partly in Government grain. The amounts spent in wages in cash up to 30th September 1874 have been shown in the annual accounts, and those spent in wages and grains will be adjusted during the current year, as per Controller of Public Works Accounts' No. 13601, dated 30th October 1874.

6. Out of the total amount of expenditure, Rs. 30,423-14-8 and Rs. 1,57,887-1-6, on original works and repairs respectively, Rs. 16,554-1-7 and Rs. 1,45,108-4-6 were spent by the Department Public Works, and the remainder, Rs. 13,869-13-1 and Rs. 12,778-13, by the sub-divisional officers and others.

The following works were executed during the year by the Public Works Department and others:—

UNDER THE EXECUTIVE ENGINEER, BURDWAN.

Original Works.—Works sanctioned in 1872-73, but not completed until 1873-74. *Construction of culverts on the road from Gooshkarrah railway station to the bazar. Expenditure Rs.* 163-12.—This work was sanctioned on the 25th July 1873 to cost Rs. 172, but the work was not completed until June 1874, owing to a dispute about the ownership of the land over which this road runs.

Repairing and metalling the road from Gooshkarrah railway station to the bazar. Expenditure Rs. 2,332-3.—This work was also sanctioned in July 1873, and for the reason above stated was not completed till July 1874.

Constructing Gulsee to Russickpore road.—Rs. 1,000 in cash and Rs. 2,022 in grain have been spent by the Deputy Magistrate to complete this road.

Gooshkarrah to Auskgram road.—Rs. 1,000 in cash and Rs. 2,526 in grain have been paid for repairing this road.

IN CHARGE OF RANEEGUNGE SUB-DIVISIONAL OFFICER.

The Joint-Magistrate has repaired the following roads:—
1. Raneegunge to Munglepore road cost Rs. 1,054.
2. Bobesole road Rs. 125-14-6 besides grain.
3. Rajbund to Gopalpore Rs. 104-8-6 besides grain.

The second and third roads were commenced by the Deputy Magistrate, but were afterwards made over to the Public Works Department.

IN CHARGE OF CUTWA SUB-DIVISIONAL OFFICER.

Belleshur to Palla road.—This road is about 13 miles long. Earth-work, including dressing and turfing, was completed. Rs. 3,000 in cash besides grain have been spent.

Ketwgram road.—This road is about 12 miles in length. Earth-work, including dressing and turfing, nearly finished. Rs. 1,359-4 in cash besides grain have been spent.

Bijnaggar road.—This road is 8 miles long. Earth-work, including dressing and turfing, have been completed. Cost Rs. 870-2-3.

No. 87, dated the 6th February 1875.

From—C. T. BUCKLAND, ESQ., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual account of the District Road Fund of Burdwan for the cess year 1873-74, together with copy of a letter, No. 626, of the 23rd January, from the Vice-Chairman of the District Road Committee, Burdwan, reporting on the progress made in the execution of works undertaken during the year under report.

2. The total income of the district amounts to Rs. 2,32,731-13-5, including Rs. 2,05,000 grant-in-aid from "Provincial Reserve Fund" and the expenditure Rs. 2,09,389-14-9; leaving a balance of Rs. 23,341-14-8 at the close of the year

3. It will be seen from the details of Establishment given in Part II of the account, that the pay of the head clerk under the Road Cess Deputy Collector varied from Rs. 48 to 54 in the course of the year. The following explanation is given by the Vice-Chairman for these variations:—

1st.—Rs. 4 were drawn by the head clerk during the months of January and February 1874 in excess of his pay, Rs. 52, and that sum was deducted from his salary for March. Hence Rs. 48 were drawn by him in April.

2nd.—The head clerk having been appointed Sub-Deputy Collector in the relief department from 8th to 22nd April, his substitute drew Rs. 25 for that period at the minimum rate of Rs. 50 per mensem; and the permanent incumbent received Rs 26 for the periods from 1st to 7th and 23rd to 30th April 1874, at the rate of Rs. 52. The pay of the head clerk in May was therefore Rs. 51.

3rd.—One rupee was drawn by the head clerk in excess of the sanctioned scale of Rs. 52 in the month of July, which was refunded in August 1874, when he was entitled to Rs. 54; therefore his pay for two months was drawn at the rate of Rs. 53

4. The amount shown against establishment in the annual account does not tally with the aggregate of the sums entered against that item in the four quarterly returns for the year 1873-74. This is due to the fact that the sum of Rs. 80, on account of the salary of a clerk under the Executive Engineer, was shown under the head "Establishment for collection of revenue" in the 1st and 2nd quarterly returns, but was subsequently charged to "Establishment on works" under the instructions of the Controller of Public Works Accounts.

No. 100T, dated Camp Bishenpore, the 22nd December 1874.

From—W. R. LAMBRINIE, ESQ. Offg. Magistrate of Bankoora,
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit herewith the annual return of income and expenditure of the District Road Fund of the district of Bankoora from 1st October 1873 to 30th September 1874.

2. From the statement it will appear that besides ordinary repairs to existing roads and bridges, many new lines of roads were opened in different parts of the district, especially in that part of Thana Gungajulghatti known by the name of Pergunnah Moheshra, for the purpose of giving employment to the numerous laborers who were reduced to distress by the failure of the crops.

3 The following is the description of the different original works executed during the year under report.

4. The first of these is the road from Gungajulghatti to Saltora, a distance of about fourteen miles.

5. Since the transfer of the pergunnah of Moheshra from the district of Manbhoom to this district, and the establishment of an outpost at Saltora, the centre of the tract, I had it in contemplation to open a line of communication between the outpost and Thana Gungajulghatti, to which it belongs, and the necessity for opening relief works in that quarter afforded me an opportunity for carrying out this project. This road has been metalled and nearly all bridged, and has been constructed at a cost of Rs. 18,671.

6. The second, but first in importance, is the road from Morooloo to Mejia, a distance of about fifteen miles. It affords facilities for communication between Raneegunge and Purulia *viâ* our police outpost of Saltora and its adjoining villages of Morooloo and others. This road is metalled and bridged except in one place.

7. The third is the road from Rajgram to Indpore, a distance of seven miles, and is a continuation of the Purulia road to Burrabazar, a place of great note in the district of Manbhoom.

8. A constant traffic is carried on on this road. It is towards the south of the district, and is both metalled and bridged.

9 The fourth is the road from Dhulpore to Moheshra, the other extremity of this district towards the south-west, a distance of nine miles where it joins the Manbhoom portion of the road. The latter, when complete, will afford great facilities for communication and trade between Bankoora and Manbhoom. This road is metalled, but not bridged; temporary wooden bridges having been built for wheeled traffic.

10. The road from Dullubpore on the Gungajulghatti road to Meliara, a distance of six and a half miles, is metalled and partly bridged.

11. A new line of road from Bankoora to Taldangra, a distance of fifteen miles, has been opened. The road is metalled, but not bridged.

12. A road from Buda to Taldangra, a distance of eleven miles, has also been constructed. This road has been worked under two estimates: the first only provided for repairing the existing 12 feet cart track, the other for widening the road to 20 feet and metalling it. The earth-work is complete, and the collection of metal is half done. The consolidation for the last three miles has also been finished. This road greatly facilitated communication between the Buda thana and the outpost of Taldangra.

13 The road from Burjora to Meliara, five and a half miles in length, is but a continuation of the road from Dullubpore to Meliara. This would afford facilities of communication between the outpost of Burjora and Meliara, a place of note and the seat of a zemindaree. Earth-work and metalling have been finished.

14. The road from Meliara to Mejia is nine miles in length, and is a continuation of the above line of road. As this road is exposed to the back-waters of the Damooda, it was not considered safe to incur charges for completing the earth-work on the first two miles until the exact extent of damage which is likely to be done to the road is known.

15. The road from Beliator to Burjora and on to the Damooda, a distance of 11½ miles, is intended to be a railway feeder to the Doorgapur Railway Station, and is the shortest journey between this district and Calcutta. There is a break of one mile and a half to complete the line of road to the above station. As this part lies within the Burdwan district, the Magistrate of that district will, I hope, take an early opportunity of completing it. Earth-work and collection of metal have been finished, and the work of consolidation of metal will be taken in hand hereafter.

16. The roads from Chatna to Susunia, a distance of six miles; Susunia to Kustholia, a distance of eight miles; and Kustholia to Mejia, a distance of seven miles, though treated as three different roads, are, in fact, one line of road from Chatna to Mejia. This road affords the readiest means of communication between Chatna and Mejia. The earth-work and metalling of the first portion (six miles) have been completed. The estimates for the second and third roads provided only for earth-work and collection of metal, which have nearly been completed. I would here observe that a sum of Rs. 1,000 was given as a donation by Mr. Reuss, proprietor of the Susunia stone quarries, for the construction of the road from Susunia to Mejia *vid* Kustholia, as this road will be of great use to him in carting stone to Burdwan and other places.

17. The last, though not the least in importance, is the road from Joyrampur to Bishenpur, which is the continuation of the line of the Paneeghur road, a railway feeder. Earth-work has been done for about three miles of the road only, as the work was taken in hand very lately.

18. Nothing of note in the shape of repairs was done to any of the existing roads and bridges further than ordinary repairs, which have put the roads, &c, in good order.

19. The total amount expended during the year in carrying out the above works is Rs. 82,269-1-9, of which Rs. 67,309-13 were expended in executing new roads, &c., and Rs. 14,959-4-9 in repairs. Of the total sum, Rs. 6,250 were paid in grain and Rs. 76,019-1-9 in cash.

20. Besides the above sum, Rs. 65,372-12-9, including Rs. 43,495-9-6 in grain, have since been paid for works done during the year.

21. The ferry boats on the Damooda at Mejia, on the road from Bankoora to Raneegunge, worked pretty well during the year, but those of Dulkessur and Gundessuri did very badly, as usual. Better arrangements will be made during the current year.

22. The toll-gates on the several roads of the district were managed by their farmers in a satisfactory manner during the year under report.

23. The urgency of opening different new lines of roads in the district to afford relief to laborers was met by the entertainment of a separate Executive Engineer for this district, and Mr. W. B. Christie was appointed to open and supervise the above described numerous relief works. He planned out and surveyed different new roads as promptly as there was occasion for them.

24. The additional staff entertained by me for executing these relief works were two superintendents,—the services of one of whom was required throughout the period, and one was employed for a couple of months only.

25. It is worthy of note here that all these works, though carried on for affording relief, were executed at normal rates.

26. Taking into consideration the total cost, Rs. 1,47,641-14-6, at which these numerous works have been completed, coupled with the fact that they have so much improved the means of communication of the district, it will appear that our money has been spent to the greatest advantage.

27. Most of the members of the Committee have taken great interest in their work during the year under report.

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual account of the District Road Fund of Bankoora for the cess year 1873-74, together with copy of a letter, No. 100T, of the 22nd December, from the Magistrate of Bankoora, reporting on the progress made in the execution of works undertaken during the year under report.

2. The total income of the district amounts to Rs. 1,02,787-0-7, and the expenditure Rs. 85,671-6-8, leaving a balance of Rs. 17,116-1-2. There is a difference of Rs. 0-7-3 in the actual balance, which is owing to certain advances not having been adjusted yet by the treasury officer.

3. It will be seen from the expenditure side of the statement that Rs. 78,021-7-0 were expended on road works, viz. Rs. 63,062-2-3 in original works and Rs. 14,959-4-9 in repairs; but the Magistrate, in paragraph 19 of his letter, states that Rs. 82,269-1-9 were expended in the construction of works, viz. Rs. 67,309-13-0 in original works and Rs. 14,959-4-9 in repairs. The difference of Rs. 4,247-10-9 is attributed to the fact that Rs. 3,414-10-3, expended in the purchase of tools, and Rs. 833-0-6, in the payment of establishment for supervising relief works, were treated as part of the original work.

4. The figures shown against original works and repairs in the annual account do not correspond with the total of the entries under those heads in the four quarterly returns. The difference is of Rs. 1,507-14-3, which is stated to be due to the above sum, which was expended in the construction of the Beersingpore road, having been inadvertently shown under the head of repairs in the quarterly returns.

No. 121, dated Soory, the 16th November 1874.

From—R. D. HIME, Esq., Officiating Magistrate and Chairman, District Road Committee, Beerbhoom,
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit herewith the annual accounts of the district works of this district for the cess year 1873-74, together with a report of the works undertaken and the progress made during the year under report, prepared by the Executive Engineer of Beerbhoom. The following are the only works which call for remark:—

Work No. I—The culverts on the Ahmedpore and Laghotta road, twenty in number, were completed during the current year. The floods during the year, viz. on 26th September and 15th October, were extraordinarily high, but the culverts have stood very well. The embankment on this road was constructed in the year 1866, and the crest of the embankment was supposed to be one foot above the highest water mark of 1864. Subsequently, however, the height was reduced by one foot.

2. It is not easily conceivable that the water level rises so high in this district from a cursory inspection of the country; nevertheless this embankment, which appears so high, has been breached in three places, and for more than a mile the water level was only two or three inches below the crest of the embankment. It is to be hoped that during the year funds will be forthcoming for constructing four additional culverts on this road.

Work No. II.—Extending the bridge over the Agoa Kaudar khal from 3 spans of 20 feet to 5 spans of 20 feet. There is still a tendency in this bridge and in two others on the Elambazar road to scour between the piers. Broken bricks filled in between the piers are easily transported by the current. The Railway Company are heavy holders of stone, which are also constantly repacked.

3. In a separate statement attached has been given the cost of the famine relief work in cash and in grain. The progress upon these works is given below approximately. The culverts on these roads were not undertaken during the current year:—

	Number of miles completed.	Number of miles unfinished

BEERBHOOM,
The 16th November 1874.

R. D. HIME,
Offg. Magte. and Chairman, District Road Committee.

No. 561, dated the 18th December 1874.

From—C. T. BUCKLAND, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual account of the District Road Fund of Beerbhoom for the cess year 1873-74, together with copy of a letter, No. 121, of the 16th November, from the Chairman of the District Road Committee, Beerbhoom, reporting on the progress made in the execution of works undertaken during the year under report.

2. The total income of the district amounts to Rs. 1,30,803-8-7, and the expenditure Rs. 1,34,968-7-10, exceeding the income by Rs. 4,164-15-3. The circumstances under which this excess expenditure was incurred are given below.

3. The Magistrate of Beerbhoom having reported on the 18th May 1874 that the Mullarpore road was almost complete, and that it was absolutely necessary to open another relief work in that locality to keep the laboring classes of the Mouressur jurisdiction, an especially distressed tract, from starvation, I, in anticipation of the sanction of Government, authorized him, on the 27th May, to draw from the treasury the requisite amount for the commencement of the road from Kamarara to Andee, and two other works proposed by him to give employment to the laborers near Poorunderpore and Soorool, if the funds at his disposal had nearly been exhausted, or were likely to be exhausted shortly.

4. On the 26th June an application was made to Government for a further grant of Rs. 35,000 to the district of Beerbhoom; but the Government, in its No. 4449—S.R., dated 13th July 1874, declined to sanction any further grant, stating that as grain has been ordered to be given to the relief laborers, the cash outgoing ought to be very small; and the unexpended balance then in the hand of the Magistrate would be sufficient to pay for special supervising establishment, and other expenses which cannot be met by grain payments. But as the commencement of these works was considered by the Magistrate to be urgently necessary, he drew the sum of Rs. 4,164-15-3 in excess of the income of the district.

5. The total of the annual accounts accords exactly with the aggregate of the quarterly extracts for 1873-74.

No. 191, dated Midnapore, the 8th February 1875.

From—A. W. COCHRAN, Esq., Vice-Chairman of the District Road Committee, Midnapore,

To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the following report on works executed on the several local roads of this district during the cess year 1873-74, and of those proposed to be undertaken during the current year 1874-75.

2. The annual accounts prescribed by Government circular No. 4952, of the 24th September 1872, are also annexed.

3. Before I treat of each road, I shall in the first place mention that the works on almost all the roads were not done according to the budget estimate submitted to Government with this Office No. 209, of the 13th August 1873. With the exception of a few bridges, almost all the masonry work provided in the estimate was not taken in hands, and in order to provide work to the laborers, the sums estimated for these works were spent chiefly on earth-work, dressing, &c., executed in constructing new lines of roads.

4. The Road Cess Act was extended to this district only on the 1st August 1874, by Government Notification dated 7th July (*vide Calcutta Gazette* of the 8th July 1874), and the District Road Committee submit it is not necessary that the annual reports and returns of work executed prior to that date should be prepared in strict observance of the provisions of the Road Cess Act.

5. The total sum at the disposal of the committee during the year under report, including the Government grant and the unexpended balance of the preceding year in the hands of the District Engineer, &c., was Rs. 96,962, as detailed in Parts I and II of the annual returns. Of this amount Rs. 92,098-0-6½ were spent during the year, viz. Rs. 30,077-4-6 by the District Engineer and Rs. 62,020-12-½ by civil officers.

6. The District Engineer has only a few roads under his charge, viz.—

Road No. XX from Ghattal to Chunderkona, and part of roads No. V from Chunderkona to Gowaltore, and No. VI Burdwan road. The Vice-Chairman, who is the Joint-Magistrate, has all the remainder. Relief work having to be provided on the roads, the ordinary rates have necessarily been exceeded. Several new roads, such as—

Road No. XXII from Kheerpoy to Buddengunge,
" " XXIII from Chuttergunge to Ramjeebunpore,
" " XXIV from Keapore to Narajole,
" " XXV from Binpore to Silda,
" " XXVI from Dahijuri to Lallgurh,
" " XXVII from Binpore to Ramgurh,
" " XXVIII from Ramgurh to Lallgurh,
" " XXIX from Sugri to Jhargram,
" " XXX from Gurbetta to Koyapeti,
" " XXXI from Satpati to Kantapahari,
" " XXXII from Chunderkona to Kowapore,
" " XXXIII from Satpati to Gowaltore,
" " XXXIV from Noadah to Narajole,

have been made principally to provide labor for men who wanted it. The damage done by the cyclone to the roads in the south and east has been considerable, and the budget estimates have been considerably changed.

7. After the above general remarks, I now proceed to report on the work done during the past cess year and proposed to be carried out during the ensuing year 1874-75:—

Road No. I, from Gurbetta to Ramgurh.—This road is situated in the Gurbetta or western sub-division of the district. It leaves the imperial road to Rauceguuge at Gurbetta, and terminates at Ramgurh, and is 26 miles in length.

During the year under report, surface repairs to the road in places where necessary were given. A large wooden bridge over the Tamul River was thoroughly repaired and earth-work to the embankment of the road where needed was also executed; a portion of the road, about 500 feet in length, which was very heavy with mud during the rainy season, was metalled with laterite. The total cost incurred in carrying out these works was Rs. 866-1.

A sum of Rs. 500 was provided in the budget for the year 1873-74 for the construction of a pucca culvert of 2 spans each of 8 feet over a khall near Ramgurh, but as almost all the masonry work provided in the budget could not be taken in hand this year, and the sums estimated for the work were spent on earth-work to supply work to the laborers, the construction of this bridge was also postponed.

In the budget for the year 1874-75 a sum of Rs. 500 has been provided simply for the ordinary repairs of the road and its existing bridges. No new work is to be undertaken on the road. The estimate has been vitiated by the cyclone since, and some Rs. 1,500 at least will be required to restore the road to proper repairs.

Road No. II, from Lodhasye to Binpore.—This road is one of the most important lines of communication within the jungle mehals. It runs out from the old Bombay road at Lodhasye about six miles from Midnapore, and terminates at Binpore, where there is a police station. It is 25¼ miles in length, and is metalled up to the 10th mile-post.

In the estimate for the year under review, a sum of Rs. 3,170 was provided under the head of original work for the construction of bridges and for metalling a portion of the road, but for the reasons stated above the greater portion of this amount was spent on earth-work; only a pucca bridge of 3 spans each of 8 feet, which had been constructed in the preceding year up to the springing of the arch, has been finished. Ghooting and laterite for metalling about two miles of the road were collected, and a small quantity of bricks was manufactured. Cost incurred under this head is Rs. 1,488-11-9.

Under the head of repairs a sum of Rs. 4,903-6 was spent on this road during the year. With this expenditure the unmetalled portion of the road has been top-dressed and approach roads were made on both sides of the khalls which have not yet been bridged. The road for about 15 miles in length was widened and raised, and the sides of embankment were turfed in places where necessary. A wooden bridge has also been repaired, and sâl-wood logs for repairing another large wooden bridge have been purchased.

The road has been fully bridged up to the 13th mile. In the estimate for the year 1874-75 the committee have allotted a sum of Rs. 15,000 for completing the bridges and metalling the road up to the 24th mile, but I think it will now be necessary to divert a portion of the allotment to other roads injured by the cyclone of 15th October 1874.

Road No. III, from Dahejuri to Purihati.—This is a branch of the above-mentioned line, and is itself an important line of communication joining Chybassa with Midnapore. It is 7¼ in length, of which about one mile is metalled.

A pucca culvert of 1 span of 4 feet was constructed, and certain quantity of materials collected for the construction of another culvert at a cost of Rs. 140-1-3.

The surface of the road in places where necessary was dressed. About 2 miles of the road were widened and raised, and slopes on both side of the khalls, which were not yet bridged, have been cut and made easy. The metalling of the first mile of the road has also been renewed,—cost Rs. 669-1-6.

The budget for the year 1874-75 provides only for ordinary repairs to the road and existing bridges.

Road No. IV, from Chunderkona to Amlagorah.—This is another line of communication in the Gurbetta sub-division. It connects the road No. I and its junction at Amlagorah with the road between Ghattal and Chunderkona, and is 16 miles in length.

With the expenditure of Rs. 300-14-6 incurred on the road during the year under review, the road has been top-dressed throughout its length. Earth-work and turfing, where necessary, were executed, and two bridges were thoroughly repaired.

Like the road No. I, this road has also sufferred much from the cyclone of the 15th October. The trees fallen on the road have already been removed, and earth-work commenced to fill in the breaches and to remedy the other injuries caused by the cyclone. The Deputy Magistrate of Gurbetta has submitted an estimate for Rs. 1,867 for the repairs of the damages. This estimate seems heavy; it is proposed to expend Rs. 600 provided in the budget of the current year in the repairs of these damages, and any further sum that may be required to complete these repairs might be met from the savings on the other roads.

Road No. V, from Chunderkona to Gowaltore.—This is a very important road in the Gurbetta sub-division for traffic betwen Ghattal and Chybassa, and is 16 miles in length.

This road is fully bridged, and was in a very fair condition before the cyclone of the 15th October 1874. During the year under review surface repairs to the whole of the line were executed, and earth-work and turfing where necessary were done at a cost of Rs. 480-2-9.

A large wooden bridge on the 9th mile of the road, over the Nobokolah khal, was thoroughly repaired and partly reconstructed by the District Engineer at a cost of Rs. 1,186. Two other wooden bridges—one over the Moorakhally khal, and the other over the Donye river—were also thoroughly repaired. Cost Rs. 827.

This road has suffered much from the cyclone; two of its bridges have been injured and the road itself breached in good many places. The Deputy Magistrate of Gurbetta has submitted an estimate for Rs. 1,729 for the repairs of the damages. These repairs will be carried out from the sums provided in the budget for 1874-75; any additional sum that will be required may be drawn from the savings on the other roads.

Road No. VI, Burdwan road.—This is, too, one of the most important of the local roads of this district, being the straight route from Midnapore to Burdwan. It is 35 miles 2 furlongs in length, of which 1 mile 2 furlongs is within the municipal jurisdiction of the town of Midnapore.

The road was metalled in the preceding year up to the 15th mile. During the year under review a further length of about 2½ miles of the road has been metalled by the District Engineer. Ghooting to the extent of 8,100 cubic feet for metalling a portion of the 23rd and 24th mile was collected and stacked on the road-side, and bricks, 119,000 in number, were manufactured for the construction of a large bridge at Kamarbundi on the 27th mile, and a pucca culvert of 1 span of 4 feet on the 28th mile of the road.

One pucca bridge of 3 spans each of 10 feet was completed from the springing of its arches, and another pucca culvert of 1 span of 4 feet was also constructed. A pucca culvert of 1 span of 8 feet, which was built last year, has been thoroughly plastered this year. All the above-mentioned works come under the head of original work.

Metalling of more than 3½ miles of the road has been renewed by giving a layer of laterite two inches in thickness over a breadth of 12 feet. The crest of the unmetalled portion of the road about 13 miles in length has been dressed off. The embankment of the road, nearly 17 miles in length, has been thoroughly repaired, widened, and raised and side slopes were turfed. Boundary bund on both sides of the road showing the extent of land belonging to the road has also been constructed throughout the said length and trees planted on both sides of the road have been reared throughout the year. The approach road on both sides of the Temohani river intersecting the road on the 17th mile have also been made.

The committee have allotted only a sum of Rs. 1,100 for the annual repairs of the road and its existing bridges, but the road has suffered much by the cyclone of the 15th October last. The metalling of the 2½ miles of the road executed by the District Engineer has been washed away in parts, the road has been breached in good many places, and some of the bridges have also been damaged. The estimate of the cyclone repairs amounts to Rs. 4,460. All the above damages are to be repaired this year and a timber bridge with masonry piers and wing walls will be constructed over the Kamarbandi khal on the 27th mile of the road.

Road No VII, Noadah road.—This road branches off from the imperial road to Oolooberria and ends at Nandah. It is a short, but very useful line. Noadah is the well known seat of sugar manufacture in the district, and is 3½ miles in length, 1 mile of which is metalled.

In the budget for the year 1873-74 a sum of Rs. 1,000 was provided for manufacturing bricks for metalling the remaining portion of the road, but the work was deferred to some other year on account of famine and the amount spent on other roads in relief work. Only a sum of Rs. 450 laid out on the road during the year in question in widening about 2 miles of the road and raising the same portion in places where necessary.

In the budget for the present year provisions have been made to widen and raise the remaining portion of the road; the estimate for repairing the damages caused by the cyclone is only Rs. 50. The metalling of the first mile of the road is also to be repaired.

Road No. VIII, from Beldah to Contai.—This road runs from Contai to Beldah, where it meets the Grand Trunk Road to Cuttack, and is the only line of communication between Contai and Midnapore. It is 35 miles 2 furlongs in length.

During the year under review the whole of the line has been top-dressed and the road from the 36th mile up to the 23rd mile has been raised and widened in places where necessary. Two pucca culverts, which were in a dilapidated state, were dismantled and partly reconstructed; nine bridges of the line have been repaired and white-washed.

The ghooting collected last year for metalling the portion of the road running through the Baleghai Bazar has been spread and consolidated; cost incurred on these works is Rs. 1,265-15.

The cyclone of the 15th October last has caused considerable damages to the road. The inspection bungalow at Egrah on the 17th mile of the road has been quite destroyed, and the embankment of the road has been greatly injured. During the current cess year the damages described above will have to be repaired, and the incomplete bridges to be finished.

Road No. IX, Section I, from Contai to Tumlook, Kalinugger Section.—This is the road between Contai and Tumlook; it begins near Contai at the junction with the dâk road to Kedgeree. The whole line from Contai to Tumlook is 38 miles 3 furlongs in length, of which 18 miles are in the Contai sub-division and the rest in the Tumlook sub-division.

The crest of the road throughout this section had been dressed off at the commencement of the working season, and earth-work and turfing in places where needed have also been executed at a cost of Rs. 167-1-10.

Bricks, 50,000 in number, have been manufactured for the construction of its culverts. Cost Rs. 404.

This road has also suffered much from the cyclone. The amount provided in the estimate will be spent in repairing damages, and about Rs. 1,500 will be required for the construction of four of its bridges.

Road No. IX, Section II, from Contai to Tumlook, Nurghaut Section.—This is a part of the road alluded to above. The part from Narainpore near Tumlook to Kakoorbiniah, a distance of 20 miles 3 furlongs, is in the sub-division of Tumlook, and forms this section.

The metalling of the metalled portion of the road for about 2½ miles having been much cut up by the passage of carts, its metal was taken up last year; this year it has been spread and consolidated. The crest of the unmetalled portion of the road has also been dressed off by filling in gaps and holes.

Two temporary wooden bridges—one at Mungrojpore and the other at Chandipore—have been reconstructed, and the masonry bridges throughout the section have also been repaired. Total cost Rs. 885-6-9.

The embankment of the road has been much injured by the cyclone; one wooden bridge on the 19th mile of the road has been totally swept away, and the other bridges of the line require repairs. These repairs will be done out of the sums provided in the budget estimate for the year 1874-75.

Roads Nos. VIII and IX are of considerable importance, being the chief communication in that part of the country. The Deputy Magistrates of Tumlook and Contai have had the immediate superintendence of these roads, with the exception of some distance from Beldah to Baleghai. Mr. Risley, now on relief duty in Contai, is at present in charge of the Contai roads, 5½ miles in length.

Road No. X, from Contai to Joonpart.—This road has been transferred to Public Works Department, Irrigation Branch,—*vide* Government letter No. 4579, dated the 10th September 1873.

Road No. XI, from Contai to Ramnugger.—This road leads to Chandpore, a place proposed some time ago to be made a sea-side sanitarium. It is an earthen embankment, but wide enough for carts, and is 15 miles in length.

The surface of the road throughout its whole length has been dressed off, and earth-work and turfing, where necessary in filling up gaps, &c., and raising the road, had been executed. A temporary wooden bridge over the Gadraghye khal was constructed; cost incurred on the road up to the 30th September 1874 is Rs. 197-14-5.

During the current cess year petty repairs to the whole line of the road and its existing bridges are to be made; the road where low should be raised to its height in its highest part, and the embankment where injured by the cyclone is to be repaired. The missing mile-posts to be replaced, and moveable landing stages for the ferry over the Pitchabari Tidal khal, which intersects the road on the 7th mile, are to be provided.

Road No. XII, Gope roads.—These roads are 12 in number. They are in the vicinity of the station, some of them being but continuation of the main roads leading out of the town towards the west. All the 12 roads are metalled roads.

Out of the 12 roads the metalling of four of the roads has been thoroughly repaired, and laterite for renewing the metalling of one of the roads has been collected and stacked on the roadside. Some 18 bridges of the road have been thoroughly repaired. Cost Rs. 434-14-9. These roads have also been injured by the cyclone, and the cyclone repairs are now being carried out from the amount estimated for the annual repairs of the road and bridges.

Road No. XIII, from Kallaberiah to Satpati.—This is one of the three jungle roads that were constructed in the famine year 1865. It branches off from the Bankoora road at Kallaberiah, 3½ miles from Midnapore, and ends at Satpati. Its length from Kallaberiah is 9½ miles, of which 1 mile only is metalled.

This road was in a very bad state of repair. In order to afford employment to the laborers, a sum of Rs. 1,420 was spent on earth-work. By this expenditure nearly the whole of the road has been raised and widened and side slopes turfed. Two of its bridges have also been thoroughly plastered at a cost of Rs. 51.

This road has not yet been completely bridged, and the committee, in their meeting held in September last, proposed to bridge the road throughout its whole length, and accordingly allotted a sum of Rs. 4,625 for the purpose; but it is to be feared the wishes of the committee cannot be carried out this year, as the greater portion of the alloted sum will have to be spent in the repairs of the damages caused by the cyclone to the most important roads of the district. This road has been slightly injured by the cyclone, and the amount provided for the annual repairs will suffice to keep it as a fair-weather road not fully bridged.

Road No. XIV, from Ladhasole to Mahapal.—This is another jungle road constructed in the famine year 1865. It begins from the old Bombay road at Ladhasole, 20½ miles from Midnapore, and ends at Mahapal, on the left bank of the Soobornorekha river, where there is a Government ferry. It is 9½ miles in length.

With the sum of Rs. 255-9-6 spent during the year, about 4½ miles of the road have been raised 1 foot on an average and widened all along the said length from 10 to 15 feet. An inspection bungalow on the 21st mile of the road at Ladhasole has been constructed at a cost of Rs. 366-14-9, and part of this amount was paid in 1874-75.

The village Mahapal, where the road ends, is the great centre for the western part of this district; it is also a centre of trade for Gopibullubpore, a large producing thana; and in order to keep up communication between Mahapal and Calcutta *vid* canal, the committee provided a sum of Rs. 2,530 in the budget for the year 1874-75 for bridging the whole line

of road and raising and widening the part left last year, but it is to be feared the views of the committee cannot be carried out this year, as the Government has sanctioned only Rs. 30,000 against an estimate of Rs. 86,000. Of this Rs. 30,000, Rs. 15,000 will have to be given to the District Engineer for finishing the metalling of the road between Ghattal and Chunderkona; the remaining Rs. 15,000 will hardly suffice for the cyclone repairs of the other important roads.

Road No. XV, from Khurgopore to Kessiaree.—This is the most important of three jungle roads constructed during the famine year 1865. It connects Kessiaree, a place known for its manufacture of *tussur* and *tussur* cloth, with the Cuttack road at Khurgopore. Its length from Midnapore to Kessiaree is 21 miles 2 furlongs, and from Khurgopore to Kessiaree 16½ miles.

The undermentioned works were executed by a contractor during the year under review; the contractor's accounts have not yet been settled, only a sum of Rs. 2,300 has been paid to him up to the 30th September 1874 :—

1. One culvert of 2 spans each of 6 feet has been constructed on the 10th mile of the road.
2. One culvert of one span of 4 feet also finished on the 12th mile.
3. One pucca bridge of 3 spans each of 10 feet constructed on the 18th mile.
4. Wood-work of two large wooden bridges on the 12th and 17th miles of the road has been renewed.
5. About 1 mile of the road has been raised on an average of about 2½ feet and widened from 10 to 15 feet.

Besides the abovementioned work, about 3½ miles of the road, which were in a very bad state of repair, have been repaired or newly constructed departmentally at a cost of Rs. 1,265-1-9.

Of the work described above, the pucca culvert of 1 span of 4 feet, one arch of the large bridge of 3 spans on the 18th mile, and an abutment wall of one of the two wooden bridges, have been quite destroyed by the cyclone of the 15th October last, and most of the earth-work done on the 18th mile washed away. With the sum of Rs. 2,425, provided for in the budget for the year 1874-75, the damages caused by the cyclone will be repaired, and the bridges wanting on the road are to be constructed. Earth-work and turfing, where necessary, will also be done.

Road No. XVI, from Midnapore to Kamararah.—This is a portion of the old Bombay line; it joins the station roads at Nowrungpore near the stone quarry, and extends to the Soobornorekha river, a distance of 47 miles, of which 33 miles lie in the district of Midnapore, and the rest in that of Chybassa.

Under the head of original work a sum of Rs. 3,192-5-4 was spent on this road in executing the following work :—

1. The road from Sewlee khal up to Surdia, a distance of about 4 miles, has been metalled with laterite layer 6 inches in thickness.
2. A causeway consisting of brick and roughly dressed stone masonry work about 30 feet in length, including its curtain walls, has also been constructed on the 3rd mile of the road.
3. The abutment walls, wing walls, middle piers, and counterforts of two large wooden bridges, each of 3 spans of 13 feet, have been raised to their proper height.

Under the head of repairs, Rs. 2,215-11-4 was laid out on this road, and the works executed are as follows :—

1. Metalling of a part of the 1st mile, and that of the whole of the 2nd mile, has been renewed, and laterite for renewing the metalling of the 3rd and a part of the 4th mile has been collected on the roadside.
2. Twenty-four bridges of the line have been thoroughly repaired and white-washed.
3. The road from the 7th up to the 20th mile has been dressed off, and about 8 miles of the road have been raised on an average of 9 inches in height, and the breadth of the road has been made uniform throughout the same length.

During the current cess year the wood-work of the two large wooden bridges mentioned above will have to be completed; two pucca culverts, one of 1 span of 4 feet and the other of 2 spans each of 6 feet, which were constructed up to the springing of their arches, will also be finished. The road from the Cossye river up to the Sewlee khal, distance about 2½ miles, will also be metalled with laterite, and earth-work and turfing, where necessary, should also be executed.

Road No. XVII, from Contai to Kookrahattee.—This is a dâk line from Calcutta to Contai. Its length from Contai to Kookrahattee is 45 miles, of which only 16 up to Kedgeree police station is under the District Road Committee.

The crest of the road up to 16 miles has been dressed off, and earth-work and turfing where necessary up to that length have been executed. Cost Rs. 201-7-9.

The portion of the road under the committee has been greatly injured by the cyclone; about Rs 1,500 will be required to do these cyclone repairs.

Road No. XVIII, from Baleghai to Jelepore.—This road branches off from the local district road between Beldah and Contai at Baleghai, and joins the imperial road to Cuttack at Jelepore.

It is an important line of communication in the Contai sub-division, and used largely by the people of its adjoining villages and those of Cuttack and Bolepore as a route to Calcutta. It is 23 miles in length, of which 18 miles of the road are in this district.

The whole of this line has been top-dressed by the end of the rainy reason, and earth-work and turfing in places where needed were executed. The top or crest of the bridges has been covered with earth. Cost Rs. 377-5-8.

The cyclone of the 15th October last has made some partial gaps and injured the side slopes in a good many places. The existing bridges of the line and the inspection bungalow at Mohunpore on the 10th mile of the road with its out-offices require repairs. With the sum of Rs. 600 provided in the budget, the repair works described above will have to be executed during the year 1874-75.

Road No. XIX, from Panchcoorah to Tumlook.—This road branches off from the imperial road to Calcutta at Panchcoorah and extends up to Tumlook. It was formerly a very important line of communication, but its importance has been reduced by the opening of the canal from Oolooberria to Midnapore; and the committee propose to keep it as a fair-weather road for the future unmetalled, that is, no expenditure of any importance will be incurred in metalling. It is 16 miles in length.

Metalling of the whole of the line having been greatly injured and furrowed by carts' wheels, last year its metal or khoah of the whole of the line were loosened and again spread and consolidated on a portion of the road. This year the same has been done throughout the line, cost incurred Rs. 412-4-9.

During the current year, petty repairs to the metalling of the road will be executed; the earthen sides of the road in places should be raised, and earth-work in filling up gaps and breaches will be executed. The bridges of the line should also be repaired.

Road No XX, from Ghattal to Chunderkona.—This is another important road. It connects Ghattal with Chunderkona and Ramjeebunpore, these three places being the principal seats of trade in the northern part of the district.

The District Engineer, who is in charge of the whole road, has submitted the following report on work done by him during the year under review:—

"The entire length of road measures 14 miles and 3 furlongs from Ghattal to Chunderkona, of which the portion from Ghattal to the 8th mile-post, and also 3½ miles from the Selye river to Chunderkona or termination of road, making a total of 11½ miles, have been entirely metalled and work completed with exception of 1,679 feet in mile (3) as noted below. The rest of the intermediate portion of road, *i.e.* 3½ (viz. 9, 10, 11, and a part of the 12th mile) have not been metalled, but the earth-work and turfing have been finished.

"In the 3rd mile, however, there is a portion left, as it is intended to divert that portion of road in order to reduce its length."

Besides the above, all the bridges of the line have been repaired, and a temporary inspection bungalow at Kheerpoy was constructed.

The work proposed to be undertaken during the current cess year is to finish the metalling of the remaining portion of the road and to construct a causeway at Munsatollah, on the 11th mile of the road.

There is a toll-bar on the road at Ghattal which yields an annual income of abont Rs. 4,000. This year, however, we got Rs. 3,200 only. There is also a private ferry over the Selye river on the 11th mile from Ghattal.

Road No. XXI, from Noadah to Ghattal.—This is an old line of road, but having been abandoned for many years was in a ruinous state. It has been taken up in the list of the District Road Department only from the year 1872-73. The Committee wish to keep up this road as a village path, and the line, when completed, will connect Ghattal and Chunderconah with Noadah and through road No. VII with the road from Calcutta to Midnapore and thereby greatly increase the traffic of the former place.

During the period under review, a sum of Rs. 1,528-2 has been spent in doing earth-work, turfing and dressing of eight miles of the road, and in constructing six temporary wooden bridges of palm and date-trees. A sum of Rs. 500 has been provided in the budget for the year 1874-75. With this sum the cyclone repairs to the damages will be carried out, and the remaining portion of the road will be constructed as far as the fund will allow.

8. The statement annexed below will show the particulars of the new lines of road constructed during the year under report. These roads were undertaken to afford relief

work to the destitute, and although expensive and still in need of much to make them thoroughly useful, have fulfilled admirably the chief end for which they were designed.

9. The sum shewn against each of the roads has been spent chiefly on earth-work, turfing and dressing, and the work was done by daily labour. The greater portion of the land taken for the construction of these roads has been obtained from Messrs. Jardine, Skinner & Co. and other zemindars free of cost; only a sum of Rs. 437-5 paid during the year to the lakhirajdars and petty talookdars.

10. All these roads have been taken up into the list of the District Road Department, and in the estimates for the current cess year, submitted with this Office No. 500, of the 29th September last, a sum of Rs. 9,725 was provided under the heads of "original work" and "repairs" for completing earth-work, &c., of these roads and for bridging the two lines of road between Kespore and Narajole and between Chunderkonah and Kowapore; but for the reasons stated under road No. 14, these works cannot be carried out during the current year.

11. *Village roads.*—The village roads of all the four sub-divisions of this district, as specified in the classified lists of roads and bridges under class IV, submitted with this Office No. 25, of 4th October last, have been repaired, and temporary bridges of palm-trees and bamboos, where necessary, on the roads were constructed at a cost of Rs. 1,140.

These repairs were carried out under the immediate supervision of the Deputy Inspector and Sub-Inspector of Schools.

12. During the year under review a sum of Rs. 1,283-11-6 was spent on account of contingencies and petty works and in purchasing the following tools:—

Kodalies	...	865 in number.
Pickaxes	...	125 "

Besides the above, 1,050 kodalies and 400 pickaxes, with handles, were received from Government. All these implements were urgently needed to carry out the relief and other works.

13. Under the head of "Ferries" a sum of Rs. 1,896-14-9 was expended during the year. Of this sum Rs. 1,278 was laid out in constructing three new flat-bottomed boats and one pansee, and in writing out and painting nine ferry toll boards, and the rest in the hire of pansees and in the wages of tehsildars employed in collecting tolls of the ferries and toll-bars held khas.

14. One of the three new boats constructed last year has been lost in the cyclone. Three more boats and four pansees are to be constructed during the current cess year. They are urgently wanted.

15. An outlay of Rs. 2,926-0-7 was incurred on account of establishment employed under the committee during the year to carry out the road work.

16. The comparatively smallness of result as compared to expenditure in this year is owing to the necessity for relief work for the distressed persons which this year naturally influenced us greatly. A good deal was done and a vast amount of distress averted. Much of the work done was damaged and nearly undone by the cyclone. Financially, then, our outturn of work will compare unfavorably with other years, but the causes will be found quite beyond our control.

No. 193, dated 8th February 1875.

Memo. by—W. OLDHAM, Esq., Chairman.

SUBMITTED to the Commissioner of the Burdwan Division with the following remarks:—

The relief operations of last year upset nearly all the plans for the season. They embraced a large amount of masonry work, nearly the whole of which had to be abandoned to allow of the funds being devoted to work which could afford relief. For the current season the completion and construction of bridges will be the chief work looked to, and arrangements have already been made accordingly. As the Relief Committee have undertaken to pay a large portion of the amount spent in earth-work in the tracts affected by the cyclone, we hope to be able to meet nearly all requirements from the local income and grant for the year besides completely restoring the road damaged by the storm.

A. W. COCHRAN, C.S.,
Vice-Chairman.

No. 138, dated the 13th March 1875.

From—C. T. BUCKLAND, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual account of the District Road Fund of Midnapore for the cess year 1873-74, together with a copy of a letter, No. 191, dated 8th February, from the Vice-Chairman of the District Road Committee of Midnapore, reporting on the progress made in the execution of the works undertaken during the year under report.

2. The delay in the submission of the account is owing to my having had to return it more than once on account of there being a discrepancy between the aggregate of the sums shown under the headings "Original Works," "Repairs," and "Tools and Plants," in the expenditure side of the four quarterly returns and entries against those items in the annual accounts. The Chairman now states that the discrepancy pointed out was owing to the figures of the quarterly statements for the 1st, 2nd, and 3rd quarters having been altered under the instructions of the Controller of Public Works Accounts, and submits revised statements for those quarters. The aggregate of the figures shown in the revised returns now tally in the annual account.

3. The total income of the district amounts to Rs. 96,061-14-7, and the expenditure Rs. 92,098-0-6¼, leaving a balance of Rs. 4,863-14-0¼; of which Rs. 314-4-2 are cash in hand and Rs. 4,549-9-10¼ outstanding on account of advances.

No. 34, dated Hooghly, the 14th May 1875.

From—A. WEEKES, Esq., Chairman of the Road Cess Committee, Hooghly,
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the following report upon the administration of the Hooghly and Howrah District Road Fund for the year ending 30th September 1874.

2. I have to apologise for the delay which has arisen in the submission of this report. It has been delayed in consequence of my not receiving the whole of the completion reports from the Executive Engineer until a short time ago.

3. The following is a list of the office bearers and members of the District Road Fund Committee during the year under report :—

F. H. Pellew, Esq., *Chairman*.
W. F. Meres, Esq., *Vice-Chairman*.
Mr. T. J. C. Grant, } *Members*.
„ W. D. Pratt, }
„ J. E. B. Jeffery, }

„ Mohendro Gotee Moostofee, }
„ Obhoy Churn Nundee, }
„ Opendro Narain Nundee, }
„ Poorno Chunder Roy, }
„ Suttya Doyal Banerjeei, }

4. The following changes in the members occurred during the year :—

Mr. W. E. Ward officiated for Mr. F. H. Pellew during the absence of the latter on privilege leave for three months; Messrs. A. Weekes, J. A. Hopkins, and C. C. Quinn, successively officiated as Vice-Chairman during the absence, on leave, of Mr. W. F. Meres; Mr. T. W. J. Rees was a member while acting for Mr. Grant. Baboos Behary Lall Mookerjee and Mohendro Gotee Moostofee died during the year.

5. Five meetings of the Commissioners were held during the year. Want of the needful funds compelled the Road Fund Commissioners to postpone indefinitely the consideration of any scheme for the erection of a suitable office building. Their records and establishment were accommodated, as before, in the Office of the Magistrate-Collector, and their meetings were held in the Office of the Commissioners of the Municipality of Hooghly and Chinsurah.

6. The road cess was collected for one kist only, having been suspended in the district under Government orders, dated 5th February 1874, owing to the prevailing scarcity, which this district did not escape. The Road Fund Committee's position with regard to relief works was that they freely placed the whole of their resources at the disposal of the Magistrate-Collector, who was in direct charge of the relief operations. The Magistrate-Collector accordingly converted all the ordinary road works provided in the budget into relief works, and opened out such other additional works from time to time as local pressure called for. Nearly the whole of these additional works were those which were included in the Committee's list prepared under Section 66 of the Road Cess Act, and the Committee congratulate themselves on having diligently applied themselves, before the time of pressure arrived, to the discovery of village tracks and roads which, from want of funds, had not been kept up, but which form most useful means of communication in the interior of the district.

7. I proceed to report in detail on the works carried out during the year. The agency employed consisted of the District Engineer and also of private gentlemen, who kindly gave their services in superintending certain road works near their homes. The amounts shown in the completion reports of the District Engineer will not agree with the figures shown in

the annual report, because in many instances the works were not finished at the close of the cess year, but were carried on and finished after its close. The completion reports carry on the work beyond September to their close; our figures show expenditure to close of September only.

Mugrah and Mariah road.—Road No 19 of the revised list. Three miles partly metalled. A bequest of Rs. 10,000 was made for the making of this road. It crosses the Koontee khal, and there is no bridge as yet. One bridge would do for this road and the Mugrah-Mohanad road, No. 14, and would open out an immense tract of fertile country. At present the road by which the traffic moves is very roundabout and impassable in the rains. A bridge would cost Rs. 10,000. The work of metalling three-fourths of a mile of this road had been completed in the previous year, but the cost of the work had not been completely disbursed prior to 30th September 1873. The sum of Rs. 595-14 was expended during the year under review in settling the claims for work done. Petty repairs to the metalled, and also to the unmetalled portions were also carried out.

Hooghly to Dhuniakholly.—Road No. 7 of the revised list of roads. A most useful road, originally aligned on old village paths and roads, and forming an important link between the interior and Hooghly. Unfortunately it does not run direct to the railway station, but a mile south of it, but it is daily crowded with traffic of all sorts. From it branch other roads to the right and left, and it lays open to the trade all the principal villages in the south of Thana Hooghly and in Thana Dhuniakholly. It was metalled for about two miles as far as Simla Bridge over the Sureswatee river. As it is one of the main arteries of traffic across the district, the necessity of metalling as much of it as possible pressed itself on the attention of the Magistrate-Collector; so that there might be as little obstruction as possible to the passage of grain to Thana Dhuniakholly: 6¼ miles were metalled during the year under review. This has been shown in the accounts as an original work. Earth-work repairs were also carried out on the whole of the remainder of the road, and it was made passable at all times during the rainy season. The work was well done, and contributed in averting a disaster by allowing of the free passage of grain, and also in affording work to a large number of people.

Nowgong and Seakhalla road, 16 miles.—This road connects Serampore with the interior. It runs through the Dancooney swamp, which has been recently drained. The traffic on the road is very great. It was unmetalled, but during the past year the worst portion of it, where it passes over the swamp, has been raised and metalled, and the remainder of the road has been repaired. It was of considerable service in facilitating the transport of rice into the interior.

Construction of 60 pipe culverts on district roads.—The experiment of the substitution of drain pipes for culverts of very small water-way having been found to succeed in the municipality of Hooghly and Chinsurah, it was determined to try them in the mofussil in places where there would be very little rush of water, but where a small communication beneath the bund of a road was required for the purposes of irrigation or drainage. They have been found very cheap and effective.

Mohanad and Goopeekantpore road.—An unmetalled road; a continuation of the Mugrah and Mohanad road, and running north-west to Goopeekantpore, and crossing the road from Bhatarah to Boinchee on the East Indian Railway. It was repaired under the superintendence of the Rev. Juggodishur Bhuttacharjee, of Mohanad; the culverts being built by the Executive Engineer. The Committee are under obligations to this gentleman for the interest which he took in this work as a means of providing labour for his distressed neighbours.

Khanacool to Dhurumpore (Bunder).—This is a road passing due west from Khanacool to Dhurumpore, being about half way to Bunder, an old pât on the Damooda river in the days of the now decayed industry of silk. It had once been a road, but was almost lost in a mere track. It has been raised and widened, and a large quantity of earth-work has been done upon it. When carried on to Bunder it will be a very useful work. It gave occupation to a considerable number of distressed people.

Bhatarah and Dhuniakholly.—An unmetalled road, nine miles long, connecting Bhatarah, an important village, where there is a school and post-office, with the Thana of Dhuniakholly. It has been put in order, and a small bridge has been constructed over a khal.

Howrah to Jugguthullubpore, 17 miles.—This very important road received much attention from the Committee, who proposed on the work of raising the road and metalling it to fit it for conveyance of rice to the distressed parts. Though the work had to be done rather hastily, it was well done by the Executive Engineer.

Phultaghat to Sulkea road, 16 miles.—This road is a continuation of the Grand Trunk road (which crosses the river to the Barrackpore side at Phultaghat) on the western side of the river. It was made from the proceeds of subscriptions by Hooghly zemindars in the year 1851, Government lending assistance. On its way from Phultaghat to Sulkea, it receives as tributaries from the west the Bydebatty Bhola road, the Serampore Bhorai road, the Chunditollah road, the Kallipore road, and the old Benares road. It has a very considerable traffic, although it runs parallel to, and close to the East Indian Railway and the river. It is metalled with stone and is properly bridged, and it has hitherto been maintained in the same style as the Grand Trunk road itself. There is a suspension bridge of considerable span

where it crosses the Bally khal. It passes through the municipalities of Bydabatty, Serampore, and Ooterparah. It has, until last year, been kept up as a provincial road, but the District Road Fund is now charged with its maintenance. It has been put in good order during the year under review; metal has been renewed and culverts repaired, and the work has been done in a satisfactory manner.

Bally, Noaserai, and Tribany Bridges.—These three suspension bridges have been put in good order, and the flooring has been renewed.

Chundernagore and Bhola road, 13 miles.—A feeder to Chundernagore station from the west. It is an old village track improved. It runs through several important villages, the chief of which is Nanda; at Bhola it joins the Bydabatty feeder. It has been thoroughly repaired during the year.

Bydabatty Feeder road, 10 miles.—It acts as a railway feeder, opening to traffic with Calcutta all the villages on the north of Thana Harripal and the south of Thana Dhunniakhally as well as Thana Bydabatty. It is fed by branches to Harripal, Tarkessur, Jearah, Nunda, Gazipore, and other important villages. The traffic on it is very heavy. It has been repaired throughout with stone metal, and is now in good order.

Connagore to Jonye, 6 miles.—Runs due west from Connagore station on the East Indian Railway across the Dancooney swamp, striking the Serampore and Chunditollah road at Dancooney and thence to Jonye, an important village on the Sureswati river. It is metalled only on the worst portion, where it crosses the swamp for 1½ miles. The metal has been renewed and the culverts have been repaired. The work has been done in a satisfactory manner.

Digrah to Sookriah, 3 miles.—An unmetalled cross road in Bhullaghur thana, 3 miles long, connecting Bullaghur with the road from Inchoorah to Gooptiparah. It has been put in good repair, both as regards surface and culverts, during the year.

Bullaghur to Inchoorah, 5 miles.—An unmetalled road in the Bullaghur thana, connecting that thana head-quarters with the road from Pandooa to Culna at Inchoorah. The work done on this road this year consisted of surface repairs and petty repairs to culverts, and has been well done.

Serampore and Chunditollah road, 6 miles.—Unmetalled; connects Serampore with the old Benares road at Chunditollah. The work done during the year consisted of surface repairs and petty repairs to culverts. The work was done in a satisfactory manner.

Pundooa and Culna road, 14 miles.—A metalled road, which runs from Pundooa on the East Indian Railway to the north-east boundary of this district, and thence to Culna in Burdwan. Fourteen miles of the road runs through this district. It was constructed by the Department Public Works in 1861, and was almost washed away by the floods of 1872. It runs straight through a low paddy country, and for the first nine miles but one important village abuts on it. It is important as connecting the thana of Bullaghur with the East Indian Railway. It was very extensively repaired last year to secure the passage of grain from the railway to the north-east of the Pundooa thana and the thana of Bullaghur. The repairs consisted of the renewal of seven miles of metal and surface repairs to the rest of the road, as well as repairs of culvert.

Nalikool to Tarkessur, 8 miles.—Unmetalled; it is a continuation of the Bydabatty to Bhola road, and runs due west to Tarkessur; a road which is much frequented by pilgrims and by local traffic. The works consisted of surface repairs and repairs to culverts. It was carried out in a satisfactory manner.

Doomjoor and Jugdispore road.—An unmetalled road, 8½ miles long, connecting Doomjoor on the Howrah Juggutbullubpore road, with Jugdispore, on the old Benares road. The work done on the road during the year consisted of petty repairs to culverts and surface repair, and was executed in a satisfactory manner.

Trebany to Gooptiparah road.—An unmetalled road, 16 miles long, connecting Trebany, on the Sureswati river, with the outpost of Gooptiparah, in the thana of Bullaghur. The road was put in thorough repair, and the work was well done.

Mohanad to Kylanpore, 5 miles.—An unmetalled road, connecting Mohanad with Dwarbasincy. The work done on it last year consisted of petty repairs to surface and culverts.

The road was put in fair order—

Boinchee to Bhastarah	349	3	9
Dwarparah to Inchoorah	118	4	0
Bhola junction to old Benares road	344	0	6

These short unmetalled cross roads were put in repair and were made passable.

Old Benares road, 32 miles.—A road second to none in importance in the combined districts. It runs from Howrah in a north-west direction towards Benares. It is a shorter route than the old Grand Trunk road, though, owing to the fact that it crosses the Damooda twice, it is not available for through wheat traffic.

Of local traffic there is a great amount, and it is a main artery for the passage of Hooghly produce. It is metalled with brick for nine miles, as far as Chunditollah, and about two miles

further on there is another length of 2½ miles in its course across the south-west portion of the district. From north-west to south-east it receives nine feeder roads, from Aknapore, Rajbulhaut, Kistonnugger, Harripal, Borye, Jugguthbullubpore, Jonye, and Doomjoor. From a famine relief point of view the road is second only in importance (in the district) to the East Indian Railway. The metal of three miles was renewed, the rest of the metal was put into order; the unmetalled part was repaired, and the culvert was put into order. The work was well done.

Mugrah to Tribany.—Metalled road, 8 miles. Important as connecting the East Indian Railway at Mugrah station with Tribany on the Hooghly river, 5 miles north of the civil station of Hooghly. It was put in order during the year. The work was well done.

These two short feeder roads were put in order

Hooghly to Dwarbassiny Rs. 988-13-3. An unmetalled road, 14 miles long, connecting the civil station with the principal villages in Thana Hooghly, the south of Thana Pundoos, and the north-east of Thana Dhuniakholly. There is a great deal of local traffic on it, and it has been found to have been very useful for famine relief. It has been put in order, and the work has been well done.

These unmetalled roads by lapse of time and want of repairs had almost been lost, and almost were mere village tracks. They were taken in hand solely for relief purposes, and

have been widened, raised, and bridged. The culverts were chiefly constructed by the Executive Engineer, and the earth-work was to a great extent constructed under the supervision of native gentlemen who put their services at my disposal.

8. I beg to place on record the names of the following gentlemen who assisted the famine relief operations by looking after the earth-work and disbursing the relief wages to the coolies employed :—

Rev. Juggodishur Bhuttacharjee.
Baboo Jugeshur Singh.
" Joykishen Mookerjee.
" Behary Lall Mookerjee.
" Annooroop Chunder Mookerjee.
" Chunderkant Mookerjee.
" Kedar Nath Nag.
" Poorno Chunder Roy.
" Rajkisto Banerjee,
" Surrut Chunder Banerjee.
" Kartick Chunder Dirghungy.
" Hurry Puddo Sen.

9. The Assistant Engineer, Mr. W. H. Wells, was attached to the district throughout the year, and rendered valuable services in the preparation of estimates and in the general supervision of the works entrusted to him.

W. F. MEREs,
Vice-Chairman.

No 184, dated the 15th April 1875

From—C. T BUCKLAND, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Public Works Department.

THE District Road Fund Accounts of the districts of Burdwan, Bankoora, Beerbhoom, and Midnapore for the cess year 1873-74 having been separately forwarded as they were received from each district, I have the honor now to submit the annual account of Hooghly and Howrah and the local improvement report of this division for the year.

2. The delay in the submission of this report has been owing to the lateness with which the accounts from the districts of Midnapore and Hooghly were received in this Office. The progress report from Hooghly has not yet come to hand, but as the divisional report is long overdue to Government, I submit it without waiting any longer for the report from Hooghly, which will be forwarded in continuation as soon as received.

3. The Road Cess Act was introduced in the districts of Burdwan and Hooghly in August 1871, and the valuation of estates, tenures, and houses was completed during the road cess year 1872-73 In Burdwan no cess has been yet levied, the district having been exempted by Government from the demand for the cess on account of the prevalence of fever and scarcity; but Rs 1,299 were collected from estates borne on the rent roll of the district of Burdwan, but situated within the jurisdiction of Hooghly, Nuddea, and Moorshedabad, and the details of the collections are given in Part II of the annual account. In the district of Hooghly collections were commenced at the beginning of the year, but under the Government orders No. 298, of 5th February 1874, remissions were ordered to be made for the tracts situated within Hooghly Proper and the distressed portion of Howrah, embracing Thanas Jogutbullubpore and Khanacool. In the districts of Bankoora and Beerbhoom the Act was introduced in September 1873, and at the close of the year 1873-74 the valuation in both the districts was nearly completed. In Midnapore the Act was introduced in August 1874, and only some slight preliminary action was taken during the year under report.

4. District Road Committees have been formed in all the districts of this division. The Magistrate of Burdwan reports that the non-official members of the Committee took very little interest in the discharge of their duties. There were five meetings during the year, at which the attendance of the members was barely sufficient to form a quorum. This does not reflect much credit on the Magistrate.

5 The total income of the several districts of this division was Rs. 6,96,691-11-6, with a balance of Rs 61,854-14-7 outstanding on the 30th September 1873; and of this amount Rs. 89,460-2-2 were local collections and Rs. 5,45,376-10-9 were granted by Government from the provincial reserve fund. The expenditure was Rs. 6,55,531-15-7¼, viz. Rs. 19,226 3-6 on account of cost of collection, Rs 2,96,671-7-2¼ on original works, Rs. 3,08,075-6-3 on repairs, and Rs. 31,558-14-8 on miscellaneous accounts. The cost for the purchase of tools and plant is shewn under the head of miscellaneous account.

6. I now proceed to notice the working of each district separately. In Burdwan the total amount at the disposal of the Committee during the year, including the Government grant and the unexpended balance of the preceding year, was Rs. 2,32,732, and the total expenditure was Rs. 2,09,390, leaving a balance of Rs. 23,342. Of the total amount, Rs. 1,57,887 were expended in repairs and Rs. 30,424 in original works. Many of the works were undertaken with the object of giving relief to the sufferers from scarcity. The relief works were paid for partly in cash and partly in Government grain. The principal works executed in the district during the year are—

I.—Original Works.

1. The construction of an unmetalled road from Boinchee Railway station to the village of Buddipore. The zemindars of Buddipore subscribed Rs. 5,000 for the construction of this road, and deposited the amount in the treasury The whole of the earth-work has been completed, several culverts have been constructed and the masonry of the bridge over the Jumna nulla has been built up to the level of the top foundations

2. Construction of an unmetalled road from Rajbund Railway Station to the village of Gopalpore.

3. Collecting, spreading, and consolidating metal and raising the earthen sides of the Culna road

4. Collecting, spreading, and consolidating metal and raising the earthen sides of the Burdwan and Sudder Ghât road.

5. Construction of culverts on the Burdwan and Jehanabad road.

6. Construction of the road from Gooskara bazar to the railway station.

7. Construction of a portion of the Culna and Cutwa road from Kalcepore to Choonoorec khal

8. Construction of a road from Gulsee to Russickpore. Rs. 1,000 in cash and grain to the value of Rs. 2,022 were spent on this road.

9. *Belleshur to Palla.*—This road is about 13 miles long. Rs 3,000 were spent in cash, besides grain, for completing the earth-work and dressing.

10 *Ketoogram road, about 12 miles* – Earth-work, including dressing and turfing, nearly finished with an expenditure of Rs 1,359 in cash, besides grain

11. *Rajnogore road, 8 miles long.*—Earth-work, including dressing and turfing, completed.

12. Collection of ghooting and metalling the Burdwan and Cutwa road with the same.

13 Raneegunge to Munglepore road.

14. Debkhund to Santipore road

Besides these, several village roads were constructed in the Cutwa sub-division at an expenditure of Rs 2,487.

II—Repairs to Metalled Roads.

1. Paneegur to Ellambazar.
2. Setarampore feeder road.
3. Mymaree to Jamalpore.
4 Burdwan to Cutwa road.
5 Burdwan to Culna road.
6. Saktigur feeder road.
7. Bankoora to Burdwan road.
8. Burrakur feeder
9. Bood-bood road.
10. Raneegunge to Grand Trunk road.
11. Doobrajpore.

7. Under the head of repairs to metalled roads come the 11 roads, of which the first ten were superintended by the Executive Engineer, paid for out of funds placed at his disposal. The repair of the Doobrajpore road was undertaken by the manager of the Equitable Coal Company.

III—Repairs to Unmetalled Roads.

1. Burdwan to Bankoora road
2 Kurjona to Moorshedabad road
3 Mancoor to Dignagur
4 Burdwan to Soory road
5. Ditto to Jehanabad road
6. Munglecote to Sreekhund.
7. Searsole to Domohani road.
8 Old Benares road.
9. Bood-bood to Sonamookhy road.
10. Assensole to Domohani.
11. Soatta to Sitla.
12. Dignagur to Gulsee.
13. Shahebgunge road, *viâ* Kamarpara.
14. Khundghose to Indas.
15. Cutwa to Soory
16. Bamoonara to Burdwan.
17. Undal to Ookra
18. Doorgapore to Kooldia.
19. Setarampore to Somdihee
20. Mancoor to Ameerpara *viâ* Bhatcoond
21. Gooskara to Ausgram.

8. Of the roads falling under this class, the first nineteen were undertaken by the Executive Engineer, and the last two by the sub-divisional officer of Bood-bood Besides these, petty repairs to several roads were executed by the sub-divisional officers of Culna and Cutwa.

IV.—Ferries.

9 A sum of Rs 1 400 was paid on account of compensation for the resumption of the Sodpore, Kastoshalee, and Koolpara ferries, and Rs. 190 were spent on cutting the slopes Oodhanpore, Mirzapore, Gyaspore, Culna, Mertola, Sankaripore, and Dewangunge ferries.

10. *Bankoora*—In Bankoora the total receipts, including the balance of the previous year and the Government grant of Rs 91,400, were Rs 1,02,787-0-7. Against this the expenditure amounted to Rs 85,671-6-8, viz for cost of collection Rs. 2,159-11-4; for original works Rs. 63,895-2-9; repairs Rs 14 959-4-9; tools and plant Rs. 3,414-10-3; and refunds Rs. 1,242-9-7 Of the total amount expended in the execution of works, Rs 6,250 were paid in grain and Rs 76,019-1-9 in cash. Here also a large portion of the amount was expended for relief works.

11. *Original Works*—The works undertaken under this head during the year under review are—

1. *Road from Gungajalghatty to Saltora, a distance of about 14 miles.*—The necessity for the construction of this road was partly caused by the transfer of Pergunnah Moheshara to Bankoora from the district of Manbhoom and the establishment of an outpost at Saltora in the centre of the tract. The road has been metalled and nearly bridged throughout at a cost of Rs 18,671

2 *Mowloo to Mejia, a distance of about 15 miles*—This road is of much importance, and affords facilities for communication between Raneegunge and Purulia *viâ* the police outpost of Saltora. It is metalled and bridged except in one place.

3. The road from Rajgram to Joupore, a distance of seven miles, is a continuation of the Puruha road to Burrabazar, a place of much importance in the district of Manbhoom.

4 The road from Dhalpore to Moheshara is in the other extremity of the district towards the south-west, where it joins the Manbhoom portion of the road It is metalled but not bridged; temporary wooden bridges have been built for wheeled traffic.

5 *Road from Bankoora to Taldanga, a distance of 15 miles*—It is metalled but not bridged.

6 *Road from Duda to Tandagra, 11 miles long*—Earth-work completed: materials for metalling half the road collected, and last three miles metalled.

7. *Road from Burjora to Meiara, 5½ miles long*—It is a continuation of the road from Dhalpore to Melara Earth-work and metalling have been finished.

8. *Road from Meliara to Mejia, 9 miles.*—A portion of this road is exposed to the spill flood of the river Damooda, therefore earth-work on the first two miles is postponed until it is ascertained how far the flood rises.

9. *Road from Beliatore to Burjora and on to the river Damooda, a distance of 11½ miles.*—This road is intended to be a feeder to the railway station at Doorgapore. Earth-work completed and materials for metalling the road have been collected.

10. *Road from Chatna to Mejia, 21 miles long.*—Earth-work and metalling on the first six miles have been completed, and the works on the remaining 15 miles were nearly finished.

11. *Road from Joyrampore to Bishepore.*—This road having been taken in hand lately, the earth-work on only three miles has been completed.

12. *Repairs.*—Nothing worthy of special notice in the shape of repairs was done to any of the existing roads and bridges beyond the ordinary repairs, which have put the roads in good order.

13. All the works in this district were executed under the supervision of the Executive Engineer, and the Magistrate reports that most of the members of the Committee have taken great interest in their work during the year.

14. *Beerbhoom.*—In Beerbhoom the receipts of the year from tolls and cesses, &c., amount to Rs. 8,273-2-1, which, with a balance of Rs. 11,382-6-6 outstanding on 30th September 1872, and a grant-in-aid from provincial funds of Rs. 1,11,148, made up the total sum of Rs. 1,30,803-8-7 available for works of local improvement. The total expenditure was Rs. 1,34,968-7-10, exceeding the income by Rs. 4,164-15-3. The circumstances under which this excess expenditure was incurred have already been explained in my No. 561, of the 18th December 1874.

15. The following works were executed in the district for affording relief to the persons who would have suffered from scarcity and failure of their crops.

1. Road from Bulpore to Soorool.
2. „ Burdwan to Punchthopee.
3. „ Cynthea to Andee.
4. „ Bulpore to Sacoolipore.
5. „ Laghatta to Kalgram.
6. „ Bulpore to Kusba.
7. „ Poorunderpore to river Adjai.
8. „ Mullarpore to Mahomed Bazar.
9. „ „ to Andee.
10. „ Bulpore to Bangchatra.
11. „ Mullarpore to Mouressur.
12. „ Soory to Kurdea.
13. „ Chunderpore to Tantipara.
14. „ Soory to Gobra.
15. „ Cynthea to Mohanpore.
16. „ Ahmedpore to Laghatta.
17. Badshahi road.
18. Repairing breaches on the Doobrajpore road.

All these works were executed by the Public Works Department.

16. *Midnapore.*—In Midnapore the total sum placed at the disposal of the committee was Rs. 96,962, and the expenditure incurred was Rs. 92,098, viz. Rs. 57,865 in original works, Rs. 33,663 in repairs, and Rs. 570 in the purchase of tools and plant, leaving a balance of Rs 4,864.

17. The following original works were executed in the district :—

1. Construction of a road from Kheerpoy to Buddungunge.
2. „ „ „ Chuttergunge to Ramjeebunpore.
3. „ „ „ Keshpore to Narajole
4. „ „ „ Binpore to Silda.
5. „ „ „ Dahijuri to Lallgurh.
6. „ „ „ Binpore to Ramgurh.
7. „ „ „ Ramgurh to Lallgurh.
8. „ „ „ Sugri to Jhargram.
9. „ „ „ Gurbetta to Koyapeti.
10. „ „ „ Satpati to Kantapahari.
11. „ „ „ Chunderkona to Kowapore.
12. „ „ „ Satpati to Gowaltore.
13. „ „ „ Noadah to Narajole.
14. „ „ „ Ghattal to Chunderkona.
15. Construction of bridges and metalling the Bombay road.
16. Construction of bridges on the road from Khurgopore to Keasiaree.
17. Construction of culverts, collecting metal and metalling a portion of the Bombay road.
18. Construction of bridges and metalling a portion of the road from Lodhasye to Binpore.

18. The first seventeen of these roads are altogether 124 miles long, of which 75 miles were constructed during the year in anticipation of the probability of relief works being necessary, at a cost of Rs. 19,156, the greater portion of which was spent in earth-work, turfing, and dressing. Most of the land required for these roads was made over by the proprietors free of cost. Only Rs. 437 were paid to lakhirajdars and petty talookdars.

19. The most important of these roads are the road from Ghattal to Chunderkona, Burdwan road, and the road from Lodhasye to Binpore.

20. The road from Ghattal to Chunderkona connects Ghattal with Chunderkona and Ramjeebunpore, the three principal places of trade in the northern part of the district. The District Engineer, who is in charge of the road, made the following remarks:—

"The entire length of the road measures 14 miles and 3 furlongs, of which the portion from Ghattal to the third mile-post and 3½ miles from Selye to Chunderkona have been entirely metalled and work completed, with the exception of 1,679 feet in mile 3, as noted below. The rest of the intermediate portion of the road, *i.e.* 3½ miles (viz. 9, 10, 11 and a part of the 12th mile) have not been metalled, but the earth-work and turfing have been finished. In the 3rd mile, however, there is a portion left, as it is intended to divert this portion of the road in order to reduce its length."

21. With regard to the road to Burdwan, the Magistrate states that this is the straight route from Midnapore to Burdwan, of which 35 miles 2 furlongs are within the jurisdiction of Midnapore and 1 mile 2 furlongs lie within the municipality of Midnapore. The road was metalled in the preceding year up to the 15th mile. During the year under report a further length of 2½ miles has been metalled, and materials for metalling a portion of the 23rd and 24th mile have been collected, and a pucca bridge of 3 spans, each of 10 feet, was completed from the springing of its arches.

22. Regarding the road from Lodhasye to Binpore, it is stated that it runs out from the old Bombay road at Lodhasye about 6 miles from Midnapore and terminates at Binpore, where there is a police station. It is 25½ miles long and is metalled up to the 10th mile. A sum of Rs. 3,170 was provided in the budget for 1873-74 for the construction of bridges and metalling a portion of the road; but as almost all the masonry works were postponed and the sums estimated for them were spent on earth-work, only a pucca bridge of 3 spans, each of 8 feet, which had been constructed in the preceding year up to the springing of the arches, has been finished, and materials for metalling a portion of the road have been collected.

23. The repairs consisted, as usual, in raising and otherwise improving the existing roads, and in putting the bridges on them in a safe state for traffic and passengers.

24. *Ferries.*—Under this head a sum of Rs. 1,896-14-9 was expended during the year. Of this sum Rs. 1,278 were laid out in constructing three new flat-bottomed boats and one pansee, and the balance in painting toll-boards and in defraying the cost of the establishment entertained for collecting the rent of the ferries and toll-bars held khas.

25. *Hooghly and Howrah.*—The total income of the district amounts to Rs. 1,33,407-6-4, including Rs. 10,442-11-8, the balance of the preceding year, Rs. 13,421-5-4 collections from road cess under Act X of 1871, Rs 8,600 grant-in-aid from Provincial Reserve Fund, and Rs. 23,543-5-4 from tolls and other miscellaneous sources. The expenditure was Rs. 1,33,404-1-10, viz Rs 34,842-5-6 were laid out in original works, Rs 82,785-0-5 in repairs, Rs. 1,504-1-9 in the purchase of tools and plant, Rs. 4,892-12-9 on account of the establishment for the collection of revenue, and Rs. 9,379 13-7 were refunded to the parties from the collections of house cess under the orders of Government.

26. The figures shown against the different items in the annual account tally with those entered in the four quarterly returns.

27. I beg to take this opportunity to acknowledge the good service rendered in this department during the year by Mr Hime, the Magistrate of Beerbhoom; Mr. Larminie, the Magistrate of Bankoora; and Mr. Pellew, the Magistrate of Hooghly. I have also to acknowledge with thanks the excellent services rendered by Mr. Nightingale, Executive Engineer of Burdwan; Mr. Wells, Executive Engineer of Hooghly and Howrah; Mr. Christie, Executive Engineer of Bankoora; and Mr. Simpson, Executive Engineer of Beerbhoom. I regret to find that, under the new system of executive management, we are likely to lose the services of some of these officers, which I venture to deprecate as a retrogressive movement.

HIGH COURT NOTICES.

Circular Order by the High Court of Judicature at Fort William in Bengal.

Circular Order No. 2.

Dated Calcutta, the 28*th May* 1875.

HIGH COURT
ENGLISH DEPARTMENT.
(Criminal.)

MORE than a year having now elapsed since the promulgation of the rules made under the Court Fees' Act, and the Court being desirous of judging how the rules have worked, and in what respects they need improvement or expansion, all District Magistrates under the Court's authority are requested to submit, within the first week in July next, a careful report on the subject.

2. The Court desire to be informed as to the operation of the rules—

1*st.*—In their application to complainants and others before the Criminal Courts.

2*nd.*—As to official convenience.

3*rd.*—From the financial point of view.

3. Under the first of these heads it should be shown whether any injurious effect has been produced, or complaint occasioned, by alterations in the amount of fees, as compared with the practice superseded by the rules; whether a resort to process of any particular kind has been promoted or discouraged by the fees imposed.

4. Under the second head it should be stated how far the rules have worked smoothly, regarded merely as a code of office regulations; whether they have presented any real difficulties to fairly intelligent officers; whether they have been found to admit of easy check and control by superior authority; whether the fees are considered as bearing a due proportion to the importance or difficulty of the services to which they severally apply.

5. Upon the third head of inquiry the Court desire to be informed as fully as possible of the income derived from the fees, and the expenditure to be set against them. While on the one hand the Court have not considered that these fees ought to be, in any important sense, a source of revenue; on the other it is clear that the Government ought to be protected against loss, not only on the whole, but also in any given direction.

6. It is material to know whether the salaries and remunerations fixed for the peons and the superior officers employed in the service or execution of process, have been found adequate in both the higher and the lower grades for the purpose of attracting to, and retaining in the service men duly qualified for the duties which they are called on to perform, and whether the circumstances of particular districts demand an increase, or permit a reduction, in the salaries appointed, which, as they stand, are applicable to all districts.

7. The Court desire particularly to be informed how far it has been practicable to appoint no process server who cannot read and write, how many old officers of this kind, *i. e.*, unable to read and write, have been retained, and for what reason.

8. The Court expect that District Magistrates will treat the subject with the care which its importance demands, and will render valuable assistance in preparing revised rules for acceptance by the Government.

9. It will be convenient if, in making their reports, the District Magistrates follow strictly the order here indicated.

Circular Order No. 6.

Dated Calcutta, the 2nd June 1875.

HIGH COURT
ENGLISH DEPARTMENT.
(*Civil.*)

A REFERENCE having been made to the Court as to the course to be observed in dealing with applications for certified copies of documents appertaining to the record of a civil suit, the following rules are laid down for the information and guidance of the Courts subordinate to the High Court:—

RULES.

1. A plaintiff, or a defendant, who has appeared to the suit, is entitled, at any stage of the suit, to obtain copies of the record of the suit, including exhibits which have been put in *and finally accepted* by the Court as evidence.

[*N. B.*—A party who has been ordered to file a written statement is not entitled to inspect or take a copy of a written statement filed by another party until he has first filed his own.]

2. A stranger to the suit may, *after decree*, obtain, as of course, copies of the plaint, written statements, affidavits, and petitions filed in the suit: and may, for sufficient reason shown to the satisfaction of the Court, obtain copies of any such documents *before decree*.

3. A stranger to the suit may also obtain, as of course, copies of judgments, decrees, or orders at any time after they have been passed or made.

4. A stranger to the suit has no right to obtain copies of exhibits put in evidence, except with the consent of the person by whom they were produced.

By order of the High Court,
W. M. SOUTTAR, *Registrar.*

Sheriff's Office, the 16th June 1875.

NOTICE is hereby given that the Sixth Criminal Sessions of the year 1875, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the twelfth day of July next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Session be then and there to prosecute.

NOTICE is hereby given that the proprietary right of Government, as specified in the condition of sale below, to the under-mentioned estate, situate in the district of Monghyr, will be put up to sale at the Monghyr Collectorate, on the 28th September 1875, corresponding with 13th Assin 1283 F.S.

The purchasers of this estate will be subject to the following conditions of sale:—

(1.) The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, the only right reserved by Government being the right of revising the jumma at the conclusion of the term of the present settlement, and on the expiration of all future settlements. If, on resettlement, he should refuse to engage, he will be entitled to malikana. The estate will be sold, subject, up to the expiry of the existing settlement, in the year ending 31st March 1902 A.D., to the Government revenue against it, to the highest bidder above the upset price.

(2.) The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators, who have signed the schedule of assessment prepared by the revenue authorities.

(3.) If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

(4.) If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement, as in the case of original sale.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the schools and colleges in India, and though at present a scholar-like knowlege of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars, and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

DARJEELING LINE.

During the present season the experiment will be tried of offering the public a less expensive mode of conveyance to Darjeeling.

2. A limited number of waggonettes have been built, which are so constructed as to enable two passengers to lie down at full length. They are provided with cushions and hoods, and drawn by two horses, but they are not sufficiently protected from the weather to make them good for ladies or invalids. These are available at cheaper rates than the ordinary carriages, viz. 4 annas a mile for each passenger, or Rs. 25 for the through journey.

3. A waggonette will start from Karagola every day, except Sunday and Monday, leaving on the arrival of the steamer, and will return from Silligori every day, except Monday and Tuesday, starting at 11 A.M.

4. No luggage can be carried except a hand-bag, which should not weigh more than 5 seers. This rule is necessary, and must not, under any circumstances, be infringed, as these vehicles convey the parcel mail. One traveller who, by the payment of Rs. 50, engages a whole waggonette, can take two maunds of luggage with him free.

5. Applications for waggonettes should be made in the usual way to Post Master, Purneah, and should state which of the other forms of accommodation the traveller wishes in case a waggonette is not available.

PRIMARY SCHOOLS IN BACKERGUNGE.

Minute by the Lieutenant-Governor of Bengal, dated June 19th, 1875.

IN my minute of the 12th January last, my general views on primary education in Bengal were stated, and general principles were laid down for advancing in the direction indicated by Sir G. Campbell's measures. The wisdom of placing these primary schools under the district civil authorities was insisted on, while at the same time the co-operation of the educational officers was re-affirmed to be a very essential feature of the scheme. Instructions were also given for the submission of inspection reports regarding the grants-in-aid to the village schoolmasters, and payment by results regarding the training in the normal schools, and the determination of the curriculum. In my Minute of the 27th April, with a view to ensure an improved curriculum in some at least of the primary schools, I accepted the proposal of the Director of Public Instruction to prescribe for them a somewhat higher scholarship standard. It is too soon yet to look for any results of this change.

2. An interesting and suggestive report has lately been received from Dr. Robson, the Circle Inspector, on primary schools in Backergunge, on which I desire to record my opinion, as the points comprised therein are applicable to other districts. The same district had been visited by Mr. Croft in December last, and it is doubtless owing greatly to his remarks and suggestions that these schools appear in so short a time as three or four months to have taken a fresh start in many places.

3. The district of Backergunge (which I had the advantage of visiting during the rainy season of 1874, accompanied by the Commissioner and Collector) is peculiar in some respects. It is characterized by the existence in a large degree of tenant right and occupancy status, and the lower classes are said to be prosperous and comfortable. The great rice-crops, the network of inland creeks, the ramification of navigable streams, and the canal communication with Calcutta, tend to add annually to the material wealth of the inhabitants. On the whole the district is one of the most flourishing of all the districts of Bengal. On the other hand, agricultural labour engages the energies of nearly all the able-bodied for some months in the year, and interferes considerably with the attendance at school.

4. Primary education in Backergunge under the new system was at the outset not watched nor directed in the manner intended by the Government. It is to be feared that the connection of Government was too often allowed to terminate with the grant of pecuniary aid, and that adequate results could not be shown for the money spent. It is very satisfactory to see that Dr. Robson considers the prospects for the future to be full of hope. When the objects and views of Government are better appreciated, and we have more experience of the local requirements, I expect the Backergunge patshalas to take a prominent place in the education returns of these provinces. It will be observed that in the sub-division of Perozepore, where 60 patshalas are now aided, there are above 100 applications for aid from schools, many of which are as much in need of, and as deserving of aid as those now receiving it. My views regarding the standard of education to be encouraged have been given at sufficient length in the Minute of 27th April. While desiring to gradually raise it in those schools which can properly bear the process, I desire to keep it at the lowest and simplest degree for those many schools which cannot bear anything higher.

5. The plan suggested by Dr. Robson for carrying out the principle of payment by results appears to be well calculated to succeed if the inspecting officers do their duty. I understand that the average grant-in-aid to each "guru" (or village schoolmaster) in Backergunge is Rs. 2-8 per mensem, the maximum limit allowed is Rs. 5 per mensem. Within these figures there is ample margin for the inspecting officer, after some test and examination, to signify practically his approval or dissatisfaction. I quite agree that perfunctory inspections are of no use, and that some *action* on the part of that officer is more certain to do good than repeated admonitions in the Visitors' Book, leading to nothing for a time, and eventually to a withdrawal of the whole grant. I concur in disapproving of any proposal to give increased stipends to the present "gurus" without any condition of improvement in their own efficiency or increase in the number of their scholars.

6. It has been more than once the subject of remark that the villagers diminish their contributions to the "gurus" by an amount equal to the Government grant-in-aid. This was stated by Mr. Croft to be especially the case in Backergunge. Dr. Robson considers that efficient "gurus" will be able to make their constituents pay what is the village teacher's right by old custom, and that the villagers will be anxious to retain the services of good teachers. He says also that he only met with one instance in which a *competent* "guru" had any great difficulty in getting both his fees and his food. The purposes for which a grant-in-aid is given at all were fully set forth in the Resolution of 30th September 1872, to all which conditions I desire to adhere. But as previously stated, the assistance of Government is supplementary only. It is

to be hoped that with the improvement of the "gurus," there will be no more difficulty in this respect. I would not grant an increase of stipend to "gurus" directly they leave the normal schools, until they have proved their efficiency to the inspecting officer, either by showing an increase in the number of their pupils, or by improvement in the standard of instruction.

7. The section of this report on "the remarks of inspectors in the Visitors' Books" is worthy of the best attention of the District Committee. It has my unqualified approval. One good inspection, with careful record kept, may be very beneficial. Any inspection short of this not only fails to do good, but also is demoralizing to all parties concerned. A scheme for increasing the inspecting staff throughout Bengal at no small cost has been very recently sanctioned, and I trust that an acknowledged weak point has been strengthened, if not completely, still to the limits allowed by our present means. A due proportion of officers will be placed at the disposal of the Backergunge Committee, on whom it will devolve to make the best use of their services.

8. I am especially glad to find it stated in this report that the difficult problem of female education, which has so long engaged and baffled the efforts of Government, is being solved by the new system of primary education. Without being too sanguine, it is evident that some success has been already attained, and that a great opportunity offers for doing more good. This action is said to be almost entirely spontaneous on the part of the people. I approve of the principle of holding out encouragement to the "gurus" to induce girls to come to their "patshalas" or rustic school-houses; the manner in which such encouragement should be given can best be settled by the local committees, whether by an addition to the stipend of the guru proportioned to the number of girls taught by him, or by rewards to such gurus as can show the largest number of girls who have attained a certain degree of proficiency. I have much pleasure in observing the prizes offered by liberal and public spirited native gentlemen of the district, viz., Baboos Bilash Chandra and Barada Prasanna Chuckerbutty of Rahamatpore, Baboo Chandra Kanta Sen of Basanda, and Baboo Kali Nath Biswas of Jalabari. The action taken by Dr. Robson in the matter of the aided girls' school at Boakati was proper.

9. The payment of the gurus' stipends by the agency of the police was introduced with the object of ensuring punctual payment, and for the convenience of the gurus themselves. It appears not to work satisfactorily; in fact it is said to retard rather than to expedite payment. The gurus have often to travel long distances to the thanas; illegal exactions are said to be very general; the police have other duties to perform; the gurus are kept waiting, and the patshalas must suffer from their absence. Moreover, this system removes the necessity for frequent visits by the inspecting officers. Also it has been found impossible for the District Committee to know how much of the primary grant had actually been spent up to any given time, the result of which may be to allow a large sum to lapse at the end of the year. Dr. Robson has recommended the District Committee to revert to the plan of paying the gurus through the inspecting officers, and has suggested an arrangement for the purpose of securing both regularity of payment and frequency of inspection. To carry out this change satisfactorily, a large increase in the number of sub-inspectors may be requisite. Some improvement will be effected in this direction as above indicated. It is to be remembered that the practical result may be that the sub-inspector will require the gurus to come to him to be paid, which will be even more inconvenient to them than going to the thana. There will at least be a tendency to drift into this system, which will have to be carefully watched. On the whole I am inclined to favour the recommendation of the Circle Inspector, and would here again request the Committee to make the most of their inspecting staff. The round-about procedure adopted to convey the gurus' receipts to the Deputy Inspector surely admits of simplification.

10. With regard to the travelling allowances of the inspecting officers, I recognise the old question—whether mileage rates or consolidated allowances are preferable. In the first case, there is an alleged difficulty in ascertaining

the correct distances, but there is the strong incentive to travel; in the second there is no inducement to undertake inspections; there is a possibility of economy, and it gives no trouble of calculation. With the excellent maps available, the difficulty of measuring the distances is insignificant, and in other districts of the Dacca Division it presents no obstacle. There should be on record a table of distances for the whole district, if there is not one already in the Collector's office. As it is my desire to infuse as much vitality and reality as possible into the inspection system, I think the arguments preponderate in favour of the mileage plan, and measures should be taken to re-establish it on a satisfactory basis in Backergunge.

11. The Burrisal Normal School evidently requires reform. Arrangements should be made for the members of the District Committee to visit it in turn, and the Collector should direct his attention to its deficiencies. I am unable to assent to Dr. Robson's views that it is in any way the duty of the Magistrate or of the District Committee to provide with patshalas those gurus who may qualify at the normal school. The less the Magistrate interferes in the appointment of gurus the better. It is for him to exercise his influence by a judicious distribution of the grant through his subordinates, by diminishing or withdrawing it for inefficiency, and increasing it for merit. If gurus abscond from the normal school, or fail to pass their examination, these are fair reasons for withdrawing their grants-in-aid. Again, if clever young gurus set up patshalas in the neighbourhood of "incorrigible old dunces," the people will soon decide whom they prefer. Government money should not be spent to bolster up patshalas which, under the test of competition, languish and become empty.

12. It has been suggested to me that it is time to look into the question of normal schools generally by the light of the experience which has been gained of the working of the orders contained in the Resolution of 31st July 1873. Before entering upon this enquiry, I shall be glad to have the opinion of Mr. Sutcliffe as to whether the system of normal training is satisfactory, or if he would recommend a call for reports on the subject.

13. In conclusion, I would request the Officiating Commissioner of Dacca, and Mr. Barton, the Officiating Collector of Backergunge, to take into their best consideration the suggestions offered in their report on primary schools, on which my views are herein expressed. The Director of Public Instruction will be desired to convey to Dr. Robson my acknowledgments for his interesting report.

RICHARD TEMPLE.

Report on the Condition of the Primary Schools of Backergunge, with suggestions for their improvement.

INTRODUCTION.

I.—PRESENT CONDITION OF THE BACKERGUNGE PATHSALAS.

1. At the suggestion of the Officiating Commissioner of the Dacca Division, I recently made a tour of inspection in Backergunge, with the special purpose of inquiring into the working of the primary schools in that district. Between the 17th of March and the 3rd of April I visited 50 schools, of which 40 were pathsalas; of these 23 were in the sudder subdivision and 17 in Perozepore.

2. The majority of these I found to be numerously attended and well taught; and altogether such, as tried by almost any standard, need not fear comparison with those of any district in Bengal. In these two sub-divisions the education given by the better class of primary schools is highly esteemed and eagerly sought after both by Hindus and Muhammadans. In Perozepore, where 60 pathsalas are now aided, there are upwards of a hundred applications for aid from schools, many of which are as much in need of, and as deserving of aid as those now receiving it.

3. In a considerable proportion of the pathsalas Muhammadan boys preponderate. At Tejdaskati pathsala, out of 68 pupils who were present at the time of my visit, only 16 were Hindus; at Chalesha, where 49 were present, I counted only 11 Hindus; at the Norkati unaided pathsala I found 46 present, all of them Muhammadans. In this case the villagers were clamorous for aid, and they offered to guarantee fees, to the amount of Rs. 3 a month, to any qualified teacher who might be sent, besides providing him with board and lodging, equivalent to at least Rs. 2-8 more.

I recommended the Deputy Inspector who accompanied me on my visit to transfer to this school the grant from the unsuccessful Dabdabiya pathsala, where I found, as the result of a grant for the last two years, that only 11 boys could write their names on plantain leaves.

4. From all that I have seen in Backergunge, I regard the prospects of primary education as full of hope. It is characteristically a district of peasant proprietors, and nearly every ryot has some personal interest in the land. The lower classes for the most part live in comfortable houses, in a style of rough abundance, such as one sees in scarcely any other part of Bengal. This widely diffused material prosperity affords an advantageous starting point for the spread of education.

It must be allowed that even the litigation in which the Backergunge ryot is said to delight is an intellectual sort of amusement, and is closely connected with reading, writing, and arithmetic.

5. Although I am of opinion that the present state of primary education in Backergunge is full of hope for the future, I must allow that the alarm recently felt with regard to it has not been altogether groundless. In the sudder sub-division owing to the multifarious duties of the Deputy Inspector and the large area over which the numerous schools under his charge are scattered, no efficient supervision has been exercised The gurus have been almost like sheep without a shepherd.

6 In a considerable proportion of the schools this want of supervision has been probably no great disadvantage, for I found that the inspecting officers were under the impression that it was the wish of Government to *keep down* the standard of education in the pathsalas, even in cases where teachers, pupils, and parents were eager to have something higher and better than they had before. With such mistaken views as to the wishes of Government, a more thorough supervision and active control would have been more detrimental to the interests of education than the system of non-interference which circumstances have rendered almost unavoidable in the sudder sub-division.

II.—RATES OF PRIMARY GRANTS AND MODIFIED PAYMENT BY RESULTS.

My predecessor was of opinion that the rates of the primary grants in the Backergunge district are too low, and, with the explanations and qualifications to be afterwards stated, I agree with him. But I entirely disapprove of the proposal which has, I believe, been recently under the consideration of the District Committee to give increased stipends to the present gurus without any conditions of improvement in efficiency, or increase in numbers, with the vague idea that larger allowances will somehow or other improve them. Such a course would be a sheer waste of Government money.

2. It would, moreover, be a measure entirely opposed to the instructions of His Honor the Lieutenant-Governor, who, in his minute No. 261 of 12th January 1875, lays down the important principle that the amount of the grant to every village school should be regulated as nearly as possible *according to results*

3. Further, an increase of the Government allowance given in this way will not in the majority of cases increase the income of the gurus, for the villagers will diminish their contributions by an equal amount. This result will not follow if an increase of grant is given on the ground of efficiency; for in every case of that sort the guru will be a man of some ability and energy, who will be able to prevail upon the villagers to give him what is the village teacher's right by immemorial custom. The villagers also are sufficiently intelligent to know the value of a good teacher, and in such a case they will be anxious to retain his services

4. I shall mention one instance to show how the villagers can appreciate and reward a good teacher. At Kachoorakati in Perozepore, nearly all the boys attending the pathsala are of the Kumar or blacksmith caste. The guru gets nearly Rs. 10 a month in fees from his pupils, and in addition the villagers subscribe Rs. 4-6 a month, besides providing him with board and lodging. This is no doubt an extreme case, both as respects the qualifications of the guru and the liberality of the villagers; but I have met with many other instances in my recent tour which might be adduced to support my assertion that the villagers know the value of a good teacher.

5. Mr. Croft says in his note that "in Backergunge more than in any other district of this circle, the common complaint is true that the villagers no longer pay their usual fees to a guru receiving Government aid." So far as this is the case, the explanation of it is to be found in the fact that in this more than in any other district incompetent old gurus have been salaried; and the villagers have not been able to understand the propriety of giving the old men double pay for the very same work they were doing before. A good deal may be said in favour of the village view of the question. The same notions of equity which lead them to think that an old guru doing the same work as before should continue to have the same pay, lead them to the conclusion that a superior guru doing better work should have higher pay.

In the course of my recent tour I visited 40 pathsalas without meeting with more than a single instance (and I made special inquiries on the point) in which a *competent* guru had any great difficulty in getting both his fees and his food.

6. To raise the rate of the gurus' stipends all round, as has been proposed, would give much less trouble to the Deputy and Sub-Inspectors than to give an increase to deserving teachers only; for the latter course involves visitation and particular inquiry in every case recommended for a higher rate of grant. This, however, is a matter which lies within the duties which an inspecting officer may fairly be called upon to perform, and I would recommend that, as a general rule, no increase of the present allowance should be given without the inspecting officer stating from recent and thorough examination the grounds on which the increase is proposed to be given. In the words of His Honor the Lieutenant-Governor—"In every case some tests should be exacted, some examination enforced."

7. I have just said that, as a general rule, no stipends should be increased except as rewards for the efficiency of the school. I think it advisable, however, to make an exception in the case of those gurus who, after being trained in the normal school, pass the examination creditably. To all such gurus I would give an increase on their former stipend of eight annas a month on their return to their pathsalas, leaving it open to them to get a further increase when their improved teaching power has resulted in an improved school.

8. In this district, so far as I can learn, no attempt whatever has been made to carry out the system of modified payment by results approved by the late Lieutenant-Governor in paragraph 9 of his Resolution of 12th November 1872, and re-affirmed by His Honor the present Lieutenant-Governor in his minute of 12th January last. The only thing that has been done in Backergunge which could by any possibility be described as a payment by results, has been the entire withdrawal of the grant when a pathsala has become very bad; and if I may judge from the few bad pathsalas which I have myself visited and the many described by Mr. Croft as "deplorably low," they must have been so bad as to be almost non-existent before the measure was resorted to.

9. As the primary system has been hitherto worked in Backergunge, it has contained no provision for offering inducements to a guru to exert himself to increase the number of his pupils or to push them on in their education.

Indeed, it might be plausibly argued that the fixed allowances which have been hitherto assigned to pathsalas, without any regard to numbers or efficiency, have made it the interest of a guru to have the smallest number of pupils compatible with the existence of his school; for the Government allowance continues the same whether he has fifty or fifteen, and it gives him much less trouble to teach the smaller number.

10. In order that the intentions of Government may be carried out in this matter, an inspecting officer should proceed in the following way:—When he visits a pathsala which has had a grant for some time, and which on examination is found not to be getting on well, he should say to the guru—"Your school has not improved as it ought to have done in the time you have been drawing Government money. I therefore reduce your grant by eight annas. If, however, by the time of my next visit you have pushed on the boys and made satisfactory progress, your grant will be restored to its original amount. But if no improvement is perceptible it will then be withdrawn altogether." When, on the other hand, the inspecting officer comes to a well-managed pathsala which has made creditable progress in numbers and efficiency, he might give the guru a small increase, not exceeding eight annas a month, liable to be withdrawn if the standard be not kept up.

11. Perhaps the best and most convenient mode of working that part of the system of modified payment by results which comtemplates an increase of stipend to deserving gurus, will be to give quarterly rewards of one, two, or three rupees, the amount in each case being regulated by the result of the examination made by the inspecting officer at his visit. This plan has been recently adopted in Noakhali.

12. The practice has hitherto been that the inspecting officer expresses his dissatisfaction (generally in English) in the Visitors' Book; he repeats the same at subsequent visits, and if matters become very bad indeed the grant may be withdrawn. Though the remarks made in the Visitors' Books are for the most part in English, their purport is of course explained orally to the guru. When he sees, however, that his allowance is continued at the same rate month after month notwithstanding the expressed dissatisfaction of the Inspector, he persuades himself that the Government has little care for the efficiency of his school, till at last he may find to his cost that he has lost the grant altogether, when it will be too late for him to exert himself to retain it. Had the grant been reduced by eight, or even four annas on the second occasion on which the Inspector expressed his dissatisfaction, with the promise of restoration to its former amount in the event of improvement, the guru would have seen that the Inspector was in earnest and that Government was not to be trifled with.

13. At Asoa in Perozepore, I found a well qualified guru who had allowed his school to dwindle from 53 to 19. He has a grant of Rs. 2-8 from the primary fund, and a few of the well-to-do villagers whose sons are at school, guarantee him Rs. 2 in fees, besides providing him with board. When I asked for an explanation of the falling off in the attendance, he said—"Why should I trouble myself to get more boys? I shall not thereby get any increase of grant; and the sons of the poor villagers who might come to school would not give me any fees." Of the 19 pupils in the pathsala, five were girls, two of whom could read fairly. I told the guru that he should try to get more girls to come to school. To this he replied in the same sham—"I could easily get more girls, but what advantage would

that be to me? They would not pay fees." This guru has apparently very decided objections to free pupils, and indeed to anything for which he is not paid. He is a man of some ability, but indolent and indifferent, and our system hitherto has furnished him with no motive to exertion. I considered this a proper case for giving a start to the system of payment by results in Backergunge, especially as I found from the Visitors' Book that he had disregarded repeated admonitions from the Sub-Inspector. Accordingly I ordered his stipend to be reduced by eight annas a month till the time of the Sub-Inspector's next visit. The prospect of the loss of eight annas and possibly also the disgrace of the thing (for it was announced in the presence of the assembled villagers) appeared to touch him to the quick. He was like a man awakened from a profound slumber. He entreated to have the matter overlooked this time, promising to double the number of his pupils, male and female, within a month. To convince the guru that the system of payment by results was a stern reality, and to make a beginning of it in Backergunge, I finally fixed the deduction to be made at four annas, explaining to him that by exerting himself he might in a few months get more than he had before.

14. It is admitted on all hands that the great want of primary education in the sudder sub-division is an increase in the inspecting agency; but an increase in the number of Inspectors will not be attended with a corresponding increase of efficiency unless some control, such as I have indicated above, be exercised over the schools. The remarks made by the inspecting officer will be little regarded by the guru unless he finds that inattention to them affects his allowances.

15. In concluding this section of my report, I may say that in my opinion if things are properly managed there will not be a single bad pathsala in the Sudder and Perozepore sub-divisions in three months from the present time. In the Perozepore sub-division alone (as I have noticed above) there are 100 applications for aid from pathsalas, many of which can show upwards of 40 pupils in attendance. I fail to see the necessity or propriety in these circumstances of continuing grants to those of the existing schools that are poor in numbers or bad in quality, simply because they happened to get grants assigned to them at a time when the demand for education was less general than it is now. Let the grants of all pathsalas which have an attendance of less than 20 (except under very special circumstances) be transferred to the most promising of these new applicants (if the gurus are fairly competent), and let them be well looked after, and nothing more will ever be heard of the "*deplorably low*" primary schools of these sub-divisions.

III.—THE REMARKS OF INSPECTORS IN THE VISITORS' BOOKS OF PATHSALAS.

1. In order to facilitate the working of the system of modified payment by results, as well as to increase the efficiency and practical value of inspection in the primary schools, I would recommend that the remarks of the Deputy and Sub-Inspectors in the Visitors' Books should in all cases be in Bengali, that the guru and villagers may understand and profit by the observations made.

2. These remarks should enter into particulars regarding each class, stating the number of boys who can read, write from dictation, do sums in arithmetic, &c. When a particular book, such as "Bodhoday," is used, the number of pages read up to the date of the visit should be noted. In arithmetic the number of boys who can work division, multiplication, or addition, as the case may be, should be stated. In mental arithmetic and mahajani hishab, the most difficult questions the boys were able to answer in their heads might occasionally be specified. In this way the progress of the school can be accurately ascertained at the time of the next visit. Remarks merely stating that the inspecting officer is satisfied or otherwise are of very little use, for, after an interval of three or four months, the grounds and degree of satisfaction or dissatisfaction will in most cases have passed away from his mind.

3. An abstract of this detailed report should be kept by the inspecting officer in his note-book, so that, if called upon, he will have no difficulty at any time in giving an accurate statement of the past and present state of any school in his sub-division.

4. In cases in which the inspecting officer deems it advisable to diminish or to increase the stipend of a guru, in accordance with the results of his examination, the fact and the grounds of it should be distinctly stated in the Visitors' Book.

IV.—THE EDUCATION OF GIRLS IN PRIMARY SCHOOLS.

1. Previous to the establishment of the primary schools in the year 1872, female education in Bengal was an unsolved and, apparently, an insoluble problem. The female infant schools which were established in various parts of the district maintained a sickly existence, and were carried on at a cost altogether disproportionate to the poor results attained. Neither parents nor teachers appeared to take any real interest in the progress of the girls, and in consequence very little progress was made.

2. The solution of this difficult problem is one of the unforeseen results of the great system of primary education which is proving such a blessing to the people of Bengal. The boys and girls of the villages at an early age play about together, and it is difficult to see why they should not be taught together in school. And, in fact, it has been found that Hindoo parents do not object to their daughters being taught by the village school-masters in the village schools. In the Backergunge District Education Report for last year, it is noticed that 232 girls were reading in pathsalas; and I believe that the forthcoming report

will show a larger number. In 18 out of 40 pathsalas which I recently visited I found girls, in most cases two or three, but in a few a larger number. Timirkati and Kachorakati pathsalas have each eleven girls in attendance; Khapura ten and Hossenpore eight. This action is almost entirely spontaneous on the part of the people, for the girls as yet pay no fees, and the gurus have not hitherto received any increase of stipend for teaching them.

3. The girls must be allowed to have as great a claim to the benefits of the beneficent scheme of primary education as the boys; and the time has now come to do something for their encouragement. By taking advantage of the opening now presented, we may inaugurate a widely-extended and efficient system of female education at very little expense. It has recently been proposed to increase the rates of the primary grants in Backergunge, and I have stated my opinion above that the stipends should be increased as rewards of merit; I now propose a second means by which a guru may add to his allowances.

4. I beg to recommend that the stipend of a guru be increased by eight annas a month for every five girls he can induce to read in his pathsala, allowing one rupee for ten girls, and so on, up to the maximum grant of Rs. 5. If this proposal be sanctioned, and printed notices of it in Bengali be distributed to every guru in the district, the number of girls receiving education will be quadrupled in a few months. To prevent all possibility of imposition, and secure regularity and diligence on the part of the girls, the inspecting officers will at their visits examine all the girls, and only those who have made fair progress during the time they have been at school will be allowed to count for the guru's girls' allowance. This condition should be embodied in the notices circulated to the gurus.

5. The above plan will secure a large increase on the number of girls, and a fair amount of attention to their education. I beg further to suggest a plan by which the teachers will be stimulated to push on their female pupils. Let rewards be offered to those gurus who at the end of next year (December 1876) can show the largest number of girls in their pathsalas who have attained a certain degree of proficiency. I would suggest that ability to read with fluency an easy Bengali book (say "Seshu Sikhya," Part 3rd), to write from dictation a passage from the same easy book with tolerable correctness, and to work sums in multiplication, be appointed as the standard. Rewards of Rs. 25, 15, 10, 5, and 5, may be offered to the five gurus in the sudder sub-division who can show the largest number of girls qualified as above. The Rs. 60 required for the prizes suggested above have been already contributed by enlightened and public-spirited gentlemen belonging to the district Baboos Bilash Chandra and Barada Prasanna Chuckerbutty of Rahamatpore have given a donation of Rs 30 for this purpose, and Baboo Chandra Kanta Sen of Basanda has also given a donation of Rs. 30.

For the Perozepore sub-division I would suggest four prizes of Rs. 20, 10, 5, and 5. The Rs. 40 required for these prizes have been already contributed by Baboo Kali Nath Biswas, the liberal-minded young zemindar of Jalabari, who seems resolved to tread in the footsteps of his excellent father, the late Dwarka Nath Biswas, the earliest patron of female education in Backergunge.

6. I think it would be advisable to offer special prizes, with a lower standard, to the gurus of Dakhin Shabazpore and Patuakhali, where they will have greater difficulties to contend with among a Muhammadan population. Perhaps some of the zemindars of these sub-divisions will offer prizes for this purpose if the scheme be made known to them.

7. If these proposals are sanctioned by the District Committee and properly advertised, a powerful stimulus will be given to female education throughout the whole district, and it will advance in future with accelerated speed. Girls in pathsalas cost little, and they are really taught; for in such mixed schools a spirit of emulation springs up which has a powerful effect on progress. In some of the pathsalas which I lately examined, particularly in Perozepore, the girls were as far advanced as the boys. In one pathsala I found two Muhammadan girls, apparently eleven years of age, who were as expert at mental arithmetic and bazaar accounts, and as able to write out pottahs and kubulyats as the best boys in the school.

8. As a contrast to the progress which girls make in the pathsalas, I shall conclude this section of my report by describing the state of things in an aided girls' school that I fell in with in my tour. This aided girls' school was at Boakati, where there is also a pathsala. The latter I found to be in a very unsatisfactory state, teaching a very low standard. While examining the pathsala I thought it a very extraordinary circumstance that a village where the education of the boys was at so low an ebb should be so advanced as to have an aided female school of its own. That Bengali villagers should care more for the education of girls than for that of boys appeared something like a reversal of the fixed course of nature. As I expected the girls' school turned out to be a mere sham. There were nine girls present, seven of them mere infants, who were amusing themselves with smearing ink on palm leaves, the other two had learned the alphabet. This is the despicable result to attain which Government gives a grant-in-aid of Rs. 60 a year, and the managers profess to give another Rs. 60

A grant-in-aid to such a school is money thrown away. I have my doubts as to whether the sum professedly raised by the managers to meet the grant ever existed except to figure in the monthly accounts. Seeing the state of matters, I told the Secretary that the grant-in-aid would be withdrawn from the end of the month; and I recommended the teacher, a smart young man who passed the vernacular scholarship examination four years ago, to seek employment as a guru.

V.—THE PAYMENT OF GURUS' STIPENDS BY THE POLICE.

1. In Backergunge, as in most other districts, the gurus were at first paid by the inspecting officers, but about fifteen months ago the charge of their payment was transferred to the police, in order to secure that they should receive their allowances punctually and conveniently.

2. In the sudder sub-division, however, where the Deputy Inspector, in addition to his other multifarious duties, had the charge of the allowances of 96 aided pathsalas, scattered over six thanas, and where accordingly there might be supposed to be difficulties about regularity of payment, from the large number of schools and the wide area over which they were spread, the previous arrangement was continued, but in the other sub-divisions, where the Sub-Inspectors have no difficulty in visiting their schools at short intervals, the change was introduced.

3. The agency of the police in paying the gurus was at first employed in the Dacca district, but this method of payment having been found to cause great inconvenience to the payees it was abandoned as early as August 1873. In Backergunge the experiment has not met with better success. It not only causes great inconvenience to many of the gurus, but, as I shall show, acts prejudicially in other ways upon the working of the primary system.

4. The form of procedure is as follows:—The bills for the gurus' stipends are drawn by the Sub-Inspectors and sent to the Deputy Inspector to be passed. They are then forwarded to the Sub-Inspectors, who cash them at the sub-divisional treasuries, and who then, instead of paying the gurus directly, hand over the stipends to the Court Sub-Inspectors. The Court Sub-Inspectors send the money to the different thanas, where the gurus have to go to be paid. When payment is made, the police Sub-Inspectors or Head Constables take receipts from the gurus, which they send to the Sub-Inspectors of Schools, who in their turn send them to the Deputy Inspector to be filed in his office.

5. It is not to be wondered at that the receipts, passing by this circuitous route through so many hands, are generally not received by the Deputy Inspector for many months after the bills have been drawn. The Sub-Inspector of Perozepore got the receipts of the gurus in thana Sarupkati for the month of June 1874 in March 1875, notwithstanding several reminders sent by him to the Sub-Inspector of Police. Indeed it was only after the Deputy Magistrate had been applied to that the receipts were forthcoming even then.

In this way it is impossible for the District Committee to know how much of the primary grant has actually been spent up to any given time.

6. I had opportunity of consulting the late Officiating Sub-Inspectors of Dakhin Shabazpore and Patuakhali and the Sub-Inspector of Perozepore on the working of this arrangement, and I find that so far from expediting payment, as was intended, the plan has had the contrary effect. Mr. Croft, on his visit to Patuakhali in December last, found that the stipends of many of the gurus had not been paid for three or four months.

7. In many places the guru has to hire a boat and travel a long distance to reach the thana, and then he often finds that the police officer is absent on duty, or, as not unfrequently happens, he is told to come again after a few days as the police officer is too busy to attend to him.

In Dakhin Shabazpore some of the gurus have to travel sixteen miles to reach the thana. In Patuakhali the guru of Rangabali Mandari has to travel 24 miles to reach the police station of Golachepa, and he has to cross two large rivers, the Agnimukha and the Darchira, in going and returning. The guru of Alta in Perozepore, has till lately had to travel 20 miles to the Kewari thana.

8. Some time ago there was an officiating guru appointed at Char Nipatasi in thana Perozepore. Being a new man he did not know that he had to go to the police station for his stipend. After some time the stipend was sent to him by a constable who demanded one rupee for his trouble. The guru managed to beat him down to four annas, which however had to be paid before the stipend was handed over. Illegal exactions of this kind are, I am told, very general, though, owing to the timidity of the poor gurus, very difficult to be proved.

9. A few weeks ago the guru of Kachorakati went to Perozepore by boat, a distance of ten miles, for his stipend. At the thana he was told to come again after three or four days, as the head constable was then too busy to attend to him. This guru is a man of ability and energy, who gets nearly Rs. 10 a month in fees from his pupils, and he had just had an interview with the Sub-Inspector of Schools, who had told him that the stipends had been sent to the thana, so he threatened to make a noise about the matter if he was not paid at once, telling the constable that he was not his servant, and that he would not leave his school a second time to travel to Perozepore and back (a journey of 20 miles) when he know that the money was lying at the thana. The stipend was then paid: but ninety-nine gurus out of a hundred would have had to return without the money.

10. The agency of the police in matters affecting the primary schools is a thing exceedingly undesirable for many reasons; and in the present instance it fails to secure the punctuality of payment intended by the scheme, and it causes much inconvenience to many of the gurus.

11. Another serious objection to this plan of payment is that it deprives the Sub-Inspectors of a powerful motive for regularity in their inspection visits. The Director of Public Instruction in his letter to the Government of Bengal, dated 15th March 1873, has

expressed his views on this point in the following terms:—"The Director of Public Instruction believes that the only satisfactory arrangement for the payment of the gurus' allowances will be to require the money to be paid to them directly by the Sub-Inspectors. A great advantage of this plan is that *it secures regular visits of inspection*, as it is certain that the village teachers will manage to make their voices heard in one way or other if their allowances are not paid to them (*i.e.*, if they are not visited) with some degree of regularity." This necessity of frequent visits (in inspections) is entirely removed by bringing in the agency of the police.

12. The continuance of this mode of payment will render it almost impossible to carry out the system of payment according to results, which His Honor the Lieutenant-Governor wishes to be brought into operation.

If the inspecting officers are to be of any use in this matter they must have the payment of the gurus in their own hands.

13. I therefore recommend the District Committee to revert to the plan of paying the gurus through the Inspectors: the agency of the police has been productive of delay and inconvenience, and in some instances at least of illegal exactions.

14. A very simple arrangement will secure both regularity of payment and frequency of inspection. Let an order be issued that all receipts from the gurus must be deposited with the Deputy Inspector within three months of the time of the bills being cashed, and there will be no more complaints of stipends being long in arrear. If any receipts are not in by the end of the three months, the Sub-Inspector should be called upon for an explanation.

15. This plan will have the additional advantage that it will afford a reliable means of knowing how much of the primary grant has been spent up to any given period. The present system of payment is a kind of groping in the dark, and it has resulted in upwards of Rs. 2,000 lapsing at the end of the fiscal year. At least, I can give no other plausible explanation of the fact that the large surplus of the assignments made to Dakhin Shabazpore and Patuakhali was not transferred at the middle of the year to the other two sub-divisions where it could have been profitably spent in granting aid to the most deserving of the numerous applicants.

VI.—TRAVELLING ALLOWANCES OF DEPUTY AND SUB-INSPECTORS.

1. The Bengal Government, in a circular dated 7th January 1873, sanctioned travelling allowances at the following rates:—Deputy Inspectors, four annas a mile and one rupee a day for halts; Sub-Inspectors, three annas a mile and eight annas for halts. The same paragraph of the circular in which the above is laid down gives Commissioners the option of sanctioning a special boat allowance of not more than Rs. 40 for Sub-Inspectors while they are on tour and obliged to keep up a boat.

2. The mileage allowance was at first in use in all the districts of the Dacca sub-division; and in Mymensingh, Fureedpore, and Dacca it has continued till the present time. In Backergunge, however, the District Committee at their meeting of October 30th, 1873, on the ground of the extreme difficulty of ascertaining the correct distances in miles, recommended instead of the mileage rates consolidated allowances of Rs. 30 for the Sub-Inspectors of Patuakhali and Dakhin Shabazpore, Rs. 40 for the Sub-Inspector of Perozepore, and Rs. 2-8 a day to the Deputy Inspector while out in the district.

3. The Commissioner, the late Mr. Abercrombie, in sanctioning this proposal expressed his doubts as to the wisdom of the plan in the following words:—"In authorizing these allowances I must point out that the difficulty of taxing mileage bills is only exchanged for the difficulty of determining whether a fair amount of inspection work has been done. So long as miles meant pice, there was a distinct and powerful incentive to inspection; now that the boat-hire will come in while the Sub-Inspector sits at home, the contrary is the case."

I agree with the view thus expressed that the plan adopted by the District Committee deprives the inspecting agency of one great stimulus to activity.

As an illustration of the leisurely rate of movement which this system tends to foster, I may mention that in February the Sub-Inspector of Patuakhali travelled only 84 miles, for which at a mileage rate he would have drawn only Rs. 16, whereas by this so called economical arrangement he drew Rs. 30.

4. The alleged difficulty of determining the number of miles travelled is not greater in Backergunge than in other districts. The excellent thanawari maps in the Magistrate's cutcherry afford a convenient and reliable list of the distances; and the Sub-Inspectors can consult the map at the sub-divisional station where they are themselves in doubt. The Sub-Inspectors have merely to be called upon to furnish to the Deputy Inspector, along with their travelling bill, a rough pen-and-ink sketch of the route travelled to enable him to follow it on the map. In this way he will be able in a few minutes to test the accuracy of the distances specified in the bill. The Circle Inspector may surely be trusted with the final scrutiny of the travelling bills of this as of other districts.

5. According to the present arrangement the Sub-Inspectors have frequently to incur, if they travel about actively, expenses exceeding their allowance. Mr. Croft satisfied himself that this was the case with the Sub-Inspector of Patuakhali, especially during the rains, when a larger boat is needed for safety and comfort, and in the reaping season, when the wages of labor of all kinds are nearly doubled. The practical effect of this is that very little travelling is done in these seasons.

6. Almost the same objections which apply to the present system apply to the plan of giving the Sub-Inspectors Rs. 1-8 a day while out on tour. This would offer them some inducement to remain out a larger number of days, but it fails to provide a stimulus to activity when they are out, which is what is wanted.

7. I would strongly recommend a return to the mileage allowances sanctioned by the Government of Bengal which are in use in the other districts of the Dacca Division.

VII.—THE BARISAL NORMAL SCHOOL.

1. The guru-training school is intended to elevate the standard of primary education in the district by giving a course of instruction to such of the old gurus as are capable of improvement, and to such promising young men as are willing to come under an engagement to set up as gurus after their training is finished. This institution does not appear to be doing all the good it might do; and unless attention be given to some of the things which are now hindering its usefulness, it will do still less good in the future.

2. No effort seems to have been made by the Deputy and Sub-Inspectors to provide employment as gurus for those young men (or intending gurus) who, after a course of training, have passed the prescribed examination. To give these young men stipends to be trained, and afterwards when their training is finished to make no effort to employ them, can scarcely be called good management. Bad gurus are unhappily not so rare as yet in Backergunge that there need be any difficulty in substituting these young men for a few of them. Further, if the intending gurus who have qualified themselves for employment by passing the prescribed tests are not provided with pathsalas, the supply of such will soon be dried up.

3. I have already in another section of this report suggested that those gurus who have passed the Normal School examination creditably should have an increase to their stipends of eight annas on rejoining their pathsalas.

Nothing of the kind has been done, and even the guru who stood first in the examination is now getting only the minimum rate of stipend which he had before; and he is in this respect no better off than those gurus who declined to avail themselves of the advantage of a special course of training.

4. It will scarcely be credited, but it is, I believe, a fact, that some gurus who absconded from the Normal School, or who failed to pass the examination, are now teaching their pathsalas and are in the enjoyment of the same stipend as before If the Normal School is to be more than a sham the grants should be withdrawn from such men at once.

5. Some of the gurus sent to be trained are incorrigible old dunces, scarcely knowing the barest rudiments of their mother-tongue. Such men cannot profit by a course of instruction, and stipends given to them are simply thrown away The inspecting officers should be directed to send only such gurus as are likely to profit by training.

6. In all the pathsalas in which incompetent gurus have been salaried, efficient teachers should be substituted, and where this cannot be done, the grants should be withdrawn. Those who have the management of the primary schools in their hands should ever bear in mind that "it is not the wish of the Lieutenant-Governor that any rural schools should be left unaltered and unimproved with inefficient teachers and imperfect methods of instruction."

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 19th June 1875.

No.	District and date of return.	Rainfall at Sudder Stations in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
1	Burdwan, 21st* June 1875	·97	Rainfall at Culna 5·55, Cutwa 10·76, Bood-bood 1·94, Raneegunge 5·08, and Jehanabad 1·69 inches. The prospects of the crops are promising. The *aous*, or early rice, is forward, and transplantation of *amun*, or late rice, has begun Sugarcane and cotton doing well.
2	Bankoora, 19th June 1875.	3·64	Weather cloudy and rainy since the 17th instant. The rainy season appears to have set in. The crops are generally doing well. Sowing of the *hymanta* or late rice progressing
3	Beerbhoom, 19th „ „	0·03	Showery weather. State and prospects of the crops are good.
4	Midnapore, 19th „ „	1·64	The rains appear to have set in since the 12th instant. The fall has been general over the whole district, that at the sudder station being less than at any other place, where it is registered Thus far the prospects of the *aous*, or early rice, are very good; and that of the *amun*, or late rice, is as good as can be predicted with any confidence so early in the season.
5	Hooghly, 19th „ „	4·19	Weather cloudy, with intervals of sunshine and rain. Average rainfall of the district, 3·33 inches. State and prospects of crops are very good Health good, except a little cholera.
	Howrah, 19th „ „	3·42	Weather close and rainy. There is a fair prospect for all the crops.
	Central Districts.		
6	24-Pergunnahs, 21st† June 1875	3·27	Weather hot and showery. The *aous*, or early rice, and jute plants look promising: *amun*, or late rice, sowings continue. Fever decreasing at Barripore; a mild form of it prevailing at several places in sub-division of Bussecrhat. A few cases of cholera reported from Satkhira.
7	Nuddea, 19th June 1875	2·31	Weather tolerably cool, with occasional showers of rain. It is said that the very heavy rain of last week has done some harm in the eastern and southern parts of the district in low rice lands. The injury is probably not great. Both *amun*, or late rice, on high lands, and *aous*, or early rice, have derived much advantage; so has indigo; but the outturn in Kooshtea, where manufacturing has begun, is poor. Rice is slightly cheaper.
8	Jessore, 19th „ „	12·84	Weather cloudy, with heavy showers throughout the week. The excessive rain at the close of the preceding week—as much as 10 inches having fallen in one day—has injured the crops in the low parts of the *beels*; the young plants having been wholly submerged. Generally, however, the prospects continue excellent.
9	Moorshedabad, 19th June 1875	3·05	Weather variable: at times very hot, at others cooling down. Heavy rainfall in the west—6·42 inches Crops looking very well. *Aous*, or early rice plants, much benefited by rain. Sugarcane, indigo, and mulberry thriving. Price of common rice slightly risen. At the commencement of the week, outbreak of cholera in Soojagunge; seven attacked and two died, probably owing to excessive fruit-eating Small-pox still continues in a mild form; also at Nulhatty and Davigram.
10	Dinagepore, 18th June 1875.	·84	Very heavy rain on the 11th instant; some rain for a day or two afterwards; none on the 10th, 17th, and 18th idem. Jute very good; *bhadoi*, or early rice, fair; much water on lands. *Bhadoi* very weedy. Ploughing for *amun*, or late rice, progressing Seed beds already bright green.
11	Maldah, 19th June 1875	76	With the exception of Sunday, which was wet, the other days were fine; except during the forenoon of one or two days, when heavy showers fell. A heavy shower of rain on the morning of the 19th instant. Report of crops in general favorable. The autumn rice promising well, but slightly injured by want of more rain at Nowabgunge. Mulberry fair; mangoes in some places nearly over; a poor crop.
12	Rajshahye, 19th „ „	2·97	There have been rains all over the district, and in some parts the showers have been heavy. The condition of the rice crop is very flourishing, and there is every chance of an abundant harvest of *aous*, or early rice. The rain of the last month has been too heavy for the *taal* oilseed crop, which will fail to some extent. Jute is in good order, and indigo has been benefited by the late rains No sickness prevalent.

† Report of the 21st June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
	BENGAL.—(*Contd.*)		
	Central Districts.—(Contd.)		
	RAJSHAHYE DIVN.—(*Contd.*)		
13	Rungpore, 18th „ „	6·83	Heavy rain on the 14th and 16th instant. General rain throughout the district. State of crops good. Transplanting of *aman*, or late rice, going on. *Aous*, or early rice, being cut.
14	Bogra	.....	Return not received.
15	Pubna, 19th „ „	5·49	The rains set in at head-quarters on the night of the 12th instant. During the week 4·25 inches of rain fell at Serajgunge. State and prospects of crops good. Small-pox reported in the extreme south-west of the district, and cholera at a village 12 miles west of Serajgunge.
	COOCH BEHAR DIVN.		
16	Darjeeling, 18th June 1875.	3·60	The regular rains have evidently set in, though there was not much rain during the past week State and prospects of crops throughout the district continue very favorable.
17	Julpigoree, 19th June 1875.	9·86	The regular monsoon set in on the 9th instant, and since that there has been constant rain The *bhadoi*, or early rice, is promising well, and the *hymanti*, or late rice seedlings, are very fine. In the Dooars the heavy early rains are said to have caused a growth of weed, which is likely to damage the paddy crop. The jute crop has suffered a 2 annas loss owing to heavy early rains, but what remains is very fine. Cholera is still prevalent in many parts of the district, and is reported to have broken out with great severity in the *Mech* villages in the Dooars.
	Cooch Behar, 17th June 1875.	11·86	There was a considerable fall of rain during the week. There has been no change in the favorable prospects of the early rice and jute crops. Cholera is decreasing.
	Eastern Districts.		
	DACCA DIVN.		
18	Dacca, 21st* June 1875	3·04	Weather rainy; very little sunshine. Crops favorable.
19	Fureedpore, 19th June 1875.	7·50	Rain throughout the week, with the exception of three days, and a considerable quantity fell;—in some places so much that the growing paddy was submerged and loss was apprehended. On the whole, the prospects of crops continue favorable General health good.
20	Backergunge, 17th June 1875.	6·21	Weather favorable. There has been a good deal of rain, and the intense heat has subsided for a time. Ploughing and sowing are going on briskly in thanas Bowfal, Golachipa, Gulakhalli, and Dowlutkhan. Cattle-disease is present, but not very bad. General health good
21	Mymensingh, 18th June 1875.	7·39	The rainfall during the same time in the north of the district was 4·69 only, but ·18 and ·11 inches fell during the week in the west and east in the sub-divisional head-quarters. State and prospects of crops are favorable.
	CHITTAGONG DIVN.		
22	Chittagong, 17th June 1875	12·54	Very hot weather every where. Heavy rains. People say that there has been no such rain for the last five years. Cultivation proceeding admirably. Cholera decreasing.
23	Noakholly, 17th June 1875.	9·06	Weather cloudy; rain daily, except on the 17th. Wind south and south-east. On the 13th a violent gale passed over Luckipore and the neighbourhood; thirty-four houses and may trees were blown down. Two men sustained severe injuries, and an old woman was carried away by the wind, and impaled on a branch of a mangoe tree, and died from the wound The early rice crop is progressing favorably. On the 6th a strong south-easterly wind carried the salt water far into Nalchira, and there was fear of a general inundation and injury to the crops in the island of Hatya if the wind continued Cattle-disease has appeared in the island of Hatya, and many cattle have died. The epidemic of worms has broken out both among river and tank-fish. In the interior slight increase of fever and of bowel complaints, and of fever among the prisoners at head-quarters.
24	Tipperah, 18th June 1875	7·	There was very heavy rain during the first half of the week; during the latter half it has been clear and fine, with southerly wind The rainfall in the north was tremendous;—16·22 inches fell on the 12th, 13th, and 14th instant Rainfall at Brahmunberiah 22·37. The heavy rain in the north is reported to have caused floods, which have done some damage to roads and bridges. The *aman* rice was submerged, and it was feared that some damage might ensue to it, unless the water quickly subsided The only damage reported in the sudder is to the *teel* oilseed and *chilli* crops, neither of which can, however, be now growing in any large quantities.
25	Chittagong Hill Tracts, 15th June 1875.	11·65	Heavy falls of rain during the whole week The weather has been cool and pleasant. Sowing still continues. The paddy and cotton already sown are thriving well. Prospects good.
	Hill Tipperah, 16th June 1875.	10·73	There has been heavy rain throughout the week, which has benefited the crops both in the hills and plains. The heaviest fall was on the 12th instant, when 5·18 inches of rain fell. Break in the weather on the 16th idem. Public health good.

* Telegram of the 21st June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.			
Patna Divn. 26	Patna, 21st* June 1875	·94	Weather cloudy, with slight showers of rain at intervals. Indian-corn and paddy being sown. Cholera still prevalent throughout the district; bad in parts of Behar sub-division.
27	Gya, 19th „ „	1·31	Weather unsettled. Rain, and easterly winds, and cool part of the week; west wind and hot at other times. Highest reading of thermometer 101·5 degrees. Agricultural operations going on actively since recent rain over the district. Crops in ground favorable. Cholera still bad in Aurungabad, and extending in Nowadah.
28	Shahabad, 19th „ „	·20	Weather cloudy and at times threatening; prevailing wind east, but weather very hot. Rain has still held off. No change in the state of crops.
29	Durbhunga, 19th „ „	3·22	The first half of the week rainy, with intense heat between the showers; the latter half fine, with east winds. The prospects of all crops, including indigo, are good.
30	Muzufferpore, 19th „ „	·28	Weather hot; some rain has fallen. The prospects of *cheena* millet and indigo continue favorable.
31	Sarun, 19th „ „	·16	Weather extremely hot and close; east wind prevailing. Clouds hanging about and threatening rain. There has been more or less rain throughout the district. Indigo prospects excellent, sugarcane promising. The *bhadoi* sowings are in full swing. *Aghani*, or late rice, being sown State and prospects of the crops are very favorable at the present time. General health good.
32	Chumparun, 18th June 1875.	4·52	Though a considerable quantity of rain has fallen, yet the weather is still very close and hot. More rain is wanted. The prospects of the crops continue good.
Bhagulpore Divn. 33	Monghyr, 19th June 1875	·40	Rain is wanted. General prospects of the *bhadoi* crop good.
34	Bhagulpore, 21st* June 1875.	·44	Rainfall at Maddehpoora 2·95, Soopool 2·65, and Banka 1·52 inches. *Bhadoi* crops have all been benefited by the rain. There is every appearance of more rain falling at head-quarters, where it is wanted. General health good.
35	Purneah, 19th June 1875	2·10	Occasional heavy storms. The *bhadoi* and *aughanee* or early and late rice crops promise well. Indigo manufacture in full swing. Prospects good.
36	Sonthal Pergunnahs, 20th June 1875.	5·21	Rain at Godda 2·73; others not received. In Doomka hot, with heavy clouds and rain alternating. Last week the Deputy Commissioner said the rain had continued, not discontinued. State and prospects of crops excellent everywhere. Ploughing and sowings of *janera* millet and early rice going on fast.
ORISSA.			
Orissa Division. 37	Cuttack, 12th June 1875	4·39	Weather cool and cloudy, with frequent heavy showers of rain. The regular rainy season seems to have set in. Sowings nearly over. The early rice crop well above ground. A little cholera still around Kendrapara. Public health otherwise good.
38	Pooree, 17th June 1875	1·73	Rainfall at Khoordah 5·24 inches. Heavy rain throughout the district. The weather at the time of report was rainy and sultry. Tillage has well progressed. Sowing of rice crop has advanced to a great extent generally, and is nearly completed in Khoordah. Miscellaneous crops are being sown. Sugarcane is being earthed up. Cotton is being gathered with fair outturn.
39	Balasore, 18th „ „	·95	Weather showery, and extremely favorable to the young crops. Rainfall at Bhadrack 1·57 inches. The sowing is not yet completed. Public health good.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazarebagh, 18th June 1875.	·88	Seasonable and pleasant weather. State and prospects of crops are very favorable, and so far promising well.
41	Lohardugga, 19th June 1875.	1·42	Weather seasonable, with occasional showers of rain. Sowing is going on, and the crops that have germinated promise well. Cases of cholera and small-pox are still reported.
42	Singbhoom, 18th June 1875.	...	Weather hardly seasonable as regards entire district, as though the rainfall has been very plentiful at head-quarters. The want of rain in Dalbhoom is reported. The rainfall for the first period of the season has been sufficient on the Kalkan, where agricultural operations are well advanced, but it is insufficient in Dalbhoom. In parts of the latter pergunnah the necessary ploughing of the field before sowing has not been able to be done, but there is yet time. District healthy.
43	Manbhoom, 19th June 1875.	2·32	During the early part of the week the weather was hot and unfavorable. Rain has fallen freely during the latter portion. Paddy is being sown generally. Reports of sugarcane and cotton favorable.

* Telegrams of the 21st June, received on the same day, shows rainfall during the seven days immediately preceding.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet, are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Deppe's tables, as given in Guyot's "Meteorological and Physical Tables." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Serenity.—This column gives the average proportion of unclouded sky; a cloudless sky being indicated by 10, and one completely overcast by 0.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which shall show the isobaric and isothermal lines, and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

Rules for the Grant of Ordinary Leases of Arable Land in the Western Dooars.

What land will ordinarily be available.

1. THE lands that will be generally available under these rules lie within that tract of country in the Western Dooars which extends in an easterly direction from the east bank of the river Teesta to the west bank of the river Sankos.

What lands will not ordinarily be available.

2. The following lands will not ordinarily be available under these rules:—

(*a*) Lands which, by a notification in the *Calcutta Gazette*, are held to constitute a reserve for the supply of timber, fuel, grazing, or any other article of general and public consumption.

(*b*) Lands not included in the above category, but which now bear India-rubber trees or other valuable timber (such as sál, khair, chelownee, sisoo, &c.) in compact blocks or patches.

(*c*) Lands in respect of which any person or persons, or any village community, possess rights of occupancy, or such other rights or privileges as would, in the opinion of the local Government, render it impolitic or unadvisable to grant such lands to any other person or persons.

(*d*) Lands lying within a distance of 60 feet on either side from the centre of any public road or thoroughfare. Provided that such road or thoroughfare shall have been constructed or shall be kept in repair from public funds, and that it be borne on the list of the district roads of the district within which the land above mentioned lies.

(*e*) Lands which the local Government may at any time, by a notification in the *Calcutta Gazette*, expressly exempt from the operation of these rules.

How and to whom application is to be made.

3. Every person desirous of obtaining a grant of land under these rules shall, in person, present an application on stamped paper of the value of eight annas to the tehsildar of the tehsil in which the land lies.

What the application is to specify.

4. The application shall specify—

(*a*) The name, father's name, and address of the applicant.

(*b*) The area, situation, and boundaries of the land applied for, as far as they can be ascertained without a detailed survey.

(*c*) A statement of the particulars, if any, which may appear to the applicant to bring the land applied for, or any part of it, within the exceptions mentioned in Rule 2. The application shall also state whether the land, or any part of it, is or has ever been cultivated in any manner.

5. Every lot applied for shall be compact and capable of being enclosed in a ring fence, and if any part of the land touches on a public road or navigable river, the length of such road or river frontage shall not exceed one-half the breadth of the lot applied for.

6. No application shall be received in respect of an area greater than 200 acres or less than 10 acres, and not more than this quantity of land shall be granted under these rules to any one lessee. But the Deputy Commissioner may grant larger areas under instructions from the Commissioner.

7. The tehsildar shall require the applicant to pay in a sum of three annas an acre on the area applied for to cover cost of survey and inquiry. No further sum shall be required, and no refund will be made.

8. The tehsildar shall then, in person or by an ameen, inspect the land and ascertain whether it is khas land and available under the above rules; and if it appear to be so, the ameen shall proceed to lay down the boundary and make a survey as follows.

9. The ameen shall fix the boundary, in accordance with the rules 5 and 6, as indicated by the applicant, and shall then clear it from end to end, and afterwards survey it with compass and chain, placing mounds of earth or stone not less than waist-high at every angle and at every point where more than two lots or patches of waste or other properties meet. One mound shall be not less than six feet high, and shall be marked on the map as the base mark; two bearings of which, or bearing and distance of which from good points of reference, shall be recorded on the map.

10. The ameen shall prepare a map, which shall show—

(*a*) All natural features of the country lying within or on the boundaries fixed—such as khals, or the edge of forest, and also public pathways.

(*b*) Such features of the country lying outside the boundary as may serve to identify the land, and connect it with the revenue survey, or with any other map made of other lands in the neighbourhood.

11. The map shall be on the scale of 16 inches to the mile. If possible, the field-book shall be copied on the back of it. If not, a copy of the field-book shall be attached to or accompany the map. In submitting his report, the ameen shall state whether he had a clear line for his compass from end to end of the boundary, and whether the mounds are erected as ordered.

12. The tehsildar shall then report the case to the Deputy Commissioner or Sub-divisional Officer, according to the tehsil in which the land lies, stating whether he is satisfied that the ameen's work has been properly done, and giving any further information which may be required.

13. The Deputy Commissioner or Sub-divisional Officer aforesaid shall consider the report and finally pass orders granting or refusing a lease.

14. The order on the case, and on any objection decided on by the Deputy Commissioner or Sub-divisional Officer, shall be appealable to the Commissioner within one month.

15. On receipt of an order to grant a lease, the tehsildar shall deliver to the applicant a preliminary lease in the form annexed signed by the Deputy Commissioner or Sub-divisional Officer as aforesaid, together with a copy of the map, and shall place him in possession by planting a bamboo or in any other way locally acknowledged, and shall report delivery and registration of the tenant in a separate register of preliminary lease-holders.

16. The Deputy Commissioner may, in special cases of leases of 200 acres or less, and in all cases of leases of greater area, alter the terms of the lease so as to allow a lessee to manage his land by an authorized agent. In such case the agent must reside on or near to the land, and be provided with full legal power to act on behalf of the principal in all matters arising out of the land.

Draft form of Preliminary Lease of Arable Land in the Western Dooars.

---

1. A preliminary lease for five entire years of land in , granted by the of to of .

The lands covered by this lease are situated within the boundaries shown by the red lines in map No. , dated , and attached to this lease, and may be described as being bounded as follows :—

North	*South*
East	*West*

Their area is more or less acres, and they are situated in Pergunnah , Talook , in the tehsil of in the Western Dooars.

2. The rights conveyed by this lease are heritable, but not otherwise transferable. After the expiry of this preliminary lease, no right shall be claimed otherwise than as expressly provided for hereinafter.

The rent to be paid shall be as follows :—

Year of entry (*i.e.* from actual date of entry to 31st March following)						Nil.		
1st full year (from 1st April following date of entry)	...	...	...	...	...	Nil.		
2nd year	...	...	...	...	...	3	annas	per acre.
3rd „	...	...	...	...	...	6	„	„
4th „	...	...	...	...	...	9	„	„
5th „	...	...	...	...	...	12	„	„

The rent shall be paid to the tehsildar of in the following instalments :—

3. The lessee shall reside himself on or near the lands covered by the lease. He shall keep all boundary lines or marks in good order and repair and clear of jungle, and shall within one year from the date of this preliminary lease, make such continuous boundary mark as he shall be required to do by a written order. If he fail to do so, the Deputy Commissioner or Sub-divisional Officer may cause the boundary to be made and recover the cost thereof as an arrear of rent, or he may call on the lessee to make it within a specified time on pain of forfeiture of the lease.

4. Any land covered by the lease which may at any time be required for a public purpose, may be taken up by Government free of cost on a reduction being made in the rent payable under the lease proportionate to the area taken by Government. But the value of any improvements or property thereon shall be paid to the lessee, and shall be assessed under the provision of the law in force for the time being for the acquisition of land for public purposes.

5. All rights to minerals or quarries of all kinds are reserved to Government.

6. No right of fishery, and no right to dam up or otherwise obstruct the passage of any stream, is given by this lease. A public right of way over twenty yards on either bank of every stream, available at any time of the year for local boat traffic, is reserved.

7. All sisoo, sâl, and chelownee-trees, of a girth of over three feet at a distance of three feet from the ground, and all such khair-trees as may be fit to cut, are to be paid for by the lessee at the rates at which they may be valued by the Forest Department. All other trees may be disposed of by the lessee. The four kinds of trees above specified shall be counted and paid for previous to possession being given.

8. The Deputy Commissioner may at any time enter on, inspect, or measure the area under cultivation, and the lessee may at any time demand that such measurement be made. Provided that the expenses of any such inspection or measurement demanded by the lessee shall be paid by him as rent due. If after such inspection by any officer deputed for the purpose it shall appear that one-half of the total area held under the lease is occupied by homesteads or is cultivated or left fallow according to good husbandry, or otherwise fairly turned to account for agricultural purposes, the lessee shall be entitled to renewal of this lease for such further period as shall coincide with the termination of the settlement period then current, and thereafter to renewal for the period of each fresh settlement of the talook, subject always to the following conditions :—

(*a*) The rent to be paid shall be fixed by the Deputy Commissioner on the order of Government on each occasion of renewal.

(*b*) The title conveyed by the renewed lease shall be heritable and transferable, provided that no transfer shall be made of less than the whole, and that no transfer shall be valid as against the Government, but shall, on the contrary, be equivalent to a surrender of the lease, unless notification of the transfer shall have been given by the transferree to the Deputy Commissioner at the time of transfer, together with a fee of four annas per acre of the area leased.

(*c*) In all other respects the conditions of the renewed lease shall be the same as those of the preliminary lease.

9. The rights and privileges conveyed by this lease, and by any renewed lease granted in accordance with its provisions, shall be liable to be forfeited on failure of the lessee to comply with any condition thereof.

10. If, before the expiration of this preliminary lease, no application for a renewal of the lease shall have been made in accordance with the above provisions, the lessee may be allowed to hold on as a tenant-at-will, but not otherwise, until other arrangements may have been made by the Deputy Commissioner.

11. The lessee may sublet any part of the land covered by this lease on such terms as he pleases, provided that he gives the same promise of renewal of the tenure to his sub-tenant on condition of bringing his land into cultivation as is given to himself by this lease. The rent to be paid on renewal shall be determined on the application of either party by the Deputy Commissioner, who has the power to fix equitable rates of rent as he has, under Sections 76 to 79 of Act X of 1859, to fix terms of pottah.

12. No sub-tenant under the lessee shall sublet any part of his land on pain of forfeiture of his tenure; but this rule and the last shall not be held to prevent the employment of adhiars, projahs, or other laborers supplied with seed and paid by giving them half the crop. The Government reserve power to make rules to be observed by the lessee and his tenants for the purpose of carrying out the provisions of this and the last preceding clause; and the lessee agrees to abide by such rules when published for general observance and to hold the land subject to such rules.

NOTIFICATION.

The 2nd June 1875.—Whereas a plan was submitted under Section 2 of Act V (B.C.) of 1873 for extending gas-lighting to certain portions of the town of Howrah, as published in the Government Notification dated 1st May 1875, and whereas no objections have been raised to, or any alterations suggested in, such plan within one month after a translation of it in the vernacular had been published in the town aforesaid, the Lieutenant-Governor is pleased to accord his sanction to the said plan, which is described below:—

1. The portions of the town to which it is proposed to extend the lighting are that portion of the Grand Trunk road which lies between Ramkistopore Ghaut Road and Bishop's College Road, Seebpore Ghaut Road and Ghoosery Road. The total length of these roads is 2¾ miles, and the number of lamps proposed to be erected in them is 75.

2. The total valuation of buildings and lands situated in these streets is Rs. 1,61,363, and a rate of 3 per cent. would yield an income of Rs. 4,840 per annum, which gives an average of Rs. 64 per lamp for defraying the cost of lighting. A communication has been received from the Oriental Gas Company agreeing to accept this sum in payment for supplying gas

3. The cost of purchasing and erecting the lamps is estimated at Rs. 4,125, and this sum the Municipal Commissioners propose to provide from the general fund during the current official year.

Circular Order by the High Court of Judicature at Fort William in Bengal.

Circular Order No. 3.

Dated Calcutta, the 3rd June 1875.

HIGH COURT.
ENGLISH DEPARTMENT.
(*Criminal.*)

As it appears that, in the preparation of the Annual and Quarterly Statements submitted to the Court, it has been commonly the practice to return the "persons under trial" on the principle of exhibiting an accused person under each of the heads of charge entered against him,* thus causing the same person to be counted according to the number of charges exhibited, and the apparent number of persons reported to be different from the actual number, the Court is pleased to lay down the following instruction for general observance by Magistrates.

* *Vide* Judicial Statement No. 2, Column 1.

2. An accused person should be exhibited under the principal charge only, unless he happens to be accused of entirely distinct offences, supported by separate evidence, in which case the trial would be separate and the results independent.

NOTIFICATION.

THE following Rules, passed by the High Court of Judicature at Fort William in Bengal, are published for general information.

By order,

The 22nd June 1875. R. BELCHAMBERS, *Registrar.*

IT is ordered that the following Rules be read and passed as the rules and orders of the High Court of Judicature at Fort William in Bengal, to take effect from the twenty-second day of June 1875.

1. After the first day of April 1875, all grants of probate or letters of administration under the Indian Succession Act, 1865, and all grants of probate or letters of administration, with will annexed, under the Hindu Wills' Act, 1870, shall, unless otherwise ordered, be drawn up by the Registrar with effect limited to the province of Bengal.

2. In all other cases [excluding from such cases all grants of letters of administration under the Administrator-General's Act, 1874] all grants of probate or letters of administration shall be drawn up by the Registrar with effect limited to the province of Bengal.

3. In all cases in which it is sought to obtain an unlimited grant of probate or letters of administration, it must be stated in the petition that, so far as the petitioner has been able to ascertain and is aware, there are no property and effects besides those specified as required by Section 277A of the Indian Succession Act, 1865; and the petitioner shall undertake, in case of its being afterwards found that there are *other* property and effects, that he will pay the court fee payable in respect thereof; and also, in the case of a grant of letters of administration, that he will give such further bond [of the nature contemplated by Section 256, of the Indian Succession Act) with a surety or sureties, as he may at any time be called on by the Registrar to give.

4. A grant made either under the Indian Succession Act, 1865, or under the Hindu Wills' Act, 1870, may be amended so as to extend its effect throughout the whole of British India. Such amendment may be ordered by the sitting Judge in Chambers, on application being made to him by petition, verified by affidavit, stating where the additional property and effects are, and on payment of the court fee payable in respect of such additional property and effects; and, in the case of a grant of letters of administration, on the petitioner giving a further bond [of the nature contemplated by Section 256 of the Indian Succession Act], with a surety or sureties, and also giving an undertaking similar to that required by Rule 3.

5. With every certificate to be sent to a High Court, under the provisions of Section 242A of the Indian Succession Act, 1865, the Registrar shall send a copy of the Inventory of the property and effects of the deceased.

Advertisements.

(N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.)

NOTICE is hereby given that the proprietary rights of Government, as specified in the condition of sale below, in the undermentioned estates situated in the district of Purneah, will be put up to sale at the Purneah Collectorate on Saturday, the 24th July 1875, corresponding with 9th Srabon 1282 B. S and 6th Srabon 1282 F. S.

The purchasers will be subject to the following conditions of sale:—

1st.—The purchasers of these estates will be considered as the proprietors of the estates and the entire proprietary rights of Government in such estates will be transferred to them, the only right reserved by Government being the right of revising the jummah at the conclusion of the term of the present settlement, and on the expiration of all future settlements. If on re-settlement they should refuse to engage, they will be entitled to malikana. The estates will be sold, subject, up to the expiry of the existing settlement with year ending 31st March 1902 A.D., to the Government revenue against them, to the highest bidders above the upset price.

2nd.—The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings, and by the laws in force: the purchasers to be bound to respect the right of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the schools and colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars, and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

POSTAL NOTICES.

No. 7586—L. M. 6 No. 8.

DARJEELING LINE.

During the present season the experiment will be tried of offering the public a less expensive mode of conveyance to Darjeeling.

2. A limited number of waggonettes have been built, which are so constructed as to enable two passengers to lie down at full length. They are provided with cushions and hoods and drawn by two horses, but they are not sufficiently protected from the weather to make them good for ladies or invalids. These are available at cheaper rates than the ordinary carriages, viz. 4 annas a mile for each passenger, or Rs. 25 for the through journey.

3. A waggonette will start from Karagola every day, except Sunday and Monday, leaving on the arrival of the steamer, and will return from Silligori every day, except Monday and Tuesday, starting at 11 A.M.

4. No luggage can be carried except a hand-bag, which should not weigh more than 5 seers. This rule is necessary, and must not, under any circumstances, be infringed, as these vehicles convey the parcel mail. One traveller who, by the payment of Rs. 50, engages a whole waggonette, can take two maunds of luggage with him free.

5. Applications for waggonettes should be made in the usual way to Post Master, Purneah, and should state which of the other forms of accommodation the traveller wishes in case a waggonette is not available.

Notice.

A Bullock Train Package addressed to Messrs. Bathgate and Company, from Jhelum, is lying unclaimed in this Office from 5th March 1875. If not taken delivery of within three months from this date, will be sold by public auction to defray expenses.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE CALCUTTA PORT COMMISSIONERS FOR THE YEAR 1874-75.

RESOLUTION.

GENERAL DEPARTMENT.—MARINE—CALCUTTA PORT TRUST—No. 1976.

Calcutta, the 28th June 1875.

READ—

The Administration Report of the Calcutta Port Commissioners for the year 1874-75.

1. *Financial position.*—From the commencement of their operations the Commissioners have spent the following amounts on the several items specified below :—

			Rs.
On new works			52,84,892
On the port, including debt			19,56,370
			72,41,262
Reserve fund for jetties	20,394		
Debt repaid	1,86,096		
Depreciation of port block	1,06,459		
Reserve fund for block	3,64,250		
		6,77,199	
			79,28,461

	Debt.	Rs.	Rs.
Borrowed from Government ...	...	39,84,100	
Port debt ...	...	17,65,000	
			57,49,100
Expended from revenue ...	...	...	21,77,361

The total expenditure during the year for increasing the accommodation and improving the appliances of the port amounted to Rs. 18,01,420.

At the end of 1874-75 the Commissioners had a surplus revenue—

	Rs.
From jetties	1,42,986
„ inland vessels and wharves	1,53,290
„ Harbour department	5,467
„ Strand Bank	14,015
Total ...	3,15,758

The surplus revenue at the close of the preceding year was Rs. 3,64,492. The charge on the interest account and sinking funds for loans increased from Rs. 2,61,309-8 in 1873-74 to Rs. 2,66,113-4-5 in 1874-75. The amount borrowed during the year was Rs. 16,34,100, thus increasing the loans from Rs. 23,50,000 to Rs. 39,84,100. The Lieutenant-Governor is glad to observe the continued stability of the finances of the Trust, and that the revenues maintain their elasticity. There was a decrease of surplus income to the amount of Rs. 48,734 as compared with the preceding year, but after paying all current charges and providing for sinking funds and the interest on loans, the surplus income amounted to Rs. 3,15,758.

2. *New works.*—The anticipations expressed in last year's Resolution regarding the success of the new dredger have been fully realized: the silt has been effectually removed in front of the jetties, and there is now an adequate depth of water at all the jetties. The dredger has also been found useful in cutting away a bank which had formed along Grey's Wharf, between Aheereetollah and Juggernath ghâts. The principal new works either undertaken or completed during the year were as follow:—Pitching the foreshore throughout the whole length of the jetty enclosure, a work which was undertaken both as a sanitary measure and to prevent the accumulation of silt; pitching the slope between Armenian Ghât and Aheereetollah Ghât; the extension of the new wharves beyond Aheereetollah Ghât; the construction of a landing stage in connection with these wharves; the construction of quarters for the Commissioners' servants who are required to live near the river; and the erection of a 30-ton crane.

3. *Working of the jetties.*—The income derived from the jetties was Rs. 61,209 in excess of the amount realized during the year 1873-74, although the number of vessels discharged was 12 less than in that year. The increase was due to the increased tonnage of the vessels discharged, and to the increased landing charges upon piece-goods and iron. Last year it was anticipated that the receipts from the jetties would largely increase during 1874-75, when the new export sheds should be completed. Owing, however, to difficulties regarding the insurance risk whilst the goods were in the sheds, the jetties entirely failed to attract export cargo, and Rs. 7,067 only were realized on this account. This is, of course, a matter which causes regret and demands the continuous attention of the Port Commissioners. The Insurance Offices have now agreed to allow the marine policy, which formerly covered the boat risk during shipment, to cover the risk in the sheds; and it may be expected that the next year's receipts will show a considerable advance. The Lieutenant-Governor is glad to observe that the Commissioners have overcome the difficulties which were formerly experienced in connection with the landing and delivery of iron.

4. *Working of the cranes.*—The working of the cranes has proved satisfactory to the shipping during the year. Both hydraulic and steam cranes have been at work. The average cost on the whole was reduced from Rs. 2-1-6 per hour to Rs. 1-11-2 per hour. The total number of working hours was 3,866 in excess of previous years, while the total cost was nearly Rs. 2,000 less. This result is satisfactory.

5. *Inland vessels' wharves.*—The net balance of income derived from these wharves was Rs. 1,53,290, against Rs. 1,51,109 in 1873-74; the increase being due to the extension of the wharves north of Aheereetollah Ghât. The largest income was derived from the following articles:—

	Rs.
Grains	39,411
Jute, hemp, &c.	37,589
Seeds, &c.	34,204
Building materials...	12,684
Gunny bags	10,021

6. *Strand Bank lands.*—Although the income for the year was greater than that for the previous year, the net profits again decreased from Rs. 18,525 to Rs. 14,015. The increase of expenditure was principally due to the interest charge on the loan of three lakhs of rupees, raised on the security of this property, for the extension of the Strand Bank road.

7. *Harbour Department.*—The net revenue of the port has decreased from year to year, as shown by the following statement:—

	Rs.
1871-72	1,67,172
1872-73	1,47,852
1873-74	42,116
1874-75	5,467

The reduction is attributable to various causes: the first of these is the reduction of port charges for mooring; then there has been a reduction in the receipts on this account, owing to a decrease in the number of ships arriving in the port, the number being less by 54 than during 1873-74. The opening of the Suez Canal is also gradually resulting in a transfer of the trade from sailing vessels to steamers, with the effect of increasing the average tonnage of the vessels visiting the port, as well as the aggregate tonnage of all the vessels. The following statements show the increase in the number of steamers as compared with the previous year:—

Arrivals.

	Steamers.	Sailing vessels	Total.	Gross tonnage.
1873-74 ...	429	552	981	1,205,325
1874-75 ...	454	473	927	1,280,604

Departures.

	Steamers.	Sailing vessels.	Total.	Gross tonnage.
1873-74 ...	430	518	948	1,216,898
1874-75 ...	466	435	901	1,273,866

The subjoined statement shows the arrivals and departures of steamers by the Suez Canal:—

Arrivals.

	No.	Gross tonnage.	Average tonnage.
1873-74 ...	118	266,960	2,262
1874-75 ...	105	270,799	2,579

Departures.

	No.	Gross tonnage.	Average tonnage.
1873-74 ...	96	221,683	2,309
1874-75 ...	113	285,208	2,524

The mooring receipts were also reduced by vessels remaining a shorter time in port than formerly. The charges were increased by the payment of enhanced salaries, by the cost of working the dredger, and by the amount set apart to cover the depreciation of the block. The net revenue has consequently suffered from the combined effects of a diminished income and an increased expenditure. The Lieutenant-Governor must draw the attention of the Port Commissioners to this consideration as constituting an argument for strict economy.

8. The Government of India has sanctioned the proposals of the Government of Bengal for appointment of a Health Officer to the port, and the final arrangements for carrying out this measure will be made on an early date.

9. The description given in paragraph 74 of the Report of the silting up of the mooring berths between Fort Point and Tolly's Nullah, points to the necessity for early and serious attention being directed to the subject. The Government of India was addressed in August last, and the matter was referred by that Government to the Secretary of State for the purpose of obtaining the

opinion of Mr. G. Robertson, Harbour Engineer. The subject will be again brought to the notice of the Government of India, in order that steps may be taken to expedite the submission of Mr. Robertson's report.

10. Measures are now under consideration for determining the line of high-water mark in accordance with the definition given in Section 5 of the new Port Act, XII of 1875.

11. The differences of opinion between the Port Commissioners and the riparian proprietors, referred to in paragraphs 96 to 99, have been the subject of a lengthened correspondence with Government, and it is hoped that the matters under dispute have now been finally settled.

12. The Lieutenant-Governor again desires to record his satisfaction at the continued success in the conduct of port affairs by the Port Commissioners.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,

Offg. Secy. to the Govt. of Bengal.

RULES FOR THE SALE AND DISTRIBUTION OF PLANTS AND SEEDS FROM THE ROYAL BOTANICAL GARDEN.

A NUMBER of young trees and shrubs are available annually during the rainy season from the Royal Botanical Garden, Calcutta, and the following Rules, relative to their distribution, are published for general information :—

1. Plants will, as a rule, be distributed during the months of July, August, and September only; in special cases, however, plants may, at the discretion of the Superintendent of the Garden, be given at other times.

2. No charge will be made for plants supplied to Imperial or Provincial Departments for public purposes. But Local Funds will be required to meet the cost of lifting, potting, packing, and carriage of plants. These latter charges will primarily be defrayed from the funds at the disposal of the Superintendent, the adjustment against the Department or Fund concerned being made by the Accountant-General. A separate bill should be made out for each Local Fund, the receipt of the officer supplied, and his indent, being attached as vouchers to each bill.

3. Application should be made officially by letter to the Superintendent of the Garden, who will, in the event of the particular kinds of plants required being available for distribution, despatch them proportionately to the stock in hand, and in the order in which indents may have been received.

4. Indenting officers, when applying, should submit, in duplicate to the Superintendent, a form similar to the one appended hereto, which can easily be drawn out in their own offices. One copy of this will be forwarded by the Superintendent to the Accountant-General of Bengal with the bill, and the other retained by him for office record. It will be observed that the indent will require the countersignature of the controlling officer, if any.

5. Full instructions should accompany each application, as to the mode of transit, and the address of the person to whom the plants are to be consigned.

6. On supplying the plants, the Superintendent of the Garden will submit in triplicate, for the signature of the officer supplied, a form of invoice, copy of which is appended to these Rules. The original and duplicate will be returned to the Superintendent, and the triplicate filed in the office for record.

7. Seeds will be distributed under similar rules to the above during the whole year.

8. To the general public, plants will be issued at the rates laid down in the revised catalogue issued by the Agri-Horticultural Society of India. Seeds will be supplied at the rate of one to four annas per packet.

9. The Superintendent of the Garden has authority to exchange plants and seeds with any person or institution, public or private.

ABKAREE SYSTEM IN BENGAL.

GOVERNMENT OF BENGAL—LEGISLATIVE DEPARTMENT

THE following further paper, relating to the question of Abkaree administration, is, by order of the Select Committee, published for general information:—

Memorandum by R. S. T. MacEwen, Esq., a Judge of the Calcutta Court of Small Causes.

MY suggestion is that a section embodying the provisions of the Tippling Act (as modified by 25 and 26 Vic., Cap 38 and of Section 4, 30 and 31 Vic, Cap. 142 (County Courts' Amendment Act, 1867), should be introduced into the Abkaree Bill.

2. The Tippling Act was passed so long ago as 1751, "for the more effectually restraining the retailing of distilled spirituous liquors," and because "the immoderate drinking of distilled spirituous liquors by persons of the meanest and lowest sort hath of late years increased, to the great detriment of the health and morals of the common people." The duties on spirituous liquors were raised at the same time.

3. By the 12th Section it was enacted that "no person or persons whatsoever shall be intitled unto or maintain any cause, action, or suit for, or recover either in law or equity, any sum or sums of money, debt or demands whatsoever, for or on account of any spirituous liquors, unless such debt shall have really been and *bond fide* contracted, at one time, to the amount of twenty shillings or upwards; nor shall any particular article, or item in any account, or demand for distilled spirituous liquors be allowed or maintained, where the liquors delivered at one time, and mentioned in such article or item, shall not amount to the full value of twenty shillings at the least, and that without fraud or covin; and where no part of the liquors so sold or delivered shall have been returned or agreed to be returned directly or indirectly."

4. This was the law up to the year 1862, and it will be observed that it made no difference whether the liquor was consumed off or on the premises. In either case, the seller could not recover unless the debt amounted to 20 shillings or upwards, and had been contracted at one time. So that if a customer bought a dozen of brandy at 19 shillings, and carried it home for consumption, he still could not be sued in a court of law for the debt.

5. This was considered too stringent, because it affected not merely the keepers of public-houses, but grocers, shop-keepers, wholesale dealers, and the poorer class of customers; and in 1862 the law was modified by the 25 and 26 Vic., Cap. 38: "So far only as relates to spirituous liquors sold to be consumed elsewhere than on the premises where sold, and delivered at the residence of the purchaser thereof, in quantities not less at any one time than a reputed quart."

6. The practical effect, then, of the law as it now stands is this:

(1) No suit will lie for liquor consumed on the premises;

(2) Or for liquor taken away to be consumed elsewhere, of a less quantity at one time than a reputed quart: in other words, one bottle.

7. The Tippling Act has been the law in England for more than a century. The modification referred to is of recent date. This old law, however, had reference apparently only to *distilled* spirituous liquors. But the tendency of modern legislation has been to bring *fermented* liquors under the same rule. Until 1867, debts for *fermented* liquors would appear to have been recoverable in the English courts; but in that year the County Courts' Amendment Act (30 and 31 Vic., Cap. 142) was passed; and the 4th Section provides that "no action shall henceforth be brought or be maintainable in any court to recover any debt or sum of money alleged to be due in respect of the sale of any ale, porter, beer, cider, or perry which, after the commencement of this Act, was consumed on the premises where sold or supplied, or in respect of any money or goods lent or supplied, or of any security given for, in, or towards the obtaining of any such ale, porter, beer, cider, or perry."

8. Here, it will be observed, there is no limitation either as to value or quantity. No debt for any fermented liquor consumed on the premises is recoverable.

9. The object in both cases is clearly to stop a system of credit for small quantities of liquor consumed in the public-house, and as a legitimate check upon drunkenness. It was found by experience that when men were allowed to run up "scores," the temptation to drink was increased; and that the facilities afforded by the county courts for the recovery of these debts led publicans to give more extended credit than they would otherwise do, and added to the evil. So long as a publican knew that he could get his money by going to court, he gave large credit; but immediately that remedy was taken from him he became more cautious. It was also felt that courts of justice should not be made the instruments of recovering such debts. It amounted to using them in the interests of what was considered an immoral trade. The effect of the decrees of these courts was to sell the debtor's household furniture, or send him to jail; to deprive the head of the family of the means of earning their subsistence, and, it might be, turning them out into the street to beg; and this not for a debt contracted for the necessaries of life but on mere self-indulgence.

10. My experience in the Small Cause Court has led me to view the question in the same light as the English authorities, and to propose a similar law for Bengal. There have been a good many cases against natives, but the cases from Bow Bazar against Europeans and East Indians are very numerous. The class of persons sued is precisely the same as that for whose protection the law in England was passed, viz. clerks, mechanics, artizans, and labourers; the men employed in public offices, on the railways, public works, mills, foundaries, and other industries.

11. I observe that some objections have been raised to such a law; but none of them appear to me to be of any great weight. The two chief objections seem to be that it would work a hardship to sober people, and that the law could easily be evaded. Now, both are of equal force in England, where the law has been in vogue for such a length of time. But it is said, men don't carry about money with them in this country. If they have it to carry, and find that they cannot get drink without it, they will not consider it a very great hardship to get into the way of carrying it. Besides, if they are sober people, and are known to, and trusted by, the tavern-keeper, they will still get credit: perhaps not to the same extent (and this is a point gained), but still to an extent sufficient for their daily wants. It is merely throwing upon the tavern-keeper a risk that he does not now run: and in accepting that risk he will take care that his desire to sell his liquor will be controlled by the circumstance that he cannot recover the debt in court if it is not paid. As for the second objection, of course almost any law may be evaded; but so it may in England as well as in India; yet it is not quite such an easy matter to evade the law as some persons would suppose—and the debtor must connive at the evasion. He may be willing enough to do this at the time for the purpose of gaining his immediate object (more drink or further credit), but my experience is (and I think it is human nature) that when he is sued, and finds he has got all that he can get, and can expect nothing more, he turns round and states the circumstances under which he gave a certain acknowledgment or promissory note, and that the debt was of a very different kind from what appears on the face of the voucher. This would lead to inquiry, and if it turned out that it was an attempt to evade the law, the contract would be void.

12. I have heard another objection, that such a law would lead to *increased* drinking. It is said, a man, instead of buying and drinking by the glass, will buy by the bottle. He will go in for the larger instead of the smaller quantity. Now, it is of very little consequence, if he consumes the drink on the premises, whether he buys by the dozen, by the bottle, or by the glass; for he cannot possibly consume on the premises, at one time, 20 shillings worth. In either case, the debt would be irrecoverable: and as it would be quite as difficult to get the price of a dozen, or of a bottle, as of a glass, the publican would not be likely to give credit for the *larger* quantity instead of for the smaller. One newspaper said, a man might buy a bottle or a dozen, take what he wanted, and the tavern-keeper would keep the rest for him till he finished it from time to time; but this would not be a *bonâ fide* sale without "fraud or covin." It would be equivalent to returning indirectly a part of the liquor. This arrangement would not help the publican. Then, it is said, he can at least buy by the bottle or dozen, and take the liquor home, and drink in his own house instead of in the public-house. He may have no money to pay for a glass, and won't get credit for it because he cannot be sued; but he will get credit for a bottle provided he takes it away, because the debt can be recovered in court: and having bought a bottle, he has more liquor at his command, and will probably drink more at his own house, than he would have done by the glass in the public-house. This appears at first sight a formidable objection; but in practice I don't think it is proved to be so. At home a man (a married man at all events) has influences about him which prevent his drinking to excess. I don't think the temptation to excessive drinking is nearly so great to a man in his own house as in the public-house. In the second place, "scores" run up for bottles or more are very much heavier than for the glass; and unless he is a sober man, and a good and trustworthy customer, he will not get credit to any great extent He may at first perhaps; but if the bills are not regularly paid he will find difficulty in getting more credit. The rule which allows credit for a bottle is, in my opinion, a good one. It would be hard on sober people with small incomes if they could not buy their liquor in small quantities, and this is what the English legislature recognised in passing the modifying Act of 1862; but it refused to make any alteration in the law with regard to liquor consumed in public-houses, and five years later extended that law to fermented liquors The cases to which I have referred, brought in the Small Cause Court, are for liquor consumed in small quantities on the premises.

13. The object in view would be attained by a section to the following effect:—

"No action shall henceforth be brought or be maintainable in any court of law to recover any debt or sum of money alleged to be due in respect of the sale of any spirituous or fermented liquor,* which after the commencement of this Act, was consumed on the premises where sold or supplied, or in respect of any such liquor sold to be consumed elsewhere than on the premises where sold, in quantities not less, at any one time, than a reputed quart, or in respect of any money or goods lent or supplied, or of any security given for, in, or towards the obtaining of any such spirituous or fermented liquor. Nothing in this section shall apply to the holders of hotel licenses when the purchaser has been residing on the premises."

* Opium, ganja, and other intoxicating drugs sold for other than medicinal purposes might very properly be included

14 It is unnecessary to fix any money limit if the English rule is observed, because no man could drink to the extent of 20 shillings at one time; and the object of both the English enactments is to stop credit and suits for liquor of any kind to any extent consumed on the premises. The above section, except so far as relates to liquor consumed off the premises, is taken from the English County Courts' Act, and the exception from the modifying statute of 1862. The provision as to hotels is necessary in this country.

15. I yesterday decreed a suit for Rs. 55 for opium sold in small quantities in the vendor's shop: in other words, for "smokes" of opium taken daily.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 26th June 1875.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Divn. 1	Burdwan, 28th* June 1875	2 98	Rainfall at Raneegunge 1·37, Culna 3·52, Cutwa 4·47, Jehanabad 2 57, and Boodbood 5·70 inches. The *aous*, or early rice, is coming on well, and transplantation of *amun*, or late rice seedlings, has begun. Sugarcane is reported to be rather backward owing to excess of rain. Cholera has disappeared; and by the last accounts, there has been no serious outbreak of fever as yet.
Burdwan Divn. 2	Bankoora 26th June 1875	2·13	Weather generally cloudy. Rain fell at intervals, all over the district. State and prospects of crops are good. Sowing progressing.
Burdwan Divn. 3	Beerbhoom, 26th „ „	5·45	Showery weather. State and prospects of the crops continue good. Young sugarcane and indigo somewhat injured by heavy rains.
Burdwan Divn. 4	Midnapore, 26th „ „	9 46	The fall in the Sudder station is due to a most extraordinary local downpour on Monday night, when seven inches of rain fell within as many hours. Over the rest of the district, the fall averaged two inches. Thus far all crops on the ground are doing well.
Burdwan Divn. 5	Hooghly, 26th „ „	2·73	Weather generally cloudy, with intervals of sunshine. Average of district rainfall 2 9 State and prospects of crops are very good. Weeding going on Health fair, with a little small-pox.
Burdwan Divn.	Howrah, 26th „ „	5·06	There has been rain throughout the district during the week. During the late tour of the Deputy Collector in the district, he found the crops everywhere flourishing.
	Central Districts.		
Presidency Divn. 6	24-Pergunnahs, 28th† June 1875	3·62	Weather warm and rainy. Seasonable rain fell during the week. The early rice and jute plants look promising. Fever decreasing at Barripore and Busserhaut. One or two cases of cholera reported from the latter station.
Presidency Divn. 7	Nuddea, 26th June 1875	3·71	Rain less excessive than it was. Rice is very promising, with the exception of a little *amun* (late rice) crops on low lands, which have been drowned by the heavy rains Indigo is not doing well in the northern half of the district. Weeds are troublesome, and where manufacturing has begun, the produce is not good.
Presidency Divn. 8	Jessore, 26th „ „	1·28	Cloudy, with moderate rain. The damage done by the submersion of crops in the low lands is considerable, but the general prospects continue good.
Presidency Divn. 9	Moorshedabad, 26th June 1875	5 73	Weather variable, with very heavy rain in parts. Rainfall at Ramporehat 3·46 Jungepore 6 88, Lalbaugh 7·02 inches. In the west the Pagla has overflowed and done some damage to crops. Transplantation commenced. Early rice crops benefited by rain, though some damage has been reported from the east on account of violence of rain Sowing of *hemanti*, or late rice, progressing well; sugarcane, indigo, and mulberry are in good condition. Rivers fast rising A few cases of small-pox reported.
Rajshahye Divn. 10	Dinagepore, 25th June 1875.	5·75	Much rain and wind. Jute, *bâadoi*, or early rice, and sugarcane, are good. Ploughing for the winter rice being pushed on.
Rajshahye Divn. 11	Maldah, 26th June 1875	12 06	Weather rainy, excepting the 25th instant. Good accounts of the autumn rice and of indigo. Mulberry plants doing well, but not the silk-worms. Prospects of the silk trade are gloomy.
Rajshahye Divn. 12	Rajshahye, 26th „ „	4 30	All parts of the district had good rain, and in some parts the fall has been heavy. The rice crops are flourishing, and there is at present every hope of an abundant harvest of *aous* and *amun* rice. Jute, *arhar* pulse, and sugarcane, are also in good condition; *teel* oil-seed is still being harvested. No sickness reported.
Rajshahye Divn. 13	Rungpore, 25th „ „	3 40	Rain every day; weather clear. State of crops good.
Rajshahye Divn. 14	Bogra, 26th June 1875	3 42	Weather fair. Considerable rain fell during the week. *Aous* rice promises well Sowing of *amun* is in progress. The rain has done much good to the crops.
Rajshahye Divn. 15	Pubna, 26th „ „	2·44	Seasonable weather; rain almost every day. The paddy, both early and late, is thriving. The cholera and small-pox reported last week have disappeared.

* Telegram of the 28th June, received on the same day, shows rainfall during the seven days immediately preceding.

† Report of the 28th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)			
	Central Districts.—(Contd.)		
Cooch Behar Divn. 16	Darjeeling, 25th June 1875.	13·24	Very heavy rain during the last three days of the week under report. All the crops are progressing favorably. The *hemanti*, or late rice crop, is being sown in the plains.
Cooch Behar Divn. 17	Julpigoree, 26th June 1875.	3·95	Weather showery and warm; exceedingly good for all crops. Cholera on the decrease.
Cooch Behar Divn.	Cooch Behar, 24th June 1875.	4·37	The weather has been hot and cloudy. There were some heavy showers of rain during the week. The rains have proved seasonable for the late rice, which is now being transplanted. It is hoped that an average *ádári*, or early rice crop, will be reaped. Cholera is gradually disappearing.
	Eastern Districts		
Dacca Divn. 18	Dacca, 28th* June 1875	2·27	Seasonable weather. Crops are very good; a little jute damaged by rise of rivers.
Dacca Divn. 19	Furreedpore, 26th June 1875.	3·48	Rain at intervals throughout the week, but the weather appears to have cleared up. Inundation has commenced. The considerable quantity of rain that fell during the preceding weeks has done some injury to the paddy growing in the lowlands of Madareepore and Gopalgunge; in other places it is in a most flourishing condition. General health continues good.
Dacca Divn. 20	Backergunge, 24th June 1875.	4·11	All is well, save that a little disease is still reported among the cattle of five thanas; and the fish disorder still continues.
Dacca Divn. 21	Mymensingh, 25th June 1875.	1·11	Frequent showers, with but little sunshine. The floods are at their ordinary highest level on this date. Prospects of crops are favorable.
Chittagong Divn. 22	Chittagong, 24th June 1875	5·18	Weather generally wet. Reports state, cultivation, and crops to be progressing admirably.
Chittagong Divn. 23	Noakholly, 24th June 1875.	4·53	Weather damp and cloudy. Wind south and south-east. The early rice crops are progressing favorably. Transplantation of the late rice continues. More heavy rain is likely to injure the crops in some parts of the district. 200 houses and 5,000 betel-nut trees were blown down in Luckipore during the previously reported gale of the 13th instant. Some fever prevailing.
Chittagong Divn. 24	Tipperah, 25th June 1875	3·85	There was a break in the rainfall during the first half of the week, but the rain has again, since Thursday, set in heavier than ever. Rainfall at Brahmunberiah 1·47 inches. The break in the rainfall has been beneficial, as it has given time to the flood water to drain off. The late heavy rainfall, causing inundation in low lands, has done some damage to the winter rice in the sub-division.
Chittagong Divn. 25	Chittagong Hill* Tracts, 22nd June 1875.	2·4	Falls of rain throughout the whole week; weather cool and pleasant. A strong gust of wind, like a cyclone, at about 11 A.M. of the 19th instant. Sowing still going on. The young paddy and cotton in the *jooms* are thriving well. Prospects good throughout the whole district.
Chittagong Divn.	Hill Tipperah, 23rd June 1875	2·94	The rainfall during the past week has been very scanty; showers light and fitful. The *aous* sowings have been completed, but the *aman* sowings continue. The crop prospects are so far good. The oilseed is being cut and harvested. The sub-divisional officer of Kowlasur reports five cases of cholera and two of small-pox.
BEHAR.			
Patna Divn. 26	Patna, 28th* June 1875	14·07	Heavy rain all over the district. Sowing and ploughing progressing. Cholera abated to some extent, except in one village in Behar, where it is said to be still raging.
Patna Divn. 27	Gya, 26th „ „	5·64	Weather rainy and cool. Highest reading of dry maximum thermometer was 94°. Crops in ground good; prospects of *bhadoi* and rice good. Cholera in Aurungabad sub-division decreasing.
Patna Divn. 28	Shahabad, 26th „ „	4·67	Weather.—Rainy during the first part of the week, and showers every day towards end. *Bhadoi* crops are being sown. Lands for early rice being prepared, and will shortly be sown. Sugarcane and indigo promising.
Patna Divn. 29	Durbhunga, 26th „ „	2·95	The rainfall in the south of the district has been very heavy, and elsewhere it has been plentiful. The young paddy plants on the south of the district are reported to have been injured by excessive moisture. The weather is not propitious to indigo manufacture, which has commenced.
Patna Divn. 30	Mozufferpore, 26th „ „	2·36	Weather hot. Rain has fallen in the district. Hajipore 16·53, and Seetamurhee 1·75 inches. The prospects of *kharee* millet and indigo continues favorable, and the late rain has enabled the cultivators to commence transplantation of paddy in some parts of the district. The *bhadoi* crops are coming up well.

* Telegrams of the 26th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR—(*Contd.*)			
PATNA DIVN.—(*Contd.*) 31	Saran, 26th June 1875	6·74	Weather cloudy, with frequent heavy showers of rain. Clear at the time of report Rainfall at Sewan 7·71; east wind prevailing. There has been heavy rain throughout the week, which has benefited the crops; everywhere ploughing and sowing going on briskly. Indigo prospects excellent, and the manufacture has commenced State and prospects of the crops are very favorable. General health good, except in thanas Sewan and Durrowli, where cholera is reported to have broken out.
32	Chumparun, 25th June 1875.	5·30	The heavy fall of rain has done much good to the country. It has been universal all over the district. The growing crops continue to promise exceedingly well, and after the recent heavy rain late rice sowings can be begun.
BHAGULPORE DIVN. 33	Monghyr, 26th June 1875	1·	Weather fine, with occasional showers. The prospects of the crops are good hitherto.
34	Bhagulpore, 28th* June 1875.	4·10	Rain has fallen throughout the district. Prospects of the *bhadoi* crops are good Condition and health of the people good.
35	Purneah, 26th June 1875	3·73	Weather stormy, with strong east wind. The rice crop still promises well, and the weather is most favorable for indigo.
36	Sonthal Pergunnahs, 26th June 1875.	2·20	In Dumka a break in the rain, which will do good. Very heavy rain in Rajmehal Rain too constant in Deoghur; seasonable in Godda. State and prospects of crops are very good.
ORISSA.			
ORISSA DIVISION 37	Cuttack, 19th June 1875	6·13	Constant heavy rain all the week. Early rice crop well above ground, but suffering a little from want of weeding. Late rice crop progressing well. A little cholera still remaining.
38	Pooree, 24th June 1875	1·4	Weather cloudy and rainy. Ploughing operations have advanced. Sowing is going on. The season has been favorable, and the prospects of crops are fair. Sugarcane is being earthed up; cotton is being gathered with a fair outturn
39	Balasore, 25th " "	2·68	Rainfall at Bhudruck 3·27 inches. Weather continues showery, and favorable to the growth of the young crops, which are very promising. Sowings on low lands completed Cholera reported to have broken out in the south Public health otherwise good.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, 25th June 1875.	6·17	Heavy rain throughout the week. Atmosphere cool and pleasant. The heavy rain has stopped for a time the progress of the *marwa* and *goondlee* millets and Indian-corn crops, but no damage has as yet been done. A few days' fine weather much wanted.
41	Lohardugga, 26th June 1875.	2·89	Weather rainy and seasonable. Sowing is going on, and the prospects at present are very favorable. Cases of cholera and small-pox are still reported.
42	Singbhoom, 25th June 1875.	1·96	Weather seasonable. Rain has fallen in all parts of the district. State and prospects of the crops in Kolhan and political estates are very favorable. Favorable in Dhalbhoom. District healthy
43	Manbhoom, 26th June 1875	5·28	Rainy and seasonable weather. Sugarcane is very promising. The rain is said to have been too heavy in the Govindpore sub-division for the rice seedlings. It is, however, believed that the crops generally are in a favorable condition.

* Telegram of the 28th June, received on the same day, shows rainfall during the seven days immediately preceding.
